Juta's Manual of Nursing (Volume 2) - A Practical Manual-A Young 2004-05-01

Juta's Manual of Nursing-Anne Young 2005-04 A focus on the legal aspects of medicine, ethical issues, and community-based work distinguishes this education manual for nurses from previous volumes in the series. Discussion questions and self-assessments are included in each chapter whose subjects include care for women with special needs, disabled clients, the elderly, and patients with HIV/AIDS or a malignant disease.

Manual of Nursing-Marie E. Vlok 2002-08 The two-volume Manual of Nursing is a classic nursing text which broadens the student's scope of knowledge by discussing in-depth aspects of midwifery, critical care nursing, community nursing and psychiatric nursing. Each chapter has introductory notes and self-tests to assist and reinforce learning. Volumes 1 and 2 complement each other and students will find in Volume 2 the information they need to complete their study of subjects covered in Volume 1. Easy referencing ensures that the set (encapsulating the integrated nursing course) is of immediate and practical use. Volume 1 introduces certain basics of nursing theory and practice and includes a section dealing with nursing-related services. Volume 2 expands on the material in Volume 1, covering selected specialist subjects. The Manual of Nursing is an indispensable set, giving the student nurse and nurse practitioner a comprehensive overview of the diseases commonly encountered in a general hospital. Throughout, it emphasises the need to manage the patient as a bio-psycho-social being.

Manual of Community Nursing and Communicable Diseases-Marie E. Vlok 1996-01-28 This edition, written as South Africa moves from expensive curative health care to a more people-focused primary health-care system, highlights transitional structures and bridges the gap between past and present. Part One focuses on the Government of National Unity and population development programmes, emphasising the role of community nurses in the primary health-care system. Subsequent sections cover factors playing an important role in community nursing, including housing, urbanisation and malnutrition. In accordance with the National Health-care Plan for South Africa, prominence is given to issues such as health education and maternal and child health care. The section on communicable diseases has been updated and takes into account changes in legislation and the latest statistical information. Primary health-care problems at community level are covered in depth. Students and practitioners will benefit from the wealth of information in this new edition.
