Wind Storm Rising Chris Roberts 2005-11-01 Kale is a teenager like any other. He's rapidly growing out of his clothes, his body is changing in strange new ways and it seems like his life consists of nothing but chores. It's a fairly normal life, until a strange storm whisks away all that he knows and loves. Riding on the wind is an evil so sinister that Kale can hardly fathom the things he is forced to see. And then, while struggling to make sense of the terror around him, he is charged by an angel of the Lord to find the Armor of Light: a legendary collection of weapons that is rumored to be powerful enough to send the Prince of Wind and his minions back to where they came from.
A Torch to the Enemy Martin Caidin 1960 The use of air power in attacking Japan's cities is discussed.
The Torch Master Joseph A. Jensen 2012-05-04 This story begins were most stories end. Disaster claimed their entire city. The surviving men with two old monks searched for victims for two days until the shelling returned. Then all efforts ended abruptly. They escaped into the jungle leaving a young twelve year old boy buried in the rubble of war undiscovered. The boys name was Michael. He was the only child of missionaries that were headed to Japan when he was just six years old. Tragedy landed them in the ocean just off the Korean coastline, then into the gates of a hidden city. The discovery of it would turn out to be the first episode in a great, mystical journey, not only for him but many. The dreams of ten monks and fifteen families, the visions of a beautiful Priestess, and the records of a Head Monk that wrote every detail of them would all become reality. And little Michaels destiny would be to live on to become a protector of those set behind the flames as a Torch Master. Throughout this book, there are twists and turns that will keep the reader in suspense. Love, romance, comedy, and horror surround each character. Their following adventures are all linked to fulfill a destiny. What destiny? God only knows. Our belief in God and heaven or nirvana in another life after death is common to all religions, but the hope for this world is not.

The Book of Ninja Anthony Cummins 2013-10-03 The Book of Ninja, the ultimate ninjutsu manual, was penned
in 1676 by a ninja known as Fujibayashi. Born in the post-civil war era of Japan, Fujibayashi collected and combined information from the ninja clans of Iga – regarded to be the homeland of the ninja – and compiled it into an authoritative book. Known as The Bansenhukai, this book has now been translated into English by the Historical Ninjutsu Research Team. It is widely considered to be the 'bible' of 'ninjutsu', the arts of the ninja. The Book of Ninja begins with an in-depth introduction to the history of Fujibayashi's scripture. Then the teachings themselves, appealingly rendered in this translation, take us into the secrets of guerilla warfare and espionage. We learn how to become the ultimate spy, whether through a network of spies or by hiding in plain sight. Through the stealth and concealment tactics of night-time infiltration and through weapon and tool building skills, as well as mission planning, we can learn much both about warfare and about adopting the right mindset for tackling our own inner and outer enemies. Adding to the mix for the spycraft lover, there are sections on capturing criminals, performing night raids, making secret codes and signs, and even techniques for predicting the weather and using an esoteric Buddhist system of divination. An exciting and engaging tome of lost knowledge, The Book of the Ninja is the final say in the world of the ninja and the ultimate classic for samurai and ninja enthusiasts alike.

War of the Rebellion: a Compilation of the Official Records of the Union and Confederate Armies 1890

Life and Times of Washington John Frederick Schroeder 1857

Torch Vincent O'Hara 2015-09-15

"World War II had many superlatives, but none like Operation Torch—a series of simultaneous amphibious landings, audacious commando and paratroop assaults, and the Atlantic’s biggest naval battle, fought across a two thousand mile span of coastline in French North Africa. The risk was enormous, the scale breathtaking, the preparations rushed, the training inadequate, and the ramifications profound. Torch was the first combined Allied offensive and key to how the Second World War unfolded politically and militarily. Nonetheless, historians have treated the subject lightly, perhaps because of its many ambiguities. As a surprise invasion of a neutral nation, it recalled German attacks against countries like Belgium, Norway, and Yugoslavia. The operation’s rationale was to aid Russia but did not do this. It was supposed to get Americans troops into the fight against Germany but did so only because it failed to achieve its short-term military goals. There is still debate whether Torch advanced the fight against the Axis, or was a wasteful dispersion of Allied strength and actually prolonged the war. Torch: North Africa and the Allied Path to Victory is a fresh look at this complex and controversial operation. The book covers the fierce Anglo-American dispute about the operation and charts how it fits into the evolution of amphibious warfare. It recounts the story of the fighting, focusing on the five landings—Port Lyautey, Fédala, and Safi in Morocco, and Oran and Algiers in Algeria—and includes air and ground actions from the initial assault to the repulse of Allied forces on the outskirts of Tunis. Torch also considers the operation’s context within the larger war and it incorporates the French perspective better than any English-language work on the subject. It shows how Torch brought France, as a power, back into the Allied camp; how it forced the English and the Americans to work together as true coalitions partners and forge a coherent amphibious doctrine. These skills were then applied to subsequent operations in the Mediterranean, in the English Channel, and in the Pacific. The story of how this was accomplished is the story of how the Allies brought their power to bear on the enemy’s continental base and won the Second World War."

House documents 1891
With Utmost Spirit takes a fresh look at this crucial naval theater of the Second World War. Barbara Brooks Tomblin chronicles the US Navy's and the Royal Navy's struggles to wrest control of the Mediterranean Sea from Axis submarines and aircraft, to lift the siege of Malta, and to open a through convoy route to Suez while providing ships, carrier air support, and landing craft for five successful amphibious operations. Examining official action reports, diaries, interviews, and oral histories, Tomblin describes each of these operations in terms of ship-to-shore movements, air and naval gunfire support, logistics, countermine measures, antisubmarine warfare, and the establishment of ports and training bases in the Mediterranean.
Firsthand accounts from the young officers and men who manned the ships provide essential details about Mediterranean operations and draw a vivid picture of the war at sea and off the beaches.

Black Dragon Ninjitsu Ron Collins 2014-12-22 Black Dragon Ninjitsu is a unique on ninjutsu outlining both basic taijitsu, stealth, survival, herbal medicines & more.

Delphi Complete Works of Plutarch (Illustrated) Plutarch 2013-11-17 Beloved as a writer of exciting biographies and renowned for his philanthropic essays on almost any subject possible, Plutarch created a diverse range of works that have entertained generations of readers since the days of Imperial Rome. Delphi's Ancient Classics series provides eReaders with the wisdom of the Classical world, with both English translations and the original Greek texts. This comprehensive eBook presents the complete works of Plutarch, with beautiful illustrations, informative introductions and the usual Delphi bonus material. (Version 1) *

Beautifully illustrated with images relating to Plutarch's life and works *

Features the complete works of Plutarch, in both English translation and the original Greek * Concise introductions to the works * Provides the complete PARALLEL LIVES and the complete extant essays of MORALIA, for the first time in digital printing * Includes many translations previously appearing in Loeb Classical Library editions of Plutarch's works * Excellent formatting of the texts * Easily locate the biographies and treatises you want to read with individual contents tables * Features two bonus biographies - discover Plutarch's ancient world * Scholarly ordering of texts into chronological order and literary genres Please visit www.delphiclassics.com to browse through our range of exciting titles

The Night Hamburg Died Martin Caidin 1979-03-01 The War of the Rebellion: v.1-53 [serial no. 1-111] Formal reports, both Union and Confederate, of the first seizures of United States property in the southern states, and of all military operations in the field, with the correspondence, orders and returns relating specially thereto. 1880-1898. 111v United States. War Dept 1890

Hell in the Trenches Paolo Morisi 2018-11-02 The Austro-Hungarian Stormtroopers and the Italian Arditi of World War I were elite special forces charged with carrying out bold raids and daring attacks. These units were comprised of hand-picked soldiers that possessed above-average courage, physical prowess as well as specific combat skills. Many military historians have argued that the First World War was mainly a static conflict of positional attrition, but these shock troops were responsible for developing breakthrough tactics of both fire and movement that marked a significant change to the status quo. Both armies used special assault detachments to capture prisoners, conduct raids behind enemy lines and attack in depth in order to prepare the way for a broad infantry breakthrough. This account traces the development of Austrian and Italian assault troop tactics in the context of trench warfare waged in the mountainous front of the Alps and the rocky hills of the Carso plateau. It not only examines their innovative tactics but also their adoption of vastly improved new weapons such as light machine-guns, super-heavy artillery, flamethrowers, hand grenades, daggers, steel clubs and poison gas. This book offers a narrative of the organizational development of the shock and assault troops, of their military operations and their combat methods. The bulk of the chapters are devoted to a historical reconstruction of the assault detachments' combat missions between 1917-18 by utilizing previously unreleased archival sources such as Italian and Austrian
war diaries, official manuals, divisional and High Command reports and the soldiers' own recollections of the war. Finally, it offers a comprehensive description of their uniforms, equipment, and weapons, along with a large number of illustrations, maps and period photographs rarely seen. This epic trial of military strength of these special stormtroops cannot be properly understood without visiting, and walking, the battlefields. The appendix thus offers the reader a series of walks to visits key high mountain fortifications in the Italian Dolomites, many of which have attained almost legendary status.

Armored Bears Volume Two Veterans of the 3rd Panzer Division 2013-04-01
First major treatment of the 3rd Panzer Division in English Covers the division's battle on the Eastern Front from 1943 through the end of the war The division had nearly 50 Knight's Cross winners by the end of the war Numerous photos of soldiers and their tanks Based on the daily logs of the division and recollections of its commanders and soldiers

Attack of the Hive John Pullen 2019-12-10 It came from the far reaches of the galaxy; a speck in the blackness of space. An alarm sounded as it crossed into the solar system. Was it a comet? Was it an asteroid? Could it be something else? As it enters Earth orbit, everything becomes clear. A spacecraft over one mile across has arrived. Who are they? What are they? And what do they want? The question is soon answered; the Earth has been singled out to be excavated. Mining ships appear and soon the planet is being ripped apart. Eventually the molten core will be released ending all life on the surface and in the Shadow World beneath. Torch is faced with an enemy who has no care for life, only its mission. Attempts to fight back only result in further destruction. It is time to think the unthinkable. An order goes out; to release the most dangerous creature on the planet. Fighting fire with fire is a most dangerous scenario and soon Torch discover they are facing enemies on every side. Cat and Hunter along with Elliott and Dominika must take the fight from the surface to below ground and then out into space. Four agents against impossible odds as the Earth below crumbles and burns.

Official Records of the Union and Confederate Navies in the War of the Rebellion 1904
Flame Dragons of the Korean War Jerry Ravino 2003 This book is the result of collaboration by Jerry Ravino and Jack Carty, veterans of the Korean War with the Flame Platoon, Headquarters Company, First Tank Battalion, First Marine Division, who did not meet until almost 50 years after what went down in history as the Forgotten War. Although the two former tankers served with the Flame Platoon in different places and different times in that conflict, it is a testament to their determination to research and record a part of the war that heretofore had not been chronicled in detail. Though it has been some 50 years past the fact, this is their story -- as memory best serves them and others who helped them tell it. Learn more about the FLAME DRAGONS @ www.flamedragons.com.
