The choice of countries reflects not only a geographical grouping, but also similarities in the types of transition challenges faced by these countries notwithstanding considerable variations in their sizes, ethnic composition, resource endowments, and economic structures. The paper attempts to identify a number of key macroeconomic and structural areas where the slower reformers in the group might benefit from the experience of the faster reformes.

Civil Society in Central Asia-M. Holt Ruffin 2011-05-01 Central Asia, known as the home of Tamerlane and the Silk Road, is a crossroads of great cultures and civilizations. In 1991 five nations at the heart of the region◆Kazakstan, Kyrgyzstan, Tajikistan, Turkmenistan, and Uzbekistan◆ suddenly became independent. Today they sit strategically between Russia, China, and Iran and hold some of the world◆s largest deposits of oil and natural gas. Long-suppressed ethnic identities are finding new expression in language, religion, and occasional civil conflicts. Civil Society in Central Asia is a pathbreaking collection of essays by scholars and activists that illuminates the social and institutional forces shaping this important region◆s future. An appendix provides a guide to projects being carried out by local and international groups.

Sovietistan-Erika Fatland 2019-08-27 Erika Fatland takes the reader on a journey that is unknown to even the most seasoned globetrotter. The five former Soviet Republics’ Kazakhstan, Kyrgyzstan, Tajikistan, Turkmenistan and Uzbekistan all became independent when the Soviet Union fell apart in 1991. How have these countries developed since then? In the Kyrgyzstani villages Erika Fatland meets victims of the widely known tradition of bride snatching; she visits the huge and desolate Polygon in Kazakhstan where the Soviet Union tested explosions of nuclear bombs; she meets Chinese shrimp gatherers on the banks of the dried out Aral Sea and she witnesses the fall of a dictator. She travels incognito through Turkmenistan, a country that is closed to journalists. She meets exhausted human rights activists in Kazakhstan, survivors from the massacre in Osh in 2010, German Menonites that found paradise on the Kyrgyzstani plains 200 years ago. During her travels, she observes how ancient customs clash with gas production and she witnesses the underlying conflicts between ethnic Russians and the majority in a country that is slowly building its future in Nationalist colours.In these countries, that used to be the furthest border of the Soviet Union, life follows another pace of time. Amidst the treasures of Samarkand and the bleakness of Soviet architecture, Erika Fatland moves with her openness towards the people and the landscapes around her. A rare and unforgettable travelogue.Translated from the Norwegian by Kari Dickson

Emigration Laws and Policies of Albania, Kazakhstan, Kyrgyzstan, Tajikistan, Turkmenistan, and Uzbekistan, Communication from the President-United States. Congress. House. Committee on Ways and Means 1998

Central Asia and the World-Michael Mandelbaum 1994 With the demise of the Soviet Union in 1991, its fifteen constituent republics suddenly found themselves sovereign states. Among the new countries are the five republics of Central Asia - Kazakhstan, Uzbekistan, Tajikistan, Kyrgyzstan, and Turkmenistan - that comprise the region to the south of the great Russian heartland. Each of these countries now faces the task of creating its own foreign policy: with one another, with its former imperial ruler to the north, with the Islamic countries to the south, and with the West. In Central Asia and the World, eight experts on the region address the historic power struggles between east and west and north and south that have shaped the region and the prognosis for success in overcoming a turbulent past and an uncertain, divided present. In addition to its continuing strong ties to Russia, Central Asia's links with its southern neighbors and the potential role of Islam are also examined. The authors advance the case that these countries are critical to the West insofar as they affect Western interests in Russia and the Middle East. The ongoing civil war in Tajikistan and Central Asia's relationship with China are also addressed. The first book to examine the complex issues facing the region Central Asia and the World provides a comprehensive overview of the developing foreign policies of these five new countries, including a look at the internal political, economic, and military issues confronting each country.

Politics of Language in the Ex-Soviet Muslim States-Jacob M. Landau 2001 The subject of this particular book is of great interest today for three major reasons: first, the six republics of Central Asia, strongly shaped by Turkic languages (Tajik is a variety of Persian, but Turkic influence is still there), and Islam, are relatively unknown; secondly, their respective language policies, which they say are central for development and modernisation, may show us much about the creative potential of choices of language anywhere in the world as well as problems connected with implementation; third, these two scholars and their local assistants harvested much previously unpublished empirical data which they have presented to readers in a clear framework. The conclusion very well relates language policies in these states to broad issues of nation-building-, language planning, multilingualism, and other concepts.
