

# Kate Greenaway Language Of Flowers

Language of Flowers - Illustrated by Kate Greenaway- 2013-04-16 In this wonderfully unusual work, Kate Greenaway provides an enchantingly illustrated glossary of 'the language of flowers'. It shares the tradition, sparked by renewed Victorian era interest in botany and exotic plants - of using flowers as a means of covert communication. A fascinating insight into a bygone era, when the gift of a Tansy was a declaration of war, and a Garden Daisy meant 'I share your sentiments', this text is a real treasure. 'The Language of Flowers' contains eighty-two beautifully illustrated colour pages, and was originally published in 1884. Kate Greenaway (1846 - 1901), was a children's book illustrator and writer, and remains one of the most popular illustrators of all time. Edmund Evans produced her first book ('Under the Window') in 1879, which was an instant best-seller and cemented her pre-eminent position. Her charming children in quaint costumes and idyllic scenes captured the imagination of the contemporary public - and continue to delight over a century after their initial publication. The artwork is presented in conjunction with the text - both further refining and elucidating the other. Pook Press celebrates the great 'Golden Age of Illustration' in children's literature - a period of unparalleled excellence in book illustration. We publish rare and vintage Golden Age illustrated books, in high-quality colour editions, so that the masterful artwork and story-telling can continue to delight both young and old.

Produced in association with the Royal Horticultural Society who celebrate their bicentennial this year.

Language of Flowers - Color Illustrations Only-Kate Greenaway 2015-04-27 Language of Flowers is a reprint of color illustrations, without the original text, from a book by Kate Greenaway which was originally published in 1865. She was an accomplished illustrator and author in England toward the end of the 19th Century. She died in 1901. She is especially noted for her illustrations of children's books and her children's literature that began to appear in 1879. Her paintings were created by the use of chromoxylography, a process by which colors were printed from engraved blocks of wood. In this edition the colors are enhanced to create more vivid images.

The Language of Flowers - B and W Illustrations-Kate Greenaway 2015-04-27 Language of Flowers is a reprint of illustrations taken from a book by Kate Greenaway that was originally published in 1865. This version is rendered in black & white, but the original was in color. The text and poetry are not included. Greenaway was an accomplished illustrator and author in England toward the end of the 19th Century. She died in 1901. She is especially noted for her illustrations of children's books and literature that began to appear in 1879.

The Language of Flowers-Beverly Seaton 2012-10-10 The author traces the phenomenon of ascribing sentimental meaning to floral imagery from its beginnings in Napoleonic France through its later transformations in England and America. At the heart of the book is a depiction of what the three most important flower books from each of the countries divulge about the period and the respective cultures. Seaton shows that the language of flowers was not a single and universally understood correlation of flowers to meanings that men and women used to communicate in matters of love and romance. The language differs from book to book, country to country. To place the language of flowers in social and literary perspective, the author examines the nineteenth-century uses of flowers in everyday life and in ceremonies and rituals and provides a brief history of floral symbolism. She also discusses the sentimental flower book, a genre especially intended for female readers. Two especially valuable features of the book are its table of correlations of flowers and their meanings from different sourcebooks and its complete bibliography of language of flower titles. This book will appeal not only to scholars in Victorian studies and women's studies but also to art historians, book collectors, museum curators, historians of horticulture, and anyone interested in nineteenth-century popular culture.

Adult Coloring Book: The Language of Flowers-Rolf McEwen 2016-03-09 This book includes illustrations by the great Kate Greenaway. They are rendered in radical black & white to emphasize patterns. They provide pleasing forms for coloring by adults who wish to relax and relieve stress. Take an opportunity to get to a pleasant mental place by doing some coloring. Don't stress about it. Enjoy.

Floriography-Jessica Roux 2020-09-15 A charming, gorgeously illustrated botanical encyclopedia for your favorite romantic, local witch, bride-to-be, or green-thumbed friend. The Language of Flowers is a full-color guidebook to the historical uses and secret meanings behind an impressive array of flowers and herbs. The book explores the coded significances associated with various blooms, from flowers for a lover to flowers for an enemy. The language of flowers was historically used as a means of secret communication. It soared in popularity during the 19th century, especially in Victorian England and the U.S., when proper etiquette discouraged open displays of emotion. Mysterious and playful, the language of flowers has roots in everything from the characteristics of the plant to its presence in folklore and history. Researched and illustrated by popular artist Jessica Roux, this book makes a stunning display piece, conversation-starter, or thoughtful gift.

Peribology-Bryan Sisson 2013-11-22 Peribology seeks to discover the etymology of symbolism. If a gift is given in a distant future; and no one knows how to interpret the secret message, does the

traditional meaning carry over subconsciously? Furthermore, does this symbolism unfold in the human experience in other ways? Peribology seeks to uncover secrets from bygone eras, and encourage those who are willing, to breathe life again into ye age-old, archaic Floriography. Peribology will set the stage for modern flower talk from these gathered sources and on-going research. Since scientific inquiry admonishes the old flower language, Peribology rationalizes meaning not on poetry, but on the natural effects nature's treasures have on the five senses and the human psyche. If you want to join the cause, we welcome you into the restoration movement we call Peribology, the modern flower tongue. Please visit us online at [www.peribology.com](http://www.peribology.com), like our page on Facebook and even follow us @peribology!

Christina Rossetti and Illustration-Lorraine Janzen Kooistra 2002 "Analyzing an array of empirical data, Janzen Kooistra shows how Rossetti's packaging for commodity consumption - by religious presses, publishers of academic editions and children's books, and makers of erotica and collectibles - influenced the reception of her work and her place in literary history."--BOOK JACKET.

British Books in Print- 1888

Women Poets in the Victorian Era-Fabienne Moine 2016-03-09 Examining the place of nature in Victorian women's poetry, Fabienne Moine explores the work of canonical and long-neglected women poets to show the myriad connections between women and nature during the period. At the same time, she challenges essentialist discourses that assume innate affinities between women and the natural world. Rather, Moine shows, Victorian women poets mobilised these alliances to defend common interests and express their engagement with social issues. While well-known poets such as Elizabeth Barrett Browning and Christina Rossetti are well-represented in Moine's study, she pays particular attention to lesser known writers such as Mary Howitt or Eliza Cook who were popular during their lifetimes or Edith Nesbit, whose verse has received scant critical attention so far. She also brings to the fore the poetry of many non-professional poets. Looking to their immediate cultural environments for inspiration, these women reconstructed the natural world in poems that raise questions about the validity and the scope of representations of nature, ultimately questioning or undermining social practices that mould and often fossilise cultural identities.
