Literature into Film-Lind Costa Cahir 2014-12-24 For most people, film adaptation of literature can be summed up in one sentence: “The movie wasn’t as good as the book.” This volume undertakes to show the reader that not only is this evaluation not always true but sometimes it is intrinsically unfair. Movies based on literary works, while often billed as adaptations, are more correctly termed translations. A director and his actors translate the story from the written page into a visual medium in a manner that is different from the original text. The dramatic structure is altered to accommodate the limitations of the medium, and the character development is often simplified. This book will help readers understand the relationships between such movies and the original texts as well as the reader’s own individual responses to these productions. To that end, the film scholar discusses and appreciates the many screenplays and films that are translated from the stage or the book. The book is a lively, nuanced, and absorbing look at a world of screenplays and screenwriters.

Utilizing this dialectical process the author demonstrates its particular application to the writing of a screenplay, which should not be considered a simple schematic or formulaic blueprint but legitimate dramatic literature.

At the same time, Columbia is marking a significant year in its history: its 90th birthday. At Columbia Pictures, Frank Capra was the guiding spirit during the studio’s early years, while his successor, David O. Selznick, pushed the studio to new heights in the late 1930s and early 1940s. In this century, Columbia Pictures has taken on new challenges and opportunities with its involvement in such projects as The King of Queens, the Charlie’s Angels franchise, and the Spider-Man series. The book also includes step-by-step writing exercises, annotated extracts from horror screenplays and genre. This book examines the success of Universal Studio’s franchises of the 30s to the Serial Killer, the Slasher film, Asian Horror, the Supernatural, Horror Vérité and screenwriters. Though the genre is often maligned, it is huge in popularity and its resilience is undeniable. Marc Blake and Sara Bailey offer a detailed analysis of this genre, including its subgenres, tropes and the specific requirements of the horror screenplay. Tracing the development of the horror film from its beginnings in German Expressionism, the authors engage in a readable style that will appeal to anyone with a genuine interest in the form and the mechanics of the genre. Dramatic Story Structure-Edward J. Fink 2014-01-03 A successful screenplay starts with an understanding of the fundamentals of dramatic story structure. In this part of the book, Fink considers the formation of a story, the six basic elements of drama from Aristotle’s Poetics (plot, character, theme, dialogue, sound, and spectacle), the theory and structure of comedy, as well as the concepts of unity, metaphor, style, universality, and catharsis. Key terms and discussion questions encourage readers to think about and understand the compelling storylines and form them into narrative, and script formatting guidelines help you ensure your finished product looks polished and professional. Dramatic Story Structure is an essential resource not only for aspiring screenwriters, but also for students and professionals in need of a refresher on the building blocks of storytelling.
