Edgar Allan Poe's short story 'The Tell-Tale Heart' - an analysis-Tobias Nitschke 2012-07-30

This Seminararbeit shall deal with the short story 'The Tell-Tale Heart' by one of the most famous American writers, Edgar Allan Poe. In the following pages, one will firstly be introduced to the author and his historical background, the American Romantic Movement with the subgenres Dark Romanticism and Gothic fiction. Afterwards, the short story will be analyzed regarding its content, literary devices and linguistic means, especially in the end. Furthermore, I wanted to think out of the box and therefore included a personal diagnosis regarding the narrator's psychological disorders. Rounding up this paper, I rewrote the short story by looking at it from a different perspective - my piece is told by the old man who is assassinated and can thereby answer some questions that have so far remained insoluble.

Masque of the Red Death, The Black Cat, The Murders in the Rue Morgue—Edgar Allan Poe 2014-03-13 This carefully crafted ebook: “The Best of Edgar Allan Poe: The Tell-Tale Heart, The Fall of the House of Usher, The Cask of Amontillado, The Pit and the Pendulum, The Tell-Tale Heart, The Masque of the Red Death, The Black Cat, The Murders in the Rue Morgue” contains the Best Tales of Edgar Allan Poe in one volume and is formatted for your eReader with a functional and detailed table of contents. The Tell-Tale Heart (1843) Is a short story told by an unnamed narrator who endeavors to convince the reader of his sanity, while describing a murder he committed. The murder is carefully calculated, and the murderer hides the body by dismembering it and hiding it under the floorboards. The Murders in the Rue Morgue (1839) As in all of Poe’s short stories, “The Fall of the House of Usher” concentrates on a “single effect”, in this case, the degeneration and decay of the Usher house and family. The Cask of Amontillado (1846) The story is set in a nameless Italian city in an unspecified year and is about the narrator’s deadly revenge on a friend who, he believes, has insulted him. The narrative revolves around a person being buried alive—in this case, by immurement. The Pit and the Pendulum (1842) The short story is about the torments endured by a prisoner of the Spanish Inquisition, though Poe skews historical facts. The narrator of the story describes his experience of being tortured. The story is especially effective at inspiring fear in the reader because of its heavy focus on the senses, such as sound, emphasizing its reality, unlike many of Poe’s stories which are aided by the supernatural. The Tell-Tale Heart (1843) It is told by an unnamed narrator who endeavors to convince the reader of his sanity, while describing a murder he committed. The murder is carefully calculated, and the murderer hides the body by dismembering it and hiding it under the floorboards. Ultimately the narrator’s guilty manifest itself in the form of the sound — possibly hallucinatory — of the old man’s heart still beating under the floorboards. The Masque of the Red Death (1842) The story follows Prince Prospero’s attempts to avoid a dangerous plague known as the Red Death by hiding in his abbey. He, along with many other wealthy nobles, has a masquerade ball within seven rooms of his abbey, each decorated with a different color. In the midst of their revelry, a mysterious figure disguised as a Red Death victim enters and makes his way through each of the rooms. The Black Cat (1843) It is a study of the psychology of guilt, often paired in analysis with Poe’s "The Tell-Tale Heart". In both, a murderer carefully conceals his crime and believes himself unassailable, but eventually breaks down and reveals himself, impelled by a nagging reminder of his guilt. The Murders in the Rue Morgue (1841) It has been recognized as the first detective story. C. Auguste Dupin is a man in Paris who solves the mystery of the brutal murder of two women. Numerous witnesses heard a suspect, though no one agrees on what language was spoken. At the murder scene, Dupin finds a hair that does not appear to be human.

The Black Cat and the Purloined Letter - Edgar Allan Poe 2014-10-25: The Black Cat and the Purloined Letter by Edgar Allan Poe "The Black Cat" is a short story by Edgar Allan Poe. It was first published in the August 19, 1843, edition of The Saturday Evening Post. It is a study of the psychology of guilt, often paired in analysis with Poe's "The Tell-Tale Heart". In both, a murderer carefully conceals his crime and believes himself unassailable, but eventually breaks down and reveals himself, impelled by a nagging reminder of his guilt. The story is presented as a first-person narrative using an unreliable narrator. He is a condemned man at the outset of the story. The narrator tells us that from an early age he has loved animals. He and his wife have many pets, including a large, beautiful black cat (as described by the narrator) named Pluto. This cat is especially fond of the narrator and vice versa. Their mutual friendship lasts for several years, until the narrator becomes an alcoholic. One night, after coming home completely intoxicated, he believes the cat to be avoiding him. When he tries to seize it, the panicked cat bites the narrator, and in a fit of rage, he seizes the animal, pulls a pen-knife from his pocket, and deliberately gouges out the cat's eye. From that moment onward, the cat flees in terror at his master's approach. At first, the narrator is remorseful and regrets his cruelty. "But this feeling soon gave place to irritation. And then came, as if to my final and irrevocable overthrow, the spirit of perverseness." He takes the cat out in the garden one morning and ties a noose around it's neck, hanging it from a tree where it dies. That very night, his house mysteriously catches fire, forcing the narrator, his wife and their servant to flee the premises. The next day, the narrator returns to the ruins of his home to find, imprinted on the single wall that survived the fire, the apparition of a gigantic cat, with a rope around the animal's neck. The Threads of The Scarlet Letter - Richard Kopyle 2003: The Threads of The Scarlet Letter offers new discoveries regarding the origins of Hawthorne's masterpiece, as well as critical interpretations based on these discoveries. Relying on a blend of close reading, biographical analysis, and archival research, this book demonstrates anew the power of traditional scholarship. The Threads of The Scarlet Letter illuminates Hawthorne's transformation of Poe's celebrated tale The Tell-Tale Heart and Lowell's long-neglected poem A Legend of Brittany and, identifying the hitherto-unknown author of the seminal narrative The Salem Belle, investigates Hawthorne's brilliant borrowing from that novel as well. The present volume argues that Hawthorne repeatedly attenuated his sources, but also allowed sufficient detail to permit their recognition. Furthermore, this volume elaborates Hawthorne's reworking of formal traditions in The Scarlet Letter--traditions that

advances in science of the present time and the curious readers who want to know more about science.
importantly clarify the meaning of the whole. The Scarlet Letter is shown to be a complex rendering of man's fall and redemption, and a triumphant assertion of literary vocation. The Threads of The Scarlet Letter includes a useful bibliographical overview of the history of the study of the origins of Hawthorne's greatest work.

The narrative situation in Poe's "The Tell-Tale Heart". An illustration of the captivating effect-Kaja Schlothauer 2021-05-17 Essay from the year 2020 in the subject American Studies - Literature, grade: 1,3, University of Hamburg, language: English, abstract: This paper focuses on the captivating effect of the autodiegetic narration and which significant differences would occur throughout "The Tell-Tale Heart", if the narrator would be outside the diegesis, not a part of the story world (also called heterodiegetic narration). Therefore, the beginning starts with a closer interpretation of the narrator's character and their motives to plan the crime. Furthermore, the historical and literary context of The Tell-Tale Heart contributes to the argumentation. Followed by the context, the term paper includes a brief analysis of mad narrators in fiction. All arguments contain the information of several secondary sources. The conclusion provides an overview over the crucial arguments made in the main body of the paper and ultimately combines the interpretations in a final statement. The narrator in Edgar Allan Poe's The Tell-Tale Heart is perhaps the most striking feature of the short story. Although the protagonist declares his sanity right in the beginning of the story, the reader before long learns about the evident mental illness of the narrator. After all, their insanity and madness result in the murder of the old man. It is the feeling of paranoia, surveillance and nervousness that ultimately leads to the crime. The protagonist, however, evidently cannot be trusted and appears more and more unreliable. So what is merely imagination and what is truly genuine in The Tell-Tale Heart?

The Tell-Tale Art-Christine A. Jackson 2011-11-16 Greed and guilt, near-indecipherable codes, murder plots born of madness—these motifs drive the best modern mysteries, but they are rooted in the early nineteenth century and the carefully constructed fiction of Edgar Allan Poe. Poe's methods of storytelling and suspense remain relevant, reappearing in detective novels and on screens large and small. This work examines a wide selection of today's mystery and thriller novels, films, television programs, and video games to explore Poe's ongoing influence on popular entertainment. Authors such as Michael Connelly, Stieg Larsson and Dennis Lehane, television shows like The Closer and Dexter, and movies from Laura and Vertigo to Shutter Island and The Girl with the Dragon Tattoo all receive attention. The popularity of Poe's narratives in these contemporary guises is testimony to his visionary genius. Instructors considering this book for use in a course may request an examination copy here.

Foundation Engineering Handbook-Hsai-Yang Fang 2013-06-29 More than ten years have passed since the first edition was published. During that period there have been a substantial number of changes in geotechnical engineering, especially in the applications of foundation engineering. As the world population increases, more land is needed and many soil deposits previously deemed unsuitable for residential housing or other construction projects are now being used. Such areas include problematic soil regions, mining subsidence areas, and sanitary landfills. To overcome the problems associated with these natural or man-made soil deposits, new and improved methods of analysis, design, and implementation are needed in foundation construction. As society develops and living standards rise, tall buildings, transportation facilities, and industrial complexes are increasingly being built. Because of the heavy design loads and the complicated environments, the traditional design concepts, construction materials, methods, and equipment also need improvement. Further, recent energy and material shortages have caused additional burdens on the engineering profession and brought about the need to seek alternative or cost-saving methods for foundation design and construction.
