The Populist Persuasion-Michael Kazin 1998-10-29 "Michael Kazin enables us to begin to understand the way in which populism has changed from a politics of the left to a politics of the right. The important questions raised by the success of the populist right in the United States are illuminated in Kazin's splendid and timely book."—Thomas Bender, *The Nation*"Kazin shows populism's canny ability to mix homespun rhetoric and political savvy. . . . The book explains something very important in American life with scrupulous fairness and a keen eye for the humanizing detail. It is as good a road map as we have to the politics of the people who work hard and play by the rules."—Christopher Caldwell, *The Wall Street Journal*"A perceptive and passionately liberal book. . . . Beginning with the antislavery crusade of the 1840's, [Kazin] skillfully surveys more than a century of mass protests, using imagery and symbolism as his guides."—David Oshinsky, *The New York Times* For this revised edition, Michael Kazin has rewritten the final chapter, bringing his coverage of populism up to the present (including a discussion of the 1996 presidential election) and added a conclusion.

The Civil Rights Movement for Kids-Mary C. Turck 2000-06-01 Surprisingly, kids were some of the key instigators in the Civil Rights Movement, like Barbara Johns, who held a rally in her elementary school gym that eventually led to the Brown vs. Board of Education Supreme Court school desegregation decision, and six-year-old Ruby Bridges, who was the first black student to desegregate elementary schools in New Orleans. In *The Civil Rights Movement for Kids*, children will discover how students and religious leaders worked together to demand the protection of civil rights for black Americans. They will relive the fear and uncertainty of Freedom Summer and learn how northern white college students helped bring national attention to atrocities committed in the name of segregation, and they'll be inspired by the speeches of Martin Luther King, Jr., Medgar Evers, and Malcolm X. Activities include: reenacting a lunch counter sit-in; organizing a workshop on nonviolence; holding a freedom film festival followed by a discussion; and organizing a choral group to sing the songs that motivated the foot soldiers in this war for rights.

African-American Orators-Richard W. Leeman 1996 This long-needed sourcebook assesses the unique styles and themes of notable African-American orators from the mid-19th century to the present--of 43 representative public speakers, from W.E.B. Du Bois and Ida B. Wells-Barnett, Martin Luther King Jr. and Jesse Jackson to Barbara Jordan and Thurgood Marshall. The critical analyses of the oratory of a broad segment of different types of public speakers demonstrate how they have stressed the historical search for freedom, upheld American ideals while condemning discriminatory practices against African-Americans, and have spoken in behalf of black pride. This biographical dictionary with its evaluative essays, sources for further reading, and speech chronologies is designed for broad interdisciplinary use by students, teachers, activists, and general readers in college, university, institutional, and public libraries.

Jesse Jackson-Roger Bruns 2005 Describes the life and accomplishments of the civil rights activist and politician, Jesse Jackson.

Jesse Jackson-Robert E. Jakoubek 2009-01-01 \* Critically acclaimed biographies of history's most notable African-Americans \* Straightforward and objective writing \* Lavishly illustrated with photographs and memorabilia \* Essential for multicultural studies

The Economic Civil Rights Movement-Michael Ezra 2013-04-17 Economic inequalities have been perhaps the most enduring problem facing African Americans since the civil rights movement, despite the attention they have received from activists. Although the civil rights movement dealt successfully with injustices like disenfranchisement and segregated public accommodations, economic disparities between blacks and whites remain sharp, and the wealth gap between the two groups has widened in the twenty-first century. *The Economic Civil Rights Movement* is a collection of thirteen original essays that analyze the significance of economic power to the black freedom struggle by exploring how African Americans fought for increased economic autonomy in an attempt to improve the quality of their lives. It covers a wide range of campaigns ranging from the World War II era through the civil rights and black power movements and beyond. The unfinished business of the civil rights movement primarily is economic. This book turns backward toward history to examine the ways African Americans have engaged this continuing challenge.

Beyond the Boundaries-Karin L. Stanford 1997-09-11 This first book-length study of Jesse Jackson's international activities places his activism abroad in theoretical and historical perspective and shows how it belongs to a tradition of U.S. citizen diplomacy as old as the Republic.

Encyclopedia of Political Communication-Lynda Lee Kaid 2008

Shakedown-Kenneth R. Timmerman 2013-01-01 Jesse Jackson is a modern day highway robber, says veteran investigative reporter Kenneth R.

Timmerman, who uses cries of racism to steal from individuals, corporations, and government, to give to himself. Until now, however, no one has

been brave enough to say it and diligent enough to prove it. But Ken Timmerman has cracked Jackson's machine, found Jackson cronies willing to break ranks, and uncovered a sordid tale of greed, ambition, and corruption from a self-proclaimed minister who has no qualms about poisoning American race relations for personal gain.

The Snake Dance of Asian American Activism-Michael Liu 2008 This text reinterprets a misunderstood epoch of the Asian American experience—the Asian American movement (AAM). The authors address the AAM's dramatic impact on the direction of Asian American political and social activity beginning in the 1960s, particularly in terms of neighborhood redevelopment, civil rights, international solidarity, and the Jesse Jackson presidential campaigns. They argue that the movement became the vehicle to bring Asian American communities into the mainstream of civil life.

We Are Worth Fighting For-Joshua M. Myers 2019-12-24 The Howard University protests from the perspective and worldview of its participants *We Are Worth Fighting For* is the first history of the 1989 Howard University protest. The three-day occupation of the university's Administration Building was a continuation of the student movements of the sixties and a unique challenge to the politics of the eighties. Upset at the university's appointment of the Republican strategist Lee Atwater to the Board of Trustees, students forced the issue by shutting down the operations of the university. The protest, inspired in part by the emergence of "conscious" hip hop, helped to build support for the idea of student governance and drew upon a resurgent black nationalist ethos. At the center of this story is a student organization known as Black Nia F.O.R.C.E. Co-founded by Ras Baraka, the group was at the forefront of organizing the student mobilization at Howard during the spring of 1989 and thereafter. *We Are Worth Fighting For* explores how black student activists—young men and women—helped shape and resist the rightward shift and neoliberal foundations of American politics. This history adds to the literature on Black campus activism, Black Power studies, and the emerging histories of African American life in the 1980s.

Through the Eyes of Leon Jackson Boone-Leon Jackson Boone 2014-08-29 As I look back over my life, it was a good ride. I experienced many potholes along the way. I'm not tired yet. The last thing I think about is death. I am not afraid of it. Why should I be? I can't do anything about it. It's just a sleep. I can't move as fast as I once did, but I can still dance. This may be surprising to some; I still have fun with my wife. Someone may ask, "How often?" I will say to them, "Stop hating." It would be foolish to ignore the bad, the good, and the ugly in my life. Those experiences caused my faith in Christ Jesus to be stronger. My faith in Jesus made it possible for me to be here seventy-five years as of January 17, 2014. I hear what I want to hear, see what I want to see, and remember what I want to remember. I realize that I am only important to myself. And to preserve whatever life I have left, I must be cooperative with matters of confrontation. Exhaustion will kill you before old age. I refuse to call myself old. I call myself blessed. To those people who think that they are too old to enjoy life and that they are walking through one of life's valleys: Perhaps you are trusting in your exhaustion, not in God. And you are thinking this is how you are supposed to feel as years pass you by. You don't have to be older than you are. When your load gets too heavy to carry, don't give up—this is an opportunity for God, in Christ Jesus's name, to take charge of you. There is no competition or stereotypes in God; just be who you are. Refuse to give up your happiness because you are older and instead think about your accomplishments and enjoy all of your abilities. The thought of loneliness and bitter disappointments brings self-pity and fear. When you dwell too long on bad circumstances, it will make you feel old and rob you of peace of mind. Respond to the love of God—you no longer need to speculate upon the quality of your life. It is good because God is good.

*America I AM Legends*-Tavis Smiley 2009-02-01 *America I AM: The African American Imprint*, a national traveling museum exhibition, was conceived by award-winning broadcaster and bestselling author Tavis Smiley as a one-of-a-kind multi-media experience that chronicles the distinct history of African Americans. This beautifully conceived companion volume addresses the central theme of the exhibition, posed by W. E. B. Du Bois: "Would America have been America without her Negro people?" Through exceptional photographic images and penetrating words, *America I AM Legends* captures the dynamism of 78 legendary African Americans, highlighting the indelible imprint each has made on the United States and the world. A statement illuminating a unique aspect of each iconic figure—made by the legend or by someone carrying on their legacy today—portrays the vision and contribution of each subject. Whether black artistic genius, athletic excellence, political leadership, or the struggle to hold America true to its promise, each legend reminds us that America would be unrecognizable without its African American imprint. *America I AM Legends* takes us on an unforgettable journey to the heart of the American experience.

*Leaders from the 1960s*-David De Leon 1994 The radicals and liberals of the 1960s expressed ideas that continue to both attract and repel people decades later. Nostalgia books relive the Woodstock festival and the protests; past Presidents Bush and Reagan remember the era with unease; and scholars skirmish over the meaning of the period. DeLeon is the first to provide information on activists of the period and their continued activities into the 1990s. With major sections on racial democracy, peace and freedom, sexuality and gender, the environment, radical culture, and visions of alternative societies, the book includes entries on a wide selection of nationally prominent personalities of the 1960s. In addition to those who dominated those years, the volume includes earlier activists who came into prominence in the 1960s and those who have come into the limelight since the 1960s. Each entry provides a biographical sketch, but the focus is on the person's basic concepts or the essence of his or her work and the public response it generated. The volume also includes extensive bibliographies on the individuals and the period.

*The Obama Phenomenon*-Charles P. Henry 2011 Barack Obama's campaign and electoral victory demonstrated the dynamic nature of American democracy. Beginning as a special issue of *The Black Scholar*, this probing collection illustrates the impact of "the Obama phenomenon" on the future of U.S. race relations through readings on Barack Obama's campaign as well as the idealism and pragmatism of the Obama administration. Some of the foremost scholars of African American politics and culture from an array of disciplines—including political science, theology, economics, history, journalism, sociology, cultural studies, and law—offer critical analyses of topics as diverse as Obama and the media, Obama's connection with the hip hop community, the public's perception of first lady Michelle Obama, voter behavior, and the history of racial issues in presidential campaigns since the 1960s. Contributors are Josephine A. V. Allen, Robert L. Allen, Herb Boyd, Donald R. Deskins Jr., Cheryl I. Harris, Charles P. Henry, Dwight N. Hopkins, John L. Jackson, Maulana Karenga, Robin D. G. Kelley, Martin Kilson, Clarence Lusane, Julianne Malveaux, Shaun Ossei-Owusu, Dianne M. Pinderhughes, Sherman C. Puckett, Scharn Robinson, Ula Y. *The End of the Line*-Kathryn Marie Dudley 1997-06-23 This volume tells the story of what the 1988 closing of the Chrysler assembly plant in Kenosha, Wisconsin, meant to the people who lived in that town. Through interviews with displaced autoworkers and other members of the community it dramatizes the lessons Kenoshans drew from the plant shutdown. This volume tells the story of what the 1988 closing of the Chrysler assembly plant in Kenosha, Wisconsin, meant to the people who lived in that company town. Since the early days of the 20th century, Kenosha had forged its identity and politics around the interests of the auto industry. When nearly 6000 workers lost their jobs in the shutdown, the community faced not only a serious economic crisis but also a profound moral one. In this study, Dudley describes the painful, often confusing process of change that residents of Kenosha, like the increasing number of Americans who are caught in the crossfire of de-industrialization, were forced to undergo. Through interviews with displaced autoworkers and Kenosha's community leaders, high-school counsellors and a rising class of upwardly mobile professionals, Dudley dramatizes the lessons Kenoshans drew from the plant shutdown.
