Barron's GMAT-Bobby Umar 2014-01-01 Barron's brand-new GMAT is a game-changer, designed to give you the best balance in both the depth of content and breadth of strategies. Written by two of North America's leading GMAT experts and award-winning instructors, this completely revised new book gives you the confidence to tackle every GMAT problem. You will know what to expect, what theory each question tests, what strategies you have in your arsenal and the step-by-step processes to get the correct answer quickly and efficiently. This new book provides a comprehensive review of all four content areas on the GMAT. Most importantly, it offers solid strategies for managing the particular challenges presented by this high-stakes, computer adaptive exam. For each of the GMAT sections (Verbal, Quantitative, Integrated Reasoning, and the Analytical Writing Assessment),

Barron's GMAT provides: Diagnostic Skills Tests—initial quizzes that accurately and quickly assess strengths and weaknesses within a topic area Targeted Review Questions—additional questions for the frequent problem subject areas (probability, parallelism, data sufficiency) allowing test-takers to focus on their specific needs Strategic Step-by-Step Methods—approaches to each question type field tested by the authors on a wide range of test-takers with differing abilities and goals Full-Range Content—questions, strategies, and tips for all test-takers, whether they are aiming for a 70th or 95th percentile score, studying while undergrads or after years in the business world Barron's GMAT includes more strategies, theory, and methodologies than any other stand-alone GMAT book on the market! All questions in the manual come with answers and explanations. The book is also available with an optional CD-ROM, which presents additional questions in all four test areas, also with included answers and explanations.

Graduate Study in Psychology-Tara L. Kuther 2004-01-01 In Graduate Study in Psychology: Your Guide to Success author Tara Kuther takes the reader step-by-step through the graduate admissions process. She begins with posing the question of whether graduate school is right for everyone and the differences between pursuing a master's degree or a doctoral degree. The following chapters contain information regarding what graduate school is like, how to evaluate and choose the right graduate program for you, and what graduate schools are looking for in an applicant. Kuther also addresses how to improve an applicant's chances of getting selected for graduate school by improving credentials and obtaining research and applied experience during college. This book offers advice on how to seek financial aid to fund graduate education and a timetable for complying with admission application requirements. There are chapters that detail how to study for the Graduate Record Exam, how to write an admissions essay, how to prepare for interviews, and how to

ask for letters of recommendation. Each chapter concludes with tips from graduate students about each challenge encountered. Graduate Study in Psychology closes with an appendix of resources and recommended readings and websites to help the reader at each stage of choosing, applying to, and succeeding in graduate school.
