The ten scenarios presented here present a coherent and remarkably consistent picture of the non physical world. The result is a powerful affirmation that consciousness survives the death of the physical body and that the meaning and purpose of live is to grow in love.

Awakened Soul-Joanne Selinske 2021-09-08 Discover that happiness and peace are within reach . . . What would it be like to wake up feeling joyful, at peace, and knowing without a doubt that you are loved? For too many, this idea seems nothing more than a fanciful dream. Awakened Soul shares the stories of dozens who realized this dream and deepened their capacity to love themselves in the process. It takes the reader beyond the understanding of the healing power of past life therapy and spirit communication introduced with Weiss' Many Lives, Many Masters and furthered through afterlife journeys in Newton's Journey of Souls and Destiny of Souls. They uncover soul plans they crafted to bring understanding, balance, and healing to the wounds carried across lifetimes. In shared triumph, each learns the truth of their divine essence, and in the process-awaken to the power of self-love. Joanne Selinske draws our attention to some of the more common challenges to self-love. Within the explorations of low self-esteem, doubt, self-acceptance, lack of self-care, an inability to forgive, and overcoming loss are uncovered. Awakened Soul will help you rediscover that you are an eternal, spiritual being having a human experience; and will guide you to discoveries of healing, self-love, and spiritual growth.

Energy, Spirit and Homosexuality-Nan Moore 2012-07-01 In sharing her metaphysical journey in Energy, Spirit and Homosexuality, author and psychic Nan Moore reveals how we can balance our energies by drawing on the wisdom of the higher self or Spirit. She shows how we can: develop psychic abilities, recall past life memories, master the reincarnation process, negate karma and accelerate our spiritual evolution. A major highlight of this book is the controversial, groundbreaking-channeled readings that reveal why people are bisexual, gay, lesbian or trans-gendered. AND, she discloses why homosexuality is not a religious, psychiatric or psychological issue and why homosexuals choose such difficult incarnations. The Seat of the Soul-Zukav Gary 2019-10-30 Traditional Chinese edition of The Seat of the Soul

Remembering Past Lives-Carl Llewellyn Weschcke 2011-10-08 Do you believe in reincarnation? For a growing number of people, reincarnation is a sensible philosophical understanding that is seen in many metaphysical, spiritual, and psychological practices—and even experienced in actual personal past-life memories. The proof is in the experience. With the straightforward guidance in this small e-book, you can recall your own past lives. In doing so, you can resolve residual conflicts in your current life, improve your health, regain lost knowledge and skills, and develop a more comprehensive understanding of what your life is really all about. What is the prevailing belief today? A 2009 study by the Pew Forum reports that 24% of Americans overall, and 22% of Christians and 28% of Catholics say they believe in reincarnation. However, AllAboutSpirituality.org reported in May 2011 that nearly 60% of Americans believe reincarnation is possible. It's important to realize that reincarnation is not necessarily a religious belief. You have lived before, you will live again, and you will continue to grow into the greater being that you are meant to be. Remembering Past Lives will help you awaken to the incredible journey of spiritual growth and psychic empowerment that opens before you now.

Journey of Your Soul-Shepherd Hoodwin 2013-04-23 Even at birth, everyone is unique. Can heredity alone account for the complex differences in people's temperaments and styles? The Michael teachings, an extraordinary body of channeled work, propose that we are each unique souls who deliberately take on a specific combination of traits to give us the experiences we seek. In this fascinating book, Shepherd Hoodwin expertly discusses these teachings from his vantage point as a Michael channel. "Michael" is a group of souls who teach that we are eternal beings journeying from the Tao and back again in an adventure of exploration and creativity. Each step along the way, we make choices that shape our experience. For example, after committing to a series of lifetimes, we choose one of seven roles, or soul types: server, priest, artisan, sage, warrior, king, or scholar. These teachings address many age-old questions, such as "How did we become who we are?" "Why are we here?" "Where are we going?" and "How does the universe work?" In addition, Journey of Your Soul sheds light on the channeling process itself, answering questions such as "How does channeling work?" "Why do different channels receive conflicting information?" and "What does it take to become a channel?" Hoodwin shows us that it is possible, and indeed beneficial, to engage all parts of the human consciousness. His unique analytical approach to channeling will help readers gain a firm intellectual understanding of what is involved. In his foreword, Jon Klimo, PhD, author of Channeling: Investigations on Receiving Information from Paranormal Sources, says, "Shepherd Hoodwin has given us one of the best books to date about the phenomenon of channeling. Journey of Your Soul may well also be the best of the Michael books due to its clarity, thoroughness, and detail, and thanks to the fact that the author, an exceptionally clearheaded Michael channel himself, brings real integrity and authenticity to our understanding of Michael in particular and to the channeling process in general."

Journey To The Truth-Nancy Humpel 2013 When thinking about the meaning and purpose of our lives, most people eventually come to these questions: 'Who am I really?' 'What is the purpose for being here?' and 'Where will I go after I die?' Increasing numbers are contemplating this, and so beginning the process of 'waking up' to our original nature; true reality, versus the illusions we have been led to believe until now. This is an introduction and overview to very important metaphysical and world topics. It is help for beginners on where and how to start, or move forward, on their own journey! We will explore together the possibility of being an eternal being, of reincarnation, learn about the human energy centres. We will investigate whether extraterrestrial beings are real. What can we do to achieve the inner and outer life we desire? What are the important issues on the planet, and how can we watch out for our physical health. Throughout the book, the author use examples her experiences and growth from her own journey to date. There is a great need for the type of book she has written. It differs from others on the market in that it is short, with easy to follow chapters, and readers can identify which topics stand out as important to them personally, where they are drawn to find out more. Included is a bibliography and additional resources readers can use for further exploration.

PREDESTINATION-Durell Belanger 2013-05-01 Do you know what the physical man is? This work on the Soul Personality gives a very important understanding of man as he really is. But more important, do you understand the purpose that he serves. Mankind is so integrated into physical reality, that the physical holds man in its grip. It is time that man has the opportunity to change, and let overall purpose get man fulfilling his purpose. Whatever a man's background is, whether atheist, religious or somewhere in-between, he needs to think on these things. Of course there are those men and women who think differently, and will not change their life style at this time in their life.

How to Communicate with Spirits-Elizabeth Owens 2001 Written by a certified and practicing medium, this practical text relates fantastic stories from real-life psychics that run the gamut of spiritual entity encounters.

Divination-Dr Patrick Curry 2013-06-28 Divination is any ritual and its associated tradition performed in order to ask a more-than-human intelligence for guidance. A universal human practice, it has received surprisingly little academic attention. This interdisciplinary collection by leading scholars in the field is dedicated to fascinating new insights into divination and oracles arising from recent work in anthropology, religious studies, history and classical studies. Central importance is given to the practical and theoretical perspectives of diviners as well as scholars of divination; several contributors are both. This book explores philosophical issues such as the nature of divinatory intelligence, the relationship between divinatory and metaphorical truth, the primacy of ontology over epistemology, the importance of reflexivity in scholarly studies of divination, and astrology as the principal Western form of divination. The ethnographic and historical examples range from contemporary Nigeria, urban Cuba, Mayan Guatemala and the shamanic cultures of the circumpolar Arctic to classical Greece and ancient Judea.
