Crossing the Owl’s Bridge-Kim Bateman, Ph.D. 2016-03-30 Crossing the Owl’s Bridge uses the wisdom of worldwide folk tales to demonstrate how to share, ritualize, and transform grief. Each chapter describes psychological tasks as communicated through folk tales, offers stories about others, and provides guidelines for application. The premise is that although we do have to say goodbye to our material relationship, we are also being presented with a chance to say hello to a different type of relationship. Crossing the Owl’s Bridge illustrates creative outcomes to mourning that allow one to recognize, contain, release, and yet stay in relationship and keep loving. Kim Bateman, Ph.D., has facilitated grief workshops and taught courses in Death and Dying for over 20 years. Her research interests include bereavement, organizational psychology, and humor, and she has presented over 60 projects in the behavioral sciences at regional and national psychology conferences. Dr. Bateman has delivered many notable keynote addresses, including: “There’s a Fox Under My Bed and Pixie Dust in My Hair,” at the Developmental Psychology Conference, “The Psychology of Humor” at the Women’s Wellness Conference, and “College Culture Through the Song Lyrics of Bob Marley,” at the Community College League of California convention. She recently presented a TEDx talk called “Singing Over Bones.” Dr. Bateman serves as the executive dean of the Tahoe-Truckee Campus of Sierra College.

Symbols of the Eternal Doctrine-Helen Valborg 2007 The remarkable essays in this volume were written for the expressed purpose of helping both the newcomer to spiritual thinking as well as the skilled practitioner to see the everyday objects - from the wind and ships to deserts and lakes - and subjects - from dogs and ravens to dolphins and whales - surrounding us as concrete embodiments and living symbols of the fundamental spiritual Essence from which everything has evolved. These universal symbols are not just accidental mental constructs but are living realities that not only point to spiritual dimensions far beyond themselves but profoundly embody those spiritual realities. Learning to see the world around us afresh in the light of its spiritual dimension reorients us to taking up again the age-old task of treading the Path and aids us in activating our higher spiritual capacities which, when awakened, shed the pristine light of universal Theosophy on the path of spiritual self-regeneration in the service of humanity. The 28 wide-ranging articles in this volume span a wide spectrum of human thought: from the Tetraktys to the Cross, from the Altar to the Mirror, from the Pentagram to the Dodecahedron, from the Dog to the Dwarf, from the Heart to the Fool; indeed, from Shamballa to Paradise. These essays reveal the fundamental religious, philosophical, and scientific aspects to the most mundane and most refined realities of our common, everyday world. Both the serious reflection upon and casual reading of these essays is a joyous expedition through the all-too-common truncated perceptions we have of our world to a higher level of awareness of the myriad ways in which the life of the universal Spirit is made manifest.
