2015-05-10 BABY PROFESSOR. Do you know the true secret to math success? It's constant practice! When your child is exposed to as many math equations as possible, then he/she will be given the chance to commit and correct errors. This is an important exercise that will lead to improved math skills and learning prowess. Grab a copy for your child today!

2010 Joseph D'Agnese "Students build critical thinking and put problem-solving strategies to work with these fun, ready-to-go, learning-packed activities! Motivating puzzles, riddles, games, stories, and interactive reproducibles reinforce important grade-specific math skills and concepts and build computational fluency. Includes ideas for group and class discussions, suggestions for connecting writing and math, easy assessment ideas, and a student self-evaluation form, teacher checklist, and scoring rubric"--Page 4 of cover.

1999-04 Cindi Mitchell Teaching tips for solving math problems through studying three different types of activities: designs to color, designs to create, designs to construct.

2019-09-25 Kelli Pearson Ditch the drill and fling those flash cards in the recycle bin... now there's a better way to learn math! When you play the fun dice and card games in this book, you'll get better at math without even realizing it. The more you play, the more you learn...and you'll love every minute! In this completely revised and updated third edition of Miss Brain's Cool Math Games for kids in grades 1-3, you'll have a whopping 38 addictively fun math games to help your child improve skills and fall in love with math. THREE WAYS TO PLAY: Choose a math skill that might need a little practice, and play one of the games in that chapter Start at the beginning and play all the games in the book in order so you don't miss any Randomly pick a game that looks fun, and play it. Repeat! A great math game helps get rid of math anxiety, ends family math fights, gives kids tons of practice, and helps kids really truly LOVE math. Miss Brain's Cool Math Games currently comes in two levels. In this second level for kids in grades 3-5, you'll find: number sense games (including place value) addition and subtraction games multiplication and division games fraction and decimal games mixed skill games The games in this book work great with mixed levels (siblings of different ages, or parents playing with children). Ideal for 2-4 players.

2003-04-01 Cindi Mitchell Kids will get a kick out of solving math problems to create these colorful and amazing kaleidoscope designs. Each activity in this motivating collection starts with a math worksheet that lets kids practice skills in multiplication, division, fractions, or decimals. Then, on an accompanying page, kids use their answers to "color by numbers," creating intricate and dazzling works of art! For use with Grades 4-6.

1991 Arthur Benjamin By transforming math "problems" into games, this easy-to-follow book gives parents a fun way to help their children learn math. With an expanded section on problem solving, fun word problems, and

entertaining visual concepts, it proves that math can be interesting.

2001-10-01 Cindi Mitchell Eye-popping, color-in kaleidoscope designs like Spinning Pinwheels, Dancing Butterflies, and Wandering Stars will inspire every kid to look forward to math time! Each reproducible activity sheet lets kids explore symmetry, and practice important skills in addition, subtraction, multiplication, and division. For use with Grades 2-3.

1999-03-01 Richard Porteus This one-of-a-kind resource is packed with fun, skill-boosting reproducibles that cover the topics you teach: addition, subtraction, multiplication, division, fractions, decimals, and much more. These creative puzzles and activities are sure to engage even the most reluctant math learners.

2002-02 Rose Army

2016-12-13 Kelli Pearson Turns learning into play with 32 dice and card games that help kids get better at math. Also includes picture glossary of math terms and printable math tools for visual, hands-on learning.

2010 Jack Silbert Easy standards-based lessons, activities, and reproducibles that build and reinforce the math skills and concepts fourth graders need to know!

2002-12 Betsy Franco 50 super-fun math reproducibles that help kids build essential math skills and meet the NCTM standards.

2010 Carolyn Ford Brunetto Easy standards-based lessons, activities, and reproducibles that build and reinforce the math skills and concepts third graders need to know!

1998

2010-05 Jennifer Nichols Students build critical thinking and put problem-solving strategies to work with these fun, ready-to-go, learning-packed activities! Motivating puzzles, riddles, games, stories, and interactive reproducibles reinforce important grade-specific math skills and concepts and build computational fluency. Includes ideas for group and class discussions, suggestions for connecting writing and math, easy assessment ideas, and student self-assessment forms, teacher checklists, and scoring rubrics. For use with Grade 6.

2004 Fiona Watt Make math fun with these engaging sticker activity books! The bold, bright illustrations and simple yet challenging activities reinforce essential math skills and build confidence through practice.

2020-05-12 Megageex Publishing Help Your Kids Master The Times Table Learning and practicing the multiplication tables can be fun! Watch your child grow their mathematical mind! Learn Multiplication Through Play Replace boring multiplication drills with fun and challenging connect-the-dots and puzzle activities featuring the world's greatest role-models! Who's inside? Albert Einstein, Marie Curie, Thomas Edison, Isaac Newton, Rosalind Franklin, Galileo Galilei, The Wright Brothers, George Washington Carver, Wolfgang Amadeus

Mozart, C. J. Walker, Nikola Tesla, Ada Lovelace, Alexander Graham Bell, Charles Darwin, and Alan Turing. Screen-Free Activities Our Multiplication Fun Practice Book will help them get ahead and master multiplication with the help of some of history's greatest mathematicians! Description: \* 60 pages filled with fun multiplication activities, from super easy to more challenging exercises\* Developed for Ages 5+\* Activities: connect-the-dots, puzzles, cut & glue, and coloring multiplication games inspired by the MegaGeex\* Bonus: Includes a Multiplications Table mini-poster\* Extra: Learn about some of history's greatest minds, including Albert Einstein, Marie Curie, CJ Walker, Wright Brothers, Isaac Newton, Ada Lovelace, Alan Turing, and more\* Hours of creative and challenging fun!\* Promotes mathematical literacy and mastery

2000-05 Chuck Lotta An experienced math teacher shares the 250 10-minute quizzes he developed that helped boost his students' mental math skills and their scores on standardized tests. Topics covered include addition, subtraction, multiplication, division, numeration, patterns, percents, ratio, rounding, prime numbers, geometry and much more. Includes ready-to-use, reproducible answer sheets. Geared to the NCTM standards. For use with Grades 4-8.

2010-05 Cecilia Dinio-Durkin Students build critical thinking and put problem-solving strategies to work with these fun, ready-to-go, learning-packed activities! Motivating puzzles, riddles, games, stories, and interactive reproducibles reinforce important grade-specific math skills and concepts and build computational fluency. Includes ideas for group and class discussions, suggestions for connecting writing and math, easy assessment ideas, and student self-assessment forms, teacher checklists, and scoring rubrics. For use with Grade 1.

2002-07 Cindy Barden Challenging and fun activities reinforce grade-appropriate math skills using guidelines from the National Council of Teachers of Mathematics (NCTM). Answer keys are included.

2019-11-27 Marco Walder Dr. Marco Walder brings to you a math fun book series that will definitely inspire, help, and motivate students and parents to fall in love with math. The Math Tales of Mathias: Value City the place where numbers have value, combines essential reading and math components to tell a story students and parents will enjoy while learning, enhancing, and growing their math skills. Dr. Marco Walder has designed a unique series of math fun books for students Grades K through 3 that will close academic gaps, grow academic levels, and ensure a great math foundation is built. The Math Tales of Mathias allows parents and kids to actively participate and learn together as they make their way through Value City. Volume 4 focuses on understanding Odd and Even, Ordering, and Comparing Numbers By helping Mathias and Mr. Scribble make it through Value City math will again become fun and a subject students love, enjoy, and grow from for years to come. If you want to take your

student to the next level, this Math Fun Book is for you!

1979 Cleatus Moorehead

2011 Immacula A. Rhodes To solve the riddle at the top of the pyramid, kids apply essential skills in multiplication, division, fractions, decimals, time, money, measurement, algebra, word problems, and more!

1998-04-01 Judi Aronson Make mathematics come alive for your students with these entertaining and educational spinner games. Each quick to assemble and easy-to-use game reinforces a wide range of skills including problem solving and mathematical reasoning, number sense and numeration, whole number operations, geometry and spatial sense, and probability. 25 Spinner Games for Math comes complete with spinner templates, suggestions for game variations and extensions, critical thinking questions, and book links. For use with Grades 3-5.

2010 Amy Kraft Success in math requires children to make connections between the real world and math concepts in order to solve problems. Successful problem solvers will be ready for the challenges of mathematics as they advance to more complex topics. The games and puzzles in this workbook are designed to help children enjoy practicing their math skills. Best of all, they'll have lots of fun doing it! Here's a peek at what's inside: Code Breaker After solving problems with addition and subtraction, multiplication, fractions, temperature, time, or money, students use the answers to solve a fun riddle. Uniform Central The Callicoon Clippers need new hockey uniforms. Students see how many uniforms can be made by choosing from different hockey jerseys and pants. Fraction Factory Using the game board in the workbook, players see who can move the quickest through fractions of muffins to get to the box at the end. Incredible

Illusions Students fill in blanks in a tessellation, or a repeating pattern of shapes, to discover the illusion. Plus! Game Pieces The workbook includes spinners, pattern blocks, tangram pieces, and beans for students to cut out and use with the games and puzzles. Give your child's confidence in math a boost with 3rd Grade Math Games & Puzzles.

1999-12 Cindi Mitchell Teaching tips for solving math problems through studying three different types of activities: designs to color, designs to create, designs to construct.

2019-09-25 Kelli Pearson Ditch the drill and fling those flash cards in the recycle bin... now there's a better way to learn math! When you play the fun dice and card games in this book, you'll get better at math without even realizing it. The more you play, the more you learn...and you'll love every minute! In this completely revised and updated third edition of Miss Brain's Cool Math Games for kids in grades 1-3, you'll have a whopping 39 addictively fun math games to help your child improve skills and fall in love with math. **THREE WAYS TO PLAY:** Choose a math skill that might need a little practice, and play one of the games in that chapter Start at the beginning and play all the games in the book in order so you don't miss any Randomly pick a game that looks fun, and play it. Repeat! A great math game helps get rid of math anxiety, ends family math fights, gives kids tons of practice, and helps kids really truly LOVE math. Miss Brain's Cool Math Games currently comes in two levels. In this first level for grades 1-3, you'll find: number sense games (including place value) addition games subtraction games counting money games multiplication and division games The games in this book can be played by children at mixed levels--or parents can play with their kids--without any one player having an unfair advantage. Ideal for 2-4 players.

2021-02-15 Penny Worms This beautifully

illustrated, cleverly designed book makes practicing your times tables easy, accessible, and rewarding. Each page presents the reader with clear instructions and simple sums that will help them to develop a strong grasp of multiplication. With over 80 activities to complete, children will gradually increase their speed, confidence, and proficiency. Activities include: - Draw the path the skier must take by following the seven times tables - Match up the penguins-sums to the penguin-solutions - Help the fox find the missing numbers in these multiplication sums The warm, gently humorous illustrations will make children feel welcome and supported, and create a context where math is fun. Designed specially for readers aged 6+. **ABOUT THE SERIES:** Arcturus Math Skills Workbooks are a series of mathematical activity books which provide a fun and friendly way for young readers to pick up new numeracy skills, brilliantly illustrated in full-color by Kasia Dudziuk.

2002-08-01 Terry Cooper For classroom or at home, this super-fun resource provides engaging practice and reinforcement for all the essential math skills that kids need to succeed - in school and on the tests. Includes mixed operations, fractions and decimals, percents and propor

2015-04-19 Bowe Packer "Make Learning FUN!" "Promote comprehensive learning..." This book enables kids to challenge their brains, sharpen and strengthen their thinking process. Get your pencils out, have another one close by and be ready to challenge your brain! Many educators agree that math games are among the best ways to engage children in the thinking process, and Crazy Fun Math Games: For Grades 3-5 offers those types of challenges. Each math game varies in complexity and provides a fun interactive way for kids to stimulate their mind and learn great problem solving skills along the way. "Are you ready to have some fun and grow your BRAIN?"
