Policing Terrorism, Crime Control, and Police-Community Relations-Badi Hasisi 2014-08-14 This timely and important work takes a critical look at the shifting role of police, who are becoming increasingly responsible for handling terrorism threats on top of their regular responsibilities. With an unprecedented empirical study, the authors of this book examine whether this increased focus on security-related threats may come at the expense of addressing "classic" police responsibilities, such as fighting crime and dealing with local, day-to-day community problems. They also examine whether this shift has had a detrimental effect on police-community relationships and perceptions of police legitimacy, as their role changes from "service" to "suspicion." Through a four-year, multi-method study specifically focused on the Israeli National Police, the authors of this work have examined the effects of this shifting role on a number of key areas of policing concern, namely: police effectiveness at fighting crime and police legitimacy, drawing conclusions applicable to any democratic police force. The results of the study provide a number of concrete recommendations for maintaining effectiveness and community relationships of the police, with increasing responsibilities, challenges, and limited resources. This work will be of interest for researchers in criminology and criminal justice, particularly with a focus on police studies and counter-terrorism, police administrators, and researchers in related disciplines, such as sociology and public administration.

Handbook of Criminal Investigation-Tim Newburn 2012-08-21 This book provides the most comprehensive and authoritative book yet published on the subject of criminal investigation, a rapidly developing area within the police, other enforcement agencies, and, indeed, anyone who works with police studies. The subject is rarely out of the headlines, and the subject is currently at an inflexion point in its history. This new handbook is divided into two parts. The first part examines the key stages in the police rapid investigations are being made in the direction of professionalizing the criminal investigation process, and it has been a particular focus as a means of improving police performance. A number of important reports have been published in the last few years, highlighting the importance of the criminal investigation process not only to the work of the police but to public confidence in this. Each of these reports has highlighted shortcomings in the way criminal investigations have been conducted, and has made recommendations for improvement.

The Handbook of Criminal Investigation provides a rigorous and critical approach to not only the process of criminal investigation, but also the context in which this takes place, the theory underlying it, and the variety of factors which influence approaches to it. It will be an indispensable source of reference for anybody with an interest in, and needing to know about, criminal investigation. Contributors to the book are drawn from both practitioners in the field and academics.

The Politics of the Police- Robert Reiner 2010-03-04 This fourth edition of Robert Reiner's popular and highly-acclaimed text contains substantial revisions, to take into account the recent and profound changes in the law, policy and organisation of policing.

The Realities of Policing Diverse Communities from Minority and Police Perspectives-David J. Mccarney 2005-06-09 From the mid-1990s onwards, Ireland experienced unprecedented growth levels in immigration from around the world, prompted by the country's changing economic fortunes. In turn, the country faced a rapid development of diverse minorities in their midst, especially in the capital, Dublin. From a sociopolitical point of view, such communities posed challenges for the national police force, An Garda Síochána. As a part of a strategy to engage with rapidly changing demographics, An Garda Síochána launched the Garda Racial and Intercultural Office (GARIO). In 2001, the author of this book was invited to establish a framework, and practical measures to negotiate the non-discriminatory policing of Ireland's changing society. The author proposed the appointment of Garda Ethnic Liaison Officers (ELOs) to liaise and reassure these new minorities, while developing the officers' own deeper understanding of difference and vulnerability. Those appointed ELOs were trained in cultural awareness and difference by the author, in conjunction with minority representatives, which in turn, influenced their thinking in the delivery of a non-discriminatory front-line police service. The role of the ELO makes the Irish police authorities one of the first in the world with specialist officers dedicated to building relations with minorities. This book has many lessons to offer sociologists, criminologists, lawyers, social workers, and police institutions dealing with the plight of refugees, asylum seekers, economic migrants and marginalised people the world over.

Policing Northern Ireland-Aogán Mulcahy 2013-06-17 This book provides an account and analysis of policing in Northern Ireland, providing an account and an analysis of the RUC (Royal Ulster Constabulary) from the start of 'the troubles' in the 1960s to the early 1990s, through the uneasy peace that followed the 1994 paramilitary ceasefire (1994-1998), and then its transformation into the Police Service of Northern Ireland following the 1998 Good Friday Agreement. The book reveals with reference to the organisation and the performance of the police that a situation which appeared to be a short-term legitimacy deficit, Northern Ireland policing is focused on three key aspects of the police legitimisation process: reform measures which are implemented to reducts this legitimacy deficit; representational strategies which are invoked to offer positive images of policing; and public responses to these various strategies. Several key questions are asked about the ways in which the RUC has sought to improve its standing amongst nationalists: first, what strategies of reform has the RUC implemented? second, what forms of representation has the RUC employed to promote and portray itself in the positive terms that might secure public support? third, how have nationalists responded to these initiatives? The theoretical framework and analysis developed in the book also highlights general issues relating to the implications of police legitimacy and illegitimacy for social conflict and divisions, and their management and/or resolution, in relation to transitional societies in particular. In doing so it makes a powerful contribution to wider current debates about police legitimacy, police-community relations, community resistance, and conflict resolution.

Policing and Combatting Terrorism in Northern Ireland in a Globalising World 2018-04-12 This book explores the challenges of combating terrorism from a policing perspective using the example of the Royal Ulster Constabulary GC (RUC) in Northern Ireland. The RUC was in the frontline of counter-terrorism work for thirty years of conflict during which time it also provided a normal policing service to the public. However, combating a protracted and vicious terrorist campaign exacted a heavy price on the force. Importantly, the book addresses a number of issues in terrorism studies, namely, the impact of terrorism on members of the security forces. Accordingly, the book examines how officers have been affected by the conflict as terrorists adopted a strategy which targeted them both on and off duty. This resulted in a high proportion of police officers being killed whilst on duty - sometimes in the company of their wives and children. The experiences of officers’ wives is also documented thus highlighting the familial impact of terrorism. Generally speaking, the victims of terrorist attacks have received scant scholarly attention which has resulted in victims’ experiences being little understood. This work of peace casts some of its specific and unique light on the nature of that experience as well as those of members this branch of the coercive force of the security forces in Northern Ireland.
