Masterpieces of Swiss Entrepreneurship-Jean-Pierre Jeannot 2021-04-21 This open access book focuses on Switzerland-based medium-sized companies with a longstanding export tradition and a proven dominance in global niche markets. Based upon in-depth documentation and analysis of 36 Swiss companies over their entire history, an expert team of authors presents several parallels in the pathways and success factors which allowed these firms to become dominant and operate from a high-cost location such as Switzerland. The book enhances these insights by providing detailed company profiles documenting the company history, development, and how their relevant global niche positions were reached. Readers will benefit from these profiles as they compile a diverse selection of industries, mainly active within the B2B sector, with mostly mature companies (60 years to older than 100 years since founding) and different types of ownership structures including family firms. 'Masterpieces of Swiss Entrepreneurship' brings unique learning opportunities to owners and leaders of SMEs in Switzerland and elsewhere. Findings are based on detailed bottom-up research of 36 companies -- without any preconceived notions. The book is both conceptual and practical. It fosters understanding for different choices in development pathways and management practices. Matti Alahuhta, Chairman DevCo Partners, ex-CEO Kone, Board member of several global listed companies, Helsinki, Finland Start-up entrepreneurs need proven models from industry which demonstrate the various paths to success. "Masterpieces of Swiss Entrepreneurship" provides deep insights highlighting these models and the important trade-offs entrepreneurial teams must consider when choosing the path of high growth or of maximum control, as they are often mutually exclusive. Gina Domanig, Managing Partner, Emerald Technology Ventures, Zurich

Maine Register, State Year-book and Legislative Manual- 1964

Distinction-Pierre Bourdieu 2013-04-15 No judgement of taste is innocent - we are all snobs. Pierre Bourdieu's Distinction brilliantly illuminates the social pretensions of the middle classes in the modern world, focusing on the tastes and preferences of the French bourgeoisie. First published in 1979, the book is at once a vast ethnography of contemporary France and a dissection of the bourgeois mind. In the course of everyday life we constantly choose between what we find aesthetically pleasing, and what we consider tacky, merely trendy, or ugly. Taste is not pure. Bourdieu demonstrates that our different aesth

Facade Construction Manual-Thomas Herzog 2004-01-01 «Facade Construction Manual» provides a systematic survey of contemporary expertise in the application of new materials and energy-efficient technologies in facade design. It surveys the facade design requirements made by various types of buildings, as well as the most important materials, from natural stone through to synthetics, and documents a diversity of construction forms for a wide range of building types.

Field Artillery Manual Cannon Gunnery-Department of the Army 2017-08-19 Training Circular (TC) 3-09.81, "Field Artillery Manual Cannon Gunnery," sets forth the doctrine pertaining to the employment of artillery fires. It explains all aspects of the manual cannon gunnery problem and presents a practical application of the science of ballistics. It includes step-by-step instructions for manually solving the gunnery problem which can be applied within the framework of decisive action or unified land operations. It is applicable to any Army personnel at the battalion or battery responsible to delivered field artillery fires. The principal audience for ATP 3-09.42 is all members of the Profession of Arms. This includes field artillery Soldiers and combined arms chain of command field and company grade officers, middle-grade and senior noncommissioned officers (NCO), and battalion and squadron command groups and staffs. This manual also provides guidance for division and corps leaders and staffs in training for and employment of the BCT in decisive action. This publication may also be used by other Army organizations to assist in their planning for support of battalions. This manual builds on the collective knowledge and experience gained through recent operations, numerous exercises, and the deliberate process of informed reasoning. It is rooted in time-tested principles and fundamentals, while accommodating new technologies and diverse threats to national security.

A Treatise on Political Economy-Jean Baptiste Say 1821

Commentaries on the Laws of England-William Blackstone 1765

The Conquest of Bread-Peter Kropotkin 2013-04-10 Written by a Russian prince who renounced his title, this work promotes an anarchist market economy — a system of autonomous cooperative collectives. A century after its initial publication, it remains fresh and relevant.

Fields, Factories, and Workshops-PÅ«tr A. Kropotkin 1992-11-01 Fields, Factories, and Workshops is a meticulously researched and brilliantly argued outline for redirecting agricultural and industrial production in a world of shrinking resources and increasing human needs. More prophetic than utopian, this volume remains remarkably pertinent to economic conditions at the end of the twentieth century. With a long intellectual precedent, Kropotkin's rejection of the traditional division of labor presupposes reorganized societies in which nations become economically self-sufficient and abandon global rivalry. His survey of worldwide economic development reveals penetrating insight into the potential of nations just beginning to emerge as major powers. This volume will be on continuing interest to historians, economists, sociologists, and labor studies specialists.

Maine Register Or State Year-book and Legislative Manual from April 1 ... to April 1 ...- 1963

The Art of Trading-Ref Wayne 2017-10-02 Uncover how you can become a successful Forex trader even as a complete beginner. Are you interested in discovering proven strategies to help you break into Forex trading and start turning a profit? Or are you looking for a step-by-step, beginner's approach to trading, without all the technical terms and jargon? Then it's time to try this book. Value Proposition Design-Alexander Osterwalder 2015-01-28 The authors of the international bestseller Business Model Generation explain how to create value propositions customers can't resist Value Proposition Design helps you tackle the core challenge of every business — creating compelling products and services customers want to buy. This highly practical book, paired with its online companion, will teach you the processes

and tools you need to create products that sell. Using the same stunning visual format as the authors' global bestseller, *Business Model Generation*, this sequel explains how to use the "Value Proposition Canvas" to design, test, create, and manage products and services customers actually want. Value Proposition Design is for anyone who has been frustrated by new product meetings based on hunches and intuitions; it's for anyone who has watched an expensive new product launch fail in the market. The book will help you understand the patterns of great value propositions, get closer to customers, and avoid wasting time with ideas that won't work. You'll learn the simple process of designing and testing value propositions, that perfectly match customers' needs and desires. In addition the book gives you exclusive access to an online companion on Strategyzer.com. You will be able to assess your work, learn from peers, and download pdfs, checklists, and more. Value Proposition Design is an essential companion to the "Business Model Canvas" from *Business Model Generation*, a tool embraced globally by startups and large corporations such as MasterCard, 3M, Coca Cola, GE, Fujitsu, LEGO, Colgate-Palmolive, and many more. Value Proposition Design gives you a proven methodology for success, with value propositions that sell, embedded in profitable business models."

InfoWorld- 1983-10-10 InfoWorld is targeted to Senior IT professionals. Content is segmented into Channels and Topic Centers. InfoWorld also celebrates people, companies, and projects.

Windows NT TCP/IP Network Administration-Craig Hunt 1998 Windows NT TCP/IP Network Administration is a complete guide to setting up and running a TCP/IP network on Windows NT. Windows NT and TCP/IP have long had a close association, and this is the first book to focus exclusively on NT networking with TCP/IP. It starts with the fundamentals--what the protocols do and how they work, how addresses and routing move data through the network, and how to set up your network connection. Beyond that, all the important networking services provided as part of Windows NT-- including IIS, RRAS, DNS, WINS, and DHCP--are presented in detail. This book is the NT administrator's indispensable guide. Contents include: Overview Delivering the data Network services Getting started Installing and configuring NT TCP/IP Using Dynamic Host Configuration Protocol Using Windows Internet Name Service Using Domain Name Service Configuring Email Service Using Microsoft routing Using Remote Access Service Troubleshooting TCP/IP Network Security Internet Information Server Appendixes on the TCP/IP commands, PPP script language reference, and DNS resource records

Secrets of Swiss Banking-Hoyt Barber 2008-04-25 In *Secrets of Swiss Banking*, offshore financial specialist Hoyt Barber shows how to protect your hard-earned assets by safely and legally moving your money into trusted Swiss financial institutions. Along with timely banking advice and solid investment insights, Barber provides authoritative information on a variety of Swiss banking-related issues—from the basics of opening an account to the nuances of numerous Swiss banking and investment strategies. He also details Swiss banking policies and regulations along with U.S. tax and reporting requirements.

Fire in the Minds of Men-James H. Billington 1980 This book traces the origins of a faith--perhaps the faith of the century. Modern revolutionaries are believers, no less committed and intense than were Christians or Muslims of an earlier era. What is new is the belief that a perfect secular order will emerge from forcible overthrow of traditional authority. This inherently implausible idea energized Europe in the nineteenth century, and became the most pronounced ideological export of the West to the rest of the world in the twentieth century. Billington is interested in revolutionaries--the innovative creators of a new tradition. His historical frame extends from the waning of the French Revolution in the late eighteenth century to the beginnings of the Russian Revolution in the early twentieth century. The theater was Europe of the industrial era; the main stage was the journalistic offices within great cities such as Paris, Berlin, London, and St. Petersburg. Billington claims with considerable evidence that revolutionary ideologies were shaped as much by the occultism and proto-romanticism of Germany as the critical rationalism of the French Enlightenment. The conversion of social theory to political practice was essentially the work of three Russian revolutions: in 1905, March 1917, and November 1917. Events in the outer rim of the European world brought discussions about revolution out of the school rooms and press rooms of Paris and Berlin into the halls of power. Despite his hard realism about the adverse practical consequences of revolutionary dogma, Billington appreciates the identity of its best sponsors, people who preached social justice transcending traditional national, ethnic, and gender boundaries. When this book originally appeared *The New Republic* hailed it as "remarkable, learned and lively," while *The New Yorker* noted that Billington "pays great attention to the lives and emotions of individuals and this makes his book absorbing." It is an invaluable work of history and contribution to our understanding of political life.

The Context of Youth Violence-Jack M. Richman 2001 Leading scholars summarize the current research on risk, protection, and resilience in the context of youth violence and its implications for practice with children and families. It describes an emerging framework for understanding social and health problems and for developing more effective programs for interventions. This book describes resilient children by examining risk factors for violence and explores the factors that lead some children to resist or adapt to risk. The concept of resilience has been applied to family, school, neighborhood, and organizational contexts. Educational, family, and community resilience are used as the framework to describe social systems that possess risk factors. By understanding why some systems with risk factors are adaptable, information for assessment can be applied to service plans, that will be more effective in treating children at risk of antisocial, aggressive behavior.

Tourism Destination Marketing and Management-Youcheng Wang 2011-03-01 This book offers a comprehensive understanding of the concept and scope of the tourism industry in general and of destination marketing and management in particular. Taking an integrated and comprehensive approach, it focuses on both the macro and micro aspects of destination marketing and management. The book consists of 27 chapters presented in seven parts with the following themes: concept, scope and structure of destination marketing and management, destination planning and policy, consumer decision-making processes, destination marketing research, destination branding and positioning, destination product development and distribution, the role of emerging technologies in destination marketing, destination stakeholder management, destination safety, disaster and crisis management, destination competitiveness and sustainability, and challenges and opportunities for destination marketing and management.

Caliban and the Witch-Silvia Federici 2021-07-29 'A groundbreaking work . . . Federici has become a crucial figure for . . . a new generation of feminists' Rachel Kushner, author of *The Mars Room* A cult classic since its publication in the early years of this century, *Caliban and the Witch* is Silvia Federici's history of the body in the transition to capitalism. Moving from the peasant revolts of the late Middle Ages through the European witch-hunts, the rise of scientific rationalism and the colonisation of the Americas, it gives a panoramic account of the often horrific violence with which the unruly human material of pre-capitalist societies was transformed into a set of predictable and controllable mechanisms. It is a study of indigenous traditions crushed, of the enclosure of women's reproductive powers within the nuclear family, and of how our modern world was forged in blood. 'Rewarding . . . allows us to better understand the intimate relationship between modern patriarchy, the rise of the nation state and the transition from feudalism to capitalism' *Guardian*

Scholars of Mayhem-Daniel C. Guiet 2019-06-04 "Riveting...A true-life mix of James Bond, Lawrence of Arabia and 'Casablanca.'" -*The Wall Street Journal* The astonishing untold story of the author's father, the lone American on a four-person team of Allied secret agents dropped into Nazi-occupied France, whose epic feats of irregular warfare proved vital in keeping German tanks away from Normandy after D-Day. When Daniel Guiet was a child and his family moved country, as they frequently did, his father had one possession, a tin bread box, that always made the trip. Daniel was admonished never to touch the box, but one day he couldn't resist. What he found astonished him: a .45 automatic and five full clips; three slim knives; a length of wire with a wooden handle at each end; thin pieces of paper with random numbers on them; several passports with his father's photograph, each bearing a different name; and silk squares imprinted with different countries' flags, bearing messages in unfamiliar alphabets. The messages, he discovered much later, were variations on a theme: I am an American. Take me to the nearest Allied military office. You will be paid. Eventually Jean Claude Guiet revealed to his family that he had been in the CIA, but it was only at the very end of his life that he spoke of the mission during World War II that marked the beginning of his career in clandestine service. It is one of the last great untold stories of the war, and Daniel Guiet and his collaborator, the writer Tim Smith, have spent several years bringing it to life. Jean Claude was an American citizen but a child of France, and fluent in the language; he was also extremely bright. The American military was on the lookout for native French speakers to be

seconded to a secret British special operations commando operation, dropping clandestine agents behind German lines in France to coordinate aid to the French Resistance and lead missions wreaking havoc on Germany's military efforts across the entire country. Jean Claude was recruited, and his life was changed forever. Though the human cost was terrible, the mission succeeded beyond the Allies' wildest dreams. Scholars of Mayhem tells the story of Jean Claude and the other three agents in his "circuit," codenamed Salesman, a unit of Britain's Special Operations Executive, the secret service ordered by Churchill to "Set Europe ablaze." Parachuted into France the day after D-Day, the Salesman team organized, armed, and commanded an underground army of 10,000 French Resistance fighters. National pride has kept the story of SOE in France obscure, but of this there is no doubt: While the Resistance had plenty of heart, it was SOE that gave it teeth and claws. Scholars of Mayhem adds brilliantly to that picture, and further underscores what a close-run thing the success of the Allied breakout from the Normandy landings actually was.

Economic and Social Conditions in France During the Eighteenth Century-Henri Eugène Sée 1968

Onshore and Offshore Wind Energy-Paul A. Lynn 2011-12-12 "This book uses academic content and rigor to introduce all relevant topics, from global wind resource and historical background, through to modern electricity generation and distribution, including the topical subject area of offshore systems"--

The Spell of the Sensuous-David Abram 2012-10-17 Winner of the International Lannan Literary Award for Nonfiction Animal tracks, word magic, the speech of stones, the power of letters, and the taste of the wind all figure prominently in this intellectual tour de force that returns us to our senses and to the sensuous terrain that sustains us. This major work of ecological philosophy startles the senses out of habitual ways of perception. For a thousand generations, human beings viewed themselves as part of the wider community of nature, and they carried on active relationships not only with other people with other animals, plants, and natural objects (including mountains, rivers, winds, and weather patterns) that we have only lately come to think of as "inanimate." How, then, did humans come to sever their ancient reciprocity with the natural world? What will it take for us to recover a sustaining relation with the breathing earth? In *The Spell of the Sensuous* David Abram draws on sources as diverse as the philosophy of Merleau-Ponty, Balinese shamanism, Apache storytelling, and his own experience as an accomplished sleight-of-hand of magician to reveal the subtle dependence of human cognition on the natural environment. He explores the character of perception and excavates the sensual foundations of language, which--even at its most abstract--echoes the calls and cries of the earth. On every page of this lyrical work, Abram weaves his arguments with a passion, a precision, and an intellectual daring that recall such writers as Loren Eiseley, Annie Dillard, and Barry Lopez.

WIR 2001- 2001 Successful economic development depends on a country's ability to attract foreign investment and mobilize its own resources.

Success stories in an unforgiving global market are few, but this report examines a generation of investment promotion strategies, and shows how international production networks could point the way forward.

The Quartermaster Corps-William F. Ross 1965

Fans-Larry Olmsted 2021-03-02 The perfect book for everyone cheering from the couch during the Tokyo Olympics Larry Olmsted's writing and research have been called "eye-opening" (People), "impressive" (Publishers Weekly, starred review), and "enlightening" (Kirkus Reviews). Now, the New York Times and Washington Post bestselling author turns his expertise to a subject that has never been fully explored, delivering a highly entertaining game changer that uses brand-new research to show us why being a sports fan is good for us individually and is a force for positive change in society. Fans is a passionate reminder of how games, teams, and the communities dedicated to them are vital to our lives. Citing fascinating new studies on sports fandom, Larry Olmsted makes the case that the more you identify with a sports team, the better your social, psychological, and physical health is; the more meaningful your relationships are; and the more connected and happier you are. Fans maintain better cognitive processing as their gray matter ages; they have better language skills; and college students who follow sports have higher GPAs, better graduation rates, and higher incomes after graduating. And there's more: On a societal level, sports help us heal after tragedies, providing community and hope when we need it most. Fans is the perfect gift for anyone who loves sports or anyone who loves someone who loves sports. "Olmsted opens a window into a psychologically compelling world of passion and purpose." —Harvey Araton, author of *Our Last Season: A Writer, a Fan, a Friendship*

"The" Illustrated London News- 1874

The Architecture of Happiness-Alain de Botton 2007-03-29 THE NUMBER ONE INTERNATIONAL BESTSELLER From one of our greatest voices in modern philosophy, author of *The Course of Love*, *The Consolations of Philosophy* and *The School of Life*, *The Architecture of Happiness* explores the fascinating hidden links between the buildings we live in and our long-term wellbeing. 'Engaging and intelligent . . . Full of splendid ideas, happily and beautifully expressed' Independent What makes a house truly beautiful? Why are many new houses so ugly? Why do we argue so bitterly about sofas and pictures - and can differences of taste ever be satisfactorily resolved? To answer these questions and many more, de Botton looks at buildings across the world, from medieval wooden huts to modern skyscrapers; he examines sofas and cathedrals, tea sets and office complexes, and teases out a host of often surprising philosophical insights. *The Architecture of Happiness* will take you on a beguiling tour through the history and psychology of architecture and interior design, and will change the way you look at your home. 'Alain de Botton takes big, complex subjects and writes about them with thoughtful and deceptive innocence' Observer 'Clever, provocative and fresh as a daisy' Literary Review

Style Guide-The Economist 2015-06-23 This expanded twelfth edition of the bestselling guide to style is based on the Economist's own updated house style manual, and is an invaluable companion for everyone who wants to communicate with the clarity, style and precision for which the Economist is renowned. As the introduction says, 'clarity of writing usually follows clarity of thought.' The Economist Style Guide gives general advice on writing, points out common errors and clichés, offers guidance on consistent use of punctuation, abbreviations and capital letters, and contains an exhaustive range of reference material - covering everything from accountancy ratios and stock market indices to laws of nature and science. Some of the numerous useful rules and common mistakes pointed out in the guide include: *Which informs, that defines. This is the house that Jack built. But: This house, which Jack built, is now falling down. Discreet means circumspect or prudent; discrete means separate or distinct. Remember that "Questions are never indiscreet. Answers sometimes are" (Oscar Wilde). Flaunt means display, flout means disdain. If you flout this distinction you will flaunt your ignorance Forgo means do without; forego means go before. Fortuitous means accidental, not fortunate or well-timed. Times: Take care. Three times more than X is four times as much as X. Full stops: Use plenty. They keep sentences short. This helps the reader.

Harper's Pictorial Library of the World War-Albert Bushnell Hart 1920

The World Atlas of Coffee-James Hoffmann 2018-10-04 The worldwide bestseller - 1/4 million copies sold 'Written by a World Barista Champion and co-founder of the great Square Mile roasters in London, this had a lot to live up to and it certainly does. Highly recommended for anyone into their coffee and interested in finding out more about how it's grown, processed and roasted.' (Amazon customer) 'Whether you are an industry professional, a home enthusiast or anything in between, I truly believe this is a MUST read.' (Amazon customer) 'Informative, well-written and well presented. Coffee table and reference book - a winner' (Amazon customer) 'Very impressive. It's amazing how much territory is covered without

overwhelming the reader. The abundant photos and images are absolutely coffee-table-worthy, but this book is so much more. I think it would be enjoyable for an obsessed coffee geek or someone who just enjoys their java.' (Amazon customer) For everyone who wants to understand more about coffee and its wonderful nuances and possibilities, this is the book to have. Coffee has never been better, or more interesting, than it is today. Coffee producers have access to more varieties and techniques than ever before and we, as consumers, can share in that expertise to make sure the coffee we drink is the best we can find. Where coffee comes from, how it was harvested, the roasting process and the water used to make the brew are just a few of the factors that influence the taste of what we drink. Champion barista and coffee expert James Hoffmann examines these key factors, looking at varieties of coffee, the influence of terroir, how it is harvested and processed, the roasting methods used, through to the way in which the beans are brewed. Country by country - from Bolivia to Zambia - he then identifies key characteristics and the methods that determine the quality of that country's output. Along the way we learn about everything from the development of the espresso machine, to why strength guides on supermarket coffee are really not good news. This is the first book to chart the coffee production of over 35 countries, encompassing knowledge never previously published outside the coffee industry.
