Autobiography of Emperor Charles IV and His Legend of St Wenceslas-Carlos IV (Emperador de Alemania, () 2001-02-10 "The autobiography of the German emperor and Bohemian king Charles IV, one of the few to survive from the Middle Ages, gives a unique insight into the personality of one of the most influential rulers of 14th-century Central Europe. Covering the years from his birth in 1316 until his election as the king of Germany in 1346, Charles tells of his childhood at the court of the French kings, his marriage, his first steps on the international scene in support of his father John of Luxemburg's Italian policies, his return to Bohemia and his administration there, and his participation in John's wars in Silesia. Charles also writes at length on his ideals of the perfect ruler, and does not attempt to hide his dreams, temptations, affections, and faith. The volume also includes the first complete English translation of Charles's Legend of St. Wenceslas."-BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. All Rights Reserved

Der letzte Kaiser-Josef Gelmi 2004 Das aktuelle Buch zur Seligsprechung im Herbst 2004 Die bevorstehende Seligsprechung hat das Interesse an diesem wenig bekannten Herrscher ansteigen lassen. Mit der Ermordung seines Onkels Franz Ferdinand im August 1914 rückte er als Thronfolger plötzlich ins Rampenlicht und wurde nach dem Tod Franz Josephs 1916 Kaiser und Oberbefehlshaber der österreichisch-ungarischen Armee im Ersten Weltkrieg. Er strebte 1916/17 vergeblich einen Sonderfrieden an ("Sixtus-Affäre"), musste nach verlorenem Krieg emigrieren und starb 1922 in der Verbannung auf der Insel Madeira. Der Historiker Josef Gelmi bietet einen kompakten Überblick über Leben Kaiser Karls, um dann im zweiten Teil des Buches - auch mit vielen Bildern - seine häufigen Aufenthalte und seine vielfältigen Beziehungen zu Tirol zu beleuchten.

Kaiser Karl-Raphaëlle Bacqué 2019-06-05 « Cette première biographie, nourrie par de multiples témoins de premier ordre, se dévore : on rit, on frémit, on admire. » Elle - Katell Pouliquen « C'est un livre qu'on ne lâche pas avant de l'avoir terminé. On le recommande chaleureusement » Ali Baddou, France 5 Qui était vraiment Karl Lagerfeld ? - Un grand couturier - Un adorateur de la féminité - Un patron hyperactif Mais il était plus que ça : - Un homme du monde - Un manipulateur de haut vol - Un extraordinaire séducteur un rien pervers - Un seigneur à l'allure très Grand Siècle - Un provocateur impénitent - Un amoureux transi dans la vie - Une icône mondiale Raphaëlle Bacqué va au-delà de la légende dans ce livre exceptionnel qui dresse le portrait féroce d'un monstre sacré, tenant à la fois du grand document nourri de révélations et de la fresque littéraire d'actualité.

For God and Kaiser-Richard Bassett 2015-01-01 The definitive history of Austria's multinational army and its immense role during three centuries of European military history Among the finest examples of deeply researched and colorfully written military history, Richard Bassett's For God and Kaiser is a major account of the Habsburg army told for the first time in English. Bassett shows how the Imperial Austrian Army, time and again, was a decisive factor in the story of Europe, the balance of international power, and the defense of Christendom. Moreover it was the first pan-European army made up of different nationalities and faiths, counting among its soldiers not only Christians but also Muslims and Jews. Bassett tours some of the most important campaigns and battles in modern European military history, from the seventeenth century through World War I. He details technical and social developments that coincided with the army's story and provides fascinating portraits of the great military leaders as well as noteworthy figures of lesser renown. Departing from conventional assessments of the Habsburg army as ineffective, outdated, and repeatedly inadequate, the author argues that it was a uniquely cohesive and formidable fighting force, in many respects one of the glories of the old Europe.

A European Non-proliferation Policy-Senior Fellow of the Centre for European Policy Studies Project Director Harald Müller 1987 Why have Europeans been slow to join the struggle against the spread of atomic weapons? Can their commitment to this cause grow stronger? The first comprehensive study of the initiatives for creating an effective European policy, this book examines the history, current structures and processes, constraints, and opportunities of a Western European non-proliferation policy. The volume opens with a summary of the problems of formulating a specifically European response to the threat of nuclear proliferation, then presents studies of eight nations which are capable of developing substantial nuclear arsenals, and concludes with a blueprint for an effective European policy on curtailing arms proliferation.

Allgemeine Enzyklopädie Der Wissenschaften und Künste-Johann Samuel Ersch 1992

King Sigismund of Poland and Martin Luther-Natalia Nowakowska 2018-01-11 The first major study of the early Reformation and the Polish monarchy for over a century, this volume asks why Crown and church in the reign of King Sigismund I (1506-1548) did not persecute Lutherans. It offers a new narrative of Luther's dramatic impact on this monarchy - which saw violenturban Reformations and the creation of Christendom's first Lutheran principality by 1525 - placing these events in their comparative European context. King Sigismund's realm appears to offer a major example of sixteenth-century religious toleration: the king tacitly allowed his Hanseatic ports toenact local Reformations, enjoyed excellent relations with his Lutheran vassal duke in Prussia, allied with pro-Luther princes across Europe, and declined to enforce his own heresy edicts. Polish church courts allowed dozens of suspected Lutherans to walk free.

Examining these episodes in turn, this study does not treat toleration purely as the product of political calculation or pragmatism. Instead, through close analysis of language, it reconstructs the underlying cultural beliefs about religion and church (ecclesiology) held by the king, bishops,courtiers, literati, and clergy - asking what, at heart, did these elites understand "Lutheranism" and "catholicism" to be? It argues that the ruling elites of the Polish monarchy did not persecute Lutheranism because they did not perceive it as a dangerous Other - but as a variant form of catholicChristianity within an already variegated late medieval church, where social unity was much more important than doctrinal differences between Christians. Building on John Bossy and borrowing from J.G.A. Pocock, it proposes a broader hypothesis on the Reformation as a shift in the languages andconcept of orthodoxy.
