Analyzing Gender A Handbook Of Social Science Research
Analyzing Gender is a major synthesis of current social sciences research on gender issues. This tightly edited collection of articles consolidates the current state of knowledge about the role of women in society. From a variety of disciplinary and theoretical perspectives, the contributors outline research findings relating to the issues facing women in contemporary society. Analyzing Gender will be an essential sourcebook for research on gender, sex roles and women's studies.

Tools for the Field-Hilary Sims Feldstein 1994 Learning about the system and initial diagnosis (managing bias - farmer selection; wealth ranking; participatory methodologies for analyzing household activities, resources, and benefits; structured interviewing in Ecuador - incorporating gender into diagnostic field research; using open exploratory surveys to identify local cassava varieties and practices; workshops for gathering information; using focus groups with rural women; incorporating gender in conceptual diagrams of households; investigating contradictions and mysteries; addressing full-family dynamics in rural development; obtaining data on gender and intrahousehold issues); Research planning, on-farm experimentation, and trials assessment (productivity profiles of women agricultural producers; gender-disaggregated activity calendar; community approach to selection for on-farm trials; women and trials management in botswana - experiences with farmer groups; influence of the Aramachay Women's Production Committee on trial design; Respecting the culture in cultural practices - gender in on-farm trials; integrating farmer experts into on-station research; value of participant observation and experimentation; evaluation of bean varieties by men and women in small farm systems); On-going diagnosis and special studies (community approach to identifying household variables influencing farming decisions; household record keeping as a means of understanding farmers' decision making; time allocation studies - methodological note; selecting methods of time allocation research; juego de registro; evaluating the acceptability of crop varieties prior to introduction; dry bean utilization and fuelwood conservation); Extension, training, and institutionalization (extension feedback and communication - case from
Ecuador; evaluation and transfer of new food crop varieties by home economics groups; application of an analysis of full-family dynamics in Egypt; bridging the information gap in integrated pest management; training in gender analysis in agricultural research - use of case studies; training in integrating a gender perspective into farming systems research; national workshop on research methodology on the role of women in rice farming systems; using local case material; practical considerations for improving gender-based research; women's agricultural production committees and the participative-research-action approach; integrating a women's program into the Mali farming systems project Volet-OHV; incorporating gender into a national program of farming systems research; letter from the field - reflections on gender-sensitive research).

Analyzing Gender - Beth B. Hess 1987 Analyzing Gender is a major synthesis of current social sciences research on gender issues. This tightly edited collection of articles consolidates the current state of knowledge about the role of women in society. From a variety of disciplinary and theoretical perspectives, the contributors outline research findings relating to the issues facing women in contemporary society. Analyzing Gender will be an essential sourcebook for research on gender, sex roles and women's studies.

Rural Women's and Girls' Participation and Leadership for Community Development - Yuan Feng 2014-09-30 This book provides guidelines for introducing community-based gender analysis to practical development concerns through developing gender-sensitive training activities for practitioners and community members in the developing world in Asia, Africa and Latin America. Based on national and international training projects and best practices, and extensive experiences in the promotion of gender awareness and women's capacity building in China as well as internationally, this training manual provides a valuable blueprint for capacity building activities and training projects in developing countries in the promotion of social development and gender equality. This training handbook is guided by international human rights frameworks, focusing on analyzing structures of power and gender inequality across a variety of institutions and systems within countries. The training activities are participatory and emphasize on active participation of all trainees. Through conducting several pilot trainings, the manual is internationally versatile and applicable to different
Analyzing Gender A Handbook Of Social Science Research

Regional and national contexts. This book is published in association with UNESCO International Research and Training Centre for Rural Education.

Revisioning Gender - Myra Marx Ferree 1999 This comprehensive handbook attempts to summarize the state of gender studies not only by examining the crucial research of the past decade, but by encouraging thinking about how the questions central to studying gender have themselves changed. Building on the work started by the contributors to this volume’s predecessor, (Analyzing Gender, Sage 1987), editors Myra Marx Ferree, Judith Lorber, and Beth B. Hess reflect on the advances of gender scholarship during the past decade with its emphasis on all levels of social structure from the most macro to the most individual. Revisioning Gender is a step, albeit a tentative one, toward constructing a new analytical approach for the social sciences, one that calls into question disciplinary boundaries and the specific agendas that may be entailed within them. The editors, and the contributors to this important volume, illustrate how the use of gender by scholars in various and overlapping fields of study has helped alter concepts and research designs. The goal of this volume is to present, and encourage, the debates that advance the study of social science.

Handbook of Feminist Research - Sharlene Nagy Hesse-Biber 2012 The second edition of the Handbook of Feminist Research: Theory and Praxis, presents both a theoretical and practical approach to conducting social science research on, for, and about women. The Handbook enables readers to develop an understanding of feminist research by introducing a range of feminist epistemologies, methodologies, and methods that have had a significant impact on feminist research practice and women’s studies scholarship. The Handbook continues to provide a set of clearly defined research concepts that are devoid of as much technical language as possible. It continues to engage readers with cutting edge debates in the field as well as the practical applications and issues for those whose research affects social policy and social change. It also expands on the wealth of interdisciplinary understanding of feminist research praxis that is grounded in a tight link between epistemology, methodology and method. The second edition of this Handbook will provide researchers with the tools for excavating subjugated knowledge on women’s lives and the lives of other marginalized groups with
the goals of empowerment and social change.

Abandoning the role model - Gender and sexuality in Rita Mae Brown's "Rubyfruit Jungle"-Kathrin Gerbe
2005-10-27 Seminar paper from the year 2005 in the subject American Studies - Literature, grade: 1,0,
University of Siegen, course: Protest and Liberation: American Literature of the 60s and 70s, 12 entries in the
bibliography, language: English, abstract: From its beginnings, American society was a system based on
certain values, e.g. Christianity. These values are affected by events like war, waves of immigration and the
fluctuations of economy and therefore change constantly. In those changing times, family was meant to be a
fixed value in society but in the 20th century they started to disintegrate, especially referring to the role model
of women. This paper discusses the presentation of gender and sexuality in Rita Mae Brown's novel "Rubyfruit
Jungle", including female role models and homosexuality in the context of the ever present conventions in
1960s America.

Ageism, the Aged, and Aging in America-Ursula A. Falk 1997
Analyzing Gender, Intersectionality, and Multiple Inequalities-Esther Ngan-Ling Chow 2011-06-09 Includes
papers presented at the conference "Gender and Social Transformation: Global, Transnational, and Local
Realities and Perspectives", Beijing, China in 2009. This title addresses topics such as: divisions of labor,
migration, war and peace-building.

Gender and Discourse-Ruth Wodak 1997 Discourse and Gender demonstrates the considerable contribution of
feminist linguistics and critical discourse analysis to the understanding of gender and sex, making clear the
relevance of theoretical insights for social research in general.

Handbook of Feminist Research-Sharlene Nagy Hesse-Biber 2007 "Let me begin by recommending this book
to anyone engaged in feminist research, as a contributor or a student of the field. It is superbly written,
organized with amazing grace, highly inclusive of diverse research activities, and includes of some of the most
well-known feminist scholars in a range of academic disciplines. This is a truly amazing handbook a huge
enterprise, elegantly crafted by editor-author, Sharlene Nagy Hesse-Biber and completed by 52 other authors. The handbook is an outstanding contribution to feminist research, but beyond that, an excellent resource for students at all levels of inquiry and professional identification. There is nothing else to compete with its inclusiveness and intellectual prowess." —JOURNAL OF PHENOMENOLOGICAL PSYCHOLOGY The topic of feminist research has too often been neglected in standard research methods books—The Handbook of Feminist Research breaks that tradition! This unique volume illuminates on-going debates in the field of feminist research as well as the practical applications and issues for those whose research impacts social policy and social change. Edited by Sharlene Nagy Hesse-Biber, this Handbook reflects the most current thinking about feminist research emerging within and across the disciplines.

Handbook of Longitudinal Research-Scott Menard 2007-10-11 Longitudinal research is a broad field in which substantial advances have been made over the past decade. Unlike many of the existing books that only address the analysis of information. The Handbook of Longitudinal Research covers design and measurement as well as the data analysis. Designed for use by a wide-ranging audience, this Handbook not only includes perspective on the methodological and data analysis problems in longitudinal research but it also includes contributors' data sets that enable readers who lack sophisticated statistics skills to move from theories about longitudinal data into practice. As the comprehensive reference, this Handbook has no direct competition as most books in this subject area are more narrowly specialized and are pitched at a high mathematical level. Contributors and subject areas are interdisciplinary to reach the broadest possible audience (i.e., psychology, epidemiology, and economics research fields) Summary material will be included for less sophisticated readers Extensive coverage is provided of traditional advanced topics

Feminist Research Practice: A Primer-Sharlene Nagy Hesse-Biber 2007 Feminist Research Practice: A Primer provides a unique, hands-on approach to exploring a range of feminist perspectives of the research process in order to bridge the divide between theory and research methods. Editors Sharlene Nagy Hesse-Biber and Patricia Lina Leavy engage students with a clear and concise writing style and in-depth examples of a range of
research methods from ethnography, oral history, focus groups, and content analysis to interviewing and survey research.

Women, Work, and the Economy: Macroeconomic Gains from Gender Equity - Ms. Katrin Elborgh-Woytek

2013-10-25 The proposed SDN discusses the specific macro-critical aspects of women’s participation in the labor market and the constraints that prevent women from developing their full economic potential. Building on earlier Fund analysis, work undertaken by other organizations and academic research, the SDN presents possible policies to overcome these obstacles in different types of countries.

Handbook of Advanced Multilevel Analysis - Joop Hox

2011-01-11 This new handbook is the definitive resource on advanced topics related to multilevel analysis. The editors assembled the top minds in the field to address the latest applications of multilevel modeling as well as the specific difficulties and methodological problems that are becoming more common as more complicated models are developed. Each chapter features examples that use actual datasets. These datasets, as well as the code to run the models, are available on the book’s website http://www.hlm-online.com. Each chapter includes an introduction that sets the stage for the material to come and a conclusion. Divided into five sections, the first provides a broad introduction to the field that serves as a framework for understanding the latter chapters. Part 2 focuses on multilevel latent variable modeling including item response theory and mixture modeling. Section 3 addresses models used for longitudinal data including growth curve and structural equation modeling. Special estimation problems are examined in section 4 including the difficulties involved in estimating survival analysis, Bayesian estimation, bootstrapping, multiple imputation, and complicated models, including generalized linear models, optimal design in multilevel models, and more. The book’s concluding section focuses on statistical design issues encountered when doing multilevel modeling including nested designs, analyzing cross-classified models, and dyadic data analysis. Intended for methodologists, statisticians, and researchers in a variety of fields including psychology, education, and the social and health sciences, this handbook also serves as an excellent text for graduate and PhD level courses in multilevel modeling. A basic knowledge of multilevel modeling is assumed.
The Handbook of Language, Gender, and Sexuality-Susan Ehrlich 2017-10-02

Significantly expanded and updated, the second edition of The Handbook of Language, Gender and Sexuality brings together a team of the leading specialists in the field to create a comprehensive overview of key historical themes and issues, along with methodologies and cutting-edge research topics. Examines the dynamic ways that women and men develop and manage gendered identities through their talk, presenting data and case studies from interactions in a range of social contexts and different communities. Substantially updated for the second edition, including a new introduction, 24 newly-commissioned chapters, ten updated chapters, and a comprehensive index. Includes new chapters on research in non-English speaking countries – from Asia to South America – and cutting-edge topics such as language, gender, and popular culture; language and sexual identities; and language, gender, and socio-phonetics. New sections focus on key themes and issues in the field, such as methodological approaches to language and gender, incorporating new chapters on conversation analysis, critical discourse analysis, corpus linguistics, and variation theory. Provides unrivalled geographic coverage and an essential resource for a wide range of disciplines, from linguistics, psychology, sociology, and anthropology to communication and gender studies.

Research Handbook on Gender and Negotiation-Mara Olekalns 2020-07-31

In this groundbreaking Research Handbook, leading international researchers analyse how negotiators’ gender shapes their behaviour and outcomes at the bargaining table, in both work and non-work contexts. World-class experts from the field of negotiation present cutting-edge research on gender and negotiation, highlighting controversies, and generating new questions for consideration. In so doing, this Research Handbook offers helpful insights to negotiators and forges a path for future research.

Gender and Governance-Lisa D. Brush 2003-07-28

States are where the power lies, and power is gendered. With these simple statements, Lisa Brush turns a gendered lens on states, power, and governance, showing the inherent inequalities in political systems and gender systems and how they intersect. Her gender lens allows a clear assessment of the different effects state power and social polices have on men and women,
highlighting both difference and dominance in the governance of gender. She then turns her eye on the way in which state power supports male dominance, the gender of governance. Her nuanced arguments supported by cases from the American and other western political systems will make this book a useful antidote to traditional textbooks on government, the state, politics, and social policy.

Handbook for Achieving Gender Equity Through Education-Susan S. Klein 2014-05-22 First published in 1985, the Handbook for Achieving Gender Equity Through Education quickly established itself as the essential reference work concerning gender equity in education. This new, expanded edition provides a 20-year retrospective of the field, one that has the great advantage of documenting U.S. national data on the gains and losses in the efforts to advance gender equality through policies such as Title IX, the landmark federal law prohibiting sex discrimination in education, equity programs and research. Key features include: Expertise - Like its predecessor, over 200 expert authors and reviewers provide accurate, consensus, research-based information on the nature of gender equity challenges and what is needed to meet them at all levels of education. Content Area Focus - The analysis of gender equity within specific curriculum areas has been expanded from 6 to 10 chapters including mathematics, science, and engineering. Global/Diversity Focus - Global gender equity is addressed in a separate chapter as well as in numerous other chapters. The expanded section on gender equity strategies for diverse populations contains seven chapters on African Americans, Latina/os, Asian and Pacific Island Americans, American Indians, gifted students, students with disabilities, and lesbian, gay, bisexual, and transgender students. Action Oriented - All chapters contain practical recommendations for making education activities and outcomes more gender equitable. A final chapter consolidates individual chapter recommendations for educators, policymakers, and researchers to achieve gender equity in and through education. New Material - Expanded from 25 to 31 chapters, this new edition includes: *more emphasis on male gender equity and on sexuality issues; *special within population gender equity challenges (race, ability and disability, etc); *coeducation and single sex education; *increased use of rigorous research strategies such as meta-analysis showing more sex similarities and fewer sex differences
and of evaluations of implementation programs; *technology and gender equity is now treated in three chapters; *women’s and gender studies; *communication skills relating to English, bilingual, and foreign language learning; and *history and implementation of Title IX and other federal and state policies. Since there is so much misleading information about gender equity and education, this Handbook will be essential for anyone who wants accurate, research-based information on controversial gender equity issues—journalists, policy makers, teachers, Title IX coordinators, equity trainers, women’s and gender study faculty, students, and parents.

The Handbook of Narrative Analysis-Anna De Fina 2015-08-17 Featuring contributions from leading scholars in the field, The Handbook of Narrative Analysis is the first comprehensive collection of sociolinguistic scholarship on narrative analysis to be published. The collection includes chapters that exhibit the latest advances in narrative analysis, from work on social media to small stories research, as well as essays that address topics traditionally shaped and influenced by narrative inquiry, such as researcher reflexivity, embodiment, story ownership, and chronotopic configurations. Organized thematically to provide a guide for approaching the study of narrative without prescribing a rigid framework for analysis, the Handbook strikes an ideal balance between theoretical framing and the demonstration of specific analytical approaches. Edited by two leading authorities on narrative research, and pioneers of the practice-based approach to narrative analysis, this Handbook will be an essential resource for anyone interested in better understanding the stories we tell and why we tell them.

Handbook of Contemporary Families-Marilyn Coleman 2004 What has happened to marriage and families? What is the current state of families? Where are families headed? Where is family scholarship headed? As families face challenges today brought on by events that have changed their perception of the world, there is a need for a clear assessment of what has happened to families in the past and an examination of some data-based theories about what is likely to happen in the future. The Handbook of Contemporary Families explores how families have changed in the last 30 years and speculates about future trends. Editors Marilyn Coleman
and Lawrence H. Ganong, along with a multidisciplinary group of contributors, critique the approaches used to study relationships and families while suggesting modern approaches for the new millennium. The Handbook looks at how changes within the contemporary family have been reflected in family law, family education, and family therapy. Features of this Handbook: Examines a diverse array of families and relationships in which people live, including chapters on alternative lifestyles, gay and lesbian relationships, economically distressed families, religion and families, racial and ethnic diversity, a feminist vision for families, older families, and the effect of computers and other technology on family relationships. Includes both a historical review and future speculation on the subjects covered in each chapter. Interdisciplinary contributors representing a variety of fields such as history, family studies, sociology, law, therapy, social work, psychology, nursing, and human development. The Handbook of Contemporary Families is an excellent resource for advanced undergraduate and graduate students, researchers, educators, and practitioners who study and work with families in several disciplines, including Family Science, Human Development and Family Studies, Sociology, Marriage & Family Therapy, and Social Work.

The Oxford Handbook of Feminist Counseling Psychology—Carolyn Zerbe Enns 2012-10-18 This handbook summarizes the progress, current status, and future directions relevant to feminist multicultural perspectives in counseling psychology. It emphasizes enduring topics within counseling psychology such as human growth and development, ethics, ecological frameworks, and counseling theory and practice. Intersectionality, social justice, and the diverse social identities of women and girls are featured prominently.

Handbook of Research on Consumerism in Business and Marketing: Concepts and Practices—Kaufmann, Hans-Ruediger 2014-03-31 The modern era of business has prompted an increased focus on the consumer and the responsibility of corporations to consider their ethical and social obligations to their customers. The rise of the consumerist movement has encouraged further research and development on the topic of consumerism, enabling business to succeed in a consumer-driven market. Handbook of Research on Consumerism in Business and Marketing: Concepts and Practices features research on diverse topics on consumerism in the
global marketplace, focusing on the ways in which businesses can improve their relationships with customers as well as analyze and influence purchasing behavior. As a comprehensive reference source on topics pertaining to consumer management, identity, and behavior, this publication is intended for use by marketing professionals, business managers, students, and academicians.

Teaching Gender and Sex in Contemporary America-Kristin Haltinner 2016-04-28 This book provides innovative pedagogy, theory, and strategies for college and university professors who seek effective methods and materials for teaching about gender and sex to today’s students. It provides thoughtful reflections on the new struggles and opportunities instructors face in teaching gender and sex during what has been called the “post-feminist era.” Building off its predecessor: Teaching Race and Anti-Racism in Contemporary America, this book offers complementary classroom exercises for teachers, that foster active and collaborative learning. Through reflecting on the gendered dimensions of the current political, economic, and cultural climate, as well as presenting novel lesson plans and classroom activities, Teaching Gender and Sex in Contemporary America is a valuable resource for educators.

The Routledge Handbook of Security Studies-Myriam Dunn Cavelty 2009-12-16 Focusing on contemporary challenges, this major new Handbook offers a wide-ranging collection of cutting-edge essays from leading scholars in the field of Security Studies. The field of Security Studies has undergone significant change during the past twenty years, and is now one of the most dynamic sub-disciplines within International Relations. It now encompasses issues ranging from pandemics and environmental degradation to more traditional concerns about direct violence, such as those posed by international terrorism and inter-state armed conflict. A comprehensive volume, comprising articles by both established and up-and-coming scholars, the Handbook of Security Studies identifies the key contemporary topics of research and debate today. This Handbook is a benchmark publication with major importance both for current research and the future of the field. It will be essential reading for all scholars and students of Security Studies, War and Conflict Studies, and International Relations.
Handbook of Arab American Psychology-Mona M. Amer 2015-11-19 The Handbook of Arab American Psychology is the first major publication to comprehensively discuss the Arab American ethnic group from a lens that is primarily psychological. This edited book contains a comprehensive review of the cutting-edge research related to Arab Americans and offers a critical analysis regarding the methodologies and applications of the scholarly literature. It is a landmark text for both multicultural psychology as well as for Arab American scholarship. Considering the post 9/11 socio-political context in which Arab Americans are under ongoing scrutiny and attention, as well as numerous misunderstandings and biases against this group, this text is timely and essential. Chapters in the Handbook of Arab American Psychology highlight the most substantial areas of psychological research with this population, relevant to diverse sub-disciplines including cultural, social, developmental, counseling/clinical, health, and community psychologies. Chapters also include content that intersect with related fields such as sociology, American studies, cultural/ethnic studies, social work, and public health. The chapters are written by distinguished scholars who merge their expertise with a review of the empirical data in order to provide the most updated presentation of scholarship about this population. The Handbook of Arab American Psychology offers a noteworthy contribution to the field of multicultural psychology and joins references on other racial/ethnic minority groups, including Handbook of African American Psychology, Handbook of Asian American Psychology, Handbook of U.S. Latino Psychology, and The Handbook of Chicana/o Psychology and Mental Health.

The Oxford Handbook of Sociolinguistics-Robert Bayley 2015 "First issued as an Oxford University Press paperback, 2015"--Title page verso.

Handbook of Prejudice-
Observing Homosexual and Gender Nonconformity Behaviors-Michael Lambertus 2018-12-18 Michael Lambertus examines the influence of perceived homosexual sexual and gender nonconform behaviors on the elicitation of two moral emotions, disgust and contempt, as well as moral judgment of male participants in his study. In doing so, he considers the extent to which these men endorse specific cultural beliefs about
masculinity—also referred to as ‘masculinity ideology’. The author succeeds in proving an increase in disgust towards perceived homosexual, but not towards heterosexual sexual behavior of a description of a fictional person, the more the participants advocate masculine gender role norms.

Handbook of the Sociology of Gender—Barbara J. Risman 2018-06-05 This handbook provides a comprehensive view of the field of the sociology of gender. It presents the most important theories about gender and methods used to study gender, as well as extensive coverage of the latest research on gender in the most important areas of social life, including gendered bodies, sexuality, carework, paid labor, social movements, incarceration, migration, gendered violence, and others. Building from previous publications this handbook includes a vast array of chapters from leading researchers in the sociological study of gender. It synthesizes the diverse field of gender scholarship into a cohesive theoretical framework, gender structure theory, in order to position the specific contributions of each author/chapter as part of a complex and multidimensional gender structure. Through this organization of the handbook, readers do not only gain tremendous insight from each chapter, but they also attain a broader understanding of the way multiple gendered processes are interrelated and mutually constitutive. While the specific focus of the handbook is on gender, the chapters included in the volume also give significant attention to the interrelation of race, class, and other systems of stratification as they intersect and implicate gendered processes.

Handbook of Women’s Sexual and Reproductive Health—Gina M. Wingood 2002-03-31 The subject of women's sexual and reproductive health has been surrounded in a mantle of silence. This silence is pervasive in women's lives and is manifested by the difficulty in discussing or disseminating information regarding women's sexuality in our families, our relationships, and in society as a whole. This volume is designed to motivate and engage scientists, policy makers, and practitioners to greater scientific discourse, reduce the stigma and validate the importance of women's sexual and reproductive health. The editors and contributors bring the topic of women's sexual and reproductive health to the forefront in a useful and intellectually stimulating manner, and include a wealth of knowledge and current information on: -epidemiology; -social and behavioral
correlates; -effective intervention and prevention strategies; and -health policies relating to women's sexual and reproductive health. The use of a multidisciplinary perspective, bringing together historians, anthropologists, psychologists, sociologists, epidemiologists, public health researchers, genetic counselors, attorneys, demographers, journalists, social workers, nurses and physicians, allows for comprehensive coverage that will benefit women's health advocates, students, and practitioners.

Handbook of Gender and Women's Studies-Kathy Davis 2006-04-27 "This breathtakingly broad, interdisciplinary reader demonstrates how widely feminist thinking has spread, how deeply it has shaken settled assumptions in the disciplines and how much new light it throws on contemporary controversies."

- Myra Marx Ferree, University of Wisconsin-Madison "A timely intervention and highly engaged, thoughtful and scholarly analysis of the state of gender and women's studies in the West by three eminent feminist scholars... Highly cognisant of the central issues that have fractured, blocked and enhanced western feminism." - Bev Skeggs, Goldsmiths "The comprehensiveness and the interdisciplinary range of themes are impressive, and they make the Handbook into a wonderful tool for teachers and students of women's and gender studies." - Nina Lykke, Linkoeping University

Gender and women's studies is one of the most challenging fields within the social sciences - the dynamics of gender relations and the social and cultural implications of gender constructions offer a lively forum of debate. The Handbook of Gender and Women's Studies presents a comprehensive and engaging review of the most recent developments within the field, including the study of masculinity, the feminist implications of postmodernism, the 'cultural turn' and globalization. The authors review current research and offer critical analyses of women's and gender studies in work, the welfare state, family, education, religion, violence and war and feminist global politics. Edited by three leading academics from Europe and the United States, and with 25 chapters written by scholars based throughout the world, the Handbook situates the most important debates in the field within a uniquely international and interdisciplinary context. The Handbook is a useful introduction to gender theory and an exciting starting-point for fresh debates.
The Handbook of Gender, Sex, and Media-Karen Ross 2011-09-07 The Handbook of Gender, Sex and Media offers original insights into the complex set of relations which exist between gender, sex, sexualities and the media, and in doing so, showcases new research at the forefront of media and communication practice and theory. Brings together a collection of new, cutting-edge research exploring a number of different facets of the broad relationship between gender and media. Moves beyond associating gender with man/woman and instead considers the relationship between the construction of gender norms, biological sex and the mediation of sex and sexuality. Offers genuinely new insights into the complicated and complex set of relations which exist between gender, sex, sexualities and the media. Essay topics range from the continuing sexism of TV advertising to ways in which the internet is facilitating the (re)invention of our sexual selves.

Gender and Qualitative Methods-Helmi Järveluoma 2003-10-21 Gender and Qualitative Methods outlines the practical and philosophical issues of gender in qualitative research. Taking a social constructionist approach to gender, the authors emphasize that the task of the researcher is to investigate how gender/s is/are defined, negotiated and performed by people themselves within specific situations and locations. Each chapter begins with an introduction to a specific method and/or research subject and then goes on to discuss gender as an analytical category in relation to it. Areas covered include: field work; life story; membership categorisation analysis; and analysis of gender in sound and vision. Written in a clear and accessible way, each chapter contains practical exercises that will teach the student methods to observe and analyze the effects of gender in various texts and contexts. The book is also packed with examples taken from women and men's studies as well as from feminist and other gender studies.

Handbook of the Social Psychology of Inequality-Jane D. McLeod 2014-08-18 This volume provides the first comprehensive overview of social psychological research on inequality for a graduate student and professional audience. Drawing on all of the major theoretical traditions in sociological social psychology, its chapters demonstrate the relevance of social psychological processes to this central sociological concern. Each chapter in the volume has a distinct substantive focus, but the chapters will also share common emphases on: • The
unique contributions of sociological social psychology • The historical roots of social psychological concepts and theories in classic sociological writings • The complementary and conflicting insights that derive from different social psychological traditions in sociology. This Handbook is of interest to graduate students preparing for careers in social psychology or in inequality, professional sociologists and university/college libraries.

The Handbook of Discourse Analysis-Deborah Schiffrin 2008-04-15 The Handbook of Discourse Analysis makes significant contributions to current research and serves as a comprehensive and authoritative guide to the central issues in contemporary discourse analysis. Features comprehensive coverage of contemporary discourse analysis. Offers an overview of how different disciplines approach the analysis of discourse. Provides analysis of a wide range of data, including political speeches, everyday conversation, and literary texts. Includes a varied range of theoretical models, such as relevance theory and systemic-functional linguistics; and methodology, including interpretive, statistical, and formal methods Features comprehensive coverage of contemporary discourse analysis.

The Oxford Handbook of Gender and Politics-Georgina Waylen 2013-04-04 The Oxford Handbook of Gender and Politics brings to political science an accessible and comprehensive overview of the key contributions of gender scholars to the study of politics, and it shows how these contributions produce a richer understanding of polities and societies.

Handbook of Research in the Social Foundations of Education-Steven Tozer 2011-07-05 Parts one and two of this volume present the theoretical lenses used to study the social contexts of education. These include long-established foundations disciplines such as sociology of education and philosophy of education as well as newer theoretical perspectives such as critical race theory, feminist educational theory, and cultural studies in
education. Parts three, four, and five demonstrate how these theoretical lenses are used to examine such phenomena as globalization, media, popular culture, technology, youth culture, and schooling. This groundbreaking volume helps readers understand the history, evolution, and significance of this wide-ranging, often misunderstood, and increasingly important field of study. This book is appropriate as a reference volume not only for scholars in the social foundations of education but also for scholars interested in the cultural contexts of teaching and learning (formal and informal). It is also appropriate as a textbook for graduate-level courses in Social Foundations of Education, School and Society, Educational Policy Studies, Cultural Studies in Education, and Curriculum and Instruction.
