Julia Kristeva and Literary Theory-Megan Becker-Leckrone 2005-01-06 Engaged debate among feminist, political, and psychoanalytic thinkers has secured Julia Kristeva's status as one of the most formidable figures in twentieth-century critical theory. Nevertheless, her precise relevance to the study of literature - the extent to which her theory is specifically a literary theory - can be hard for new readers to fathom. This approachable volume explores Kristeva's definition of literature, her methods for analyzing it, and the theoretical ground on which those endeavors are based. Megan Becker-Leckrone argues that Kristeva's signature concepts, such as abjection and intertextuality, lose much of their force when readers extract them from the specific, complex theoretical context in which Kristeva produces them. Early chapters situate her theory in a broader conversation with Roland Barthes, Sigmund Freud, Jacques Lacan and others around the issues of reading, textuality, and subjectivity. Subsequent chapters look at Kristeva's actual engagements with literary texts, specifically her challenging, highly performative reading of French novelist Louis-Ferdinand Céline in *Powers of Horror: An Essay on Abjection* and her career-long preoccupation with James Joyce. A final chapter of the book looks at the way contemporary literary critics have marshaled her ideas in re-reading the poetry of William Wordsworth, while a helpful glossary identifies Kristeva's most pertinently "literary" theoretical concepts, by way of synopses of the texts in which she presents them.

Julia Kristeva-Noelle McAfee 2004-03-01 One of the most original thinkers of the twentieth century, Julia Kristeva has been driving forward the fields of literary and cultural studies since the 1960s. This volume is an accessible, introductory guide to the main themes of Kristeva's work, including her ideas on: *semiotics and symbolism *abjection *melancholia *feminism *revolt. McAfee provides clear explanations of the more difficult aspects of Kristeva's theories, helpfully placing her ideas in the relevant theoretical context, be it literary theory, psychoanalysis, linguistics, gender studies or philosophy, and demonstrates the impact of her critical interventions in these areas. Julia Kristeva is the essential guide for readers who are approaching the work of this challenging thinker for the first time, and provides the ideal opportunity for those with more knowledge to re-familiarise themselves with Kristeva's key terms.

Julia Kristeva-Sara Beardsworth 2012-02-01 A comprehensive examination of Kristeva's work from the seventies to the nineties. This is the first systematic overview of Julia Kristeva's vision and work in relation to philosophical modernity. It provides a clear, comprehensive, and interdisciplinary analysis of her thought on psychoanalysis, art, ethics, politics, and feminism in the secular aftermath of religion. Sara Beardsworth shows that Kristeva's multiple perspectives explore the powers and limits of different discourses as responses to the historical failures of Western cultures, failures that are undergone and disclosed in psychoanalysis. Sara Beardsworth is Assistant Professor of Philosophy at Southern Illinois University.

Julia Kristeva and Feminist Thought-Birgit Schippers 2011-04-15 This book appraises the relationship between contemporary feminism and Julia Kristeva, a major figure in Continental thought. It addresses the conflicting range of feminist responses to Kristeva's key ideas and Kristeva's equally conflicting as well as ambiguous position vis-a-vis feminism. Schippers argues that this complex relationship can only be understood by positioning Kristeva along the fissures and fault lines which run through feminism. By attending to feminism's internal debates and disputes, and addressing the philosophical commitments and attachments held by Kristeva's critics, the book clarifies the diverse Kristeva reception within feminism and illuminates how her ideas trouble contemporary feminist thought. And despite Kristeva's fundamental ambiguity towards all matters feminist, Schippers makes a case for Kristeva's important contribution to a feminist project which is sympathetic towards her account of fluid subjectivity and her critique of identity politics. In doing so, the author advances the scholarly understanding of Kristeva and of contemporary feminist thought.

Language and Politics in Julia Kristeva-Carol Mastrangelo Bové 2006-01-01

Body/Text in Julia Kristeva-David Crownfield 1992-01-01 Julia Kristeva works at a crucial intersection of contemporary disciplines: psychoanalysis, linguistics, semiotics, literary criticism, feminism, postmodern philosophy, and religious studies. This volume examines this rich body of work and the ways in which its interdisciplinary style gives insight into problems in understanding religion. Special attention is given to two related themes: the understanding of woman in relation to religion and the role of mother (especially of mother's body) in the formation of self and of a religious discourse. Issues recurrent in the essays include the problem of ethics; the relation between discourse and the life of the body; the formation and sublimation of narcissism; the pre-Oedipal function of the father; the functions of fantasy, imagination, and art; the relation of religion to the negation of woman; and the possibility of positive and playful religion. The themes of the relation between the symbolic structures of language and a pre-symbolic semiotics of the infant body, of the split and decentered subject, and of the opposition between desire and *Jouissance* (ecstatic enjoyment) participate in organizing the discussion. Abjection and sacrifice in religion, the dynamics of Christian love and faith, the relation between the doctrine of the Virgin Mary and the experience of motherhood, and the question of feminism and its sometimes quasi-religious forms are also thematic.

Julia Kristeva-John Lechte 2012-10-11 A leading literary critic and psychoanalyst, Julia Kristeva is one of the most significant French thinkers writing today. In this up-to-date survey of her work, John Lechte outlines fully and systematically her intellectual development. He traces it from her work on Bakhtin and the logic of poetic language in the 1960s, through her influential theories of the 'symbolic' and the 'semiotic' in the 1970s, to her analyses of horror, love, melancholy and cosmopolitanism in the 1980s. He provides an insight into the intellectual and historical context which gave rise to Kristeva's thought, showing how thinkers such as Roland Barthes, Emile Benviste and Georges Bataille have been important in stimulating her own reflections. He concludes with an overall assessment of Kristeva's work, looking in particular at her importance for feminism and postmodern thought in general. Essential reading for all those who wish to extend their understanding of this important thinker, this first full-length study of Kristeva's work will be of interest to students of literature, sociology, critical theory, feminist theory, French studies and psychoanalysis.

Melanie Klein-Julia Kristeva 2005-01-05 In the late twelfth century, Japanese people called the transitional period in which they were living the "age of warriors." Feudal clans fought civil wars, and warriors from the Kanto Plain rose up to restore the military regime of their shogun, Yoritomo. The whole of this intermediary period came to represent a gap between two stable societies: the ancient period, dominated by the imperial court in Heian (today's Kyoto), and the modern period, dominated by the Tokugawa bakufu based in Edo (today's Tokyo). In this remarkable portrait of a complex period in the evolution of Japan, Pierre F. Souyri uses a wide variety of sources -- ranging from legal and historical texts to artistic and literary examples -- to form a magisterial overview of medieval Japanese society. As much at home discussing the implications of the morality and mentality of The Tale of the Heike as he is describing local disputes among minor vassals or the economic implications of the pirate trade, Souyri brilliantly illustrates the interconnected nature of medieval Japanese culture. The Middle Ages was a decisive time in Japan's history because it confirmed the country's national identity. New forms of cultural expression, such as poetry, theater, garden design, the tea ceremony, flower arranging, and illustrated scrolls, conveyed a unique sensibility -- sometimes in opposition to the earlier Chinese models followed by the old nobility. The World Turned Upside Down provides an animated account of the religious, intellectual, and literary practices of medieval Japan in order to reveal the era's own notable cultural creativity and enormous economic potential.

At the Risk of Thinking-Alice Jardine 2020-01-23 At the Risk of Thinking is the first biography of Julia Kristeva--one of the most celebrated intellectuals in the world. Alice Jardine brings Kristeva's work to a broader readership by connecting Kristeva's personal journey, from her childhood in Communist Bulgaria to her adult life as an international public intellectual based in Paris, with the history of her ideas. Informed by extensive interviews with Kristeva herself, this telling of a remarkable woman's life story also draws out the complexities of Kristeva's writing, emphasizing her call for an urgent revival of bold interdisciplinary thinking in order to understand--and to act in--today's world.

Continental Philosophy and Philosophy of Religion-Morny Joy 2010-11-05 This is the first book that provides access to twelve Continental philosophers and the consequences of their thinking for the philosophy of religion. Basically, in the second half of the twentieth century, it has been treated from within the Anglo- American school of philosophy, which deals mainly with proofs and truths, and questions of faith. This approach is more concerned with human experience, and pays more attention to historical context and cultural influences. As such, it provides challenging questions about the way forward for philosophy of religion in the twenty-first century.

The Chinese Chameleon Revisited-Zheng Yangwen 2014-09-01 By examining how the Middle Kingdom has been portrayed by foreigners and the Chinese themselves, this volume advances a new perspective in our reading and interpretation of the Chinese past by placing these "producers" and "presenters" of China in the spotlight. The chapters probe how these figures produced or presented the country, cross-examining their backgrounds and circumstances. Their gaze upon the Middle Kingdom was dictated by religious and political conviction, but also particularly by the consumers of that gaze. Like invisible hands, "producers" and "consumers" of China continue to constrain representations of the country, looming larger than the literary, artistic or journalistic works they produce. This volume also addresses scholars of Europe and America who have overlooked what Western writers on China reveal about their own contexts - which is indeed often more than they reveal about their ostensible subject. As such, the Middle Kingdom serves as a convenient mirror to reflect European and American anxieties and ambitions.

Textual Practice-Terence Hawkes 1993-04 Since its launch in 1987, Textual Practice has established itself as Britain's leading journal of radical literary theory.

The Sense and Non-Sense of Revolt-Julia Kristeva 2000 Linguist, psychoanalyst, and cultural theorist, Julia Kristeva is one of the most influential and prolific thinkers of our time. Her writings have broken new ground in the study of the self, the mind, and the ways in which we communicate through language. Her work is unique in that it skillfully brings together psychoanalytic theory and clinical practice, literature, linguistics, and philosophy. In her latest book on the powers and limits of psychoanalysis, Kristeva focuses on an intriguing new dilemma. Freud and psychoanalysis taught us that rebellion is what guarantees our independence and our creative abilities. But in our contemporary "entertainment" culture, is rebellion still a viable option? Is it still possible to build and embrace a counterculture? For whom -- and against what -- and under what forms? Kristeva illustrates the advances and impasses of rebel culture through the experiences of three twentieth-century writers: the existentialist John Paul Sartre, the surrealist Louis Aragon, and the theorist Roland Barthes. For Kristeva the rebellions championed by these figures -- especially the political and seemingly dogmatic political commitments of Aragon and Sartre -- strike the post-Cold War reader with a mixture of fascination and rejection. These theorists, according to Kristeva, are involved in a revolution against accepted notions of identity -- of one's relation to others. Kristeva places their accomplishments in the context of other revolutionary movements in art, literature, and politics. The book also offers an illuminating discussion of Freud's groundbreaking work on rebellion, focusing on the symbolic function of patricide in his Totem and Taboo and discussing his often neglected vision of language, and underscoring its complex connection to the revolutionary drive.

Ethics, Politics, and Difference in Julia Kristeva's Writing-Kelly Oliver 1993 "Ethics, Politics and Difference in Julia Kristeva's Writing" aims to be a valuable intervention in Kristevan scholarship, and a significant contribution in its own right to post-structuralist considerations of ethical and political agency and practice. The essays in this collection examine Kristeva's contributions to the project of creating an alternative ethical political agency. Post-structuralist critiques have transformed the ways in which we think about the subject, but they have failed to provide any satisfactory alternative when we think of ethical or political agency. Without such an alternative, theoretical accounts of emancipatory practices appear to be in jeopardy. Contributors to this collection explore Julia Kristeva's work and assess how helpful her theories can be in attempting to construct a post-structuralist ethics.

Kristeva-S. K. Keltner 2011-01-25 Julia Kristeva is one of the most creative and prolific writers to address the personal, social, and political trials of our times. Linguist, psychoanalyst, social and cultural theorist, and novelist, Kristeva's broad interdisciplinary appeal has impacted areas across the humanities and social sciences. S. K. Keltner's book provides the first comprehensive introduction to the breadth of Kristeva's work. In an original and insightful analysis, Keltner presents Kristeva's thought as the coherent development and elaboration of a complex, multidimensional threshold constitutive of meaning and subjectivity. The threshold indicates Kristeva's primary sphere of concern, the relationship between the speaking being and its particular social and historical conditions; and Kristeva's interdisciplinary approach. Kristeva's vision, Keltner argues, opens a unique perspective within contemporary discourses attentive to issues of meaning, subjectivity, and social and political life. By emphasizing Kristeva's attention to the permeable borders of psychic and social life, Keltner offers innovative readings of the concepts most widely discussed in Kristeva scholarship: the semiotic and symbolic, abjection, love, and loss. She also provides new interpretations of some of the most controversial issues surrounding Kristeva's work, including Kristeva's conceptions of intimacy, social and cultural difference, and Oedipal subjectivity, by contextualizing them within her methodological approach and oeuvre as a whole. *Julia Kristeva: Thresholds* is an engaging and accessible introduction to Kristeva's theoretical and fictional works that will be of interest to both students and scholars across the humanities and social sciences.

Roman Error-Basil Dufallo 2018-01-14 In the eyes of posterity, ancient Rome is deeply flawed. The list of censures is long and varied, from political corruption and the practice of slavery, to religious intolerance and sexual immorality, yet for centuries the Romans' "errors" have not only provoked opprobrium, but also inspired wayward and novel forms of thought and representation, themselves errant in the broad sense of the Latin verb. This volume is the first to examine this phenomenon in depth, treating examples from history, philosophy, literature, psychoanalysis, and art history, from antiquity to the present, to examine how the Romans' faults have become the basis for creative experimentation, for rejections of prevailing ideology, even for comedy and delight. In demonstrating that the reception of Rome's missteps and mistakes has been far more complex than simply denouncing them as an exemplum malum to be shunned and avoided, it argues compellingly that these "alternative" receptions are historically important and enduringly relevant in their own right. "Roman error" comes to signify both ancient misstep and something that we may commit when engaging with Roman antiquity, whereby reception may even be conceived as "error" of a kind: while the volume ably addresses popular fascination with a wide range of Roman vices, including violence, imperial domination, and decadence, it also asks us to consider what makes certain receptions matter, how they matter, and why.

Moved by the Past-Eelco Runia 2014-05-06 Historians go to great lengths to avoid confronting discontinuity, searching for explanations as to why such events as the fall of the Berlin Wall, George W. Bush's invasion of Iraq, and the introduction of the euro logically develop from what came before. Moved by the Past radically breaks with this tradition of predating the past, incites us to fully acknowledge the discontinuous nature of discontinuities, and proposes to use the fact that history is propelled by unforeseeable leaps and bounds as a starting point for a truly evolutionary conception of history. Integrating research from a variety of disciplines, Eelco Runia identifies two modes of being "moved by the past": regressive and revolutionary. In the regressive mode, the past may either overwhelm us—as in nostalgia—or provoke us to act out what we believe to be solidly dead. When we are moved by the past in a revolutionary sense, we may be said to embody history: we burn our bridges behind us and create accomplished facts we have no choice but to live up to. In the final thesis of *Moved by the Past*, humans energize their own evolution by habitually creating situations ("catastrophes" or sublime historical events) that put a premium on mutations. This book therefore illuminates how every now and then we chase ourselves away from what we were and force ourselves to become what we are. Proposing a simple yet radical change in perspective, Runia profoundly reorients how we think and theorize about history.

The Jean Baudrillard Reader-Steve Redhead 2008 Jean Baudrillard (1929-2007) was a controversial social and cultural theorist known for his trenchant analyses of media and technological communication. Belonging to the generation of French thinkers that included Gilles Deleuze, Jean-François Lyotard, Michel Foucault, and Jacques Lacan, Baudrillard has at times been vilified by his detractors, but the influence of his work on critical thought and pop culture is impossible to deny (many might recognize his name from *The Matrix* movies, which claimed to be based on the French theorist's ideas). Steve Redhead takes a fresh look at Baudrillard in relation to the intellectual and political climates in which he wrote. Baudrillard sought to produce a theory of modernity, but the modern world of the 1950s was radically different from the reality of the early twenty-first century. Beginning with Baudrillard's initial publications in the 1960s and concluding with his writings on 9/11 and Abu Ghraib, Redhead guides the reader through Baudrillard's difficult texts and unorthodox views on current issues. He also proposes an original theory of Baudrillard's relation to postmodernism, presenting the theorist's work as "non-postmodernist," after Bruno Latour's concept of "non-modernity." Each section of the Reader includes an extract from one of Baudrillard's writings, prefaced by a short bibliographical introduction that places the piece in context and puts the debate surrounding the theorist into sharp perspective. The conflict over Baudrillard's legacy stems largely from the fact that a comprehensive selection of his writings has yet to be translated and collected into one volume. The *Jean Baudrillard Reader* provides an expansive and much-needed portrait of the critic's resonant work.

Must We Divide History Into Periods?-Jacques Le Goff 2015-09-08 We have long thought of the Renaissance as a luminous era that marked a decisive break with the past, but the idea of the Renaissance as a distinct period arose only during the nineteenth century. Though the view of the Middle Ages as a dark age of unreason has softened somewhat, we still locate the advent of modern rationality in the Italian thought and culture of the fifteenth and sixteenth centuries. Jacques Le Goff pleads for a strikingly different view. In this, his last book, he argues persuasively that many of the innovations we associate with the Renaissance have medieval roots, and that many of the most deplorable aspects of medieval society continued to flourish during the Renaissance. We should instead view Western civilization as undergoing several "renaissances" following the fall of Rome, over the course of a long Middle Ages that lasted until the mid-eighteenth century. While it is indeed necessary to divide history into periods, Le Goff maintains, the meaningful continuities of human development only become clear when historians adopt a long perspective. Genuine revolutions—the shifts that signal the end of one period and the beginning of the next—are much rarer than we think.

Julia Kristeva's Ethical and Political Thought-Sara Beardsworth 2004

We Are All Cannibals-Claude Lévi-Strauss 2016-03-15 On Christmas Eve 1951, Santa Claus was hanged and then publicly burned outside of the Cathedral of Dijon in France. That same decade, ethnologists began to study the indigenous cultures of central New Guinea, and found men and women affectionately consuming the flesh of the ones they loved. "Everyone calls what is not their own custom barbarism," said Montaigne. In these essays, Claude Lévi-Strauss shows us behavior that is bizarre, shocking, and even revolting to outsiders but consistent with a people's culture and context. These essays relate meat eating to cannibalism, female circumcision to medically assisted reproduction, and mythic thought to scientific thought. They explore practices of incest and patriarchy, nature worship versus man-made material obsessions, the perceived threat of art in various cultures, and the innovations and limitations of secular thought. Lévi-Strauss measures the short distance between "complex" and "primitive" societies and finds a shared madness in the ways we enact myth, ritual, and custom. Yet he also locates a pure and persistent ethics that connects the center of Western civilization to far-flung societies and forces a reckoning with outmoded ideas of morality and reason.

Everyone Dies Young-Marc Augé 2016-05-24 "We are awash in time, savoring a few moments of it; we project ourselves into it, reinvent it, play with it; we take our time or let it slip away: it is the raw material of our imagination. Age, on the other hand, is the detailed account of the days that pass, the one-way view of the years whose total sum when set forth can stupefy us. Age wedges each of us between a date of birth that, at least in the West, we know for certain and an expiration date that, as a general rule, we would like to defer. Time is a freedom, age a constraint." Marc Augé remembers his beloved childhood cat, who seemed to grow wise with age, though her essential nature remained unchanged. He considers our belief that objects mature, when it is our perception of them that evolves over time. He wonders why public demonstrations of affection between the elderly make the young so uncomfortable and why we torture ourselves with regret at what might have been. Time can be liberating, he finds; it is a resource we can squander or relish. Yet age is a burden, bound by our personal and cultural neuroses. With an ethnologist's understanding of construct and practice, Augé isolates age from the development of consciousness, desire, and representations of the self. In bold, eye-opening

strokes, he casts age as a physical marker and treats one's youthful approach to the world as the true measure of life's value.

Abjection, Melancholia, and Love-John Fletcher 2012 This volume begins with a new essay by Julia Kristeva, 'The Adolescent Novel', in which she examines the relation between novelistic writing and the experience of adolescence as an 'open structure'. It is this blend of the literary with the psychoanalytic that places Kristeva's work central to current thinking, from semiotics and critical theory to feminism and psychoanalysis. The essays in this volume offer insight into the workings of Kristeva's thought, ranging from her analyses of sexual difference, female temporality and the perceptions of the body to the mental states of abjection and melancholia, and their representation in painting and literature. Kristeva's persistent humanity, her profound understanding of the dynamics of intention and creativity, mark her out as one of the leading theoreticians of desire. Each essay offers the reader a new insight into the many aspects that make up Kristeva's entire oeuvre.
