Journey Into Barbary-Wyndham Lewis 1983 Text and art by Wyndham Lewis.

Journey into Barbary-Wyndham Lewis 2013-10-22 In the spring and summer of 1931, Wyndham Lewis traveled to Morocco. Escaping the furor that surrounded the publication of his controversial book on Hitler, while in Morocco, Lewis explored the culture of the Berbers of Morocco. In Journey into Barbary, Lewis provides a first-hand look into the people and culture of the region. While uncomfortable and direct at times, Lewis goes beyond the typical stereotypes of the Berber people and produces a book unlike any other for this period. Journey into Barbary is a unique look of Morocco in the 1930s as well as of Europe's involvement and attitudes toward the region.

Morocco Bound-Brian Edwards 2005-10-07 Until attention shifted to the Middle East in the early 1970s, Americans turned most often toward the Maghreb—Morocco, Algeria, Tunisia, and the Sahara—for their understanding of “the Arab.” In Morocco Bound, Brian T. Edwards examines American representations of the Maghreb during three pivotal decades—from 1942, when the United States entered the North African campaign of World War II, through 1973. He reveals how American film and literary, historical, journalistic, and anthropological accounts of the region imagined the role of the United States in a world it seemed to dominate at the same time that they displaced domestic social concerns—particularly about race relations—onto an “exotic” North Africa. Edwards reads a broad range of texts to recuperate the disorienting possibilities for rethinking American empire. Examining work by William Burroughs, Jane Bowles, Ernie Pyle, A. J. Liebling, Jane Kramer, Alfred Hitchcock, Clifford Geertz, James Michener, Ornette Coleman, General George S. Patton, and others, he puts American texts in conversation with an archive of Maghrebi responses. Whether considering Warner Brothers' marketing of the movie Casablanca in 1942, journalistic representations of Tangier as a city of excess and queerness, Paul Bowles's collaboration with the Moroccan artist Mohammed Mrabet, the hippie communities in and around Marrakech in the 1960s and early 1970s, or the writings of young American anthropologists working nearby at the same time, Edwards illuminates the circulation of American texts, their relationship to Maghrebi history, and the ways they might be read so as to reimagine the role of American culture in the world.

Marshall McLuhan's Mosaic-Elena Lamberti 2012-02-28 One hundred years after Marshall McLuhan's birth, Elena Lamberti explores a fundamental, yet neglected aspect of his work: the solid humanistic roots of his original 'mosaic' form of writing. In this investigation of how his famous communication theories were influenced by literature and the arts, Lamberti proposes a new approach to McLuhan's thought. Lamberti delves into McLuhan's humanism in light of his work on media and culture, exploring how he began to perceive literature not just as a subject, but a 'function inseparable from communal existence.' Lamberti pays particular attention to the central role played by Modernism in the making of his theories, including the writings of Ford Madox Ford, James Joyce, Ezra Pound, and Wyndham Lewis. Reconnecting McLuhan with his literary past, Marshall McLuhan's Mosaic is a demonstration of one of his greatest ideas: that literature not only matters, but can help us understand the hidden patterns that rule our environment.

Wyndham Lewis and the Avant-Garde-Toby Avarde Foshay 1992-09-03 Toby Foshay's penetrating study of Lewis presents a two-pronged argument that will help to lift Lewis from this obscurity. First, he reveals that Lewis is less interested in stylistic and formal innovation than he is committed to artistic, philosophical, and political transformations. As such, Lewis is not a modernist but, in the sense of the term as employed by theoretician Peter Burger, an avant-gardiste. Second, Foshay demonstrates that Lewis's development as an artist is inextricably linked to his avant-garde commitments -- commitments that find their roots in Lewis's reading of Nietzsche. Lewis's fiction and criticism must thus be read, Foshay maintains, as developing interdependently throughout his career and in relation to his evolving interpretation of Nietzsche. Foshay's insightful critique of Lewis's relation to the Modernist movement on the one hand, and of his development as an artist and critic on the other, offers a revised reading not only of Modernism itself but of what Lewis can teach us about the relation of thought to the practice of art in modernity.

Wyndham Lewis and Modernism-Andrzej Gąsiorek 2004 This book offers an introduction to the work of Wyndham Lewis, one of the most important of the Anglo-American modernists, who has until recently been neglected. It traces Lewis's influential involvement in the Vorticist movement; his commitment to early avant-gardism; his relations with figures such as Pound, Eliot and Joyce; and his gradual movement away from

modernism towards a theory of satire. Lewis was also significant as a cultural critic and a professional controversialist. This book explores his polemical views on gender, sexuality, politics, and society, the commodification of culture, subjectivity, and aesthetics. It concludes with a discussion of Lewis's importance to the current critical re-evaluation of literary modernism.

The Romance of the Holy Land in American Travel Writing, 1790-1876-Brian Yothers 2016-03-03 This book is the first to engage with the full range of American travel writing about nineteenth-century Ottoman Palestine, and the first to acknowledge the influence of the late-eighteenth-century Barbary captivity narrative on nineteenth-century travel writing about the Middle East. Brian Yothers argues that American travel writing about the Holy Land forms a coherent, if greatly varied, tradition, which can only be fully understood when works by major writers such as Twain and Melville are studied alongside missionary accounts, captivity narratives, chronicles of religious pilgrimages, and travel writing in the genteel tradition. Yothers also examines works by lesser-known authors such as Bayard Taylor, John Lloyd Stephens, and Clorinda Minor, demonstrating that American travel writing is marked by a profound intertextuality with the Hebrew and Christian scriptures and with British and continental travel narratives about the Holy Land. His concluding chapter on Melville's *Clarel* shows how Melville's poem provides an incisive critique of the nascent imperial discourse discernible in the American texts with which it is in dialogue.

Modernist Travel Writing-David G. Farley 2010-11-30 As the study of travel writing has grown in recent years, scholars have largely ignored the literature of modernist writers. *Modernist Travel Writing: Intellectuals Abroad*, by David Farley, addresses this gap by examining the ways in which a number of writers employed the techniques and stylistic innovations of modernism in their travel narratives to variously engage the political, social, and cultural milieu of the years between the world wars. *Modernist Travel Writing* argues that the travel book is a crucial genre for understanding the development of modernism in the years between the wars, despite the established view that travel writing during the interwar period was largely an escapist genre—one in which writers hearkened back to the realism of nineteenth-century literature in order to avoid interwar anxiety. Farley analyzes works that exist on the margins of modernism, generically and geographically, works that have yet to receive the critical attention they deserve, partly due to their classification as travel narratives and partly because of their complex modernist styles. The book begins by examining the ways that travel and the emergent travel regulations in the wake of the First World War helped shape Ezra Pound's *Cantos*. From there, it goes on to examine E. E. Cummings's frustrated attempts to navigate the "unworld" of Soviet Russia in his book *Eimi*, Wyndham Lewis's satiric journey through colonial Morocco in *Filibusters in Barbary*, and Rebecca West's urgent efforts to make sense of the fractious Balkan states in *Black Lamb and Grey Falcon*. These modernist writers traveled to countries that experienced most directly the tumult of revolution, the effects of empire, and the upheaval of war during the years between World War I and World War II. Farley's study focuses on the question of what constitutes "evidence" for Pound, Lewis, Cummings, and West as they establish their authority as eyewitnesses, translate what they see for an audience back home, and attempt to make sense of a transformed and transforming modern world. *Modernist Travel Writing* makes an original contribution to the study of literary modernism while taking a distinctive look at a unique subset within the growing field of travel writing studies. David Farley's work will be of interest to students and teachers in both of these fields as well as to early-twentieth-century literary historians and general enthusiasts of modernist studies.
