2020-02-05 Dr. Dinesh N. Kurup Socio economic issues are quite common in any democratic country and in India, the main issue is power. This has been a controversial issue for ages. So, the opinions are critical and varied. Concrete opinions are the result of concrete knowledge and the base of it is proper school education. Schools must be the abode of transformation of wealth of knowledge and skills for generations ahead. However, the role of institutions becomes more challenging in the modern world with innovations and technological developments. Investment in education and educational institutions should be viewed as an investment for economic prosperity. The book discusses a design-based research focused on what beliefs, understanding and intentions future citizens in India have, towards generating power from Nuclear Power and to what extent a 5E model intervention programme can influence it.

Most of our daily conversations focus on the mundane, or we barely scratch the surface of what's going on in our friends' lives as we try to catch up on the run. We weren't meant to travel alone. Yet many of us are afraid to reveal our innermost thoughts, of being too nosy or not "religious enough" to commit to spiritual kinships. Using the story of Ruth and Naomi as an example, Stephanie Ford describes how to overcome the risk and fear of sharing and explains how to be a faithful listener. She offers new insights that will empower you to build and nurture soul friendships. Through this book you will discover what spiritual friendship is and how it differs from other forms find practical ways to develop and nurture spiritual friendships meet spiritual companions from biblical and Christian history explore the most profound friendship of all — friendship with God — and learn how it
