Prima Scriptura-N. Clayton Croy 2011-04-01 In this volume an expert teacher of the Bible provides an introduction to New Testament exegesis that will appeal to students across the spectrum. Clayton Croy begins with the preparation of the interpreter, proceeds to analysis of the text, and concludes with appropriation of the message of Scripture in the context of modern faith communities. He combines a step-by-step plan for historical exegesis with substantive discussion of broader hermeneutical issues. The book interacts with recent scholarship and is academically rigorous but is written in an engaging style, incorporating anecdotes, humor, scriptural illustrations, and examples of the practical payoff of disciplined interpretation. Each chapter includes discussion questions and suggestions for further reading.

Interpreting the New Testament-Hans Conzelmann 1988 "This is not an ordinary 'Introduction' but a manual for exegetical work written for the serious student of the New Testament. Rather than suggesting some easily accessible generalities, the book challenges the readers to apply themselves to the texts, and it will guide such efforts step by step as it leads the readers through the methodological rigors of scholarship. In scholarly method it represents the very best that has been developed primarily in the work of German biblical interpretation over the last hundred years. But it is not theory of exegesis that is taught; it is applied exegesis, exegetical praxis. Those who will follow the advice which this book gives will be richly rewarded as they become more conversant with the living voice of the gospel that is enshrined in the words, phrases, and sentences of Scripture."

Helmut Koester, Harvard University, The Divinity School "This unique and comprehensive handbook will be a boon to any serious student of the New Testament. The authors are expert guides to the current state of research as well as to the tasks and methods of exegesis."

A Critical Introduction to the New Testament-Carl R. Holladay 2011-07-01 This book introduces the New Testament in two senses: it not only provides basic literary and historical information on each of the twenty-seven writings but also orients readers to the religious, theological, and ethical issues related to the message and meaning of Jesus Christ. The overall goal is to help interested readers of the New Testament become informed, responsible interpreters of these writings and thereby enrich their personal faith and understanding. By giving special emphasis to how the New Testament has helped shape the church's identity and theological outlook throughout the centuries, as well as the role it has played within the broader cultures of both East and West, this introduction also seeks to assist readers in exercising creative, informed leadership within their own communities of faith and in bringing a deeper understanding of early Christianity to their conversations with the wider public. Along with separate chapters devoted to each New Testament writing, there are chapters exploring how this collection of texts emerged as uniquely authoritative witnesses to the church's faith; why they were recognized as canonical whereas other early Christian writings were not; how the four canonical Gospels are related to one another, including a discussion of the Synoptic Problem; how the Jesus tradition—his teachings, his teachings and the accounts of his suffering, death and resurrection—originated and developed into Gospels written in narrative form; and how the Gospels relate to Jesus Christ as he was and is. Also included is a chapter on the writings of Paul and how they emerged as a collection of authoritative texts for the church. This chapter includes a discussion of ancient letter-writing, special considerations for interpreting the Pauline writings, and Paul's decisive influence within the history of the church and western culture.

From Consensus to Chaos: An Historical Analysis of Evangelical Interpretation of 1 Timothy 2:8-15 from 1950-2015 and a New Evangelical Interpretation-Stephen P. Dray 2006-11-22 Evangelical interpretation of 1 Timothy 2:8-15 (certainly at the level of detail) has, in the period from 1945 to 2001, changed from one of received consensus to confused plurality. This thesis provides an explanation of this phenomenon by identifying and analysing the influences within evangelical interpretation that contributed to and shaped it. The first part of the thesis (Section A) is foundational. It establishes the validity of using the term Evangelical as an heuristic concept and provides, by means of a wide-ranging and unique analysis of published discussions of 1 Timothy 2:8-15, the necessary evidence to demonstrate the changes that took place. The major part of the thesis (Sections B and C) provides, for the first time, a detailed investigation of these changes. This is undertaken with a view to establishing: (i) the factors that contributed to establishing the early consensus, (ii) the circumstances which acted as catalysts to review and on-going change, and (iii) the developments which shaped the manner in which discussion subsequently took place and which contributed to the plethora of contemporary interpretations of 1 Timothy 2:8-15. In doing so it adopts a methodology which self-consciously combines both diachronic and synchronic approaches and is thus able (a) to isolate more effectively major trends and their development and (b) to provide a framework for a more rigorous analysis. The resulting study concludes (Section D) that evangelical interpretation of 1 Timothy 2:8-15 for the period from 1945 to 2001 was embedded in and shaped by contemporary social and ecclesiastical changes and by its own internal dynamics as it responded to these developments. In particular, differing responses to emerging theological, linguistic, historical and cultural discussions and to contemporary hermeneutical debates have proved decisive. While two broadly distinguishable (and conflicting) approaches developed, they spawned a plethora of different exegetical options and variant interpretations.

The Text of the New Testament in Contemporary Research-Bart D. Ehrman 2012-11-09 The Text of the New Testament in Contemporary Research provides up-to-date discussions of every major aspect of New Testament textual criticism. Written by internationally acknowledged experts, the twenty-four essays evaluate all significant advances in the field since the 1950s. Changing the Goalpost of New Testament Textual Criticism-Abidan Paul Shah 2020-10-02 Before the 1960s, the goal of New Testament Textual Criticism was singular: to retrieve the “original text” of the New Testament. Since then, the goalpost has incrementally shifted away from the “original text” to retrieving “any text” or “many texts” of the NT. Some scholars have even concluded that the “original text” is hopelessly lost and cannot be retrieved with any confidence or accuracy. Other scholars have gone a step further to claim that the idea of an “original text” itself is a misconception that needs to be abandoned. If this new approach in NTTC, then, is critical and the authority of Scripture is weakened or no longer valid. It will be shown in this book that such is not the case. Furthermore, emphasis will be placed on the need to return to the traditional goalpost of NTTC, i.e., to retrieve the original text. Without a generally definitive text, the door will be left wide open to recreate any desired text of the NT. An unsettled original text will result in an unsettled biblical theology due to a lack of any authoritative and standard text. Consequently, it will lead to an unsettled Christian faith and practice.

Who are the Elect in 1 Peter?-Stephen Ayodeji A. Fagbemi 2007 The relationship between theology and praxis is an important subject that requires further attention from biblical scholars. As the need for social theology or praxis increases, so does the challenge for it to be informed by sound biblical exegesis. This book explores the interplay between theology and praxis using the Christian identity of the elect in 1 Peter as a paradigm. Who are the elect and what is the significance of the identity in 1 Peter? This study employs an exegetical hermeneutical approach to underline the ‘present’ ethical dimension of this identity with its implicit missionary purpose, not only within the first century but also in the twenty-first century as a necessary corollary of the identity. 1 Peter is applied to a twenty-first century context - the Nigerian Anglican Church - to underline the importance of 1 Peter but also raises important challenges that no ‘living church’ can afford to ignore. It is suitable for use in biblical studies, NT interpretation and applied theology, and African Christian studies, especially on the transition from missions to churches in Nigeria.

Interpreting the Old Testament after Christendom—Jeremy Thomson

How would you describe the Old Testament? Offensive, violent, patriarchal, archaic; difficult, boring, obsolete? Many Christians don’t bother with it anymore. Yet these ancient books were in Jesus’ lifeblood, and they provided the thought-world of those early followers who wrote about him in what became the New Testament. This book challenges those stereotypes of Israel’s Scriptures by exploring their significance in the apostolic writings and by demonstrating the importance of whole books for nuanced interpretation. It takes readers on a tour through four key books before considering the wider issues of interpretation that readers must consider in order to hear God’s Spirit speaking afresh to a range of contemporary concerns, including racism and the environment.

Interpreting the New Testament—Daniel J. Harrington

This introduction to New Testament exegesis helps readers by explaining in a simple and brief way the basic literary methods used in studying the New Testament today: textual criticism, translations, words and motifs, source criticism, form criticism, historical criticism, redaction criticism, and parallels. It is a beginner’s book, designed to make explicit some of the procedures now used by the commentators who have had formal exegetical training.

Interpreting New Testament Narratives—Eric J. Douglass

In Interpreting New Testament Narratives, Eric Douglass examines how narratives function as communication from the author. After locating the text in the worldview of the intended audience, readers create meaning by entering and experiencing the events of the narrative world.

Between Two Horizons—Joel B. Green

This book constructively explores the question: What effects should an interest in theology produce in the reading of Scripture? Since the onset of historical consciousness in biblical studies over two centuries ago, the work of biblical exegetes and systematic theologians have largely followed two paths. In this book, nine prominent scholars work to bridge the longstanding gap between biblical studies and theology by concentrating on the nature of a biblical hermeneutics approach to doing theology. The range of concerns presented by these scholars seeks to reintegrate biblical exegesis with contemporary theology in the service of the church.

Narrative Reading, Narrative Preaching—Joel B. Green

There is often an unfortunate division between the technical work of biblical scholars and the practical work of preachers who construct sermons each week. These two fields of study, which ought to be mutually informed and supportive, are more often practically divided by divergent methods, interests, and goals. Narrative Reading, Narrative Preaching aims to bridge that divide. Using narrative as an organizing theme, the contributors work through the New Testament offering examples of how interpretation can rightly inform proclamation. Three pairs of chapters feature an exemplary reading by a New Testament scholar followed by a sermon informed by that reading. Introductory and concluding chapters provide guidance for application of the model. Pastors and seminarians will find here a uniquely practical work that will help them with both the reading and preaching of Scripture.
