

## Jungle Capitalists A Story Of Globalisation Greed And Revolution

Jungle Capitalists : a Story of Globalisation, Greed and Revolution-Peter Chapman 2007 In this powerful and gripping book, Peter Chapman shows how the pioneering example of the banana importer United Fruit set the precedent for the institutionalised greed of today’s multinational companies.

The Gilded Age and Progressive Era: A Historical Exploration of Literature-Wendy Martin Ph.D. 2016-02-22 This book offers a one-stop reference work covering the Gilded Age and Progressive Era that serves teachers and their students.
• Integrates and aligns material for American literature and social studies curricula
• Offers a range of tools to support literary works—analysis, history, document excerpts, and areas for study
• Provides historical context for multiple key works of literature on the Gilded Age and Progressive Era

The Cambridge Companion to Mario Vargas Llosa-Efrain Kristal 2012 Analyses Vargas Llosa’s career as a writer and as an important cultural and political figure in Latin America and beyond.

Media Scandals-Alan Bisbort 2008-09-30 This fascinating volume offers an overview of the most influential and notorious media scandals, from newspaper publisher John Peter Zenger’s groundbreaking 1735 trial for printing and publishing false, scandalous, malicious and seditious statements to Dr. Phil McGraw’s 2008 thwarted attempt to force his television cameras inside Britney Spears’ hospital room, from the attempts to ban literature by the likes of D.H. Lawrence, James Joyce, Henry Miller, and Allen Ginsberg to the excesses of gossip mongers like Walter Winchell, Hedda Hopper, Geraldo Rivera, and Matt Drudge. It delves into the tabloid press and walks through the minefields of political opinion shapers, the shouters, the muckrakers and whistleblowers. America’s obsession with scandal-and the media’s boundless capacity to report and sometimes even create it-did not start with O.J. Simpson, Rush Limbaugh, or Britney Spears. It was ingrained in the fabric of our nation even before Paul Revere made his famous ride. Indeed, our media’s cherished right to free expression was hard-won and is now protected by the First Amendment to the U.S. Constitution, but it comes with responsibilities and is fraught with peril. The tension between the two forces of free expression and permissible subject matter has, throughout American history, caused media scandals-public outcries, legal proceedings, denunciations, violence and, in the case of Salman Rushdie’s 1988 novel IThe Satanic Verses deaths. The early battles by the print media-newspapers, magazines, books-over censorship, book banning, book burning, obscenity, blasphemy and libel set the groundwork for even greater battles as the media expanded into radio, television and the Internet. This fascinating volume offers an overview of the most influential and notorious media scandals, from newspaper publisher John Peter Zenger’s groundbreaking 1735 trial for printing and publishing false, scandalous, malicious and seditious statements to Dr. Phil McGraw’s 2008 thwarted attempt to force his television cameras inside Britney Spears’ hospital room, from the attempts to ban literature by the likes of D.H. Lawrence, James Joyce, Henry Miller, and Allen Ginsberg to the excesses of gossip mongers like Walter Winchell, Hedda Hopper, Geraldo Rivera, and Matt Drudge. It delves into the tabloid press and walks through the minefields of political opinion shapers, the shouters, the muckrakers and whistleblowers. Media Scandals examines this fascinating, troubled and sometimes inspiring subject from two different perspectives. First, through its recurrent themes, which reach across all media: politics; censorship; race and religion; sex and morals. The second half of the volume then examines each industry in more detail: book publishing; newspapers and magazines; radio and television, and the Internet. Augmenting this invaluable resource is a detailed timeline to help students put the wide-ranging scandals into historical perspective, and a thorough bibliography to encourage further research.

Resistance-Shane Moran 2021-04-15 In Resistance: Sol Plaatje and South Africa, Shane Moran studies Sol Plaatje and his work within the context of colonial politics and resistance. Through an in-depth analysis of Plaatje’s resistance to racial domination, Moran examines the nature of the struggles that continue within and beyond South Africa today.

The Rarified Air of the Modern-Willie Hiatt 2016-06-02 From the moment news reached Peru in 1910 that Jorge Chávez Dartnell, a pilot of Peruvian parentage, had become the first man to fly across the Alps, aviation fired the imagination of the masses in his home country. His and other Peruvian pilots’ achievements generated great optimism that this technology could lift Peru out of its self-perceived backwardness and transform it into a modern nation. Though poor infrastructure, economic woes, a dearth of technical expertise, and frequent pilot deaths slowed Peru’s domestic aviation project, diverse groups saw in airplanes their own visions for Peruvian renewal. In this book, Willie Hiatt shows how politicians, businessmen, and military officials promoted the project as critical to the nation. At the same time, indigenous communities and provincial residents willingly gave up land for airfields, raised money to purchase aircraft for the military, named airplanes after sponsoring civic groups, towns, and regions, and breached police cordons at flying exhibitions to get close-up looks at planes and pilots. By 1928, three commercial lines were transporting passengers and goods from far-flung regions of the Amazon, highlands, and coast to Lima and beyond. Tracing the development of Peruvian aviation from heroic individual feats to essential infrastructure, The Rarified Air of the Modern shows how Peruvians mobilized airplanes to reflect their technological progress, their modern identity, and their nation’s intertwining with the history of the West.

Risk, Organizations, and Society-Martin Shubik 2012-12-06 Growth of the electric industry Electric generating stations and the associated transmission and distribu tion systems are high ticket items as are the costs of fuel and of operating the industry. The country presently spends about \$150 billion annually on electricity. It is the country's largest industry, with assets of over \$400 billion (Edison Electric Institute Statistical Year book, 1985). The country's electric generating capacity and the end use of electricity grew exponentially for about 70 years, starting at the beginning of the century, with a doubling period of roughly seven years (see figureI0-1). Over much of this period electric utility planning could simply consist of laying a ruler on such a logarithmic plot. The utilities could then, know ing plant construction times, write out purchase orders. Improvements in power generating technology allowed electric rates to decline, which permitted the market to expand to accommodate the additional supply. The prospective growth was a heavy vision and provided much of the stimulus for the supporters of nuclear power. An example of such extra polation made in 1971 is shown in figure 10-2 (The U. S. Energy Problem, 1971). Another forecast (Electrical Power Supply and Demand Forecasts for the United States Through 2050, 1972) projected an installed capacity of 1. 5 million MV(e) in the year 2000, of which 45 percent was to be nuclear. For the year 2050 the installed capacity would have risen to 5. 2 million MW(e), of which 88 percent was to be nuclear.

Why Work?-Robin Patric Clair 2008 Why Work explores the contemporary cultural construction of work, beginning with the expression, "A Real Job." This volume examines "work" in the writings of Aristotle, Plato, Confucius, St. Benedict, Adam Smith, Karl Marx, Booker T. Washington, W.E.B. Du Bois, Mother Jones, Emma Goldman, Emile Durkheim, Max Weber, Frederick Winslow Taylor, and Mary Parker Follett to answer the question, "Can the concept of work be divorced from the thinker's past?" A final chapter re-examines the core issue in light of the vary concept of "work" and ask one more time "why work?" This work is a result of an Honors seminar at Purdue University.

Egalitarianism of the Free Society-Robert Corfe 2008 This volume presents the new realities in the spheres of social life, as an introduction to the author's forthcoming three-volume work on Social Capitalism, which concentrates on the shattering economic and political changes in the contemporary world.

Sequels-Janet Husband 2009 A guide to series fiction lists popular series, identifies novels by character, and offers guidance on the order in which to read unnumbered series.

The Panama Affair-Barry Evetts 2000-03-01 Lucinda Leung, a Chinese born American journalist has been covering the civil war in Colombia. Her marriage is in tatters, her future career prospects questionable. She is reassigned to a politically unstable Panama. And into Panama too come Mohan Krishnaswami, the man responsible for her father’s death many years before. So does Peter Morrison, a recently redundant employee of Mohan, drawn to help a relative, with a son on the run from twisted justice. While the almost bankrupt Mohan is drawn into a web of dubious business schemes, assisting a Colombian drug baroness and her hideous playboy son with designs on removing the president of Panama, Lucinda uncovers an even more dangerous plot to further destabilize the entire region. Tension builds, while we move from Bogota to London, and back in time to 1987 Hong Kong and Guangzhou:

Then in a whirlwind of entwined events to Houston, Panama, Miami, North Korea, the Colombian Andes, and the Caribbean. And the prizes? For some, if they succeed, the riches that may flow from the devastation of the Panama Canal. For Lucinda, a distant vengeance for her father’s death and, perhaps, fulfillment in love.

Feeling Asian Modernities-Koichi Iwabuchi 2004-03-01 The recent transnational reach of Japanese television dramas in East and Southeast Asia is unprecedented, and not simply in terms of the range and scale of diffusion, but also of the intense sympathy many young Asians feel toward the characters in Japanese dramas, so that they cope with their own modern lives by emulating the lives on screen. Through the empirical analysis of how Japanese youth dramas are (re)produced, circulated, regulated, and consumed in East and Southeast Asia, each chapter in this volume variously explores the ways in which intra-Asian cultural flows highlight cultural resonance and asymmetry in the region under the decentering processes of globalization. Key questions include: What is the nature of Japanese cultural power and influence in the region and how is it historically overdetermined? How is it similar to and different from "Americanization" and other Asian cultural sub-centers? What kinds of images and sense of intimacy and distance are perceived through the reception of Japanese youth dramas?

Wealth by Stealth-Harry Glasbeek 2002-10-01 How is it that corporations are able to behave irresponsibly, criminally, and undemocratically? Wealth by Stealth is a scathing introduction to the operations of the modern corporation, written by a corporate lawyer. Many writers point to the growth of undemocratic corporate power. Glasbeek takes these observations further and outlines clearly how corporations become so powerful. He also shows how they are able to act without regard to the behaviour and laws governing citizens and other groups. Glasbeek is known by generations of students for his brilliant, funny lectures at Osgoode Hall Law School. With Wealth by Stealth his informative critique of corporate behaviour becomes available and accessible to all.

The Literary World- 1899

Gas Journal- 1861

World Bank Literature-Amitava Kumar 2003 World Bank literature is more than a concept -- it is a provocation, a call to arms. It is intended to prompt questions about each work, to probe globalization, political economy, and the role of literary and cultural studies. As asserted in this major work, it signals a radical rewriting of academic debates, a rigorous analysis of the World Bank and the International Monetary Fund (IMF), and a consideration of literature that deals with new global realities. Made more relevant than ever by momentous antiglobalization demonstrations in Seattle and Genoa, World Bank Literature brings together essays by a distinguished group of economists, cultural and literary critics, social scientists, and public policy analysts to ask how to understand the influence of the World Bank/IMF on global economic power relations and cultural production. The authors attack this question in myriad ways, examining World Bank/IMF documents as literature; their impact on developing nations; the relationship between literature and globalization; the connection between the academy and the global economy; and the emergence of coalitions confronting the new power. World Bank Literature shows, above all, the multifarious and sometimes nefarious ways that abstract academic debates play themselves out concretely in social policy and cultural mores that reinforce traditional power structures.

Reading Marx in the Information Age-Christian Fuchs 2015-10-23 Renowned Marxist scholar and critical media theorist Christian Fuchs provides a thorough, chapter-by-chapter introduction to Capital Volume 1 that assists readers in making sense of Karl Marx’s most important and groundbreaking work in the information age, exploring Marx’s key concepts through the lens of media and communication studies via contemporary phenomena like the Internet, digital labour, social media, the media industries, and digital class struggles. Through a range of international, current-day examples, Fuchs emphasises the continued importance of Marx and his work in a time when transnational media companies like Amazon, Google, and Facebook play an increasingly important role in global capitalism. Discussion questions and exercises at the end of each chapter help readers to further apply Marx’s work to a modern-day context.

Film Studies in China 2-Contemporary Cinema (China Film Archive) 2020-10-08 Film Studies in China 2 is a collection of selected articles chosen from issues of the journal Contemporary Cinema published throughout the year and translated for an English-speaking audience. As one of the most prestigious academic film studies journals in China, Contemporary Cinema has been active not only in publishing Chinese scholarship for Chinese readers but also in reaching out to academics from across the globe. This anthology hopes to encourage a cross-cultural academic conversation on the fields of Chinese cinema and media studies. Following the successful release of the first volume this is the second collection to be released in the Film Studies in China series.

Palm Beach in Vintage Postcards-Cynthia Thuma 2001 Once little more than a steamy, tropical jungle, Palm Beach was transformed in the early twentieth century by industrialist Henry Flagler and a handful of architects into a playground for the famous, wealthy, and powerful. There, in the garden of earthly delights, celebrities and capitalists enjoyed a variety of leisure and recreational activities--from parties and tennis to sunbathing and dining--and stayed in the most opulent accommodations ever conceived and constructed. Many who loved this lifestyle became part-time residents and built palatial homes for the winter months. To this day, Palm Beach remains one of America's toniest and most exclusive resorts.

Film and the American Left-M. Keith Booker 1999 The American Left has produced a rich and varied cultural tradition that was largely suppressed during the Cold War but whose influence on the larger society has always been significant. Much of this tradition found its expression in film and, despite the suppression of overtly leftist content in most Hollywood films, there is still a substantial amount of leftist material in American movies. Booker's study gives the attention to the films of the American Left that they have long deserved. His book provides extensive entries for more than 260 films that are connected with the culture of the American Left, ranging from Citizen Kane to Apocalypse Now. The chronological arrangement of the entries allows the reader to trace the cinematic representation of the American Left across time, while an appendix and index provide alphabetical and thematic access to the material.

Structural Analysis of Oral Tradition-Pierre Maranda 2016-11-11 Thirteen anthropologists, including Claude Levi-Strauss, Dell Hymes, and Edmund R. Leach, examine myths, rituals, fold dramas, folk tales, riddles, and folk songs, all in the context of the cultures in which they occur.

Tressell-Dave Harker 2003-07 "Tressell: The Real Story of 'The Ragged Trousered Philanthropists' describes the author's life, puts the book in its historical context and traces its success over the past ninety-odd years. It shows that The Ragged Trousered Philanthropists is about socialist values and their continued relevance at a time when we are being told that capitalism is here for ever; that greed is good; that war, famine, poverty, racism and oppression are natural, normal and permanent features of life on Planet Earth. Crucially, Tressell's passionate, compassionate denunciation of the capitalist 'system' is about hope, so little wonder The Ragged Trousered Philanthropists is selling very well indeed in these anti-capitalist days."--BOOK JACKET.

The Cultural Challenge-Yannis Andricopoulos 2017-11-14 A collection of the three volumes by Yannis Andricopolous on ancient Greek wisdom applied to modern culture and society, including: - Volume 1: In Bed with Madness - Volume 2: The Greek Inheritance - Volume 3: The Future of the Past In Bed with Madness Globalism endowed us with McDonald's, 'the world's local bank', English football teams without English players and an irrepressible desire for more as enough is never good enough - the blanket is always too short. Our personal world as much as our social and political realities seem to have blithely surrendered to the madness of a civilization which views anything from corporate greed and global warming to military adventures and religious fundamentalism as normal as a door banging in the wind. The destructive capabilities of our age have run too far ahead of our wisdom.

However, the process is not irreversible if our thinking can postpone its retirement. In Bed with Madness is 'a well-argued, powerful and profound indictment of contemporary culture', stylishly written - a reviewer said he would have bought it just for its humour! The Greek Inheritance The culture of ancient Greece, a culture of joy, was replaced by the Judaeo-Christian culture of faith and then by the capitalist culture of profit. Yet it is the only culture worth fighting for if we want a world run by humans rather than theocracies, nanotechnologies or private equity funds. Yannis Andricopoulos views the Greek culture as the front line of the battle against individualism, materialism, authoritarianism and religious extremism. In a world turned into the corporations' playground, this is also the battle for human values, civic virtues and an ethical society. The Greek Inheritance traces the conflict between Greek values and those of the repressive, religious or capitalist order throughout the millennia. The book is challenging and well-written with a light, humorous touch. The Future of the Past Universalism in its old forms has, just like door-to-door milkmen, gone for good. But the search for some universally accepted ethical standards cannot be abandoned - values are not colourless as the wind and odourless as thoughts. Looking into our world from the classical Greek point of view, Yannis Andricopoulos wonders whether we cannot place Justice again at the heart of our morality, look forward to the happiness of the individual rather than the upgrading of his or her consumer fantasies, and endeavor to create, not more wealth, but a just and honourable world. The Future of the Past is written in 'a lively, challenging style guaranteeing to stimulate debate on the most pressing issues of our time'.

A Study of B. Traven's Fiction-Richard Eugene Mezo 1993

Icons of the American Comic Book: From Captain America to Wonder Woman [2 volumes]-Randy Duncan 2013-01-29 This book explores how the heroes and villains of popular comic books—and the creators of these icons of our culture—reflect the American experience out of which they sprang, and how they have achieved relevance by adapting to, and perhaps influencing, the evolving American character.
• Includes contributions from 70 expert contributors and leading scholars in the field, with some of the entries written with the aid of popular comic book creators themselves
• Provides sidebars within each entry that extend readers' understanding of the subject
• Offers "Essential Works" and "Further Reading" recommendations
• Includes a comprehensive bibliography

The Land Grabbers-Fred Pearce 2012-05-29 "Raises complex and urgent issues."—Booklist, starred review How Wall Street, Chinese billionaires, oil sheiks, and agribusness are buying up huge tracts of land in a hungry, crowded world. An unprecedented land grab is taking place around the world. Fearing future food shortages or eager to profit from them, the world’s wealthiest and most acquisitive countries, corporations, and individuals have been buying and leasing vast tracts of land around the world. The scale is astounding: parcels the size of small countries are being gobbled up across the plains of Africa, the paddy fields of Southeast Asia, the jungles of South America, and the prairies of Eastern Europe. Veteran science writer Fred Pearce spent a year circling the globe to find out who was doing the buying, whose land was being taken over, and what the effect of these massive land deals seems to be. The Land Grabbers is a first-of-its-kind exposé that reveals the scale and the human costs of the land grab, one of the most profound ethical, environmental, and economic issues facing the globalized world in the twenty-first century. The corporations, speculators, and governments scooping up land cheap in the developing world claim that industrial-scale farming will help local economies. But Pearce’s research reveals a far more troubling reality. While some mega-farms are ethically run, all too often poor farmers and cattle herders are evicted from ancestral lands or cut off from water sources. The good jobs promised by foreign capitalists and home governments alike fail to materialize. Hungry nations are being forced to export their food to the wealthy, and corporate potentates run fiefdoms oblivious to the country beyond their fences. Pearce’s story is populated with larger-than-life characters, from financier George Soros and industry tycoon Richard Branson, to Gulf state sheikhs, Russian oligarchs, British barons, and Burmese generals. We discover why Goldman Sachs is buying up the Chinese poultry industry, what Lord Rothschild and a legendary 1970s asset-stripper are doing in the backwoods of Brazil, and what plans a Saudi oil billionaire has for Ethiopia. Along the way, Pearce introduces us to the people who actually live on, and live off of, the supposedly “empty” land that is being grabbed, from Cambodian peasants, victimized first by the Khmer Rouge and now by crony capitalism, to African pastoralists confined to ever-smaller tracts. Over the next few decades, land grabbing may matter more, to more of the planet’s people, than even climate change. It will affect who eats and who does not, who gets richer and who gets poorer, and whether agrarian societies can exist outside corporate control. It is the new battle over who owns the planet.

The Bullet and the Ballot Box-Aditya Adhikari 2014-10-07 The Bullet and the Ballot Box offers a rich and sweeping account of a decade of revolutionary upheaval. When Nepal’s Maoists launched their armed rebellion in the nineties, they had limited public support and many argued that their ideology was obsolete. Twelve years later they were in power, and their ambitious plan of social transformation dominated the national agenda. How did this become possible? Adhikari’s narrative draws on a broad range of sources - including novels, letters and diaries - to illuminate the history and human drama of the Maoist revolution. An indispensable account of Nepal’s recent history, the book offers a fascinating case study of how communist ideology has been reinterpreted and translated into political action in the twenty-first century.

The Oxford Handbook of Environmental History-Andrew C. Isenberg 2017-03-01 The field of environmental history emerged just decades ago but has established itself as one of the most innovative and important new approaches to history, one that bridges the human and natural world, the humanities and the sciences. With the current trend towards internationalizing history, environmental history is perhaps the quintessential approach to studying subjects outside the nation-state model, with pollution, global warming, and other issues affecting the earth not stopping at national borders. With 25 essays, this Handbook is global in scope and innovative in organization, looking at the field thematically through such categories as climate, disease, oceans, the body, energy, consumerism, and international relations.

Parliamentary Debates-New Zealand. Parliament. House of Representatives 1958-07-23

New Poverty Studies-Judith G. Goode 2001 Stock market euphoria and blind faith in the post cold war economy have driven the topic of poverty from popular and scholarly discussion in the United States. At the same time the gap between the rich and poor has never been wider. The New Poverty Studies critically examines the new war against the poor that has accompanied the rise of the New Economy in the past two decades, and details the myriad ways poor people have struggled against it. The essays collected here explore how global, national, and local structures of power produce poverty and affect the material well-being, social relations and politicization of the poor. In updating the 1960s encounter between ethnography and U.S. poverty, The New Poverty Studies highlights the ways poverty is constructed across multiple scales and multiple axes of difference. Questioning the common wisdom that poverty persists because of the pathology, social isolation and welfare state "dependency" of the poor, the contributors to The New Poverty Studies point instead to economic restructuring and neoliberal policy "reforms" which have caused increased social inequality and economic polarization in the U.S. Contributors include: Georges Fouron, Donna Goldstein, Judith Goode, Susan B. Hyatt, Catherine Kingfisher, Peter Kwong, Vin Lyon-Callo, Jeff Maskovsky, Sandi Morgen, Leith Mullings, Frances Fox Piven, Matthew Rubin, Nina Glick Schiller, Carol Stack, Jill Weigt, Eve Weinbaum, Brett Williams, and Patricia Zavella. "These contributions provide a dynamic understanding of poverty and immiseration" —North American Dialogue, Vol. 4, No. 1, Nov. 2001

Author Under Sail-Jay Williams 2021-02 In this second volume of Author Under Sail Jay Williams investigates the life of Jack London as a professional writer at the turn of the 1900s, as his publications spanned The Call of the Wild to The Iron Heel and The Road. While documenting key life events, especially his rising fame, this biography explores London's necessity to illustrate the inner workings of his own vast imagination through his socialist essays and fiction.

A World More Concrete-N. D. B. Connolly 2016-03-25 A World More Concrete argues that Americans, immigrants, and indigenous people of all colors made tremendous investments in racial apartheid in the twentieth century, in order to regulate city growth and to maximize the value of land. Focusing on South Florida, the book illustrates how entrepreneurs used land and debates over property rights to negotiate the workings of Jim Crow segregation. Over the course of several decades, property ownership became an important feature in the development of cities and suburbs, in the articulation of civil rights reform, and in the general failure of civil rights activism to end residential segregation and black poverty. As a result of the privileged legal and social position granted to property ownership, Jim Crow culture became American culture - politically, economically, and in the built environment.

A Child of the Century-Ben Hecht 2020-01-01 Ben Hecht's critically acclaimed autobiographical memoir, first published in 1954, offers incomparably pungent evocations of Chicago in the 1910s and 1920s, Hollywood in the 1930s, and New York during the Second World War and after. "His manners are not always nice, but then nice manners do not always make interesting autobiographies, and this autobiography has the merit of being intensely interesting."--Saul Bellow, New York Times Named to Time's list of All-Time 100 Nonfiction Books, which deems it "the un-put-downable testament of the era's great multimedia entertainer."

The Literary Digest-Edward Jewitt Wheeler 1906

Capitalism: A Crime Story-Harry Glasbeek 2018-03-15

United States Congressional Serial Set- 1910

SPIN- 2009-01 From the concert stage to the dressing room, from the recording studio to the digital realm, SPIN surveys the modern musical landscape and the culture around it with authoritative reporting, provocative interviews, and a discerning critical ear. With dynamic photography, bold graphic design, and informed irreverence, the pages of SPIN pulsate with the energy of today's most innovative sounds. Whether covering what's new or what's next, SPIN is your monthly VIP pass to all that rocks.

Brecht and Method-Fredric Jameson 2011-01-10 The legacy of Bertolt Brecht is much contested, whether by those who wish to forget or to vify his politics, but his stature as the outstanding political playwright and poet of the twentieth century is unforgettably established in this major critical work. Fredric Jameson elegantly dissects the intricate connections between Brecht’s drama and politics, demonstrating the way these combined to shape a unique and powerful influence on a profoundly troubled epoch. Jameson sees Brecht’s method as a multi-layered process of reflection and self-reflection, reference and self-reference, which tears open a gap for individuals to situate themselves historically, to think about themselves in the third person, and to use that self-projection in history as a basis for judgment. Emphasizing the themes of separation, distance, multiplicity, choice and contradiction in Brecht’s entire corpus, Jameson’s study engages in a dialogue with a cryptic work, unpublished in Brecht’s lifetime, entitled Me-i; Book of Twists and Turns. Jameson sees this text as key to understanding Brecht’s critical reflections on dialectics and his orientally informed fascination with flow and flux, change and the non-eternal. For Jameson, Brecht is not prescriptive but performative. His plays do not provide answers but attempt to show people how to perform the act of thinking, how to begin to search for answers themselves. Brecht represents the ceaselessness of transformation while at the same time alienating it, interrupting it, making it comprehensible by making it strange. And thereby, in breaking it up by analysis, the possibility emerges of its reconstitution under a new law.

Labor and the Wartime State-James B. Atleson 1998 The United States labor movement can credit -- or blame -- policies and regulations created during World War II for its current status. Focusing on the War Labor Board's treatment of arbitration, strikes, the scope of bargaining, and the contentious issue of union security, James Atleson shows how wartime necessities and language have carried over into a very different post-war world, affecting not only relations between unions and management but those between rank and file union members and their leaders.

Managers and the Legal Environment: Strategies for Business-Constance E. Bagley 2018-01-01 With new cases and examples from headlines, MANAGERS AND THE LEGAL ENVIRONMENT: STRATEGIES FOR BUSINESS, 9E equips readers with the legal knowledge and risk management techniques for success as a business manager. Cutting-edge coverage and a strategic approach teach how to enhance realizable value, redeploy resources, and manage legal and business risk. Up-to-date coverage addresses the rights of workers at firms, like Uber, in the gig economy; the right of employers to restrict employees' social media; ethics of compensating workers who are tipped; law to protect children's safety on the Internet; Fourth Amendment concerns in searches of cell location; rules governing crowdfunding; and the ramifications of the EU's "right to be forgotten." Readers learn to use legal tools to create value, attain business objectives, resolve legal issues, and handle legal disputes. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.
