Joseph Conrad-Jeffrey Meyers 2001-01-01 Celebrated biographer, Jeffrey Meyers recounts the contradictory, tormented life of Joseph Conrad.

Trilateralism-Holly Sklar 1980 This is a classic work--a highly-readable, wide-ranging study of the Trilateral Commission and the worldwide strategies of Trilateralism. It demystifies national and international events, power, propaganda, and policy making from World War II through the sixties and seventies and into the eighties.

The CIA, the British Left and the Cold War-Hugh Wilford 2013-10-23 Shortly after it was founded in 1947, the CIA launched a secret effort to win the Cold War allegiance of the British left. Hugh Wilford traces the story of this campaign from its origins in Washington DC to its impact on Labour Party politicians, trade unionists, and Bloomsbury intellectuals

War and Diplomacy in East and West-M. B. B. Biskupski 2017-05-12 The New York Times said of Józef Hieronim Retinger that he was on intimate terms with most leading statesmen of the Western World, including presidents of the United States. He has been repeatedly acknowledged as one of the principle architects of the movement for European unity after the World War II, and one of the outstanding creative political influences of the post war period. He has also been credited with being the dark master behind the so-called "Bilderberg Group," described variously as an organization of idealistic internationalists, and a malevolent global conspiracy. Before that, Retinger involved himself in intelligence activities during World War II and, given the covert and semi-covert nature of many of his activities, it is little wonder that no biography has appeared about him. This book draws on a broad range of international archives to rectify that.

Austin Harrison and the English Review-Martha S. Vogeler 2008 "Examining Austin Harrison as editor--his writings and opinions, his public life and relations--Vogeler offers a new perspective on British literary culture and political journalism in the years just before, during, and after the First World War and traces complex relationships between a son and his famous father"--Provided by publisher.

The Cultural Cold War in Western Europe, 1945-60-Hans Krabbendam 2004-03-01 The idea of the Cold War as a propaganda contest as opposed to a military conflict is being increasingly accepted. This has led to a re-evaluation of the relationship between economic policies, political agendas and cultural activities in Western Europe post 1945. This book provides an important cross-section of case studies that highlight the connections between overt/covert activities and cultural/political agendas during the early Cold War. It therefore provides a valuable bridge between diplomatic and intelligence research and represents an important contribution towards our understanding of the significance and consequences of this linkage for the shaping of post-war democratic societies.

The Cultural Cold War in Western Europe, 1945-1960-Roosevelt Study Center 2003 The articles that comprise this collection constitute an evaluation of overt and covert influences on political and cultural activity in Western European democracies during the earliest period of the Cold War.

Poland's Place in Europe-Sarah Meiklejohn Terry 2014-07-14 The author explores a variety of questions related to General Sikorski's policies, such as his effort to maintain an independent Polish Arms' in the Soviet Union. Drawing on extensive British, American, and Polish archives, her work describes the defeat of a radical solution to the perennial instability of Central Europe. Originally published in 1983. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

Parachuting into Poland, 1944-Marek Celt 2013-05-11 This firsthand account, never before published in English, details a secret World War II mission in 1944 called Operation Salamander, in which Tadeusz Chciuk (writing as Marek Celt) parachuted into German-occupied Poland with the enigmatic political adviser Dr. Józef Retinger. The goal of the mission was to persuade the Polish underground forces and political leadership to accept that it was imperative to start negotiating with the Soviets right away, as they were now to be considered Poland's allies and had the full support of the British and Americans. The story culminates in Operation Wildhorn III, in which Chciuk and Retinger were picked up in Poland by a British plane that landed just a short distance from a significant detachment of German forces, and flew them to safety.

Hayek: A Collaborative Biography-Robert Leeson 2018-09-15 Hayek claimed that he always made it his rule 'not to be concerned with current politics, but to try to operate on public opinion.' However, evidence suggests that he was a party political operative with 'free' market scholarship being the vehicle through which he sought - and achieved - party political influence. The 'main purpose' of his Mont Pelerin Society had 'been wholly achieved'. Mises promoted 'Fascists' including Ludendorff and Hitler, and Hayekians promoted the Operation Condor military dictatorships and continue to maintain a 'united front' with 'neo-Nazis.' Hayek, who supported Pinochet's torture-based regime and played a promotional role in 'Dirty War' Argentina, is presented as a saintly figure. These chapters place 'free' market promotion in the context of the post-1965 neo-Fascist 'Strategy of Tension', and examine Hayek's role in the promotion of deflation that facilitated Hitler's rise to power; his proposal to relocate Gibraltarians across the frontier into 'Fascist' Spain; the Austrian revival of the 1970s; the role of (what was presented as) 'neutral academic data' on behalf of the 'International Right' and their efforts to promote Franz Josef Strauss and Ronald Reagan and defend apartheid and the Shah of Iran

Economic networks and European integration-Michel Dumoulin 2004 "Actes du colloque de Bruxelles organisea par l'Institut d'aetudes europeennes de l'Universitae catholique de Louvain et la Fundaciaon Academia Europea de Yuste ... 16-18 octobre 2002"--P. opp. t.p.

Human Rights and the End of Empire-A. W. Brian Simpson 2004 The European Convention on Human Rights of 1950 established the most effective international system of human rights protection ever created. This is the first book that gives a comprehensive account of how it came into existence, of the part played in its genesis by the British government, and of its significance for Britain in the period between 1953 and 1966.

European Integration Beyond Brussels-Matthew Broad 2020-08-14 Europe is a continent whose history has, in one form or another, long been dominated by integration. And yet the European integration process is often treated as synonymous with the evolution of just one particular, and until recently geographically quite limited, Western-centred organisation: the European Union (EU). This trend obscures the multitude of ways European states have acted collectively on both sides of the Iron Curtain - and continue to do so throughout the continent today. With contributors drawn from history and political science, this book explores some of these diverse integration efforts 'beyond Brussels'. We shine a light on international organisations, trade frameworks, and various political, social, scientific and cultural forms of unity in both Eastern and Western Europe. In so doing, the book seeks to redefine the history of the European integration process not only as a less purely EU-centric phenomenon but as a less strictly Western European one too.

M16-Stephen Dorril 2002 This extraordinary expos of one of the world's greatest and most secretive intelligence agencies is filled with revelations so explosive that the British government attempted to suppress its publication.

Katherine Anne Porter and Mexico-Thomas F. Walsh 2014-01-09 In 1920, an unknown journalist named Katherine Anne Porter first sojourned in Mexico. When she left her "familiar country" for the last time in 1931, she was the celebrated author of Flowering Judas and Other Stories and had accumulated a wealth of experiences and impressions that would inspire numerous short stories, essays, and reviews, as well as the opening section of her only novel, Ship of Fools. In this perceptive study of Porter's Mexican experiences, Thomas Walsh traces the important connections between those events and her literary works. Separating fact from the fictions that Porter constantly created about her life, he follows the active role that she played in Mexican political and intellectual life—even to the discovery of a plot to overthrow the Mexican government, which eventually figured in Flowering Judas. Most important, Walsh discerns how the great swings between depression and elation that characterized Porter's emotional life influenced her alternating visions of Mexico. In such works as "Xochimilco," Porter saw Mexico as an earthly Eden where hopes for a better society could be realized, but in other stories, including "The Fiesta of Guadalupe," she depicts Mexico as a place of hopeless oppression for the native peoples. Mexico, Porter once said, gave her back her Texas past. Given the unhappiness of that past, her feelings toward Mexico would always be ambivalent, but her Mexican experiences influenced all her subsequent works to some degree, even those pieces not specifically Mexican in setting. Walsh's study, then, is an essential key for anyone seeking greater understanding of the life or works of Katherine Anne Porter.

Exile and Patronage-Andrew Chandler 2006 This innovative new study explores the migration of refugees from National Socialism from the perspective of patronage. The thirteen essays are divided into three parts: art and music, the churches, and political refugees. Individual case studies look at the relationships which came to life around George Bell, Bishop of Chichester, the Berger family, Michael Croft, Heinz Kappes, Gerhard Leibholz, Robert Bruce Lockhart, Rowmund Pisudski, Jack Pritchard, Hans Ansgar Reinhold, and Luigi Sturzo. The book also examines the iconography of patronage and studies particular works which received support in exile such as Wagners Bhnenweihfestspiel. Andrew Chandler is director of the George Bell Institute, Birmingham (U.K.). Katarzyna Stoklosa is a researcher at the Hannah Arendt Institute for Research on Totalitarianism at the Technical University of Dresden (Germany). Jutta Vinzent teaches at the Department of History of Art at the University of Birmingham.

Labour Under the Marshall Plan-Anthony Carew 1987

The Vision of Anglo-America-Henry Butterfield Ryan 2004 This study demonstrates the importance of the decline of British power in the creation of the Cold War.

God's Playground A History of Poland-Norman Davies 2005-02-24 The most comprehensive survey of Polish history available in English, 'God's Playground' demonstrates Poland's importance in European history from medieval times to the present. Abandoning the traditional nationalist approach to Polish history, Norman Davies instead stresses the country"s rich multinational heritage and places the development of the Jewish German, Ukrainian, and Lithuanian communities firmly within the Polish context. Davies emphasizes the cultural history of Poland through a presentation of extensive poetical, literary, and documentary texts in English translation. In each volume, chronological chapters of political narrative are interspersed with essays on religious, social, economic, constitutional, philosophical, and diplomatic themes. This new edition has been revised and fully updated with two new chapters to bring the story to the end of the twentieth century.

Gubbins & SOE-Joan Bright Astley 2010-11-08 General Colin Gubbins was in charge of SOE during World War Two. This is the first biography of a man who was destined to live his life in the shadows. A biography of General Colin Gubbins, who was in charge of SOE during World War II. Gubbins was destined, by the nature of his profession, to live a secretive life, and the book, which incorporates much previously unpublished material, offers revelations about the man and his mysterious mission.

Katherine Anne Porter-Joan Givner 1991 A biography of one of American literature's most enigmatic figures portrays the award-winning writer through all the drama, passion, excitement, and carefully constructed fiction of her ninety-year life

Britain and Poland 1939-1943-Anita Prazmowska 1995-03-23 Anita Prazmowska looks at British policies from the point of view of wartime strategy and relates this to Polish government expectations and policies.

Mapping the Millennium-Terry M. Boardman 2013-05-14 In a quest to discover the truth behind the twentieth century's disastrous record of conflict and war, the author considers two contradictory approaches to history: the so-called cock-up theory and conspiracy theories. Could there be truth to the often-dismissed concept of conspiracy in history: the manipulation of external events by groups and individuals mostly hidden from the public eye? In the work of philosopher and scientist Rudolf Steiner, Boardman finds convincing evidence of the existence of secretive circles in the West, which have plans for humanitys long-term future. Steiner indicated that such "brotherhoods" had prepared for world war in the twentieth century, and had instructed their members, using redrawn maps as a guide, on how Europe was to be changed. If these brotherhoods existed in Steiner's time, could they still be active today? Based on detailed research, Boardman concludes that such groups are directing world politics in our time. As backing for his theory, he studies a series of important articles and maps--ranging from an 1890 edition of the satirical journal Truth to more recent pieces from influential publications that speak for themselves. He concludes that vast plans are in progress for a New World Order to control and direct individuals and nations, and he calls us to be vigilant, awake and informed.

American Labour's Cold War Abroad-Anthony Carew 2018-09-21 During the Cold War, American labour organizations were at the centre of the battle for the hearts and minds of working people. At a time when trade unions were a substantial force in both American and European politics, the fiercely anti-communist American Federation of Labor-Congress of Industrial Organizations (AFL-CIO) set a strong example for labour organizations overseas. The AFL-CIO cooperated closely with the US government on foreign policy and enjoyed an intimate, if sometimes strained, relationship with the CIA. The activities of its international staff, and especially the often secretive work of Jay Lovestone and Irving Brown--whose biographies read like characters plucked from a Le Carré novel--exerted a major influence on relationships in Europe and beyond. Having mastered the enormous volume of correspondence and other records generated by staffers Lovestone and Brown, Carew presents a lively and clear account of what has largely been an unknown dimension of the Cold War. In impressive detail, Carew maps the international programs of the AFL-CIO during the Cold War and its relations with labour organizations abroad, in addition to providing a summary of the labour situation of a dozen or more countries including Finland, France, Italy, Germany, Japan, Greece, and India. American Labour's Cold War Abroad reveals how the Cold War compelled trade unionists to reflect on the role of unions in a free society. Yet there was to be no meeting of minds on this, and at the end of the 1960s the AFL-CIO broke with the mainstream of the international labour movement to pursue its own crusade against communism.

The Warsaw Rising of 1944-Jan M. Ciechanowski 2002-05-16 Why did the Polish underground Home Army call for what proved to be a suicidal uprising? Why did they decide that their poorly armed troops should alone liberate Warsaw shortly before the Soviet entry into the capital? Why were the approaching Russians not informed? Why did the Red Army fail to take Warsaw in the first days of August 1944 as both Stalin and Bor-Komorowski had anticipated? Dr Ciechanowski examines in detail the political, diplomatic, ideological and military background of the Rising and the events and decisions which immediately preceded it. He traces in turn: the main aspects of Polish politics, strategy and diplomacy during the whole of the Second World War. It is based primarily on unpublished Polish contemporary documents and on interviews with highly placed participants in, and witnesses of, the Warsaw Rising. It provides a definitive account of why the Rising took place and is an extremely important contribution to the history of the Second World War.

The Polish Review- 2008

Origins of the European Security System-Andreas Wenger 2008-05-29 This edited volume explores the significance of the early 'Helsinki process' as a means of redefining and broadening the concept of security during the latter half of the Cold War. The early Helsinki process introduced innovative confidence-building measures, and made human rights a requirement of a legitimate and well-functioning international system, thus providing the framework for disarmament in Europe in the mid-1980s, as well as the inspiration for the later demise of Communism in Europe. Using newly declassified archives, the book explores the positions of the two superpowers and the crucial impact of European Community member states, which introduced European values into the Cold War debate on security. It also shows how Eastern and Central European nations, such as Poland, did not restrict themselves to providing support to Moscow but, rather, pursued interests of their own. The volume sheds light on the complementary role of the neutrals as mediators and special negotiators in the multilateral negotiations; on the interdependence of politics and economics; and on the link between military security and the CSCE process.

Europe on the Move-A. T. Lane 2005 This collection of essays by a multinational group of authors examines the political, social and economic consequences of the most recent enlargement of the European Union. It does not confine itself to a discussion of the impact on the new member states but also considers the likely effects of this enlargement on the EU itself. These effects include not only the familiar need for new modes of governance but also involve other changes resulting from a process of what has been called mutual learning. These essays analyse various aspects of this process starting with the Constitutional Convention. Sometimes the focus is on the impact on the new members, sometimes on the changes likely to occur in the EU and its older members as a result of this enlargement. The emphasis on change is encapsulated in the book's title, 'Europe on the Move'.

The Bilderberg Conspiracy--H. Paul Jeffers 2012-03-01 Masters Of The World Hidden behind many of today's major news stories, the Bilderberg Group is an elite clique of the most powerful names in politics, media, business, and finance, who want to impose a one-world government on the rest of us. Led by such iconic members as Henry Kissinger, Bill and Hillary Clinton, Richard Perle, Melinda Gates (wife of Bill Gates), David Rockefeller, Paul Wolfowitz, Donald Rumsfeld, Tony Blair, and Margaret Thatcher, their secret conferences (where press has long been banned) are rumored to have engineered many of today's monumental global events, including:
• The September 2008 collapse of worldwide banking.
• Bill Clinton's presidency and the passage of NAFTA.
• The loss of America's jobs to foreign nations.
• The toppling of Margaret Thatcher for trying to keep the U.K. out of the E.U.
Featuring interviews with meeting attendees, The Bilderberg Conspiracy is essential--and often terrifying--reading for anyone interested in world events. "H. Paul Jeffers reveals stunning insights about the Bilderberg Group. Wars, coups, assassinations; control of banking, finance, the media, and education--any means necessary to fulfill their agenda." --Michael Benson, author of Inside Secret Societies
H. Paul Jeffers has published more than 50 works of fiction and nonfiction, including Freemasons: Inside the World's Oldest Secret Society, biographies of presidents Theodore Roosevelt and Grover Cleveland, New York mayor Fiorello LaGuardia, Diamond Jim Brady, and others. He lives in Manhattan.
