The Many Faces of Journaling-Linda C. Senn 2008-05-01 This book opens with a chapter on the history of journaling with sample entries by such notables as Walt Whitman and Anne Frank. It then moves on to 12 topic chapters, such as therapeutic-cathartic writing, recording personal goals and growth, and developing your creativity. This second edition of The Many Faces of Journaling includes two chapters: "Scrapbook Journaling" and "Environmental Journaling," each of which is a hot topic among today's media and hobbyists. Chapters 2 - "Personal Growth & Goals," 3 - "Therapeutic Journaling," and 4 - "Upbeat Journaling" all deal with aspects of personal development. Chapters 5 - "Creativity Journaling" and 6 - "Scrapbook Journaling" are more playful. The next chapters 7 - "Journaling for the Next Generation," 8 - "Historic Perspective," and 9 - "Environmental Journaling" teach the reader effective ways to record past and current events from a personal perspective for future readers. Chapters 10 - "Nature Journaling," 11 - "Dream Journaling," and 12 - "Travel Journaling" demonstrate different methods for writing in depth about each topic. And in chapter 13 - "Chronological Journaling," Senn explains how to use a daily journal for current and future reference, including such nitty gritty facts as the date on which your car gets an oil change and when you got your last tetanus shot. In each chapter, the author describes the benefits and assorted methods of writing for each topic, shows the readers how to spice up their journal entries, and includes over 130 examples throughout the book. The "Creating Fascinating Family Memoirs" appendix provides a step-by-step plan for writing a family history, one person at a time. The simple family tree creates a framework from which to begin making detailed notes. The author then shows how to add life and flavour to each family member's description complete with examples.

How to Unlock Journal Writing-Suellen Sulove 2018-10-27 So you've decided to start writing in a journal. You went out, got a beautiful journal to write in and a fancy pen to write with, and you are now ready. For some, journal writing comes naturally, and you are writing in a "real" journal. There are no specific instructions on what to write in your journal. Are you keeping a journal to improve your writing because you want to become a creative writer? For example, if you are keeping a writing journal, you could make a quick list of possible short story ideas, poem topics, or different writing topics you want to work on. If you are keeping a journal to record your weight loss journal, you could make a simple template of how you update it. Maybe you always write beginning with your day then writing how you felt about it. Don't make journal writing too constructed and planned.

Journal Writing in Second Language Education-Christine Pearson Casanave 2011-02-04 Journal writing is not new--journals have been around for centuries. More recently, journals have been viewed as a means of scaffolding reflective teaching and encouraging reflectivity in research processes. As a result, some educators may ask, "What more do we need to know?" Those likely to raise this question are probably not thinking of the explosive growth of reflective writing enabled by social networking on the Web, the blogs and other interactive e-vehicles for reflection on experiences in our literate, "real," and virtual lives. This revisiting of journal writing from a 21st century perspective, informed by relevant earlier literature, is what Christine Pearson Casanave guides readers through in this first book-length treatment of the use of journal writing in the contexts of language learning, pre and in-service teaching, and research. Casanave has put together existing ideas that haven't been put together before and has done it not as an edited collection, but as a single-authored book. She has done it in a way that will be especially accessible to teachers in language teacher education programs and to practicing teachers and researchers of writing in both second and foreign language settings, and in a way that will inspire all of us to think about, not just do, journal writing. Those who have never attempted to use journals in their classes and own lives, as well as others who have used it with mixed results, will probably be tempted to try it in at least some of the venues Casanave provides guidance for. Those already committed to journal writing will very likely find in this book new reasons for expanding and enhancing their use of journals.

Gratitude Journal-Elizabeth N. Doyd 2015-05-26 Cultivate an Attitude of Gratitude Writing in a gratitude journal may only take a few minutes of your day, but doing so has the power to turn your entire life around. The Law of Attraction says that whatever you focus on grows stronger. By making a habit to focus on the positive side of things, even something you might label as negative, you are tapping into the secret of living a happy life. When we start counting the little things that we treasure, things that may otherwise escape our attention in the chaos of daily life, not only are we becoming more positive and loving, but more giving and appreciative as well. Our happiness is no one's responsibility but our own: when we stop reacting to the people and circumstances around us, we're taking back control of our lives in order to steer it in the direction we want to go. Giving thanks to the universe is giving love, and what we give inevitably comes back to us. Have an attitude of gratitude. Once you make a habit out of appreciating all the gifts in life, big or small, you'll begin to attract more positive people and situations. Bad habits and former worries will disappear, replaced by faith and good feeling toward yourself and others. Starting a gratitude journal is easy. All you need is a pen, a notebook, and a moment to lay down your appreciation for what you've been given in life. This book contains journal prompts on 52 different topics, each one beginning with an inspirational gratitude quote from great men and women of the past and present. You can focus on one topic a week if you wish—that's enough to last you a year. Or you may pick and choose a prompt at random if you are looking for inspiration and new ideas on any given day.
