Chronicles from Kashmir: An Annotated, Multimedia Script-Nandita Dinesh 2020-09-14 'What is happening in Kashmir?' Chronicles from Kashmir explores this question through a site-adaptive 24-hour theatrical performance. Developed between 2013 and 2018 by the Ensemble Kashmir Theatre Akademi and Nandita Dinesh, the play uses a durational, promenade format to immerse its audience within a multitude of perspectives on life in Kashmir. From a wedding celebration that is interrupted by curfew, to schoolboys divided by policing strategies, and soldiers struggling with a toxic mixture of boredom and trauma, Chronicles from Kashmir uses performance, installation and collaborative creation to grapple with Kashmir’s conflicts through the lenses of outsiders, insiders, and everyone in between. Due to varying degrees of censorship and suppression, the play has not been performed live since 2017. This book is, therefore, an attempt to keep Chronicles from Kashmir alive by including filmed scenes, a script, contextual questions, a glossary, and illuminating introductions by Nandita Dinesh and EKTA founder Bhawani Bashir Yasir. A valuable Open Access resource for practitioners, educators and students of performance and conflict, this book is also stimulating reading for anybody who has asked, 'What is happening in Kashmir?' This playscript includes: Twenty filmed scenes of the play in performance A range of contextual questions to stimulate discussion on staging site-adaptive theatre in places of conflict A helpful glossary Communications Media, Globalization, and Empire-Oliver Boyd-Barrett 2007-02-20 In Communications Media, Globalization, and Empire, an international team of experts analyze and critique the political economy of media communications worldwide. Their analysis takes particular account of the sometimes conflicting pressures of globalization and "neo-imperialism." The first is commonly defined as the dismantling of barriers to trade and cultural exchange and responds significantly to lobbying of the world’s largest corporations, including media corporations. The second concerns U.S. pursuit of national security interests as response to "terrorism," at one level and, at others, to intensifying competition among both nations and corporations for global natural resources.

Digital Politics and Culture in Contemporary India-Biswarup Sen 2016-01-08 The relationship between information and the nation-state is typically portrayed as a face-off involving repressive state power and democratic flows: Twitter and the Arab Spring, Google in China, WikiLeaks and the U.S. State Department. Less attention has been paid to those scenarios where states have regarded information and its diffusion as productive of modernity and globalization. It is the central argument of this book that the contemporary nation-state, especially in the global South, is far from hostile to the current informational milieu and in fact makes crucial use of it in order to develop adequate modes of governance, communication and sociality in a networked world. This book focuses on India – an emerging country that has recently witnessed a "software miracle" - to highlight the critical role informatics has historically played in the national imagination and to demonstrate how the state, private capital and civic society have drawn upon and engaged the precepts and protocols of the information age to fashion an "info-nation."

New Indian Nuttahs-Kavyta Kay 2018-09-19 This book takes a journey into the new and exciting created by a the wave of Indian comedians today, described affectionately here as the New Indian Nuttahs, and looks at what these tell us about identity, “Indianness”, censorship, feminism, diaspora and millennial India. It provides a unique analysis into the growing phenomenon of internet comedy and into a dimension of Indian popular culture which has long been dominated by the traditional film and television industries. Through a mixture of close textual readings of online comedy videos and interviews with content creators and consumers in India, this book provides a fresh perspective on comedy studies in its approach to a global South context from a sociocultural perspective. As a protean form of new media, this has opened up new avenues of articulation, identification and disidentification and as such, this book makes a further contribution to South Asian, communication, media & cultural studies.

Salman Rushdie in the Cultural Marketplace-Ana Cristina Mendes 2016-03-23 Taking up the roles that Salman Rushdie himself has assumed as a cultural broker, gatekeeper, and mediator in various spheres of public production, Ana Cristina Mendes situates his work in terms of the contemporary production, circulation, and consumption of postcolonial texts within the workings of the cultural industries. Mendes pays particular attention to Rushdie as a public performer across various creative platforms, not only as a novelist and short story writer, but also as a public intellectual, reviewer, and film critic. Mendes argues that how a postcolonial author becomes personally and professionally enmeshed in the dealings of the cultural industries is of particular relevance at a time when the market is strictly regulated by a few multinational corporations. She contends that marginality should not be construed exclusively as a basis for understanding Rushdie’s work, since a critical grounding in marginality will predictably involve a reproduction of the traditional postcolonial binaries of oppressor/oppressed and colonizer/colonized that the writer subverts. Rather, she seeks to expand existing interpretations of Rushdie’s work, itineraries, and frameworks in order to take into account the actual conditions of postcolonial cultural production and circulation within a marketplace that is global in both orientation and effects.

Thinking Outside the Box-Gary R. Edgerton 2005-01-01 Thinking Outside the Box brings together some of the best and most challenging scholarship about TV genres, exploring their genesis, their functions and development, and the interaction of disparate genres. The authors argue that genre is a process rather than a static category and that it signifies much about the people who produce and watch the shows. In addition to considering traditional genres such as sitcoms, soap operas, and talk shows, the contributors explore new hybrids, including reality programs, teen-oriented science fiction, and quality dramas, and

examine how many of these shows have taken on a global reach. Identifying historical continuities and envisioning possible trends, this is the richest and most current study of how television genres form, operate, and change.

Sacred Games-Vikram Chandra 2011-03-03 An enormously satisfying, exciting and enriching book, Vikram Chandra's novel draws the reader deep into the lives of detective Sartaj Singh and Ganesh Gaitonde, the most wanted gangster in India. But 'the silky Sikh' is now past forty, his marriage is over and his career prospects are on the slide. When Sartaj gets an anonymous tip off as to the secret hideout of the legendary boss of the G-company, he's determined that he'll be the one to collect the prize. This is a sprawling, epic novel of friendships and betrayals, of terrible violence, of an astonishing modern city and its underworld. Drawing on the best of Victorian fiction, mystery novels, Bollywood movies and Vikram Chandra's years of first hand research on the streets of Mumbai, this novel reads like a potboiling page-turner but resonates with the intelligence and emotional depth of the best of literature.

Redefining Global Strategy-Pankaj Ghemawat 2007-09-27 Why do so many global strategies fail—despite companies' powerful brands and other border-crossing advantages? Seduced by market size, the illusion of a borderless, "flat" world, and the allure of similarities, firms launch one-size-fits-all strategies. But cross-border differences are larger than we often assume, explains Pankaj Ghemawat in Redefining Global Strategy. Most economic activity—including direct investment, tourism, and communication—happens locally, not internationally. In this "semiglobalized" world, one-size-fits-all strategies don't stand a chance. Companies must instead reckon with cross-border differences. Ghemawat shows you how—by providing tools for: · Assessing the cultural, administrative, geographic, and economic differences between countries at the industry level and deciding which ones merit attention. · Tracking the implications of particular border-crossing moves for your company's ability to create value. · Creating superior performance with strategies optimized for adaptation (adjusting to differences), aggregation (overcoming differences), and arbitrage (exploiting differences), and for compound objectives. In-depth examples reveal how companies such as Cemex, Toyota, Procter & Gamble, Tata Consultancy Services, IBM, and GE Healthcare have adroitly managed cross-border differences—as well as how other well-known companies have failed at this challenge. Crucial for any business competing across borders, this book will transform the way you approach global strategy.

Indian Advertising-Arun Chaudhuri 2007 Indian Advertising: 1780-1950 A.D. is a book with a difference. It covers a span of two centuries and takes the readers through the bygone era when similar and not so similar issues were encountered while reaching the end consumer. Besides the social milieu around that time, it covers the creative aspects of advertising such as copywriting and art. It also provides a glimpse of the evolution of media, printing and the people who set up art colleges or formed art groups to sell lithography paintings. It also follows the rapid developments in advertising standards of press advertising (when all the pre-press work was done in newspaper offices and no ad agencies were around).
