Mobile Learning in Higher Education in the Asia-Pacific Region-Angela Murphy 2017-07-06 If mobile technologies are to be effectively used in education, how do we best implement sustainable mobile solutions for teaching and learning? The aim of this handbook is to support educators and policy makers who are investing in innovations in digital education to develop effective and sustainable mobile learning solutions for higher education environments. Authors from sixteen countries across the Asia-Pacific region have collaborated to share their experiences with developing and implementing mobile learning initiatives. These projects focus on a variety of aspects of mobile learning innovation, from the trial adoption of existing social media platforms on mobile devices and the development of specialised applications or mobile learning systems, to the large-scale, interuniversity implementation of technologies and pedagogies to support mobile learning. Each chapter addresses challenges and solutions at one or more levels of mobile learning innovation within the education system, encompassing the student perspective, the educator perspective, technical processes, policies and organisational strategy, and leadership. The book also offers a unique perspective on the integration of mobile learning innovations within the educational, political and cultural environments of Asia-Pacific countries.

Dyslexia and Early Childhood-Barbara E. Pavey 2016-02-22 Taking a developmental approach, this accessible text addresses the ever increasing interest in identifying the characteristics of dyslexia in young children and reflects on the best way to reach and support these learners. Drawing upon

current research, the author considers our current understanding of dyslexia and calls upon best practice to advise professionals, students and family members alike who seek to fulfil the potential of young children with, or showing the signs of, dyslexia. This book considers key topics explored in current best practice and dyslexia research, including: the importance of the role of speaking, hearing and understanding language dyslexia in relation to other languages and orthographies dyslexia and overlapping characteristics, particularly dyspraxia the role of play identifying and assessing dyslexia in the early years. Adopting a dyslexia-friendly position, Barbara Pavey acknowledges the ethics associated with a social model of disability, so that the focus is upon modifying teaching and learning, and respecting the views of children and parents throughout. This book includes assessment and practice strategies, good practice points, helpful ideas, first-hand narratives of dyslexia, pointers for further reading, resources and online tools, and will be of enormous practical use to anyone supporting a young child with potential or diagnosed dyslexia. Reading and Learning Difficulties 2nd ed.-Peter Westwood 2016-01-01 The 2nd edition of Peter Westwood's best-selling Reading and Learning Difficulties addresses recent initiatives around the teaching of reading, the value of a phonics-based approach, and international research around

literacy teaching, learning and pedagogy. It presents evidence-based methods for teaching reading skills, looks at the increasing role of technology and online learning in literacy and evaluates the success of literacy interventions implemented in Australia and elsewhere. *Reading and Learning Difficulties* provides guidance on how to develop flexible teaching methods to suit varied ways of learning. By examining the way readers process texts, and identifying the knowledge and skills needed to become a proficient reader, it explains why learning problems can sometimes occur and what can be done to prevent or overcome these difficulties. In his *Learning Difficulties* series, Peter Westwood evaluates, summarises and presents research, strategies and best-practice methodologies for working with students that have learning difficulties in particular subject areas. Rigorous yet accessible, the titles in this series provide teachers with the knowledge, data and direction they need to develop their skills and meet student needs.

Day-to-Day Dyslexia in the Classroom-Rody Politt 2004-06-03 Dyslexia cuts across class, age and intelligence. Language, Literacy and Communication in the Early Years:-Carol Hayes 2016-01-18 This book guides students and practitioners through the wealth of information on cognition and language development by breaking the area down into manageable chunks and drawing these together into a full understanding of the holistic nature of child development. Children with communication difficulties are at risk of poor outcomes educationally, socially and in employability. Whilst there may be a range of interventions which can help children, it is the practice of those working with them that is the key to success. Therefore a firm understanding of communication development and the ability to adapt teaching to support children's individual needs are vital. The text offers a balanced approach to the theories and research into the development and acquisition of language and literacy in the early years. It examines how practice can be improved and the impact that language and literacy development has on learning outcomes. It also, importantly, addresses the particular pedagogy related to bilingual and multilingual learners. Carefully structured activities are provided and the text clearly relates theory to practice. Pedagogical features encourage a questioning,

challenging and reflective approach, promoting critical thinking throughout.

Robert N. Munsch 2020 *Thinking About Literacy*: Discusses the literacy of children in the infant years. The author takes the view that the child is an active learner when he/she arrives in school, and that it is the school's job to build on what the child already knows. The book addresses issues such as spelling, writing, and children talking and writing about moral matters. It has an optimistic view of the potential of children to surprise us with their language and emphasises that literacy is for life, not just for an hour.

Learning Disorders-Peter Westwood 2017-07-04 What are learning disorders? How can schools endeavour to address these disorders in today's inclusive classrooms? This book answers these important questions in practical terms and discusses in detail the instructional needs of students with dyslexia, dysgraphia, dyscalculia, dyspraxia and other significant disorders that affect learning. Peter Westwood draws on international research literature to provide supporting evidence of best practices. The book is unique in linking the teaching methods recommended for overcoming learning problems directly to each of the three tiers of support in the Response-to-Intervention Model. It presents examples of effective whole-class teaching, intensive small group instruction and individual tutoring, as well as addressing key topics such as: educational progress of students with learning disorders; principles for teaching dyslexic students; difficulties with writing and spelling; developing students' numeracy skills; specific intervention strategies; nonverbal learning disabilities. Learning Disorders will be of interest to practising teachers, trainee teachers, teaching assistants, educational psychologists, school counsellors and parents. It will also provide valuable insights for any school planning to upgrade its support system for students with special educational needs.
