1969 United States. Congress The Congressional Record is the official record of the proceedings and debates of the United States Congress. It is published daily when Congress is in session. The Congressional Record began publication in 1873. Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States (1789-1824), the Register of Debates in Congress (1824-1837), and the Congressional Globe (1833-1873)

1984 Francis J. Weber

2015 Kerry S. Walters Founder of missions, preacher of the faith, and center of controversy, Franciscan Junipero Serra was a man of complexity and contradictions. Kerry Walters offers a brief portrait of this fascinating man--our newest saint--and the times he lived in. He explores the multifaceted history of Christian missionary work in the Americas and the way our history has its roots deep in the virtue and vice of this movement.

2015-03-11 Rose Marie Beebe In Junípero Serra: California, Indians, and the Transformation of a Missionary, Beebe and Senkewicz focus on Serra's religious identity and his relations with Native peoples. They intersperse their narrative with new and accessible translations of many of Serra's letters and sermons, which allows his voice to be heard in a more direct and engaging fashion.

1932 United States. Congress

2017-06-10 A. H. Fitch Excerpt from Junipero Serra: The Man and His Work The best and most interesting method of obtaining historical information is the biographical. This is equally true whether the reader is studying a particular period relating to his own country or is taking a broad survey of universal history. Biography, especially when supplemented by extracts from original sources, leaves upon the mind a more definite impression than any other form of historical writing, with the one great exception of autobiography, of which unfortunately there is too little. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.

2000 Maurice N. L. Couve de Murville The Archbishop of Birmingham, England, presents a popular but thorough biography of Blessed Junipero Serra, the tireless Franciscan missionary who came to California in the 18th century to evangelize the Indians. Well-known

for the historic missions which he helped establish all along the coast from San Diego to San Francisco, Father Serra is even recognized by the secular society of the U.S. government as the "founder of California". His larger than life-size statue stands in a hall of the U.S. Capitol as one of the pioneers who created the United States of America. Archbishop de Murville presents a historical and spiritual biography of Serra from his childhood and student days in Majorca, Spain, to his time in Mexico, and to his great missionary work in California. Recently beatified by Pope John Paul II, Father Serra's presence and work is still very much alive through the beautiful missions that are visited by millions every year.

2017-02-06 Luther A. Ingersoll Ingersoll's book basically consists of three parts: the first and second parts offer a brief history of California and Los Angeles county and are given as a preface to the local history in order that the reader may have a connected story from the date of the discovery of the country. Included here are also sketches of each of the twenty-one Franciscan missions of Alta California. The third and final part deals with the history of the Santa Monica Bay cities and shows their growth and expansion through the years.

1959 Maynard J. Geiger Biography of Serra, from his birth in Mallorca, his early work in Mexico, and the establishing of the missions in California.

1896

2015-07-15 Mariana Medina A Spanish Franciscan friar, Father Junipero Serra traveled to the New World to bring Catholicism to the indigenous peoples, and in 1769 founded the first mission in California. Read all about Father Serra's incredible life, including his historic accomplishments and the recent controversies surrounding his missionary work.

2018-02-23 Steven W. Hackel "In September 2015, Junípero Serra was canonized by Pope Francis in Washington DC against the protest of many Californian Native Americans who criticized his brutal treatment of their ancestors and destruction of their culture. Like most complex historical figures, Junípero Serra has been interpreted in countless ways, often contextualized mainly in California. This book situates Serra in the context of the three major places that he lived, learned, and proselytized: Mallorca, Mexico, and Alta California. Scholars from all three countries contribute to a rare glimpse into the life of the saint by considering his use of music and art, his representation in popular culture; his education, ideology, and Franciscan influence; the plans and building of the missions; and his relation to native peoples."-- Provided by publisher.

2015-06-23 Michael Leroy Oberg This history of Native Americans, from the period of first contact to the present day, offers an important variation to existing studies by placing the lives and experiences of

Native American communities at the center of the narrative. Presents an innovative approach to Native American history by placing individual native communities and their experiences at the center of the study. Following a first chapter that deals with creation myths, the remainder of the narrative is structured chronologically, covering over 600 years from the point of first contact to the present day. Illustrates the great diversity in American Indian culture and emphasizes the importance of Native Americans in the history of North America. Provides an excellent survey for courses in Native American history. Includes maps, photographs, a timeline, questions for discussion, and "A Closer Focus" textboxes that provide biographies of individuals and that elaborate on the text, exposing students to issues of race, class, and gender.

2015-11-23 A. H. Fitch Junipero Serra, the Man and His Work is a biography of the famous saint.

1914 Abigail Hetzel Fitch Although every work on California since Palou's days necessarily contains references to Fray Junipero Serra, no other biography of him has been written. It was to supply this lack, and also because Palou's biography has to my knowledge never been translated [Since this was written, a translation of Palou's Vida has been published], that I undertook to write the present work, not, however, without many misgivings as to my ability to do justice to the subject. The national, and not merely local, interest of Junipero, as the preserver to Spain (and thereby indirectly to the United States) of the Pacific coast, from San Francisco to San Diego, becomes evident to all who read the history of California. Just in so far as our importance as a nation is affected by our coast line, does the nation owe a debt to Junipero Serra. Even Mr. Hubert Bancroft, who in his invaluable History of California but faintly disguises his dislike of the friar, says: "It did not require Palou's eulogistic pen to prove him a great and remarkable man."--Excerpted from the Preface.

2015-08-20 M.n.l. Couve De Murville This work is a popular but thorough biography of St. Junipero Serra (1713-1784), the tireless Franciscan missionary who came to California in the eighteenth century to evangelize the Native Americans. Well known for the historic missions that he helped establish all along the coast from San Diego to San Francisco (21 in all), Father Serra is even recognized by the secular society of the United States government as the Founder of California. As one of the pioneers who created the United States of America, his larger than life-size statue stands in the hall of the U.S. Capitol. Archbishop Couve de Murville presents an historical and spiritual biography of Serra from his childhood and student days in Majorca, Spain, to his time in Mexico, and to his great missionary work in California. Regarded as a great teacher by his order, his superiors initially made Serra a professor of theology at the Lullian University in Palma, Spain. After teaching for five years, he answered the call to be a missionary to the New World, and embarked on a ship to Mexico in 1749. For the rest of his life he worked tirelessly as a

preacher and a missionary in Mexico and California, his motto being Always forward, never back. Canonized a saint by Pope Francis in 2015, Father Serra's presence and work are still very much alive though the beautiful missions that are visited by millions of people every year. This deluxe edition includes numerous illustrations, most in color, of the life and work of Serra, especially of the missions that dot the landscape of California, many gloriously restored to their original beauty. At crucial moments in human affairs, God raises up men and women whom he thrusts into the roles of decisive importance for the future development of both society and the Church. We rejoice all the more when their achievement is coupled with a holiness of life that can truly be called heroic. So it is with Junipero Serra, who in the providence of God was destined to be the Apostle of California. St. John Paul II Junipero Serra is a great example for Catholics. He dedicated his life to the mission of evangelization, to bringing the good news of the Gospel to America. He understood that the purpose of the Church is to help us all grow as human persons and to respond to God's call: to love God and love others. Most Reverend Jose Gomez, Archbishop of Los Angeles, California"

1996 Donna Genet The story of the priest who founded the first nine missions in California during the eighteenth century, and dedicated his life to the peaceful spread of Christianity. Father Serra also left a lasting impact on California's farming community, since many of its significant crops originated in the mission gardens and orchards.

2017-01-15 Steven W. Hackel Recovering lost voices and exploring issues intimate and institutional, this sweeping examination of Spanish California illuminates Indian struggles against a confining colonial order and amidst harrowing depopulation. To capture the enormous challenges Indians confronted, Steven W. Hackel integrates textual and quantitative sources and weaves together analyses of disease and depopulation, marriage and sexuality, crime and punishment, and religious, economic, and political change. As colonization reduced their numbers and remade California, Indians congregated in missions, where they forged communities under Franciscan oversight. Yet missions proved disastrously unhealthy and coercive, as Franciscans sought control over Indians' beliefs and instituted unfamiliar systems of labor and punishment. Even so, remnants of Indian groups still survived when Mexican officials ended Franciscan rule in the 1830s. Many regained land and found strength in ancestral cultures that predated the Spaniards' arrival. At this study's heart are the dynamic interactions in and around Mission San Carlos Borromeo between Monterey region Indians (the Children of Coyote) and Spanish missionaries, soldiers, and settlers. Hackel places these local developments in the context of the California mission system and draws comparisons between California and other areas of the Spanish Borderlands and colonial America. Concentrating on the experiences of the Costanoan and Esselen peoples during the colonial period, Children of Coyote concludes with an epilogue that carries the story of their survival to the present day.

1933 W. Elmo Reavis

2014-01-28 William Devereill This volume of original essays by leading scholars is an innovative, thorough introduction to the history and culture of California. Includes 30 essays by leading scholars in the field. Essays range widely across perspectives, including political, social, economic, and environmental history. Essays with similar approaches are paired and grouped to work as individual pieces and as companions to each other throughout the text. Produced in association with the Huntington-USC Institute on California and the West.

2014-01-14 Gregory Orfalea The fascinating narrative of the remarkable life of Junipero Serra, the intrepid priest who led Spain and the Catholic Church into California in the 1700s and became a key figure in the making of the American West. The fascinating narrative of the remarkable life of Junipero Serra, the intrepid priest who led Spain and the Catholic Church into California in the 1700s and became a key figure in the making of the American West. In the year 1749, at the age of thirty-six, Junipero Serra left his position as a highly regarded priest in Spain for the turbulent and dangerous New World, knowing he would never return. The Spanish Crown and the Catholic Church both sought expansion in Mexico—the former in search of gold, the latter seeking souls—as well as entry into the mysterious land to the north called “California.” Serra's mission: to spread Christianity in this unknown world by building churches wherever possible and by converting the native peoples to the Word of God. It was an undertaking that seemed impossible, given the vast distances, the challenges of the unforgiving landscape, and the danger posed by resistant native tribes. Such a journey would require bottomless physical stamina, indomitable psychic strength, and, above all, the deepest faith. Serra, a diminutive man with a stout heart, possessed all of these attributes, as well as an innate humility that allowed him to see the humanity in native people whom the West viewed as savages. By his death at age seventy-one, Serra had traveled more than 14,000 miles on land and sea through the New World—much of that distance on a chronically infected and painful foot—baptized and confirmed 6,000 Indians, and founded nine of California's twenty-one missions, with his followers establishing the rest. The names of these missions ring through the history of California— San Diego, San Jose, San Juan Capistrano, Santa Clara, and San Francisco—and served as the epicenters of the arrival of Western civilization, where millions more would follow, creating the California we know today. An impoverished son, an inspired priest, and a potent political force, Serra was a complex man who stood at the historic crossroads between Native Americans, the often brutal Spanish soldiers, and the dictates of the Catholic Church, which still practiced punishment by flogging. In this uncertain, violent atmosphere, Serra sought to protect the indigenous peoples from abuse and to bring them the rituals and spiritual comfort of the Church even as the microbes carried by Europeans threatened their existence. Beginning with Serra's boyhood on the isolated island of

Mallorca, venturing into the final days of the Spanish Inquisition, revealing the thriving grandeur of Mexico City, and finally journeying up the untouched California coast, Gregory Orfalea's magisterial biography is a rich epic that cuts new ground in our understanding of the origins of the United States. Combining biography, European history, knowledge of Catholic doctrine, and anthropology, Journey to the Sun brings original research and perspective to America's creation story. Orfalea's poetic and incisive recounting of Serra's life shows how one man changed the future of California and in so doing affected the future of our nation.

1963 California

2015-09-03 Linda Gondosch In 18th-century Spain, daring stories of missionaries spreading the Gospel in the New World ignited the imagination of a devout young boy. Miguel Serra's dream soon became a reality. As Franciscan friar Junipero Serra, he traveled to the New World and tirelessly preached the love of Christ to the natives living in the uncharted wilderness of California. Join the "founding father of California" on his amazing journey. Experience the zeal of the saint who established the first nine Catholic missions in California, from San Diego to San Francisco.

2011-05-01 Maynard J. Geiger

1879

1960 John Martin Bennett

1931

2008 Francis J. Weber A compelling, beautifully illustrated, full-color biography of Fray Junipero Serra, founder of the California mission system. Using historical documents and never before published graphics from church archives, master historian Msgr. Francis J. Weber reveals the remarkable individual behind the legend as we explore Fray Serra's life, his work, and its impact on California history. Today his name adorns more buildings, schools and businesses, appears on more postage stamps and is featured in more artwork than any other Californian. That one little man who personally possessed nothing could have occasioned so varied an assortment of interest and acclaim is, in itself, a remarkable tribute to his spiritual and historic stature.

2013-09-03 Steven W. Hackel A portrait of the priest and colonialist who is one of the most important figures in California's history. In the 1770s, just as Britain's American subjects were freeing themselves from the burdens of colonial rule, Spaniards moved up the California coast to build frontier outposts of empire and church. At the head of

this effort was Junípero Serra, an ambitious Franciscan who hoped to convert California Indians to Catholicism and turn them into European-style farmers. For his efforts, he has been beatified by the Catholic Church and widely celebrated as the man who laid the foundation for modern California. But his legacy is divisive. The missions Serra founded would devastate California's Native American population, and much more than his counterparts in colonial America, he remains a contentious and contested figure to this day. Steven W. Hackel's groundbreaking biography, *Junípero Serra: California's Founding Father*, is the first to remove Serra from the realm of polemic and place him within the currents of history. Born into a poor family on the Spanish island of Mallorca, Serra joined the Franciscan

order and rose to prominence as a priest and professor through his feats of devotion and powers of intellect. But he could imagine no greater service to God than converting Indians, and in 1749 he set off for the new world. In Mexico, Serra first worked as a missionary to Indians and as an uncompromising agent of the Inquisition. He then became an itinerant preacher, gaining a reputation as a mesmerizing orator who could inspire, enthrall, and terrify his audiences at will. With a potent blend of Franciscan piety and worldly cunning, he outmaneuvered Spanish royal officials, rival religious orders, and avaricious settlers to establish himself as a peerless frontier administrator. In the culminating years of his life, he extended Spanish

dominion north, founding and promoting missions in present-day San Diego, Los Angeles, Monterey, and San Francisco. But even Serra could not overcome the forces massing against him. California's military leaders rarely shared his zeal, Indians often opposed his efforts, and ultimately the missions proved to be cauldrons of disease and discontent. Serra, in his hope to save souls, unwittingly helped bring about the massive decline of California's indigenous population. On the three-hundredth anniversary of Junípero Serra's birth, Hackel's complex, authoritative biography tells the full story of a man whose life and legacies continue to be both celebrated and denounced. Based on exhaustive research and a vivid narrative, this is an essential portrait of America's least understood founder.
