WAEC in Review-Benjamin Freeman Jr. 2014-11-07 WAEC in Review is a practical intervention strategy in transforming the weakening educational system of Liberia where academic excellence is unceasingly diminishing. LIPACE Pilot Study Guide is not only a landmark achievement in the educational history of Liberia but a remarkable stride towards the proper preparation of Liberian students for future diets of the WAEC exam. As a member of the National Committee of the West African Examinations Council and a Stakeholder in the Liberian Education System, I wish to recommend the use of this study guide to adequately prepare each and every Liberian student for future examinations thereby setting the stage for an easy transition to the emerging West African Senior Secondary Examinations (WASSCE). I am explicitly confident that you will definitely find your journey through this guide very rewarding as you prepare to sit the next WAEC Exam.—David S. Massaquoi, Sr., director of Education, The Salvation Army-Liberia Command Education Secretariat Our students sit the exam in constant fear of proctors and supervisors. They know nothing about the exam and its structure and this fear lead to them failing massively. We need to build the confidence level of our students and help them to study hard and understand the roles of proctors and supervisors to stop the intimidation during the exam. Thanks to LIPACE and the “Turning the Tide” project, we have helped our students achieved an amazing achievement for the first time in the history of Gbarpolu County where all senior students successfully passed the exam.—Lartey Bemah, principal of Bopolu Public School (2012-2013), Gbarpolu County, Liberia

Tradition, Modernity and Post-modernity in Comparative Education-Vandra Masemann 1998-01-31 This special double issue consists of a selection of papers presented at the Ninth World Congress of Comparative Education, held at the University of Sydney, Australia, in July 1996, on the theme of "Tradition, Modernity and Post-modernity in Comparative Education". Before presenting the selection, this introduction will first survey the changing discourse in comparative education over the past few decades and will argue that an unreformulated and uncritical postmodernity holds no greater promise in comparative education, than its uncritical modernist or tradition-oriented rivals. When Nicholas Hans (1949) cited Michael Sadler's early rationale for studying comparative education, it was within the context of a work which sought to identify the traditions that underlay national educational systems. This early work, together with others such as that by Isaac Kandel (1930) was predicated on the assumption of the importance of national character, of which education systems were an important component. Indeed from this perspective, the purpose of comparative education was not merely to analyse the "forces and factors" which produced differences among educational systems, but, implicitly at least, also "to discover the underlying principles which govern the development of all national systems of education" (Hans 1949: 5). Hans was preeminently an historian, of course (as was Kandel to an extent), and therefore saw comparative education first and foremost in this light.

Felimanuel Series-Emmanuel Gbireh 2012-10-29 “It is chiefly through books that we enjoy intercourse with superior minds. In the best books, great men talk to us, give us their most precious thoughts, and pour their souls into ours. God be thanked for books. They are the voices of the distant and the dead, and make us heirs of the spiritual life of past ages. Books are true levelers. They give to all who will faithfully use them, the spiritual presence of the best and greatest of our race. - William Ellery Channing - Some of the things you will discover in Felimanuel Series, The Magical Secret to Success in English Language, Essay Writing for Junior and Senior High Schools Volume 1,

With Bonus Success Secrets: • The book is comprehensively, logically and coherently written and the language used is also easy to understand; hence, little or no further explanation is needed. • The book teaches how to choose examination questions and answer them without sweat. • Sample outlines/plans and sample essays have been written to guide pupils and students. • The bonus success secrets will help pupils and students to pass in all seemingly difficult subjects like mathematics and science. • The bonus success secrets will also guide pupils and students towards the attainment of greater success in life. The book has been designed in such a way that it can be used for examination purposes and for other practical uses in the day-to-day life of whoever uses it faithfully. In writing this book on English Language, essay writing, I decided to move away from the traditional way of some authors flooding their English Language, essay writing books with so many sample essays based on my experiences as an English teacher some years back. Many pupils / students have the habit of memorizing written essays found in books and reproduce them during examinations, class exercises or when given project/home work when they see that the question being asked is similar to the answered one they came across. I hope the experts in the educational sector will agree with me that this does not augur well for the proper development of the child because he/she would not have the opportunity to think and plan on his /her own before writing a script with originality (I stand to be corrected if I am mistaken). It is in line with this that I have given only single sample essays per essay topic treated with more suggested outlines/plans. Most people often fail to plan their lives and this usually have disastrous effects on them. Also in writing examination, most candidates fail to plan their essays before answering selected questions. As the old adage says, "If you fail to plan, you plan to fail." It is based on the above that in writing this book, I dedicated the first chapter to the basics of essay writing. Below is an excerpt of chapter one of the book. After high lighting on the basics of essay writing, I went ahead to discuss what paragraphs are and how they can be used in our daily writings. This is followed by the use of punctuation marks. Here again, I have given a comprehensive write-up as to how punctuation marks can be used to enrich our written works. Other topics covered in the book are writing of narrative essays, descriptive essays, friendly letters, semi- formal letters, summary writing, argumentative essays, speeches and talks, report writing, articles for publication, expository essays and advertisement. After a comprehensive, logical and coherent treatment of each topic, I followed up with sample questions, outlines/plans and essays. These are only to serve as a guide to users of the book. I will like to take this opportunity to entreat teachers to encourage pupils /students whom they teach to learn how to write an outline/plan and to use it when answering essay related questions, not only with English language, but with all other subjects that they deem it fit to apply. Some people may not see the usefulness of the outline/plan, but it helps the pupil / stude

The West African Examinations Council (1952-2002)-Francis Agbodeka 2002 Gle, a chief priest, abandons his role as custodian and defender of age-old customs to fight voluntarily on the side of the British in the Second World War. When the war ends, Gle and his fellow African soldiers do not receive their promised rewards. But they do not return peacefully to their homesteads or reassume their traditional values. Politicised by their role in the foreign conflicts they join together and march in protest to present a petition to the Governor of the Gold Coast (now Ghana), in an act of self-determination. The colonial forces respond with fire; soldiers are shot dead. The angry protesters descend into Accra and loot the shops, in what became the famous looting of 28 February 1948, and would mark the beginning of Ghana's fight for independence from Britain.
