The Biblical Basis of Christian Counseling for People Helpers - Gary R. Collins 1997-11 If you are called to help people in crisis in your community, this book can show you how to use the Bible in counseling.

The Biblical Basis of Christian Counseling for People Helpers - Gary R. Collins 1993 Collins presents an accessible, far-ranging approach to counseling. Beginning from the standpoint of "what makes counseling Christian", this book touches on the relevance of theology to counseling and offers readers the theological tools they need to heal spiritually as well as psychologically.

A Theology of Christian Counseling - Jay E. Adams 2010-08-10 A Theology of Christian Counseling connects biblical doctrine with practical living. Salvation, that central concern of Protestant theology, is often too narrowly defined. It is thought of as “being saved from the consequences of sin.” But God is doing much more. He is making something new out of the old sinful nature. He is, in Christ, making new creatures. “No counseling system that is based on some other foundation can begin to offer what Christian counseling offers. . . . No matter what the problem is, no matter how greatly sin has abounded, the Christian counselor’s stance is struck by the far-more-abounding nature of the grace of Jesus Christ in redemption. What a difference this makes in counseling!” In this book the reader will gain an insight into the rich theological framework that supports and directs a biblical approach to counseling. And the connection between solid theology and practical application will become compelling. This book is one-of-a-kind.

Biblical Counseling for Today-Jeffrey Watson 2000-10-17 In his preface to this challenging book Jeff Watson describes biblical counseling as "a noble adjective married to a nervous noun." Believers are wise to be skeptical of much that is done in the name of counseling in secular settings. Even under the umbrella of "Christian counseling," one has heard horror stories of cases where God's Word has been misused. But Jeff Watson makes a strong case in this volume for the legitimacy of marrying "biblical" and "counseling." Christian counselors, says Watson, need to cultivate three fundamental skills in their patients: How to tell their stories; How to choose their goals wisely; and How to practice changes in their lives. Watson helps counselors achieve these goals by drawing on the interactions of Christ, the commands of Scripture, and the actions of the apostles and prophets. Thus he marries counseling and biblical principles. To those of us who are called on to counsel on any level, Charles Swindoll says, "This book will become an invaluable tool for you. I urge you to let it become your manual for proper counseling."

A Theology of Biblical Counseling-Heath Lambert 2016-04-05 Since the beginning of the biblical counseling movement in 1970, biblical counselors have argued that counseling is a ministry of the Word, just like preaching or missions. As a ministry, counseling must be defined according to sound biblical theology rather than secular principles of psychology. For over four decades, biblical theology has been at the core of the biblical counseling movement. Leaders in biblical counseling have emphasized a commitment to teaching doctrine in their counseling courses out of the conviction that good theology leads to good counseling…and bad theology leads to bad counseling. A Theology of Biblical Counseling is a landmark new book that covers the history of the biblical counseling movement, the core convictions that underlie sound counseling, and practical wisdom for counseling today. Dr. Heath Lambert shows how biblical counseling is rooted in the Scriptures while illustrating the real challenges counselors face today through true stories from the counseling room. A substantive textbook written in accessible language, it is an ideal resource for use in training biblical counselors at colleges, seminaries, and training institutes. In each chapter, doctrine comes to life in real ministry to real people, dramatically demonstrating how theology intersects with the lives of actual counselees.

Christian Counseling Casebook-Gary R. Collins 2007 This companion to the third edition of Christian Counseling will help readers apply their knowledge to real cases. It presents stories that illustrate the material that is discussed abstractly in Christian Counseling. Each chapter begins with a brief introduction followed by the case story or stories and three sets of questions designed by Gary Collins to help the reader or group explore the subtleties and details of Christian Counseling. The Discussion Questions focus primarily on the case and raise questions about how the counselee might best be helped. The General Questions focus more broadly on relevant issues that are suggested by the presented case but may extend beyond the case. The Personal Reflection Questions are written for the reader/counselor to reflect on ways in which the case and the topics under discussion could apply personally to the reader.

Effective Biblical Counseling-Lawrence J. Crabb 1984-01-01

Competent to Counsel-Jay E. Adams 2009-07-13 A Classic in the Field of Christian Counseling Competent to Counsel has helped thousands of pastors, students, laypersons, and Christian counselors develop both a general approach to Christian counseling and a specific response to particular problems. Using biblically directed discussion, nouthetic counseling works by means of the Holy Spirit to bring about change in the personality and behavior of the counselee. As Dr. Jay Adams points out in his introduction, "I have been engrossed in the project of developing biblical counseling and have uncovered what I consider to be a number of important scriptural principles. . . . There have been dramatic results. . . . Not only have people’s immediate problems been resolved, but there have also been solutions to all sorts of long-term problems as well." Since its first publication in 1970, this book has gone through over thirty printings. It establishes the basis for and an introduction to a counseling approach that is being used in pastors' studies, in counseling centers, and across dining room tables throughout the country and around the world.

How to Help People Change-Jay E. Adams 2010-08-10 "While touching on many aspects of counseling, this book . . . is specifically designed to elucidate the process of counseling. I have often mentioned and illustrated that process, but not in the focused and systemic way that the four-step biblical process is set forth here. . . . This book presents a fresh perspective not only on how to counsel, but also on what measures to take at what stages of counseling."—Jay Adams, from the prefaceChange is the essential goal of the counseling process. And, in the author's words, "substantial change requires the alteration of the heart." How can a Christian counselor facilitate such change? The answer, of course, may be found in Scripture, specifically in 2 Timothy 3:14–17. Jay Adams is a well-known counselor who bases his whole approach on Scripture. This book provides an unparalleled opportunity to see how he discovers and applies biblical principles as well as the way in which Scripture functions as the basis for his counseling approach. This book answers two questions: "How does a counselor help people change?" and, "How does Scripture provide the source of a counselor's method?" How to Help People Change has much to say about the ongoing discussion of the relationship between theology and psychology in the enterprise of Christian counseling.

The New Christian Counselor-Ron Hawkins 2015-10-01 Seasoned counselors and professors Ron Hawkins and Tim Clinton offer a comprehensive guide that empowers Christian counselors by clarifying their task: to help people take possession of their souls...through the power of the Spirit; under the authority of the Word; in a supportive community of accountability...that they may be like Christ. The authors address head-on today's enticing new imitations of true peace and tantalizing opportunities for people in pain to anesthetize themselves. But they also highlight the foundation of hope: God loves, he empowers, and he refuses to abandon his passion for connection with his children. Case studies illustrate how to help people take possession of the thinking self, the feeling self, the decision-
making self, the physical self, and the relational self. This comprehensive plan for effective intervention is perfect for lay counselors, students, and professionals looking for ways to integrate their faith and practice.

**The Biblical Counseling Movement After Adams** by Heath Lambert 2011-11-02 This ground-breaking exploration of the biblical counseling movement's development since Jay Adams shows how shifts in methodology and style are producing a new generation of increasingly well-balanced counselors.

**Faith Therapy** by Troy Reiner 2005-08-01 The number of dysfunctional and emotionally hurting people in our society and in our churches is rapidly increasing. Even though God has called His church to "heal the brokenhearted and set the captive free," the large majority of our pastors and churches are failing to effectively meet this need. The Christian counseling community itself continues to be embroiled in controversy as to what Christian counseling should be and to what extent it should be based on the Bible. The Greek word for salvation in the Bible means more than God’s gift of eternal life: it also includes healing and complete wholeness; mind, emotions, will, and spirit in this lifetime. If, as the Bible clearly states, we are saved or made whole by faith, then it only makes sense that salvation by faith should be the foundation of any wholly Christian therapy. "Faith Therapy" provides a new narrative Biblical approach for helping these hurting people that can be easily applied by pastors and implemented in the church, integrates Christian counseling within the context of salvation by faith, applies faith to bring deep psychological healing, and forms methods for using faith to resolve many common, yet deeply-rooted problems.

**Competent to Minister** by Martin Bobgan 1996 This book answers such questions as: What can believers do to help individuals suffering from problems of living? What should churches do for suffering souls? What did the church do for almost 2000 years without psychological counseling? What did the church do without the biblical counseling movement which began about 25 years ago? This book calls Christians back to the Bible and to the biblically ordained ministries and mutual care in the body of Christ that have effectively cared for souls for almost 2000 years.

**Integrating Faith and Psychology** by Glendon L. Moriarty 2010-08-21 The tensions often cited between psychology and Christianity are well known. Much worthwhile work has been done to construct theories and frameworks for integrating the two. But how do Christians in psychology actually weave together these strands of their lives and their work. What are their stories? Here Glendon Moriarty brings together twelve of the foremost clinicians and academics in the field of Christian integration to share their stories. Coming from different perspectives and experiences, reflecting gender and ethnic diversity, these prominent psychologists tell about their spiritual, personal and professional journeys of interrelating their faith and profession. In this book we hear about the developmental
issues, the sense of calling and the early career insights that shaped their paths. They recount the importance that significant relationships had on their understanding of Christian integration, especially noting the influence of mentors. Struggles and doubts are common human experiences, and the contributors openly share the stresses they encountered to encourage others with similar issues. On a day-to-day basis, we see how spiritual disciplines and the Christian community assist them in their work and in their understanding. Finally, each writer offers a personal note with lessons learned and hard-won wisdom gained. Randall Sorenson once said, “The integration of psychology and Christianity is caught, not taught.” In these stories is a unique opportunity to catch sight of twelve who have already traveled that challenging path.

Something new and real and deep started happening in him, Crabb says, when he began practicing the four steps of what he calls the PAPA prayer – a revolutionary conversational approach to talking with and enjoying God. As this fellow seeker shares his journey and education in the mysteries of prayer, he guides us to see ourselves and God in a different light . . . which will alter the way we talk – and listen – to Him.

The Biblical Counseling Movement-David Powlison 2010 "What Is Biblical Counseling? In principle, Christians believe that knowing Jesus Christ is the original and abiding 'cure of the soul.' But in practice, the church’s provision of personalized care and counsel has often been unthoughtful and unskilful. During the past 150 years, many other practitioners and theorists have filled the gap. Psychiatry and psychotherapy (transliterations of two Greek words for ‘cure of the soul’ claim to offer the deep truth that explains a human being, and the final word on how we can be cured from the troubles that beset us. Secularized explanations and cures call for no recourse to the Bible or Jesus. Beginning in the late 1960s, a biblical counseling movement sought to reclaim counseling for the church. It aimed to
provide a coherently Christian alternative to mainstream psychiatry and psychotherapy. The Biblical Counseling Movement: History and Context is an informative and thought-provoking account of that movement. How did it begin and develop? What were the defining ideas? Where were the tension points and struggles, both internally and with evangelical psychotherapists? David Powlison's historical account combines careful scholarship with a unique, eyewitness insight. This book is an invaluable resource for those who want to understand the biblical counseling movement. The core chapters were originally a Ph. D. dissertation in history of science and medicine (University of Pennsylvania). This new edition adds a lengthy appendix, containing articles by Dr. Powlison. These extend and deepen the history, giving a fine-grained analysis of developments within the biblical counseling movement and in its relationship to evangelical psychotherapists. The author also freely expresses his point of view and personal convictions regarding the history he has carefully described"--Publisher description.

Psychology & Christianity-Eric L. Johnson 2009-09-20 How are Christians to understand and undertake the discipline of psychology? This question has been of keen interest (and sometimes concern) to Christians because of the importance we place on a correct understanding of human nature. Psychology can sometimes seem disconnected from, if not antithetical to, Christian perspectives on life. How are we to understand our Christian beliefs about persons in relation to secular psychological beliefs? This revised edition of a widely appreciated text now presents five models for understanding the relationship between psychology and Christianity. All the essays and responses have been reworked and updated with some new contributors including the addition of a new perspective, the transformative view from John Coe and Todd Hall (Biola University). Also found here is David Powlison (Westminster Theological Seminary) who offers the biblical counseling model. The levels-of-explanation model is advanced by David G. Myers (Hope College), while Stanton L. Jones (Wheaton College) offers an entirely new chapter presenting the integration model. The Christian psychology model is put forth by Robert C. Roberts (Baylor University) now joined by Paul J. Watson (University of Tennessee, Chattanooga). Each of the contributors responds to the other essayists, noting points of agreement as well as problems they see. Eric L. Johnson provides a revised introduction that describes the history of Christians and psychology, as well as a conclusion that considers what might unite the five views and how a reader might evaluate the relative strengths and weaknesses of each view. Psychology and Christianity: Five Views has become a standard introductory textbook for students and professors of Christian psychology. This revision promises to keep it so.

Biblical Counseling Manual-Adam A. Pulaski 2004 All that was done to us, what we have done to others, the failures, the ills, the violations of our persons, the brutalities, the perversions of life, rejections, death of loved ones, tragedies, loneliness, abandonment, Jesus paid the penalty for all these sins, and provided the means to handle the tragedies of life. We do not need to deal with these violations and tragedies on our own. Christ is in us to work out our salvation daily (Phil. 2:12-13; Gal. 2:20; 2 Cor. 5:21; Rom. 6:3-6; Ezek. 18:20). Being in Christ, we are new creatures and we are to deal with life now from the biblical perspective. Our problem is not with Satan, not with people, not with the circumstances of life, but our problem lies in our relationship with God. Our focus is to change from a concern about self, to a concern about God’s glory and that is accomplished by our godly responses to others and life in general (Rom. 5:17; Cor. 5:21). Thus, the answer to healing the soul lies here: loving God by obeying His commands (John 14:21), and dealing with unresolved actions of the past in a spirit of repentance and reconciliation (Matt. 7:5).
