

Ken Morrison Marx Durkheim Weber

Marx, Durkheim, Weber-Ken Morrison 2006-07-18 This Second Edition is a thoroughly revised, expanded version of the bestselling student text in classical social theory. Author Kenneth Morrison provides an authoritative, accessible undergraduate guide to the three pivotal figures in the classical tradition. Readable and stimulating, the Second Edition of Marx, Durkheim, Weber: Formations of Modern Social Thought explains the key ideas of these thinkers and situates them in their historical and philosophical contexts.

Marx, Durkheim, Weber-Ken Morrison 2006-07-06 `This is an excellent introduction to classical social theory. For most students it is the only book on the subject that they will need. The expositions are clear and comprehensive, outlining with almost alarming clarity ideas with which many of us have to struggle' - Alan Bryman, The Management Centre, University of Leicester This is a thoroughly revised, expanded version of the best selling student text in classical social theory. The book provides an authoritative, accessible undergraduate guide to the three pivotal figures in the classical tradition. Readable and stimulating, the book explains the key ideas of these thinkers and situates them in their historical and philosophical contexts. The student gains an immediate understanding of what is distinctive and relevant about these giants of sociology. The book includes a glossary with over 150 entries. For a decade, the book has been required reading on undergraduate degree programmes. This new edition, refines the material, extends the analysis and enhances our appreciation. It is a nugget in its field.

Marx, Durkheim, Weber-Ken Morrison 1995-12-29 This study aims to provide students with an accessible guide to the key ideas of Marx, Durkheim and Weber, locating their writings in the appropriate historical context. It discusses the roots and contemporary relevance of the concepts and their relation t

The Protestant Ethic Debate-Max Weber 2001 Elizabeth A. Kaye specializes in communications as part of her coaching and consulting practice. She has edited Requirements for Certification since the 2000-01 edition.

Being Sociological-Steve Matthewman 2020-11-26 Being Sociological considers the lived experience of sociology, stressing the active nature of social life and highlighting the role that students can play in enacting social change. Fully reworked in this third edition, with five brand new chapter topics and a diverse roster of new contributors, this textbook presents a fresh take on society today. The book encourages readers to examine both enduring challenges and their potential solutions. Dynamic learning features help students unpack key ideas from sociological theory and apply them to today's problems to cultivate their own sociological imagination. An inspiring read, this textbook will empower students to engage with sociology outside the classroom and embed it in their everyday lives. With new contributors, fresh organisation and a vibrant student-centric focus, this third edition brings Being Sociological fully up to date and reaffirms its place as an invaluable introduction to sociology for students new to the field. New to this Edition: - All chapters completely rewritten to provide a fresh overview of sociology today - Coverage of five new chapter subjects : including social movements, urbanization, migration and sport and leisure, reflecting their centrality in modern life and in introductory sociology courses - A focus on the SHiP framework, moving away from social categories to consider instead society's structural composition, its historical patterns and power inequalities and their interplay in individual lives - A forward-looking, optimistic orientation, bolstered by new pedagogical features inviting students to consider pathways for change

Capitalism and Modern Social Theory-Anthony Giddens 1973-02-08 Giddens's analysis of the writings of Marx, Durkheim and Weber has become the classic text for any student seeking to understand the three thinkers who established the basic framework of contemporary sociology. The first three sections of the book, based on close textual examination of the original sources, contain separate treatments of each writer. The author demonstrates the internal coherence of their respective contributions to social theory. The concluding section discusses the principal ways in which Marx can be compared with the other two authors, and discusses misconceptions of some conventional views on the subject.

The Problem of Sociology-David Lee 2012-06-21 First Published in 1983. Routledge is an imprint of Taylor & Francis, an informa company.

Social theory for beginners-Paul Ransome 2010-05-12 Treating social theory as an exciting intellectual journey in its own right, this new introductory-level textbook presents the key ideas and concepts in social theory together with an account of the intellectual background from which they emerged. Aimed at first-year undergraduates studying sociology and all related disciplines in the social sciences and humanities, it provides an introduction to the major questions and debates facing social theorists and sociologists. Clearly designed presentation and layout features help readers navigate their way around the material thus giving them the best chance of finding what they need quickly and easily. The book is supported by a companion website, containing additional materials for both students and lecturers using the book, which is available from the link above Classical Social Theory-Ian Craib 1997 This is an excellent textbook on classical social theory, concentrating on the founding thinkers of sociology - Marx, Weber, Durkheim, and Simmel - and written in an accessible and engaging style. It has become a key text allowing students to assess the enduring significance of these writers in our epoch of major social change, and will be essential reading on classical social theory, sociological theory, and introduction to sociology courses.

Classical Sociological Theory-Ian McIntosh 1997-05-01 Over the past decade, mainstream feminist theory has repeatedly and urgently cautioned against arguments which assert the existence of fundamental--or essential--differences between men and women. Any biological or natural differences between the sexes are often flatly denied, on the grounds that such an acknowledgment will impede women's claims to equal treatment. In Caring for Justice, Robin West turns her sensitive, measured eye to the consequences of this widespread refusal to consider how women's lived experiences and perspectives may differ from those of men. Her work calls attention to two critical areas in which an inadequate recognition of women's distinctive experiences has failed jurisprudence. We are in desperate need, she contends, both of a theory of justice which incorporates women's distinctive moral voice on the meaning of justice into our discourse, and of a theory of harm which better acknowledges, compensates, and seeks to prevent the various harms which women, disproportionately and distinctively, suffer. Providing a fresh feminist perspective on traditional jurisprudence, West examines such issues as the nature of justice, the concept of harm, economic theories of value, and the utility of constitutional discourse. She illuminates the adverse repercussions of the anti-essentialist position for jurisprudence, and offers strategies for correcting them. Far from espousing a return to essentialism, West argues an anti- anti-essentialism, which greatly refines our understanding of the similarities and differences between women and men.

Classical Social Theory-Kenneth H. Tucker, Jr. 2001-10-08 This accessible, original book is an exploration of the relevance of classical social theory in the contemporary world. It examines the work of Marx, Weber and Durkheim through the lens of new theoretical issues, such as the role of Empire, the problem of cultural differences, and the possibilities of democracy that are implicit in each theorist's perspective.

Solidarity of Kin, The-Kenneth M. Morrison 2012-02-01 Using the example of the Eastern Algonkians, this book argues that Native Americans did not convert to Christianity, but rather made sense of Christianity in their own traditional ways and for their own social purposes.

The Essential Criminology Reader-Stuart Henry 2018-05-04 Initially designed to accompany Mark Lanier and Stuart Henry's best-selling Essential Criminology textbook, this new reader is an up-to-date companion text perfect for all students of introductory criminology and criminological theory courses. The Essential Criminology Reader contains 30 original articles on current developments in criminological theory. Commissioned specifically for The Reader, these short essays were written by leading scholars in the field. Each chapter complements one of 13 different theoretical perspectives covered in Lanier and Henry's Essential Criminology text and contains between two and three articles from leading theorists on each perspective. Each chapter of The Reader features: a brief summary of the main ideas of the theory the ways the author's theory has been misinterpreted/distorted criticisms by others of the theory and how the author has responded a summary of the balance of the empirical findings the latest developments in their theoretical position policy implications/practice of their theory

Jokes and Targets-Christie Davies 2011 Jokes and Targets takes up an appealing and entertaining topic—the social and historical origins of jokes about familiar targets such as rustics, Jewish spouses, used car salesmen, and dumb blondes. Christie Davies explains why political jokes flourished in the Soviet Union, why Europeans tell jokes about American lawyers but not about their own lawyers, and why sex jokes often refer to France rather than to other countries. One of the world's leading experts on the study of humor, Davies provides a wide-ranging and detailed study of the jokes that make up an important part of everyday conversation.

Continuities in the Study of Social Conflict-Lewis A. Coser 1967

Emile Durkheim-Emile Durkheim 1972

Classical Social Theory and Modern Society-Edward Royce 2015-01-22 Karl Marx, Emile Durkheim, and Max Weber are indispensable for understanding the sociological enterprise. They are among the chief founders of the discipline and among the foremost theorists of modernity, and their work can stimulate readers to reflect on their own identities and worldviews. Classical Social Theory and Modern Society introduces students to these three thinkers and shows their continued relevance today. The first chapter sets the stage by situating the work of Marx, Durkheim, and Weber in the context of three modernizing revolutions: the Enlightenment, the French Revolution of 1789, and the industrial revolution. Three overview chapters follow that summarize the key ideas of each thinker, focusing on their contributions to the development of sociology and their conceptions of modern society. The last portion of the book explores the thinking of Marx, Durkheim, and Weber on four themes—the pathologies of modern society, the predicament of the modern individual, the state and democracy, and socialism versus capitalism. These thematic chapters place Marx, Durkheim, and Weber in dialogue with one another, offering students the opportunity to wrestle with conflicting ideas on issues that are still significant today. Classical sociology is essential to the teaching of sociology and also an invaluable tool in the education of citizens.

Images of Society-Gianfranco Poggi 1972

Anti-Colonial Theory and Decolonial Praxis-George J. Sefa Dei 2016-08-29 Are we living in a post-colonial world? Anti-Colonial Theory and Decolonial Praxis uses case studies from around the world to explore this concept as it relates to education. It takes up the subject of anti-colonial praxis and its specific implications the larger questions of schooling and education in global contexts."

Introduction to Sociology 2e-Heather Griffiths 2017-12-31 Introduction to Sociology 2e adheres to the scope and sequence of a typical, one-semester introductory sociology course. It offers comprehensive coverage of core concepts, foundational scholars, and emerging theories, which are supported by a wealth of engaging learning materials. The textbook presents detailed section reviews with rich questions, discussions that help students apply their knowledge, and features that draw learners into the discipline in meaningful ways. The second edition retains the book's conceptual organization, aligning to most courses, and has been significantly updated to reflect the latest research and provide examples most relevant to today's students. In order to help instructors transition to the revised version, the 2e changes are described within the preface. The images in this textbook are grayscale. Authors include: Heather Griffiths, Nathan Keirns, Eric Strayer, Susan Cody-Rydzewski, Gail Scaramuzzo, Tommy Sadler, Sally Vyain, Jeff Bry, Faye Jones

Essential Criminology-Mark M. Lanier 2018-04-19 In the fourth edition of Essential Criminology, authors Mark M. Lanier, Stuart Henry, and Desire .M. Anastasia build upon this best-selling critical review of criminology, which has become essential reading for students of criminology in the 21st century. Designed as an alternative to overly comprehensive, lengthy, and expensive introductory texts, Essential Criminology is, as its title implies, a concise overview of the field. The book guides students through the various definitions of crime and the different ways crime is measured. It then covers the major theories of crime, from individual-level, classical, and rational choice to biological, psychological, social learning, social control, and interactionist perspectives. In this latest edition, the authors explore the kind of criminology that is needed for the globally interdependent twenty-first century. With cutting-edge updates, illustrative real-world examples, and new study tools for students, this text is a necessity for both undergraduate and graduate courses in criminology.

Marx, Durkheim, Weber-Ken Morrison 2010-03-01 Este libro es una excelente introducción a la teoría social moderna. A través de exposiciones claras y comprensibles el autor nos adentra, mediante una introducción, en la historia y en las características de dicha teoría social.

Weber-Gianfranco Poggi 2006-03-24 In this short and accessible introductory text, Gianfranco Poggi offers a masterly account of the most important themes in Weber's writings. Assuming no previous knowledge of Weber's work, the book focuses on his conception of sociology, social process, religion, and the genesis and nature of the modern state. This is Poggi at his very best. His account is authoritative, but unpretentious, intellectually sophisticated, but still highly readable. As such, this highly perceptive book is bound to become an indispensable guide to Weber's key ideas, suitable for use by anyone requiring a concise and yet scholarly introduction to Weber's work, whether at undergraduate or postgraduate level.

The Concise New Makers of Modern Culture-Justin Wintle 2008-11-28 A Who's Who of Western culture, from Woody Allen to Emile Zola... Containing four hundred essay-style entries, and covering the period from 1850 to the present, The Concise New Makers of Modern Culture includes artists, writers, dramatists, architects, philosophers, anthropologists, scientists, sociologists, major political figures, composers, film-makers and many other culturally significant individuals and is thoroughly international in its purview. Next to Karl Marx is Bob Marley, with John Ruskin is Salman Rushdie, alongside Darwin is Luigi Dallapiccola, Deng Xiaoping rubs shoulders with Jacques Derrida as do Julia Kristeva and Kropotkin. With its global reach, The Concise New Makers of Modern Culture provides a multi-voiced witness of the contemporary thinking world. The entries carry short bibliographies and there is thorough cross-referencing as well as an index of names and key terms.

Rethinking the Social through Durkheim, Marx, Weber and Whitehead-Michael Halewood 2014-12-01 According to some social theorists, we are 'at the end of the social'. This book argues that such pronouncements may be premature, as we need to reengage with what sociologists have previously meant by 'the social'. 'Rethinking the Social' is the first book to systematically analyse the different concepts of the social developed by Durkheim, Marx and Weber. It examines how the concept of the social became unproblematic for twentieth-century writers and suggests that debates surrounding this concept remain very much alive. Building on A. N. Whitehead's work, Halewood develops a novel 'philosophy of the social'.

Sustainability Through the Lens of Environmental Sociology- 2018-02-14 Our planet is undergoing radical environmental and social changes. Sustainability has now been put into question by, for example, our consumption patterns, loss of biodiversity, depletion of resources, and exploitative power relations. With apparent ecological and social limits to globalization and development, current levels of consumption are

unsustainable, inequitable, and inaccessible to the majority of humans. Understanding and attaining sustainability is a crucial matter at a time when our planet is in peril--environmentally, economically, socially, and politically. Since its official inception in the 1970s, environmental sociology has provided a powerful lens to understanding the challenges, possibilities and modes of sustainability. Most chapters in this book were published as peer-reviewed articles in Sustainability in its special issue "Sustainability through the Lens of Environmental Sociology," providing an environmental sociology approach to understanding and achieving the widely used notion of "sustainability." This edited collection covers, among other topics, the inherent discursive formations of environmental sociology, conceptual tools and paradoxes, competing theories and practices, and their complex implications on our society at large. Chapters in this book specifically focus on how sustainable development has been understood through different theoretical lenses in environmental sociology, such as ecological modernization, policy/reformist sustainable development, and critical structural approaches (such as the treadmill of production, ecological Marxism, metabolic rift theory, etc.); and how sustainable development has been practiced in, or by, various stakeholders, such as states, corporations, and local communities, for various ends, through the use of specific case studies, showing, for example, the discursive shifts, dynamic formations, and diverse contours of sustainable development. The range of relevant topics includes: - Environmental sociology as a field of inquiry for sustainability - Historical context of sustainable development in environmental sociology - Nature-society relationship in environmental sociology - Theories/approaches to sustainability discourse in environmental sociology - Environmentalism/environmental movements for sustainability - Empirical cases (such as climate change, biodiversity, food, certification, etc.) through the lens of environmental sociology

Understanding Classical Sociology-John A Hughes 2003-04-21 This is a fully updated and expanded new edition of the successful undergraduate text. Providing a lucid examination of the pivotal theories of Marx, Durkheim and Weber, the authors submit that these figures have decisively shaped the discipline.

Education and Sociology-Émile Durkheim 1956

Classical Sociological Theory-Steven Loyal 2020-09-30 Introducing the founders of sociological theory - from Marx, Weber, Durkheim and Martineau through to Simmel, DuBois, Mead and others - this accessible textbook locates each thinker within their own social, political and historical context. By doing so, it helps readers to understand the development of central sociological concepts and how they can help us understand the contemporary world. The book includes: Lively biographical sections to help readers get to know each thinker Clear and easy-to-understand accounts of each theorist's arguments - and the most common criticisms Key concept boxes highlighting the most influential ideas This comprehensive, enlightening text brings the rich and diverse field of classical sociological theory to life.

My African Dream-Tonito Samuel 2015-09-11 "My African dream" This is more than a book. It's a diagnosis of the great sickness that Africa suffers from and a prescription for its cure - lack of visionary leadership. The time has come for the youth; the next generation of leaders of the African continent to turn the tide and become solutions to the problems that Africa is faced with. It all must begin with a dream; a vision; a new perspective of a new Africa. My African dream is a must have for all who desire to become leaders in any sphere of society; politics, business, entertainment etc.

Sociological Theory Beyond the Canon-Syed Farid Alatas 2017-05-27 This book expands the sociological canon by introducing non-Western and female voices, and subjects the existing canon itself to critique. Including chapters on both the 'founding fathers' of sociology and neglected thinkers it highlights the biases of Eurocentrism and androcentrism, while also offering much-needed correctives to them. The authors challenge a dominant account of the development of sociological theory which would have us believe that it was only Western European and later North American white males in the nineteenth and early twentieth century who thought in a creative and systematic manner about the origins and nature of the emerging modernity of their time. This integrated and contextualised account seeks to restructure the ways in which we theorise the emergence of the classical sociological canon. This book's global scope fills a significant lacuna and provides a unique teaching resource to students of classical sociological theory.

Korea: The Impossible Country-Daniel Tudor 2012-11-10 South Korea's amazing rise from the ashes: the inside story of an economic, political, and cultural phenomenon Long overshadowed by Japan and China, South Korea is a small country that happens to be one of the great national success stories of the postwar period. From a failed state with no democratic tradition, ruined and partitioned by war, and sapped by a half-century of colonial rule, South Korea transformed itself in just fifty years into an economic powerhouse and a democracy that serves as a model for other countries. With no natural resources and a tradition of authoritarian rule, Korea managed to accomplish a second Asian miracle. Daniel Tudor is a journalist who has lived in and written about Korea for almost a decade. In Korea: The Impossible Country, Tudor examines Korea's cultural foundations; the Korean character; the public sphere in politics, business, and the workplace as well as the family, dating, and marriage. In doing so, he touches on topics as diverse as shamanism, clan-ism, the dilemma posed by North Korea, the myths about doing business in Korea, the Koreans' renowned hard-partying ethos, and why the infatuation with learning English is now causing massive social problems. South Korea has undergone two miracles at once: economic development and complete democratization. The question now is, will it become as some see Japan, a prosperous yet aging society, devoid of energy and momentum? Or will the dynamism of Korean society and its willingness to change—as well as the opportunity it has now to welcome outsiders into its fold—enable it to experience a third miracle that will propel it into the ranks of the world's leading nations regarding human culture, democracy, and wealth? More than just one journalist's account, Korea: The Impossible Country also draws on interviews with many of the people who made South Korea what it is today. These include: Choi Min-sik, the star of "Old Boy." Park Won-soon, Mayor of Seoul. Soyeon Yi, Korea's first astronaut Hong Myung-bo, legendary captain of Korea's 2002 FIFA World Cup team. Shin Joong-hyun, the 'Godfather of Korean Rock.' Ko Un, poet. Hong Seok-cheon, restaurateur, and the first Korean celebrity to 'come out.' And many more, including a former advisor to President Park Chung-hee; a Shaman priestess ('mudang'); the boss of Korea's largest matchmaking agency; a 'room salon' hostess; an architect; as well as chefs, musicians, academics, entrepreneurs, homemakers, and chaebol conglomerate employees.

Capitalism and Modernity-Derek Sayer 2002-11-01 First Published in 2004. Routledge is an imprint of Taylor & Francis, an informa company.

Contemporary Sociological Theory-Steven Loyal 2020-10-12 Introduces readers to the most important thinkers and schools of thought in contemporary sociological theory - from Parsons and Merton to the Frankfurt School to Foucault, Bourdieu, Giddens and Hochschild - locating each thinker within their own social, political and historical context and helping readers use these ideas to understand the contemporary world.

Montenegro-Kenneth Morrison 2009 In May 2006, following a passionate and closely fought referendum in which nearly 90% of those eligible voted, Montenegro finally regained the status of an independent nation--the most recent chapter in a highly turbulent history. But how did the Balkans forge this tiny republic? What sets it apart from the other dominant powers in the region and what will be its future role on the world's stage?

Montenegro: A Modern History charts the country's contemporary history in accessible and comprehensive form. Beginning with its recognition as an independent state at the Congress of Berlin in 1878, Kenneth Morrison traces the country's evolution through its incorporation into the Kingdom of Serbs, Croats and Slovenes, its disproportionate role during the Yugoslav wars of 1941-1945, its contribution to the bloody collapse of Yugoslavia and finally the achievement of independence. He explores the forces that have shaped the republic of Montenegro and questions where this will lead in the future, examining the fundamental issues of Montenegrin identity and statehood in the context of Balkan and European politics, society and history. This full and authoritative history will be essential reading for everyone interested in the political and social dynamics of Europe's newest state.

Key Concepts in Classical Social Theory-Alex Law 2010-12-14 "I think this will prove to be a very useful text for undergraduate students. Alex Law has produced a comprehensive list of key classical social theory concepts and provides an accessible account of the meaning of central terms, their place in the work of the classical analysts considered and the contemporary significance of their ideas. In addition he has offered useful additional reading guidance from which students will derive considerable benefit." - Barry Smart, University of Portsmouth This book's individual entries introduce, explain and contextualise the key topics within

classical social theory. Definitions, summaries and key words are developed throughout with careful cross-referencing allowing students to move effortlessly between core ideas and themes. Each entry provides: clear definitions lucid accounts of key issues up-to-date suggestions for further reading informative cross-referencing. Relevant, focused and accessible this book will provide students across the social sciences with an indispensable guide to the central concepts of classical social theory.

Criminology: The Key Concepts-Martin O'Brien 2008-06-23 Criminology: The Key Concepts is an authoritative and comprehensive study guide and reference resource that will take you through all the concepts, approaches, issues and institutions central to the study of crime in contemporary society. Topics covered in this easy to use A-Z guide include: policing, sentencing and the justice system types of crime, including corporate crime, cybercrime, sex and hate crimes feminist, marxist and cultural approaches to criminology terrorism, state crime, war crimes and human rights social issues such as anti-social behaviour, domestic violence and pornography criminal psychology and deviance Fully cross-referenced, with extensive suggestions for further reading and in-depth study of the topics discussed, this is an essential reference guide for students of Criminology at all levels.

Sociology-T. B. Bottomore 1971 `a work of authority and mature scholarship...of a consistently high standard.` This is a guide to sociology which presents sociological concepts, theories and methods in relation to the culture and institutions of Indian society. Contents: The Scope and Methods of Sociology - Population and Social Groupings - Social Institutions - Social Control - Social Change - Applied Sociology. Cover slightly rubbed, text clear, condition good.

Social Theory for Today-Alex Law 2014-12-01 "This book is distinctive for extending the usual sociological reach, reopening territory that has lain fallow, set aside from the well-ploughed fields of orthodox social theory. In doing so, Law not only produces fresh insight into familiar theorists but guards against collective forgetting of the sociological canon." - Professor Bridget Fowler, University of Glasgow "An excellent book, it will be welcomed and read widely by advanced undergraduates, postgraduates and scholars in sociology, cultural studies, social theory and beyond." - Professor Chris Shilling, University of Kent Social Theory for Today guides students through the 'turns' of past and present social theory as it attempts to wrestle with a recurring sense of crisis in social relations and social theory. Drawing on both classical and contemporary sources, Alex Law provides readers with a firm grasp of competing perspectives. Too often social theories attempt to dominate the field by casting rival theorists, past and present, as deluded fools, while the more familiar 'big names' in social theory are subject to ever-increasing commentary that runs in ever-decreasing circles. This survey of social theory and crisis lessens the temptation to engage in internal theoretical polemics and esoteric wordplay. Social theory must become practical and specific if it is to become a means of orientation for uncertain times. This is a must-read for upper level undergraduate and postgraduate students looking for a vibrant and extended understanding of social theory.

[Books] Ken Morrison Marx Durkheim Weber

If you ally compulsion such a referred **ken morrison marx durkheim weber** book that will have enough money you worth, get the unconditionally best seller from us currently from several preferred authors.
