Innovations and Technologies for Soft Skill Development and Learning-Nagarajan, Suresh Kumar 2020-04-10 Traditional education revolves around the teaching of technical skills, especially within STEM fields. The digital age has expanded the horizon of creative possibilities for artists and cultural institutions - what is the impact on legal regimes that were constructed for an analogue world? What are the tensions between the safeguarding of cultural heritage and the dissemination of knowledge about culture? Inspired by a three year research project involving leading European universities, this book explores the relationship between copyright and intellectual property, creativity and innovation, and cultural heritage institutions. Its contributors are scholars from both the humanities and the social sciences - from cultural studies to law - as well as cultural practitioners and representatives from cultural heritage institutions. Sexuality Education from an Islamic Perspective-G. Hussein Rassool 2020-02-13 We live in an over-sexualised culture where sex and sexuality have become part of the public domain. This sexual revolution challenges Judeo-Christian and Islamic norms and boundaries. As such, sexuality education is a sensitive and extremely important issue, and its current implementation in schools has raised public concerns. This book explores the subject, contextualising it within the matrix of Islamic beliefs and practices. Islam binds sexuality and sexual education to a moral grid with rights and obligations, justice and equity. There is a dominant discourse and stereotype around 'Islamic sexuality', which presents sex and sexuality as the biggest taboo, fraught with fear and seldom discussed. This book dispels such myths and misconceptions, providing an overview of sexuality education in the modern world and the need for such education.
