Peace Education from the Grassroots-Ian Harris 2013-09-01 Historians often ignore the day-to-day struggles of ordinary people to improve their lives. They tend to focus on the accomplishments of illustrious leaders. Peace Education from the Grassroots tells the stories of concerned citizens, teachers, and grassroots peace activists who have struggled to counteract high levels of violence by teaching about the sources for violence and strategies for peace. The stories told here come from the grass roots meaning the educators are close to the forms of violence they are addressing. This collection of essays tells how citizens at the grassroots level developed peace education initiatives in thirteen different nations (Belgium, Canada, El Salvador, Germany, India, Jamaica, Japan, Mexico, the Philippines, South Korea, Spain, Uganda, and the United States). A fourteenth article describes the efforts of the International Red Cross to implement a human rights curriculum to teachers on the ground in the Balkans, Iran, Senegal, and the United States. These chapters describe a variety of schools, colleges, peace movement organizations, community-based organizations, and international nongovernmental organizations engaged in peace education.

Peace Education, 3d ed.-Ian M. Harris 2014-01-10 Now in its third edition, Peace Education provides a comprehensive approach to educating for a just and sustainable future. It begins with religious and historical trends that have molded our understanding of "peace" and then presents a variety of ways to practice peace education in schools and communities, and explains how it can motivate students. The teaching and practice of peace education provides a basis of valuable knowledge about resolving conflicts and transforming violence without the use of force. Instructors considering this book for use in a course may request an examination copy here.

101 Healing Stories for Kids and Teens-George W. Burns 2012-06-29 A comprehensive guide to understanding and using storytelling in therapy with kids and teens "George Burns is a highly experienced clinician with the remarkable ability to create, discover, and tell engaging stories that can teach us all the most important lessons in life. With 101 Healing Stories for Kids and Teens, he strives especially to help kids and teens learn these life lessons early on, providing them opportunities for getting help and even learning to think preventively." -Michael D. Yapko, PhD | Author of Breaking the Patterns of Depression and Hand-Me-Down Blues "George Burns takes the reader on a wonderful journey, balancing metaphor, good therapeutic technique, and empirical foundations during the trip. Given that Burns utilizes all three aspects of the Confucian story referred to in the book-teaching, showing, and involving-readers should increase their understanding of how stories can be used therapeutically." -Richard G. Whiteside, MSW | Author of The Art of Using and Losing Control and Working with Difficult Clients: A Practical Guide to Better Therapy "A treasure trove for parents and for professionals in the child-development fields." -Jeffrey K. Zeig, PhD | Director, The Milton H. Erickson Foundation Stories can play an important and potent role in therapy with children and adolescents-helping them develop the skills to cope with and survive a myriad of life situations. In many cases, stories provide the most effective means of communicating what kids and teens might not want to discuss directly. 101 Healing Stories for Kids and Teens provides straightforward advice on using storytelling and metaphors in a variety of therapeutic settings. Ideal for all who work with young people, this unique resource can be combined with other inventive and evidence-based techniques such as play, art, music, and drama therapies as well as solution focused, hypnotic, and cognitive-behavioral approaches. Offering guidance for new clinicians and seasoned professionals, George Burns's latest work delivers a unique combination of information on incorporating storytelling in therapy, dozens of ready-made stories, and tips for creating original therapeutic stories. Innovative chapters include: \* Guidance for effective storytelling \* Using metaphors effectively \* Where to get ideas for healing stories \* Planning and presenting healing stories \* Teaching parents to use healing stories In addition, 101 Healing Stories for Kids and Teens includes dozens of story ideas designed to address a variety of issues, such as: \* Enriching learning \* Teaching self-care \* Changing patterns of behavior \* Managing relationships, emotions, and life challenges \* Creating helpful thoughts \* Developing life skills and problem-solving techniques

Connecting with Kids Through Stories-Denise B. Lacher 2012 This is an accessible guide to using therapeutic stories to help connect with troubled adopted children. Street Whispers: Stories-Liam Sweeny 2018-02-23 An eclectic collection of pulp, grit and noir stories inspired by the Capital Region of New York, a rust-belt crossroads in the shadow of the city that never sleeps. Here's a trip led by fat slobs in smoky, vomit-stained cabs, heading to the oasis of the strip club on a street lined with rusted out factories, ventilated with beer cans and rocks. No heroes and villains in these pages, just shades of grey and characters making choices between bad and worse. Tales of woe and macabre, the profane and ordinary dance with each other in a building where the forgotten stay, passing their street whispers like bottles from the bottom shelf.

Bedtime Stories for Kids-Kaizen Mindfulness Meditations 2021-02-01 Christmas time is here! The most magical time of the year. Never a better time has come. The Comics Journal Library-Gary Groth 2016-11-09 No comics publisher has had a greater impact — or generated more controversy — than the immensely influential EC Comics. The second and concluding volume of conversations with the creators behind the EC war/horror/science fiction/suspense line brings The Comics Journal's definitive interviews together with several never-before-published sessions, including a new interview with the legendary Jack Davis conducted by Gary Groth. It also includes: Publisher Bill Gaines on the origins of the company and his terrifying grilling before the Senate Subcommittee on Juvenile Delinquency, editor/writer/artist Al Feldstein on introducing serious science fiction to comics and his interactions with Ray Bradbury. Harvey Kurtzman on bringing realism to war comics with Frontline Combat and subversive satire to

humor comics with Mad, the master of chirasuro, Alex Toth, on the aesthetic values that guided him through a career that included drawing for EC and animating Jonny Quest, colorist Marie Severin on the atmosphere of pranks and anarchy that dominated the EC bullpen. Plus, career-spanning interviews with George Evans and Jack Kamen, rare Q&A sessions with formal experimenter Bernard Krigstein and EC writer Colin Dawkins, and a conversation between Jack Davis and award-winning alternative cartoonist Jim Woodring.

Kids Aren't Grown-Ups-Michelle Hutton 2019-11-08 Kids Aren't Grown-Ups explores a fascinating world ... the development of a child's brain and mind. Written in an informal yet informative style, the book's clear explanations of sometimes complex issues will help parents better understand their pre-school child's abilities, limitations, motivations and behaviour. Kids Aren't Grown-Ups! arms readers with the knowledge and tools to make informed parenting choices. REVIEW BY GAYNOR: "I wish Kids Aren't Grown-Ups had been available to read when my children were born, so that I could better allow my boys to explore their own possibilities and flourish, with my support and guidance. It is rare to find a book that is so multidimensional in its approach to broadening growth in parenting skills, and the book tackles many complex topics in a clear manner, with just the right amount of scientific terminology. Michelle Hutton has a very interactive writing style, and it was the practical translation of the theory that kept me engaged. I was pleased there were no overwhelming prescriptive lists of things I felt I had to do better. I was able to stop and think about my own parenting strategies and style, making sense of how to support and impact young children." REVIEW BY TREEN: "Finally—a refreshing and useful guide for parents! I am one of those parents who had to quickly learn that our children don't always read the text books. My first child is somewhat of a challenge and I found myself reading every sort of parenting manual only to find that she just didn't seem to fit into any particular problem and more frustratingly—any solution! My second child was born and proved to be the polar opposite in terms of personality, adding to my frustration and confusion. Kids Aren't Grown-Ups has helped me to understand these precious little people in my life. However, importantly it has also helped me accept my own influences as a parent and has given me the confidence to make decisions that are right for MY kids and my family. The author covers such a wide range of topics that influence how a child develops, their behaviour and how they perceive the world, making it relevant for all children and helpful for all parents." REVIEW BY MEG: "As a new parent, I found it overwhelming at times to know what the best approach was for my daughter for everyday challenges. Everyone seems to have an opinion on your parenting—advice on everything from using child care to breastfeeding. On top of all the advice from well-meaning friends and family members, there are so many parenting books! A lot of the advice out there is biased and based on other people's values. This book, however, is written in a factual way that allows parents to add to their toolkit with useful information. Kids Aren't Grown-Ups is a down-to-earth, humorous and accessible book. Concepts that could be complex are explained in easy to understand ways, without jargon, and the diagrams are helpful additions to the text. Knowing how a child's brain develops is a very helpful tool for us parents and the author does a great job of explaining this process in ways we can all understand. Michelle Hutton writes in an extremely relatable way. While reading, I found myself nodding along emphatically as the author describes children's behaviours and parents' responses. I kept thinking, "yes, she really understands these parenting challenges I am facing." The personable way this book is written feels like someone is walking this tricky parenting road by your side, and pointing out potential potholes and hazards in a way that helps you feel prepared, in control and most importantly, not judged. Sometimes as a parent we expect things of our kids that just don't fit their age and stage of development. Hutton writes in a guilt-free, non-blaming, sensible and factual way that helps equip us "mere mortal" parents for this super-human job facing us—being a parent. I will definitely be recommending this book to other parents, especially those embarking on the journey for the first time. This book is both fascinating and thought provoking."

The Stories My Children Didn't Want to Hear-peggy brooks

"Kids, Have You Seen My Backpack--?" and Other Inspirational Stories of Non-traditional Students-Donna Talarico 2005 "Some are single, some are married, some have kids, some do not, some are twenty-four, some are sixty-four...We are not straight out of high school living four more years of playfulness...some of us are in college to improve our future or the future of our children, many of us are changing an academic legacy by being the first in our families to graduate from college. Others are starting again after military service or making a new path out of a dead-end job or relationship..." ..".I was tired of having spaghetti every night...sick of living in a dump of an apartment. The thought of having children was out of the question. I couldn't believe this was my life. An education was the only way to change that." ..".Hearing those phrases "It's a girl" and "You may now kiss the bride" made me think, "I am now a wife and a mother...never again a student."" "The desks sure hadn't changed, but in the past 20 years, I sure had." Non-traditional students face challenges well beyond academia. In this anthology, adult learners share their personal journeys. Facing fears, overcoming obstacles, to graduation day, these stories will inspire anyone considering their own education endeavor.

A Companion to the Works of Kim Scott-Belinda Wheeler 2016 New essays on the acclaimed Australian Indigenous author's entire body of work, including his novels, short stories, poetry, and his work with Indigenous language and health.

Writing Bestselling Children's Books-Alexander Gordon Smith 2007-07-23 Some people think that writing for kids is easy - short books, no big words, non-existent attention spans and then fill in any gaps with pictures. But nothing could be further from the truth. Children are the harshest critics imaginable. Give a grown-up a copy of Ulysses to read and they'll pretend to like it just so they don't look stupid. Give a copy to a kid and they'll tell

you straight up that it's no good. Writing for children is much harder than writing for adults because it's all about catching their attention and keeping it - whether for five pages or five hundred. And being restricted by theme, vocabulary, length and a wandering attention span makes things infinitely more complicated. But creating books for children is also one of the most rewarding activities any writer can experience. To kids, stories are everything - they fuel their imaginations and provide endless hours of entertainment.

Obituaries in the Performing Arts, 2017-Harris M. Lentz III 2018-04-30 "A one-stop resource summarizing the deaths of all major individuals in the fields of television, film cartoons, theater music and popular literature throughout the world. Practical Dreamers-Mike Hoolboom 2004-04-14 'The streets are full of admirable craftsmen, but so few practical dreamers.' - Man Ray What if there were movies made the same way as suits, custom fitted, each one tailored for one person? Not broadcast, but narrowcast? Not theatres around the world showing the same globalized pictures, but instead a local circumstance, a movie so particular, so peculiar, it could cure night blindness or vertigo? Welcome to the world of fringe movies, where artists have been busy putting queer shoulders to the wheels, or bending light to talk about First Nations rights (and making it funny at the same time), or demonstrating how a personality can be taken apart and put together again, all in the course of a ten-minute movie which might take years to make. Practical Dreamers takes us to this other side of the media plantation. In it, twenty-seven Canadian artists dish about how they get it done and why it matters. The conversations are personal, up close and jargon free, smart without smarting. The stellar cast includes smartbomb Steve Reinke; visionary Peter Mettler; Middle East specialist Jayce Salloum; queer Asian avatars Richard Fung, Midi Onodera, Ho Tam, and Wayne Yung; footage recyclers Aleesa Cohene and Jubal Brown; overhead projector king Daniel Barrow; First Nations vets Kent Monkman and Shelley Niro; international art presence Paulette Philips; and documentarian Donigan Cumming. These in-depth talks come lavishly illustrated in an oversized volume.

I Just Want to Do It My Way!-Julia Cook 2013-02-01 RJ's way of doing things isn't working out for him, especially in math class. His teacher is upset because so many of his assignments are missing or incomplete. RJ blames Norma "the booger picker" and Rodney "the alphabet burper" for distracting him during class. With support from his mom and dad, RJ learns how to ask for help and stay on task. By learning how to do things the right way the first time, RJ discovers he no longer has to do his work over and over and over again.

Please Explain Time Out to Me-Laurie Zelinger Time Out is a dignified and effective method of discipline, endorsed by the American Academy of Pediatrics and the American Psychological Association. This book, written by parenting experts, explains the Time Out process and provides step-by-step instructions for its proper and effective use. Please Explain Time Out To Me is two books in one: an engaging story with colorful illustrations and a parent section which describes the Time Out process in detail, as well as the advantages and pitfalls of other methods of discipline. Children will: Enjoy the story and illustrations Understand how Time Out works Empathize with the characters in the book Be treated respectfully when given a

consequence Experience the benefits of Time Out as a mechanism of behavior change Parents and caregivers will: Develop a plan for supplying responses to their child's unacceptable behavior Understand the rationale behind Time-Out as a management technique Learn how to use Time Out effectively Better handle behavioral issues wherever they occur Learn that physical forms of punishment do not work Drs. Zelinger book is clearly informed by literature and both clinical and personal experience. Its simplicity and ease-of-use and understanding allows for broad reach to all parents that face the normal challenges in raising children. The story to help the child understand makes this book unique, as well as the "fixer box" concept. Behavioral difficulties often stem from struggles around feeling in control. This book gives a concrete, more adaptive path for both parents and child to feel in control. -- David Salsberg, PsyD, DABPS Clinical Neuropsychologist; Director, Pediatric Assessment, Learning & Support (PALS), New York, NY. In Please explain Time Out To Me, Drs. Laurie and Fred Zelinger offer a clear, concise and insightful look at the often misunderstood and misinterpreted concept of time out. Combining colorful illustrations and story line for children and step-by-step guidelines and principles for parents and adults, the book has unique appeal to both. I highly recommend this book, particularly to parents foraging through the tangled, complicated and sometimes scary web called parenthood. -- Iris Ackerman, LCSW, PhD, Clinical Social Worker As a child psychiatrist, finding parenting books that are straightforward, helpful, and concise is a rare find indeed. Drs. Laurie and Fred Zelinger offer just that in Please Explain Time Out To Me. In its pages, they harness their expert clinical experience and judgment and offer it in a relatable, engaging, and entertaining way. I highly recommend this book to families who are struggling with the difficult journey of growing up and managing problem behaviors along the way. -- Stephen Perret, MD., Child Psychiatrist Thumbs up for Drs. Zelinger's book on explaining time out to kids. As a busy working mom with six children, I have used time out effectively. I would recommend reading this book to help understand the benefits of time out for both parents and children, and the effectiveness of time-out as a learning tool. Drs. Zelinger's thought out story will be a helpful, useful contribution for kids, parents and teachers. - - Chani Jacobowitz, LCSW; Mother of 6 From the Please Explain To Me... series Learn more at [www.DrZelinger.com](http://www.DrZelinger.com) From Loving Healing Press [www.LHPress.com](http://www.LHPress.com)
