An Introduction To Sociology

Introduction to Sociology

- Concerts, sports games, and political rallies can have very large crowds.
- When you attend one of these events, you may know only the people you came with. Yet you may experience a feeling of connection to the group.
- You are one of the crowd.
- You cheer and applaud when everyone else does. You boo and yell alongside them.
- You move out of the way when someone needs to get by, and you say "excuse me" when you need to leave.
- You know how to behave in this kind of crowd.
Society Explained-Nathan Rousseau 2014 Society Explained introduces students to key concepts in sociology through engaging narrative examples. After an overview of the history of sociology, the book covers subjects ranging from the individual in society to marriage and family. This concise book is an ideal introduction to the sociological imagination.

An Introduction to Sociology-Ken Browne 2011-04-11 Thoroughly revised and fully updated, this fourth edition of "An Introduction to Sociology" provides an accessible and engaging introduction to the subject, without oversimplifying or passing over the important and exciting insights sociology has to offer. Building on the book's existing achievements, Ken Browne has restructured the fourth edition to focus on the core issues in sociology considered in introductory courses, covering all the substantive topics and many of the options specified by the main GCSE examining boards. The new edition has been completely updated to reflect contemporary social changes, including the latest statistics and topical illustrative examples. New material is to be found throughout, such as extended treatment of family and household diversity, the effects of new media technologies, citizenship, political participation and protest, and the links between sociology, social problems and social policy making in a range of contexts. The book has been carefully designed to support and extend students' learning: summaries of key issues, a clear glossary, and a lively range of activities and discussion points all add to the book's value as a learning and teaching resource. Student-friendly cartoons, tables, diagrams and photographs - as well as a fresh internal design - also enliven the text, presenting sociology as an exciting and relevant topic to students of all ages, interests and abilities. New material is to be found throughout, such as extended treatment of family and household diversity, the effects of new media technologies, power, citizenship, political participation and protest, the dimensions and extent of social inequality, and the links between sociology, social problems and social policy making in a range of contexts.
The Sociology of Work and Occupations, Second Edition connects work and occupations to the key subjects of sociological inquiry: social and technological change, race, ethnicity, gender, social class, education, social networks, and modes of organization. In 15 chapters, Rudi Volti succinctly but comprehensively covers the changes in the world of work, encompassing everything from gathering and hunting to working in today’s Information Age. This book introduces students to a highly relevant analysis of society today. In this new and updated edition, globalization and technology are each given their own chapter and discussed in great depth.

This textbook not only caters as a primary text to the undergraduate students of Sociology but is also a useful reference for postgraduate students and aspirants appearing for various competitive examinations.

Revised and updated edition of this comprehensive introduction to the world of sociology incorporating key contemporary issues, with particular reference to the Irish perspective. New to this edition: Reflects all changes in the revised Social Studies module 5N1370. Provides the most recent statistics related to the area of sociology. Introduces reflective and investigative skills for use on current social issues. Advises on strategies for study and preparation for examinations, as well as note-taking skills and revision methods. Highlights key sociological theories, concepts and topics, while introducing and examining social stratification in Irish society. Facilitates an individual's basic understanding of their position as an individual, a family member and as part of a community and wider society. Introduces the process and agents of socialisation by analysing family, peer groups, education and
An Introduction to Sociology-Pamela Abbott 2002-09-11 This third edition of this best-selling book confirms the ongoing centrality of feminist perspectives and research to the sociological enterprise, and introduces students to the wide range of feminist contributions in key areas of sociological concern. Completely revised, this edition includes: new chapters on sexuality and the media additional material on race and ethnicity, disability and the body many new international and comparative examples the influence of theories of globalization and post-colonial studies. In addition, the theoretical elements have also been fully rethought in light of recent developments in social theory. Written by three experienced teachers and examiners, this book gives students of sociology and women's studies an accessible overview of the feminist contribution to all the key areas of sociological concern.

Introduction to Sociology-Anthony Giddens 2009-01 The only textbook that helps students make micro-macro connections, Introduction to Sociology helps students uncover the surprising links between everyday life and global change.

Society in Focus-William E. Thompson 2016-04-20 Examining the role of mass media and information technology in contemporary society, Society In Focus, Eighth Edition, emphasizes the increasing diversity and
globalization of societies everywhere. It is designed to help students think clearly and critically about sociological issues, concepts, and methods. Questioning is at the heart of this approach, and as students read this book they are encouraged to become part of the sociological enterprise—rather than remain passive observers. Every element of the text is designed to challenge students to evaluate social issues and, guided by the sociological imagination, to clearly formulate their own positions. By asking questions that demand sociological and creative thought, students are reminded that their conclusions and decisions, as well as their non-decisions and inaction, may have important social consequences. New to this edition: • New coauthor Mica Thompson, an experienced teacher of introduction to sociology, brings a fresh new perspective as well as a wide array of different life experiences to this edition of Society in Focus. • An expanded critical analysis in Chapter 1 introduces all forms of media and technology, and every chapter examines an aspect of their powerful social influence. • Chapters 9, 16, and 17 have been updated to include the most recent worldwide financial and economic developments, to help explain globalization and cultural diversity. • Expanded application of feminist theory in every chapter to help students recognize the importance of gender diversity and the contributions of that theoretical perspective in sociology. • Updated and brand new boxes throughout encourage students to take a closer look at society and selected social issues.

Imagining Society-Catherine Corrigall-Brown 2019-11-07 Explore sociology’s key concepts, theories, methods, and original voices—all in one innovative text. Imagining Society: An Introduction to Sociology is an versatile and economical resource for your introductory course. Introduction to Sociology—Anthony Giddens 2013-12-12 An affordable, no-nonsense introductory text for today's students.

An Introduction to Sociology—L. L. Bernard 1980-03
An Introduction to Sociology—Wilson Dallam Wallis 1927
Introduction to Sociology—
An Introduction to the Sociology of Learning—Sarane Spence Boocock 1971
An Introduction to Sociology—Ernest Rutherford Groves 1932
Introduction to Sociology—Anthony Giddens 1991 A text for undergraduates, covering major perspectives in sociology and key findings of contemporary American research. Overarching themes are the pace of social change and the globalizing of social life. Treatment takes a comparative stance and a historical approach, with coverage of gender issues, the micro and macro link, and relations between the social and the personal. Concepts are explained as they are introduced with concrete examples. Includes chapter summaries and concept review boxes. Giddens is affiliated with the London School of Economics. Duneier is affiliated with the
Introduction to Sociology - Ideology and Utopia - Karl Mannheim 1991
A new edition of Karl Mannheim's classic work in which the concepts of 'ideology' and 'utopia' are examined as opposing and dominant societal influences.

The Global Society - William C. Cockerham 1995
This is an introductory text to sociology which presents sociology as a way of understanding the world, not just individual societies. With a comparative focus, it de-emphasizes US society in favour of global sociology. Sociological theory is adopted throughout the text within discussions of specific topics, rather than following the traditional organization of relegating the topic to a separate chapter.

The Sociology of Education - Ivor Morrish 2018-09-18
First published in 1972, this book aims to provide an introduction to the teacher, or teacher in training, to society and its relationship to education. Although very much a product of its time rather than an instructive text for teachers in the 21st century, this work will be of interest to those studying the evolution of the study of the sociology of education as well as the development of teacher training.

An Introduction to Sociology - Bryan Sidney Richard Green 1969

Contemporary Introduction to Sociology - Jeffrey C. Alexander 2016-01-08
The first edition of A Contemporary Introduction to Sociology was the first truly new introductory sociology textbook in decades. Written by two leading sociologists at the cutting edge of theory and research, the text reflected the idioms and interests of contemporary American life and global social issues. The second edition continues to invite students to reflect upon their lives within the context of the combustible leap from modern to postmodern life. The authors show how culture is central to understanding many world problems as they challenge readers to confront the risks and potentialities of a postmodern era in which the futures of both the physical and social environment seem uncertain. As culture rapidly changes in the 21st century, the authors have broadened their analysis to cover...
developments in social media and new data on gender and transgender issues.

An Introduction to the Sociology of Health & Illness-Kevin White 2008-12-22 "Kevin White guides us through the many reasons for the centrality of health showing clearly that health and illness are the products not just of our biology but of the society into which we are born. He expertly draws on the works of Parsons, Marx, Foucault and feminist writers to provide an authoritative analysis of the social nature of health." - Ray Fitzpatrick, University of Oxford

"I have used this book for many years because it is so well written, and it is easy for the students to understand." - Julianne Law, Bangor University

"An excellent introductory text to help the students begin to critically analyse different perspectives on health." - Debbie Chittenden, University of Bolton

This is a new edition of the best-selling textbook for students of the sociology of health and illness. Free of jargon, intuitive about student needs and well versed in course requirements, Kevin White's book is used widely across both health and sociology schools.

Avant-Garde Sociology-Thomas D. Sharts 2013-12-09 Avant-Garde Sociology focuses upon building the theoretical position that social reality is defined as seven primary areas that simultaneously work as independent variables and might also be influenced as dependent variables in any social structural relationship or entity. In addition, this book underscores the importance of identifying those five areas of being human that impact and explain individual human behavior and those behavioral actions modeled in other types of social structures and social structural relationships. Some other progressive ideas this book offers is viewing the importance of sociology’s role in explaining the origins of behavior in reference to identifying stake issues in individuals and other social structural entities as well as making reference to those methods of power utilized in social structure relationships. Sociological explanations for deviant behavior are also identified and a unique theoretical process is acknowledged in reference to understanding the evolution of social change. Of greatest significance is that Avante-Garde Sociology helps the student learner comprehend that human behavior and it’s explanations are complex; likewise, the social science of sociology should be
taking seriously as a relevant theoretical consideration for: understanding human behavior in love relationships, marriages, and families; as a significant tool in identifying social problems and/or considering how to develop policies or programs to alleviate various social maladies; comprehending those multiple issues surrounding the operation of a business, and for highlighting the significant role sociology plays when studying and assessing the origins of many mental health illnesses suffered by individuals. Ultimately, this book instructs the student learner to understand that utilizing the seven primary areas of social reality as a tool of analysis for any social topic of consideration yields a plethora of relevant knowledge either for extending sociological theory or understanding human behavior.

An Introduction to the Sociology of Religion-Inger Furseth 2006-01-01
An Introduction to the Sociology of Religion provides an overview of sociological theories of contemporary religious life. Some chapters are organized according to topic. Others offer brief presentations of classical and contemporary sociologists from Karl Marx to Zygmunt Bauman and their perspectives on social life, including religion. Throughout the book, illustrations and examples are taken from several religious traditions.

The Real World-Kerry Ferris 2012
The most relevant textbook for today's students.

Introduction to Sociology-Norman Goodman 1996
The Sociology of Gender-Amy S. Wharton 2011-05-02
Featuring extensive revisions and updates, the Second Edition of The Sociology of Gender: An Introduction to Theory and Research presents an introductory overview of gender theory and research, and continues to offer a unique and compelling approach to one of the most important topics in the field of sociology. Features extensive revisions and updates, and incorporates recent cross-national research on gender. Expands and develops frameworks introduced in first edition. Treats gender as a multilevel system operating at the individual, interactional, and institutional levels. Stresses conceptual and theoretical issues in the sociology of gender. Offers an accessible yet intellectually sophisticated approach to current gender theory and research. Includes pedagogical features designed to encourage critical thinking and debate.

Education and Society-Andrew Kenneth Cosway Ottaway 1953 This volume traces the modern critical and performance history of this play, one of Shakespeare's most-loved and most-performed comedies. The essay focuses on such modern concerns as feminism, deconstruction, textual theory, and queer theory.

Ideology And Utopia-Karl Mannheim 2015-02-05 2015 Reprint of Original 1936 American Edition. Exact facsimile of the original edition, not reproduced with Optical Recognition Software. Karl Mannheim was a Hungarian-born sociologist, influential in the first half of the 20th century and one of the founding fathers of classical sociology as well as a founder of the sociology of knowledge. His essays on the sociology of knowledge have become classics in the field. In "Ideology and Utopia" he argued that the application of the term ideology ought to be broadened. He traced the history of the term from what he called a "particular" view. This view originally saw ideology as the perhaps deliberate obscuring of facts. Over time this view gave way to a "total" conception (most notably in Marx), which argued that a whole social group's thought was formed by its social position (e.g. the proletariat's beliefs were conditioned by their relationship to the means of production). However, he called for a further step, which he called a general total conception of ideology, in which it was recognized that everyone's beliefs-including the social scientist's-were a product of the context they were created in. Mannheim points out social class, location and generation as the greatest determinants of knowledge. He feared this could lead to relativism but proposed the idea of relationism as an antidote. To uphold the distinction, he maintained that the recognition of different perspectives according to differences in time and social location appears arbitrary only to an abstract and disembodied theory of knowledge.

Society by Agreement-Earl R. Babbie 1977

The Real World-Kerry Ferris 2018 "In every chapter, Ferris and Stein use examples from everyday life and pop culture to draw students into thinking sociologically and to show the relevance of sociology to their relationships, jobs, and future goals. Data Workshops in every chapter give students a chance to apply"
theoretical concepts to their personal lives and actually do sociology.

Society in Focus - William Edwin Thompson 2002
An introduction to sociology, integrating material on the media throughout and looking at chapter concepts as they are likely to apply in the 21st century. Sections on the sociological perspective; the social framework; social differentiation and inequality; social institutions; and social change feature chapter opening case studies and anecdotes, historical material, and color photo essays on violence in the media, gender roles on television, and the media and the environmental movement. Pedagogical aids include chapter outlines, key terms and concepts, and questions. Annotation copyright by Book News, Inc., Portland, OR

An Introduction to Sociology - Carl Addington Dawson 1935

Introduction to Sociology - George Ritzer 2015-08-28
Join the conversation with one of sociology’s best-known thinkers. The Third Edition of Introduction to Sociology, thoroughly revised and updated, continues to show students the relevance of the introductory sociology course to their lives. While providing a rock-solid foundation, George Ritzer illuminates traditional sociological concepts and theories, as well as some of the most compelling contemporary social phenomena: globalization, consumer culture, the Internet, and the “McDonaldization” of society. As technology flattens the globe, students are challenged to apply a sociological perspective to their world, and to see how “public” sociologists are engaging with the critical issues of today.

Introduction to Sociology - Frank Van Tubergen 2020
"Why are today's youth soccer players of the national teams often born in January and rarely in December? Why are many people satisfied with their own lives, but think the world in general is getting worse? Why is binge drinking so common in college, while the majority of students are against it? Why are your friends so similar to you? Why are citizens of the United States more religious than those in Western Europe? Comprehensive and engaging, this textbook introduces students not only to foundational sociological work, but also to insights from contemporary sociological theory and research. This combined approach ensures that students become familiar with the core of sociology: key concepts, theories, perspectives, methods, and findings. Students will acquire the ability to think like a
sociologist, investigate and understand complex social phenomena. This text presents a complete sociological toolkit, guiding students in the art of asking good sociological questions, devising a sophisticated theory, and developing methodologies to observe social phenomena. The chapters of this book build cumulatively to equip students with the tools to quickly understand any new sociological topic or contemporary social problem. The textbook also applies the sociological toolkit to selected key sociological issues, showing how specific sociological topics can be easily investigated and understood using this approach. Taking a global and comparative perspective, the book covers a rich diversity of sociological topics and social problems, such as crime, immigration, race and ethnicity, media, education, family, organizations, gender, poverty, modernization, and religion. The book presents a range of helpful pedagogical features throughout, such as: Chapter Overview and Learning Goals summaries at the start of every chapter Thinking like a sociologist boxes, encouraging students to reflect critically on learning points Principle boxes, summarizing key sociological principles Theory schema boxes, presenting sociological theories in a clear, understandable manner Stylised Facts highlighting key empirical findings and patterns Key Concepts and Summary sections at the end of every chapter Companion website providing additional material for every chapter for both instructors and students, including PowerPoint lecture notes, discussion questions and answers, multiple-choice questions, further reading, and a full glossary of terms. This clear and accessible text is essential reading for students taking introductory courses in sociology. It will also be useful for undergraduate and graduate courses in other social science disciplines, such as psychology, economics, human geography, demography, communication studies, education sciences, political science, and criminology"--
