JPMorgan’s Fall and Revival-Nicholas P. Sargen 2020-10-14 This book tells the untold story of how JPMorgan became a universal bank in the 1980s-1990s and the events leading to it being acquired by Chase in 2000. It depicts the challenges Morgan’s leaders - Lew Preston and Dennis Weatherstone - confronted when the firm’s business model was disrupted by the developing country debt crisis and premier corporate borrowers increasingly accessing capital markets, up to its current management with Jamie Dimon. It depicts what happened to Morgan in the larger story of U.S. banking consolidation. As Morgan sought to re-enter the world of securities and navigate around Glass-Steagall barriers, their overriding goal was to ensure it would remain a pre-eminent wholesale bank serving multinational corporations. Opportunities to grow through acquisition were presented and considered, including purchasing a stake in Citibank in the early 1990s. However, Preston and Weatherstone were reluctant to integrate areas unfamiliar to Morgan such as retail banking or to assimilate cultures that were disparate from the firm’s. This first-hand account explores whether Morgan could have stayed independent had its leaders pursued the strategic plan that called for it to make targeted acquisitions in areas where it had well-established businesses. Instead, in the mid-1990s, it went from being the hunter to the hunted. Rival banks that had been burdened by bad loans to developing countries and commercial real estate capitalized on rising share prices during the tech boom to acquire other institutions. Meanwhile, Morgan’s profits and share price lagged, which left it vulnerable. During this time, all of the leading financial institutions struggled to change their business models. In the end, no U.S. money center bank was able to become a universal bank on its own. What ensued was a growing concentration of financial assets in a handful of institutions that was the precursor to the 2008 financial crisis, which is explored further using Morgan as a lens, in a book that is sure to interest banking and Wall Street professionals and business readers alike.

Decision Taking, Confidence and Risk Management in Banks from Early Modernity to the 20th Century-Korinna Schönhärl 2017-01-26 This book offers 14 contributions that examine key questions in bank decision-taking,constitution of confidence in banks and risk management practices from Early Modernity to the twentieth century. It explores how the various mechanisms of bank decision taking changed over time. Chapters also analyse the types of risk management techniques used, the contributory factors to the constitution of confidence and the methods that banking historians can use to analyse and describe bankers’ risk management and decision taking - from system theory to behavioural finance, new institutional economics to praxeology and convention theory to network analysis. The different methodological approaches are put to the test in case studies based on archive material from four hundred years of banking in order to connect banking history more closely to political and cultural history.

Capitalism’s Achilles Heel-Raymond W. Baker 2005-08-05 For over forty years in more than sixty countries, Raymond Baker has witnessed the free-market system operating illicitly and corruptly, with devastating consequences. In Capitalism’s Achilles Heel, Baker takes readers on a fascinating journey through the global free-market system and reveals how dirty money, poverty, and inequality are inextricably intertwined. Readers will discover how small illicit transactions lead to massive illegalities and how staggering global income disparities are worsened by the illegalities that permeate international capitalism. Drawing on his experiences, Baker shows how Western banks and businesses use secret transactions and ignore laws while handling some \$1 trillion in illicit proceeds each year. He also illustrates how businesspeople, criminals, and kleptocrats perfect the same techniques to shift funds and how these tactics negatively affect individuals, institutions, and countries.

An Introduction to Investment Banks, Hedge Funds, and Private Equity-David Stowell 2010-03-19 The dynamic environment of investment banks, hedge funds, and private equity firms comes to life in David Stowell’s introduction to the ways they challenge and sustain each other. Capturing their reshaped business plans in the wake of the 2007-2009 global meltdown, his book reveals their key functions, compensation systems, unique roles in wealth creation and risk management, and epic battles for investor funds and corporate influence. Its combination of perspectives—drawn from his industry and academic backgrounds—delivers insights that illuminate the post-2009 reinvention and acclimation processes. Through a broad view of the ways these financial institutions affect corporations, governments, and individuals, Professor Stowell shows us how and why they will continue to project their power and influence. Emphasizes the needs for capital, sources of capital, and the process of getting capital to those who need it Integrates into the chapters 10 cases about recent transactions, along with case notes and questions Accompanies cases with spreadsheets for readers to create their own analytical frameworks and consider choices and opportunities

Comebacks-Andrea Redmond 2010-06-15 Gold Medal Winner, Success and Motivation, 2011 Axiom Business Book Awards Insight from leaders who experienced major setbacks and redefined success In tough economic times, when careers are derailed and leaders are forced to rewrite their professional plans, this book enlightens and uplifts. Comebacks features an all-star cast of ten leaders who endured setbacks-for some a public fall in the midst of media scrutiny-then reassessed and moved ahead with new purpose. Based on revealing interviews, the book presents a behind-the-headlines glimpse into the lives of leaders; how they drew upon resources, both internal and external, to move on; and the lessons that helped them redefine success. Leaders profiled include: Jacques Nasser, former CEO of Ford Motor Co., recently appointed Chairman of BHP Billiton, the world’s largest natural resources company Patricia Dunn, former Chair of Hewlett-Packard, vilified for her alleged role in corporate espionage only to be exonerated from all charges, today active in philanthropy Jamie Dimon (JP Morgan), Herbert "Pug" Winokur (Enron Corp.), David Neeleman (JetBlue), and more Redmond, a top executive recruiter, and Crisafulli, author of The House of Dimon, show how all leaders face adversity, but true leaders turn adversity into success.
