Anathemas And Admirations Emil Cioran
Anathemas and Admirations-E. M. Cioran 2012-11-13 In this collection of essays and epigrams, E.M. Cioran gives us portraits and evaluations—which he calls "admirations"—of Samuel Beckett, Jorge Luis Borges, F. Scott Fitzgerald, the poet Paul Valery, and Mircea Eliade, among others. In alternating sections of aphorisms—his "anathemas"—he delivers insights on such topics as solitude, flattery, vanity, friendship, insomnia, music, mortality, God, and the lure of disillusion.

The Trouble with Being Born-E. M. Cioran 2013-02-01 “A love of Cioran creates an urge to press his writing into someone’s hand, and is followed by an equal urge to pull it away as poison.”—The New Yorker In this volume, which reaffirms the uncompromising brilliance of his mind, Cioran strips the human condition down to its most basic components, birth and death, suggesting that disaster lies not in the prospect of death but in the fact of birth, "that laughable accident." In the lucid, aphoristic style that characterizes his work, Cioran writes of time and death, God and religion, suicide and suffering, and the temptation to silence. Through sharp observation and patient contemplation, Cioran cuts to the heart of the human experience. "In the company of Nietzsche and Kierkegaard."—Publishers Weekly "No modern writer twists the knife with Cioran's dexterity... . His writing... is informed with the bitterness of genuine compassion."—Boston Phoenix

All Gall Is Divided-E. M. Cioran 2019-07-02 Now in paperback, an "antidote to a world gone mad for bedside affirmation" (Washington Post). E. M. Cioran has been called the last worthy disciple of Nietzsche and "a sort of final philosopher of the Western world" who "combines the compassion of poetry and the audacity of cosmic clowning" (Washington Post). All Gall Is Divided is the second book Cioran published in French after moving
from his native Romania and establishing himself in Paris. It revealed him as an aphorist in a long tradition descending from the ancient Greeks through La Rochefoucault but with a gift for lacerating, subversively off-kilter insights, a twentieth-century nose for the absurdities of the human condition, and what Baudelaire called "spleen." The aphorisms collected here address themes from the atrophy of utterance and the condition of the West to the abyss, solitude, time, religion, music, the vitality of love, history, and the void. The award-winning poet and translator Richard Howard has characterized them as "manic humor, howls of pain, and a vestige of tears," but, as he notes too, in these expressions of the philosopher's existential estrangement, there glows "a certain sweetness for all of what Cioran calls 'amertume.'"

Schopenhauer's 'The World as Will and Representation'-Robert L. Wicks 2011-03-24 Schopenhauer's The World as Will and Representation is widely considered to be one of the most important and influential texts in nineteenth-century German philosophy. The text provides an avenue through which to introduce and explore a rich assortment of philosophical themes and questions, and represents Schopenhauer's widely discussed attempt to find personal meaning amidst a violent, frustrating and seemingly godless world. Since it was published in 1818, the text has influenced generations of musicians, artists, writers and historians, as well as philosophers. This Reader's Guide presents a concise and accessible introduction to the text, offering invaluable guidance on: - Philosophical context - Key themes - Reading the text - Reception and influence - Further reading

Formal Revolution in the Work of Baudelaire and Flaubert-Kathryn Oliver Mills 2012-03-22 In Formal Revolution in the Work of Baudelaire and Flaubert, Kathryn Mills argues that despite the enduring celebrity of Baudelaire and Flaubert, their significance to modern art has been misunderstood. Mills places Le Spleen de Paris and Trois contes, their authors' relatively less well-known but last published works, in relationship with the times and artistic goals of Baudelaire and Flaubert, showing that these seminal authors literally sought to “come to terms with” the changes transforming the nineteenth-century into the modern age by forging a new form for literature.
Quotology-Willis Goth Regier 2010-10

Erasmus advised readers to learn quotations by heart and copy them everywhere: write them in the front and back of books; inscribe them on rings and cups; paint them on doors and walls, even on the glass of a window. Emerson noted that in Europe, every church is a kind of book or bible, so covered is it with inscriptions and pictures. In Arabic script as tall as a man, the Koran is quoted on the walls and domes of mosques. We quote to admire, provoke, commemorate, dispute, play, and inspire. Quotations signal class, club, clique, and alma mater. They animate wit, relay prophecies, guide meditation, and accessorize fashion. In Quotology Willis Goth Regier draws on world literature and contemporary events to show how vital quotations are, how they are collected and organized, and how deceptive they can be. He probes all these aspects, identifying fifty-nine types of quotations, including misquotations and anonymous sayings. Following the logic of quotology, Quotology concludes with famous last words.

The Time is Now. Essays on the Philosophy of Becoming-Douglas ALLEN 2020-12-10

The time for what? The title of Mihaela Gligor’s edited collection is wonderfully flexible, as anything having to do with time should be. There is something not only boundless about time, but also raw and untamed. In its pure form, time would be too much for us to handle. We would be crushed by the sheer immensity of it, or else we would lose our minds trying to make sense of such unmediated time. Luckily, for the most part we don’t experience time in its pure form. Time comes to us already processed: shaped, engineered, tamed. The volume does fine justice to the notion that we experience time as already shaped by religion, politics, and culture. Whether its contributions cover religious or political figures, philosophers or poets, mystics or physicists, they show – sometimes explicitly, sometimes more discreetly – how difficult it is to deal with time in a pure, unmediated form. The contributors’ cultural, religious, and intellectual rooting inform the way think about time, just as about
anything else. Which, far from being a weakness, is something to be recognized and celebrated. (Costică Brădățan, Texas Tech University, U.S.A.)

The Pastoral Clinic-Angela Garcia 2010-06-08 The Pastoral Clinic takes us on a penetrating journey into an iconic Western landscape—northern New Mexico’s Española Valley, home to the highest rate of heroin addiction and fatal overdoses in the United States. In a luminous narrative, Angela Garcia chronicles the lives of several Hispanic addicts, introducing us to the intimate, physical, and institutional dependencies in which they are entangled. We discover how history pervades this region that has endured centuries of social inequality, drug and alcohol abuse, and material and cultural dispossession, and we come to see its experience of the opioid epidemic as a contemporary expression of these conditions, as well as a manifestation of the human desire to be released from them. With lyrical prose, evoking the Española Valley and its residents through conversations, encounters, and recollections, The Pastoral Clinic is at once a devastating portrait of immigration and addiction, a rich ethnography of place, and an eloquent call to political activists, politicians, and medical professionals for a new ethics of substance abuse treatment and care.

Encyclopedia of Modern French Thought-Christopher John Murray 2013-01-11

In this wide-ranging guide to twentieth-century French thought, leading scholars offer an authoritative multi-disciplinary analysis of one of the most distinctive and influential traditions in modern thought. Unlike any other existing work, this important work covers not only philosophy, but also all the other major disciplines, including literary theory, sociology, linguistics, political thought, theology, and more.

"A fierce absolutist, a furious theocrat... the champion of the hardest, narrowest, and most inflexible dogmatism... part learned doctor, part inquisitor, part executioner." Thus did Émile Faguet describe Joseph-Marie de Maistre (1753–1821) in his 1899 history of nineteenth-century thought. This view of the influential thinker as a reactionary has, with little variation, held sway ever since. In The French Idea of History, Carolina Armenteros recovers a very different figure, one with a far more subtle understanding of, and response to, the events of his day. Maistre emerges from this deeply learned book as the crucial bridge between the Enlightenment and the historicized thought of the nineteenth
century. Armenteros demonstrates that Maistre inaugurated a specifically French way of thinking about past, present, and future that held sway not only among conservative political theorists but also among intellectuals generally considered to belong to the left, particularly the Utopian Socialists. The historical rupture represented by the French Revolution compelled contemporaries to reflect on the nature and meaning of history. Some who remained religious during those years felt history with particular intensity, awakening suddenly to the fear that God might have abandoned humankind. This profound spiritual anxiety emerged in Maistre’s work: under his pen, everything—knowledge, society, religion, government, the human body—had to be historicized and temporalized in order to be known. The imperative was to end history by uncovering its essence. Socialists, positivists, and traditionalists drew on Maistre’s historical ideas to construct the collective good and design the future. The dream that history held the key to human renewal and the obliteration of violence faded after the 1848 revolutions, but it permanently changed French social, political, moral, and religious thought.

On and Off the Page—Ari J. Adipurwawidjana 2009-03-26 This collection of essays, comprised of research first presented at the seventh annual Louisiana Conference on Literature, Language, and Culture, explores one of the most pervasive, vexing, and alluring concepts in the Humanities, that of place. Including essays which encompass a broad range of research fields and methodologies, from Geography to Cybernetics, it presents a cross-section of approaches aimed revealing the complex cultural machinations behind what once may have seemed a static, one-dimensional topic. Investigations into the function of place as a force in contemporary culture inevitably reveal a long history of the interplay between place and cultural product, between ‘context’ and ‘text’. Just as traditional cultures mythologize sacred spaces, so too has Western culture sanctified its own places through its literature. Imagined places such as Faulker’s Yoknapatawpha or Joyce’s Dublin become the focus of conferences and festivals; authors’ homes, birthplaces, and gravesites are transformed into sites of pilgrimage; locales created for television shows and movies become actual businesses catering to a public for whom the line between fantasy and reality is increasingly blurred; and persisting through the great cultural
shifts of the past two hundred years is the popular and romantic notion that words, performances, narratives, and even national identities are always in some way an expression of the places in which they are created and set. With the idea of place foregrounded in so much contemporary discourse, this collection promises to enter into an already lively debate and one which, due to its relevance to where we live and how we make sense of our own “places” within them, does not show any signs of flagging.

On the Heights of Despair - E. M. Cioran 1992-06-15 It presents us with the youthful Cioran, who described himself as "a Nietzsche still complete with his Zarathustra, his poses, his mystical clown's tricks, a whole circus of the heights." It also presents Cioran as a connoisseur of apocalypse, a theoretician of despair. For Cioran, writing and philosophy are closely related to physical suffering: both share the "lyrical virtues" that alone lead to metaphysical revelation. The result is a book that becomes a substitute for as well as an antidote to suicide. By enacting the struggle of the Romantic soul against God, the universe, and itself, Cioran releases a saving burst of lyrical energy that carries him safely out of his desperation. On the Heights of Despair shows the philosopher's first grappling with themes he would return to in his mature works: despair and decay, absurdity and alienation, futility and the irrationality of existence.

The Fighter - Tim Parks 2007 One of Britain's outstanding novelists, Tim Parks has also published two acclaimed essay collections, Adultery and Other Diversions and Hell and Back. This new volume finds him as provocative and entertaining as ever. The title piece addresses D.H. Lawrence's fundamental belligerence and how all the significant relationships in his life, including those with his readers and critics, were characterized by intense intimacy and ferocious conflict. Elsewhere there are literary essays on tension and conflict in the work of Beckett and Hardy, Bernhard and Dostoevsky, amongst others. Parks is also known for his acerbic chronicles of Italian life and here are essays on Mussolini, Macchiavelli and the Medici. Besides discussing questions of history, politics and literature, The Fighter also takes on the serious issue of World Cup football.

Romania-Peter Siani-Davies 1998 The Revolution of 1989 dramatically brought Romania to international prominence as an absorbed world watched the bloody aftermath of the overthrow of Nicolae Ceausescu live in television. These pictures of violence were soon joined by others, including those depicting the plight of children placed in state care, which brutally revealed the extent of the country’s suffering under Communism.

Cioran – A Dionysiac with the voluptuousness of doubt-Ion Dur 2019-08-31 Since its inception philosophical thought has been fixated by death. Death, as much as life, has been the unrelenting driving force behind some of history’s greatest thinkers. Yet, for Emil Cioran, a Romanian-French philosopher, even philosophy cannot attempt to understand nor contain the inevitable unknown. Considered to be an anti-philosopher, Cioran approached and reflected on the human experience with a despairing pessimism. His works are characterised by a brooding, fatalistic temperament that reveals and defines itself in his irony, black humour and inimitable style. Although Cioran’s later works have received much scholarly recognition, little attention has been paid to the texts he wrote in his adolescent. Grounded in the historical context of interwar Romania, this book presents for the first time an analysis of the little-known works of this pioneering Romanian thinker. Deeply affected by his upbringing, this book offers a glimpse into Cioran’s first attempts to delve into philosophical enterprise, before turning its attention to his later works, On the Heights of Despair (1934), The Transfiguration of Romania (1936) and Twilight of thoughts (1940; written in France). Using both the French and Romanian editions of these works, but also their original manuscripts, this volume seeks to provide a re-reading that takes language rather than a social or political critique as its focal point. As an important and provocative contribution to the existing literature on Cioran, this book will be an essential point of reference for students and researchers, alike.
Weird Mysticism-Brad Baumgartner 2020-11-17 Weird Mysticism identifies and evaluates a new category of theoretical inquiry by showing the influence of speculative writing on three intersecting critical categories: horror fiction, apophatic mysticism, and philosophical pessimism. Exploring the work of Thomas Ligotti, Georges Bataille, and E. M. Cioran, Baumgartner argues that these “weird mystics” employ an innovative mode of negative writing that seeks to merge new conceptions of reality. While exploring perennial questions about “the absolute,” the Outside, and other philosophical concepts, these authors push the limits of representation, experimenting with literary form, genre-bending, and aphoristic discourse. As their works reveal, the category of weird mysticism both conjoins and obscures the link between traditional mysticism and philosophical horror fiction, with weirdness itself being the central magnet that draws the seemingly disparate realms of horror fiction, philosophy, and mysticism together. Highlighting the theoretical stakes of the horror genre, Baumgartner’s study reveals how the mystical potentially recuperates the limits of philosophical thinking, enabling reflection on—and possibly challenging—the limits of human understanding.
