<p>2021-10-28 Carol Vorderman PLEASE NOTE - this is a replica of the print book and you will need paper and a pencil to complete the exercises. Love it or hate it, maths is an essential subject to know. Now you can master it with this colourful practice ebook. Do you feel a bit left behind in maths class? Or are you a maths genius and want to practise more at home? DK's How to be Good at Maths course book for children aged 7-11 now has two accompanying workbooks: Workbook 1 covers ages 7-9 and Workbook 2 covers ages 9-11. These workbooks will help to cement everything you need to know about maths through practice questions and practical exercises. Easy-to-follow instructions allow you to try out what you've studied, helping you understand what you've learned in school or giving extra revision practice before that important test. Workbook 2 is aimed at children aged 9-11 (Upper Key Stage 2 in the UK; Grades 4, 5, and 6 in the US), and covers all the key areas of the school curriculum for this level, including working with fractions and decimal numbers, percentages, long multiplication and division, measurement, geometry, coordinates, statistics, probability, and basic algebra. And there are answers at the back to check that you're on the right path. This engaging and clear workbook accompanies DK's How to be Good at Maths course book, but can also be used on its own</p>	<p>to reinforce classroom teaching.</p> <p>2002</p> <p>2001</p> <p>2013-01-17 Carol Vorderman PLEASE NOTE - this is a replica of the print book, but you will be able to download printable worksheets on purchase. Master Key Stage 2 maths in just 10 minutes a day with the activities in this essential home-study workbook from Carol Vorderman. 10 Minutes a Day Maths is a homeschool learning resource for 9-11 year olds that teaches kids maths in bite-sized chunks. Children prefer to learn in short bursts, making this workbook from Carol Vorderman the perfect homeschool introduction to maths. Games and tests make learning fun, leading to maximum results in just 10 minutes a day. This workbook includes fun maths exercises that cover multiplication, division, fractions, decimals, angles and much more. The parents' notes section gives the answers, explains common pitfalls, and gives guidance on how to avoid them. 10 Minutes a Day workbooks are the perfect at-home reinforcement for subjects learned in school and support the National Curriculum.</p> <p>2001 Roma Harvey Planned, developed and written by practising classroom teachers with a wide variety of experience in schools, this maths course has been designed to be enjoyable and</p>	<p>motivating for pupils and teachers. The course is open and accessible to pupils of all abilities and backgrounds, and is differentiated to provide material which is appropriate for all pupils. It provides spiral coverage of the curriculum which involves regular revisiting of key concepts to promote familiarity through practice. This teacher's file is designed for Year 8.</p> <p>2014-11 David Baker Fully in-line with the Framework for Teaching Mathematics, this series provides coverage of the curriculum intended to enable students to revise and consolidate key concepts. Every chapter contains questions in the style of the National Tests. The three Ma1 tasks in every students book have detailed marking guidance in the equivalent teacher file to support key assessment at the end of the key stage. The last resource section of this file contains a series of summary activities for new or previously absent teachers or pupils, covering all the chapters. Additions such as question banks and ICT CD-ROMs are available to provide further support.</p> <p>2001</p> <p>2001 David Baker Key Maths is a best-selling, comprehensive course which has been written and developed by practising classroom teachers. Careful thought has been given to the construction of the course, with differentiated material for year 9.</p>

<p>2002 Alison Head This is a home study series designed to teach children core skills that will build confidence at school. Each book supports the literacy or numeracy framework for the relevant school year. The English titles cover a wide range of topics ranging from comprehension to story writing, and the maths titles cover topics ranging from algebra to fractions. The books magical wizard theme should entertain as well as educate. Motivation is encouraged by giving gold stars, which can be added to a certificate of excellence at the back of each book. Parental guidance on how to make the best use of the book is included.</p>	<p>OHP.</p> <p>2005 Paul Broadbent Offers quick, fun tests that provide further practice in the core skills. Premier Quick Tests cover the essential topics for Key Stage 2 Maths. Each topic is introduced clearly before fun tests provide ten minutes of practice per topic. After the test is completed there is a colour-in testometer which children can use to record their progress.</p> <p>2000 David Baker These resources provide invaluable support within the Key Maths series for all mathematics teachers, whether specialists or non-specialist, experienced or new to the profession.</p>	<p>2022-01-06 Maths - No Problem!</p> <p>1999 Sean McArdle</p> <p>2012-06-01</p> <p>2001 Developed for the CCEA Specification, this Teacher File contains detailed support and guidance on advanced planning, points of emphasis, key words, notes for the non-specialist, useful supplementary ideas and homework sheets.</p> <p>2002 David Baker Published for the AQA Modular specification at GCSE, this resource covers the content, order and approach of this modular course with all of Key Maths' popular features.</p>
<p>2002-09 Wendy Fortescue Hubbard This series of resources provides comprehensive support for the Framework for Teaching Mathematics for Year 9, with particular emphasis on a three part mathematics lesson. The materials are fully linked to Key Maths and address the beginning and end of the typical lesson structure outlined in the Framework. The activities within the packs provide a variety of presentational models including opportunities for interactive oral work, direct teaching and paired or group activity work to encourage pupils to engage in mathematical conversation. The packs allow teachers to build resources such as number cards and fans. A wide range of data sets, graphs, tables and examples are included for photocopying or use on an</p>	<p>2022-05-05 Maths - No Problem!</p> <p>2022-05-05 Maths — No Problem!
