Some Thoughts concerning Education. [By John Locke.]- 1693 Presents an online version of "Some Thoughts Concerning Education," an education manual written by English philosopher John Locke (1632-1704), published online as part of the History of Education site of the University of Nijmegen.

Une philosophie de l'éducation-Jean-François Baillon 2005 Les Thoughts Concerning Education de Locke font figure d'œuvre mineure. Pourtant, leur place dans l'histoire des idées doit être révisée. En Angleterre, la pensée pédagogique de Locke commente le passage d'un système de valeurs aristocratique à celui d'une nouvelle classe dirigeante dont les visées utilitaristes s'accordent mal avec les valeurs morales que Locke défend. Cette pensée est liée au reste de l'œuvre : s'appuyant sur les fondements psychologiques élaborés dans l'Essai sur l'entendement humain, elle est solidaire de l'analyse politique des Deux traités et de la place croissante de la religion dans l'œuvre de Locke. C'est aussi dans sa biographie que naissent des réflexions qui constituent un sommet de la pensée pédagogique européenne. Ces réflexions connaîtront au siècle suivant un succès qui justifie la réputation de Locke comme inspirateur des Lumières européennes.

John Locke - Some thoughts concerning education-Patricia Möller 2004-07-18 Seminar paper from the year 2002 in the subject American Studies - Literature, grade: 1- (A-), University of Frankfurt (Main) (IEAS), course: Englisch Seminar - John Locke, Didaktik, 4 entries in the bibliography, language: English, abstract: "If they come not to their books with some kind of liking and relish, it is no wonder their thoughts should be perpetually shifting from what disgusts them, and seek better entertainment in more pleasing objects after which they will unavoidable be gadding." 1 John Locke's "Some Thoughts Concerning Education" occupies an important place in the history of educational theory 2 , though only a scanty reference can be made to it here. The aim of that work is to point out Locke's basic ideals concerning the human race and in how far education needs careful consideration. Furthermore it should become clear which methods John Locke prefers and in how far they are useful for reality, nowadays and also in the past. In order to find out the important aspects there will be first of all given a brief biography of John Locke so that it will become possible to reconstruct the activities in his life and how they influenced his writings, especially the work that should be discussed here in the first place.
