Carnal Knowledge-Charles Hodgson 2015-02-03 From head to toe to
Anatomy Dictionary

Breast to behind, Charles Hodgson's Carnal Knowledge is a delightfully intoxicating tour of the words we use to describe our bodies. Did you know: -eye is one of the oldest written words in the English language? -callipygian means "having beautiful buttocks"? -gam, a slang word for "leg," comes from the French word jambe? A treat for anyone who gets a kick out of words, Carnal Knowledge is also the perfect gift for anyone interested in the human body and the many (many, many) ways it's been described.
