I Was Only Nineteen-John Schumann 2014-02-26 Townsville lined the footpath as we marched down to the quay. This clipping from the paper shows us young and strong and clean. And there's me in my slouch hat, with my SLR and greens. God help me, I was only nineteen. John Schumann's unforgettable lyrics about the Vietnam War are etched in our memories and into our history books. Now they've been warmly brought to life by one of Australia's best-loved illustrators.

The War Within Us-Cory Jones 2021-04-13 I have spoken little of places and times, units, and organizations to be nonspecific to those things. There were many battles and conflicts in Vietnam, some repeatedly fought, year after year, by the United States and other countries as well, before our involvement in it. This book is not an account of anyone's triumphs or any political aspect of whether the war was right or wrong. This writing accounts for conflicts, mental and physical extremes of just one soldier's experience, and the ability to cope with his friends' and enemies' deaths. I never had any enemies in Southeast Asia, just different people on different sides. However, being naive, young, and uninformed about worldly things was undoubtedly a significant handicap when I willingly stepped into this mudhole of life and death here in Vietnam. We should not honor any war but honor the young and older men and women that participated in it, willingly or not. As a born-again Assembly of God Christian young man, it was hard for me to fulfill my military obligations at times. Render to Caesar that are Caesar's and to God the things that are God's. (Matthew 22:21 [KJV]) Let every person be in subjection to the governing authorities. (Romans 13:1 [KJV]) I did not save the war, nor did I contribute to its result, but I did go home with everything I took over there, except innocence. My primary motivation to write this book was Richard Snook, with whom I grew up with, and we were very close. We were going to join the Army and go off to war together as young boys, as we were. He was eleven when he took his own life, and I was twelve. I never got over it and still cry about all that. I have never talked or written about my past life as a young person going to war, and now my present life is coming to an end. I should say something about that time when I was young and naive and went to war. Refer to the song by Peter, Paul, and Mary: "Leaving on a Jet Plane" (1967). Refer to the Australian song by John Schumann: "I Was Only 19" (2006). As in all things past, throughout our lives, like wars, we should not relive them nor forget them, lest we repeat them.

CHANGING SOCIETY CHALLENGES AND STRATEGIES-Dr. B. Venkata Subba Reddy & A. Jyotsna 2016-05-01 The most common view of the relationship between social work and society seems to be the perspective that social work is an intermediary profession, acting between the individual and society. In this intermediary capacity, social work is somehow able to act in ways that are in the best interests of both the individual and society, seeking to empower the individual and to improve society. Critics of social work reject the view of social workers as neutral and objective, and see them rather as agents of social control, largely acting in ways that perpetuate existing inequalities. Social workers are, or can be, agents and catalysts of social change, as intermediaries objectively balancing the pressures of social control and social change.

Down a Country Lane-Gary Blinco 2014-12-26 In the winter of 1948, a poorly educated jack-of-all-trades moved his ever-increasing family to a small vegetable crops' farm on the Darling Downs, in Queensland. They arrived in a horse and wagon to begin an extraordinary life of hardship and challenge in the bush. This book follows the harsh life of poverty that is eclipsed by the threads of dry humour, love and warmth that embraces a large closely-knit family. The living conditions endured are almost primitive, even for the nineteen fifties, as they fight to carve an existence from the land. His father's lingering fight with lung cancer compounds the pain of his own battle, as a National Service Soldier in the Vietnam War. The accounts of the war are graphic and poignant, and could only emerge from one who has experienced the frightening reality of combat.

Highlighted through the suffering and dreams is a mother's undying devotion to her family, as she struggles to raise them, more or less on her own.

A History of Applied Linguistics-Kees de Bot 2015-03-05 This book provides one perspective on how Applied Linguistics has been defined and how the field of Applied Linguistics has developed over the last 30 years.

The author addresses themes like why formal linguistic theories lost so much ground and how the interest in more socially oriented approaches grew? He also addresses the impact of Applied Linguistics on language teaching. Adopting a theme-based approach, the structure of this book is largely defined by the topics covered in interviews with 40 leading international figures selected by the author including Rod Ellis, Diane Larsen-Freeman, Susan Gass, Henry Widdowson, Suresh Canagarajah and Claire Kramsch. These data are supplemented by questionnaires from a further fifty applied linguists, also selected by the author. This will be of interest to anyone studying or researching Applied Linguistics and will also be relevant to those in the related area of English Language Teaching.

Robert Schumann-John Worthen 2010-03-01 This candid, intimate, and compellingly written new biography offers a fresh account of Robert Schumann's life. It confronts the traditional perception of the doom-laden Romantic, forced by depression into a life of helpless, poignant sadness. John Worthen's scrupulous attention to the original sources reveals Schumann to have been an astute, witty, articulate, and immensely determined individual, who—with little support from his family and friends in provincial Saxony—painstakingly taught himself his craft as a musician, overcame problem after problem in his professional life, and married the woman he loved after a tremendous battle with her father. Schumann was neither manic depressive nor schizophrenic, although he struggled with mental illness. He worked prodigiously hard to develop his range of musical styles and to earn his living, only to be struck down, at the age of forty-four, by a vile and incurable disease. Worthen's biography effectively de-mystifies a figure frequently regarded as a Romantic enigma. It frees Schumann from 150 years of mythmaking and unjustified psychological speculation. It reveals him, for the first time, as a brilliant, passionate, resolute musician and a thoroughly creative human being, the composer of arguably the best music of his generation.

Becoming Clara Schumann-Alexander Stefaniak 2021 "Well before she married Robert Schumann, Clara Schumann was already an internationally renowned pianist, and she concertized extensively for several decades after her husband's death. Despite being tied professionally to Robert, Clara forged her own career and played an important role in forming what we now recognize as the culture of classical music. Becoming Clara Schumann guides readers through her entire career, including performance, composition, edits to her husband's music, and teaching. Alexander Stefaniak brings together the full run of Schumann's concert programs, detailed accounts of her performances and reception, and other previously unexplored primary source material to illuminate how she positioned herself within larger currents in concert life and musical aesthetics. He reveals that she was not only an accomplished strategist—having played roughly 1,300 concerts in her 61-year career across western and central Europe—but also played an integral role in shaping the reception of her husband's music. Revolutionary for the time, Schumann earned success and prestige by crafting her own playing style, selecting and composing her own concerts, and acting as her own manager. By highlighting Schumann's navigation of music's gendered boundaries, Becoming Clara Schumann details how she cultivated her public image in order to win over audiences and embody some of her field's most ambitious aspirations for musical performance"--

From Fear to Hope: Alternative Australian Narratives on War and Peacemaking-Pamela Leach 2018-07-10 This book scrutinises 'peace' and 'war' through Australian lenses. It uncovers a deeper understanding of these terms and reflects a desire to bring to light alternative Australian ideas of war and peacemaking. Certain stories have eclipsed others that add importantly to Australia's history. This Quaker initiative considers a plurality of voices and the 'truths' they purport. It unpacks the act of 'memorialising' to discover the marked impact we make in our efforts to hold on to meaning and to our past. What have been the effects of our responses to the maxim 'Lest we forget'?

Out of the House of Darkness-Melanie Tem 2016-05-23 He came from a long line of alxies, addicts, and ne'er-do-wells. Sobriety wasn't enough—he needed a new life. In Out of the House of Darkness, we meet Neil as he works to make up for the decades he lost to severe alcoholism. This isn't a story about getting sober; it's about moving past mere sobriety and consciously creating a fulfilling life out of the shambles.

Dig-David Nichols 2016-10-11 David Nichols tells the story of Australian rock and pop music from 1960 to 1985 - formative years in which the nation cast off its colonial cultural shackles and took on the world.

Generously illustrated and scrupulously researched, Dig combines scholarly accuracy with populist flair. Nichols is an unfailingly witty and engaging guide, surveying the fertile and varied landscape of Australian popular music in seven broad historical chapters, interspersed with shorter chapters on some of the more significant figures of each period. The result is a compelling portrait of a music scene that evolves in dynamic interaction with those in the United States and the UK, yet has always retained a strong sense of its own identity and continues to deliver new stars - and cult heroes - to a worldwide audience. Dig is a unique achievement. The few general histories to date have been highlight reels, heavy on illustration and short on detail. And while there have been many excellent books on individual artists, scenes and periods, and a couple of first-rate encyclopedias, there's never been a book that told the whole story of the irresistible growth and sweep of a national music culture. Until now . . .

International Conference on Education and Management Science (ICEMS2014)- 2014-09-24 2014 International Conference on Education and Management Science (ICEMS2014) will be held in Beijing, China on August 19-20, 2014. The main purpose of this conference is to provide a common forum for researchers, scientists, and students from all over the world to present their recent findings, ideas, developments and application in the border areas of Education and Management Science. It will also report progress and development of methodologies, technologies, planning and implementation, tools and standards in information systems.

Education is an internal topic. It is a process of delivering knowledge in a basic meaning. Humans are hard to define the actual definition of education. But it is the key point for our society to step forward. Management science is the discipline that adapts the scientific approach for problem solving to help managers making informed decisions. The goal of management science is to recommend the course of action that is expected to yield the best outcome with what is available.

The First Marine Captured in Vietnam-Donald L. Price 2007-02-21 This is the first book-length biography of Colonel Donald G. Cook. With background information on Cook's life and prewar career, the book concentrates especially on his three years in captivity, and is the first book exclusively about a Marine POW held in South Vietnam. It covers the ten other POWs under his command, including Sgt. Harold Bennett (the first American POW executed in Vietnam) and Sgt. Issac Camacho (the first American POW to escape in Vietnam). The author outlines the circumstances surrounding Cook's Medal of Honor citation and death.

Throughout, Cook's adherence to the Corps' traditional leadership principles and knowledge of the Code of Conduct are highlighted, and his biography is a unique case study of exemplary leadership under extremely difficult conditions. Nearly 70 photographs are included.

Tiger Heart: A Business Love Story offers both suspense and humor in an unforgettable way.

Poetry Into Song-Deborah Stein 1996-01-04 When Franz Schubert put Goethe's poem "Gretchen am Spinnrade" to music in 1814, he created a musical form that has captivated audiences ever since. In Poetry into Song, Deborah Stein and Robert Spillman challenge readers to seek a richer, more imaginative understanding of Lied - the nineteenth-century German art song. Written for students of voice, piano, and theory and for all singers and accompanists, Poetry into Song establishes a framework for the analysis of song based on a process of performing, listening, analyzing, and performing again. This unique approach emphasizes the reciprocal interaction between performance and analysis. Focusing on the masterworks, Poetry into Song features numerous poetic texts, as well as a core repertory of songs. Examples throughout the text demonstrate points, and end of chapter questions reinforce concepts and encourage directed analysis. While numerous books have been written on Lieder and German Romantic poetry, Poetry into Song is the first to combine performance, musical analysis, textual analysis, and the interrelation between poetry and music in a truly systematic, thorough way.

Bach's Legacy-Russell Stinson 2020 "This book examines how four of the greatest composers of the nineteenth and twentieth centuries-Felix Mendelssohn, Robert Schumann, Richard Wagner, and Edward Elgar-engaged with the legacy of the music of J. S. Bach. It investigates the various ways in which these individuals responded to Bach's oeuvre, not as composers per se, but as performers, conductors, scholars, critics, and
