

John Of Damascus On The Quran

An Exact Exposition of the Orthodox Faith-John of Damascus 2012-02-16 "Concerning the Orthodox Faith", the third book of the "Fountain of Wisdom", is the most important of John Damascene's writings and one of the most notable works of Christian antiquity. Its authority has always been great among the theologians of the East and West. Here, again, the author modestly disavows any claim of originality - any purpose to essay a new exposition of doctrinal truth. He assigns himself the less pretentious task of collecting in a single work the opinions of the ancient writers scattered through many volumes, and of systematizing and connecting them in a logical whole. It is no small credit to John of Damascus that he was able to give to the Church in the eighth century its first summary of connected theological opinions.

Three Treatises on the Divine Images-Saint John (of Damascus) 2003 In AD 726, the Byzantine emperor ordered the veneration of all icons, or religious images, throughout the empire, and icons were subject to an imperial ban that was to last, with a brief remission, until AD 843. A defender of icons, St John of Damascus wrote three treatises against "those who attack the holy images." He differentiates between the veneration of icons, which is a matter of expressing honor, and idolatry, which is offering worship to something other than God.

Writings-Saint John (of Damascus) 2012-02-28 St. John of Damascus (John Damascene) is the author of the "Exact Exposition of the Orthodox Faith" ("On the Orthodox Faith"), included in this volume. Standing among the greatest of the early Church fathers of the East during the patristic age, he produced his work The Fount of Knowledge as a summary of Christian philosophy and theology. Encompassing "The Philosophical Chapters," "On Heresies," and the justly-famous "Exact Exposition of the Orthodox Faith," it is one of the most important works of the Greek patristic age—a veritable Summa of the doctrine of the Eastern fathers. This Ex Fontibus edition reprints the excellent twentieth-century translation by patristics scholars who contributed to a series published by Catholic University of America press. (Ex Fontibus Co.)

(Greek Ιωαννης ο Δαρσακηρος) - revered saint, one of the Church Fathers, theologian and hymnographer. He bore the hereditary nickname Mansur ("victorious"). His father Sergius (Ibn-Serjun) served at the caliph's court in Damascus with the title of "great dogofet," a tax collector. Subsequently, he was replaced by John himself.According to legend, he studied with Cosma (later of Mayumsk) with a captive monk from Calabria (also named Cosma). About 736 he was tonsured at the monastery of St. Sava near Jerusalem. Known as the largest systematizer of Christian dogma; he owns the fundamental work "The Source of Knowledge", which includes the philosophical ("Dialectics"), accusatory ("On heresies") and dogmatic ("Exact exposition of the Orthodox Faith") sections. During the period of iconoclasm, he advocated the veneration of icons, the author of "Three Defensive Words in Support of Icon veneration," in which iconoclasm is understood as a heresy of heresy, and for the first time there is a distinction between "service", befitting only to God, and "worship", provided to created things, icons included. The Iconoclastic Council of 754 anathematized John four times, Church tradition ascribes to John a number of canons that changed the course of Matins, the compilation of the Octoichus and many troparia, kontakia and stichera(s) dedicated to various saints and festive events.One of the types of icons of the Theotokos is associated with the name of John and the famous Mother of God chant "She rejoices about you ...". According to legend, John was falsely accused of high treason and chopped off his right hand. After praying in front of the icon of the Mother of God, the severed brush grew, in gratitude the chant "Rejoices in You ..." was written, and a silver image of the hand was attached to the icon of the Theotokos, which was later reproduced on many copies. This icon received the name "Three-Handed" (Troeruchitsa)The fundamental work "Exact Exposition of the Orthodox Faith" is the first systematic exposition of the Orthodox faith. The work of John of Damascus is still the main symbolic book of Orthodoxy, the main source of the foundations of Christian teaching for the Orthodox Church. This work is the statements of the Monk John concerning the general principles of faith, the Church, morality, morals, a consistent and harmonious examination of the doctrine of God, the Trinity, the creation of the world, angels and demons, visible nature and paradise, about man, his attributes and providence.St. John of Damascus is venerated on December 4 (17). Saint John of Damascus (c. 676 - 4 December 749) was a Syrian Christian monk and priest. Born and raised in Damascus, he died at his monastery, Mar Saba, near Jerusalem. A polymath whose fields of interest and contribution included law, theology, philosophy, and music, before being ordained, he served as a Chief Administrator to the Muslim caliph of Damascus, wrote works expounding the Christian faith, and composed hymns which are still in everyday use in Eastern Christian monasteries throughout the world. The Catholic Church regards him as a Doctor of the Church, often referred to as the Doctor of the Assumption due to his writings on the Assumption of Mary. Janosik 2016-11-08 Much of the world today is convulsed in an epic struggle between the Christian West and Islam. Scholars seeking to understand the issues look back in history to unearth the roots of this conflict. Of great value in this effort are the writings of an eyewitness, a devoted Christian who served as chief financial officer of the Umayyad Empire and wrote at the time Islam was developing. John of Damascus (675-750) authored two major works, the Heresy of the Ishmaelites and the Disputation between a Christian and a Saracen, to provide an apologetic response to Islam from a Christian perspective. His writings shed light on many questions that are pertinent today: When was the Qur'an actually written? What was the role of the powerful caliph Abd al-Malik in the making of Muhammad? How did the theological issues related to the deity of Christ and the Trinity develop in the early days of Islam? This book delves into the life of John and studies his apologetic writings in detail, utilizing the first English translation from the critical text. It seeks to address these questions thoughtfully, provide valuable insights from the past, and then equip today's church as it engages with Islam.

The Sacred Writings of Saint John of Damascus (Annotated Edition)-John of Damascus 2012 "The Sacred Writings Of ..." provides you with the essential works among the Christian writings. The volumes cover the beginning of Christianity until medieval times. This volume is accurately annotated, including * an extensive biography of the author and his life "Concerning the Orthodox Faith", the third book of the "Fountain of Wisdom", is the most important of John Damascene's writings and one of the most notable works of Christian antiquity. Its authority has always been great among the theologians of the East and West. Here, again, the author modestly disavows any claim of originality — any purpose to essay a new exposition of doctrinal truth. He assigns himself the less pretentious task of collecting in a single work the opinions of the ancient writers scattered through many volumes, and of systematizing and connecting them in a logical whole. It is no small credit to John of Damascus that he was able to give to the Church in the eighth century its first summary of connected theological opinions. At the command of Eugenius III it was rendered into Latin by Burgundio of Pisa, in 1150, shortly before Peter Lombard's "Book of Sentences" appeared. This translation was used by Peter Lombard and St. Thomas Aquinas, as well as by other theologians, till the Humanists rejected it for a more elegant one. The author follows the same order as does Theodoret of Cyrus in his "Epitome of Christian Doctrine". But, while he imitates the general plan of Theodoret, he does not make use of his method. He quotes, not only form the pages of Holy Writ, but also from the writings of the Fathers. As a result, his work is an inexhaustible thesaurus of tradition which became the standard for the great Scholastics who followed. In particular, he draws generously from Gregory of Nazianzus, whose works he seems to have absorbed, from Basil, Gregory of Nyssa, Cyril of Alexandria, Leo the Great, Athanasius, John Chrysostum, and Epiphanius. The work is divided into four books. This division, however, is an arbitrary one neither contemplated by the author nor justified by the Greek manuscript. It is probably the work of a Latin translator seeking to accommodate it to the style of the four books of Lombard's "Sentences".

Writings: [The Fount of Knowledge] [by] Saint John of Damascus-Saint John (of Damascus) 1970

John of Damascus-Douglas Ainslie 1903

Perichoresis and Personhood-Charles Twombly 2015-02-05 Perichoresis (mutual indwelling) is a concept used extensively in the so-called Trinitarian revival; and yet no book-length study in English exists probing how the term actually developed in the "classical period" of Christian doctrine and how it was carefully deployed in relation to Christian dogma. Consequently, perichoresis is often used in imprecise and even careless ways. This path-breaking study aims at placing our understanding of the term on firmer footing, clarifying its actual usage in relation to doctrines of God, Christ, and salvation in the thought of John of Damascus, the eighth-century theologian, monk, and hymn writer who gave it its historically influential application. Since John summed up a whole theological tradition, this work provides not only an introduction to his theological vision but also to the key themes of Greek patristic thought generally and thereby lays an essential foundation for those who would dig deeper into the present-day usefulness of perichoresis.

St. John Damascene-Andrew Louth 2002 John Damascene, one-time senior civil servant in the Umayyad Arab Empire, became a monk near Jerusalem in the early years of the eighth century. He never set foot in the Byzantine Empire, yet his influence on Byzantine theology was ultimately determinative, and beyond that his theological work became a key resource for Western theology from Scholasticism to Romanticism. His searching criticism of Imperial Byzantine iconoclasm earned him harsh condemnation from the Byzantine iconoclasts. This is the first book to present an overall account of John's life and work; it makes use of recent scholarship about the transformation of the former Byzantine territories of the Middle East after the seventh-century Arab Conquest, and the new critical edition of the Damascene's prose works. It sets John's theological work in the context of the process of preserving, defining, defending, and also celebrating the Christian faith of the early synods of the Church that took place in the Palestinian monasteries during the first century of Arab rule. John's own contribution is explored in detail: his amazing three-part Fountain Head of Knowledge, which provided the logical tools for arguing theologially, outlined the multifarious forms of heresy, and set out with clarity and learning the fundamental doctrines of Orthodox Christianity; as well as his treatises against iconoclasm, his preaching, for which he was famous in his lifetime, and, the work for which he is most renowned in theOrthodox world, his sacred poetry that still graces the liturgy of the Orthodox Church. The life and thought of this subject of the Arab Caliphs, a Christian monk who thought of himself as a Byzantine, poses intriguing questions about identity in a rapidly changing world, and the deeply traditional nature of his presentation of Christian theology calls for reflection about the relationship between tradition and originality in theology.

St. John of Damascus-J. H. Lupton 2014-04-07 St. John of Damascus is a biography and overview of the writings of one of the Early Church's most important saints, and one considered a Doctor of the Catholic Church. He is also venerated by the Eastern Orthodox churches, who consider him one of the last of the early fathers of the church.

Umayyad Christianity-Najib Awad 2018-12-06 A study of the identity-formation process that the Christians of Syria-Palestine experienced during Umayyad Caliphate. It approaches this subject by using John of Damascus and his writings on Islam as a case-study. This provides an exhaustive study of the available historical data in order to stimulate some further thought on John of Damascus's theology and legacy from a contextual and intercultural methodology. Such an examination has not yet been pursued in the scholarship of Byzantine Christianity during that era. Proceeding from a centralizing 'context', the monograph revisits John of Damascus's legacy (and the Umayyad Christians' identity-formation of that era) from the perspective of his historical, Islamic-Arabic context, and not from any assumed, mita-narrative, common to contemporary pro-Byzantine theology scholars.
