one system into textual explanations of how other systems work. These system relationships are also covered in “Integrate: Concept Connection” boxes. All figures are carefully designed to support the text narrative, and carry brief textual explanations to make figures self-contained study tools. Special “Concept Overview” figures in each chapter tie together multi-faceted concepts in 1- or 2-page visual summaries. Applications are presented in “Integrate: Clinical View” boxes to apply chapter content using clinical examples that show students what can go wrong in the body, to help crystallize understanding of the “norm.” Clinical Thinking questions in “What Do You Think?” engage students in applying an analytic approach to encourage students to think about chapter content. ‘What Did You Learn’ are mini self-tests at the end of each section that assess whether students have a sufficient grasp of the content before moving on. End-of-chapter “Challenge Yourself” assessments include ‘Do You Know the Basics’, ‘Can You Apply What You’ve Learned?’, and “Can You Synthesize What You’ve Learned?” question sets. Career opportunities pursued by students studying A&P are highlighted at the beginning of each chapter. Everyday analogies and practical advice for remembering material are presented in “Integrate: Learning Strategy” boxes. Chapters end with a summary of media tools available to help learn each chapter’s content. Users who purchase Connect Plus receive access to the full online eBook version of the textbook.
