Pope John Xxiii Essential Writings

Pope John XXIII 2008 Pope John XXIII revolutionized the church by convening the Second Vatican Council and by speaking of the need for updating and opening the windows of the Catholic Church. His pastoral style of leadership and engagement with the world, his love of peace and social justice are all evident in these writings.

The Essential Writings of Philip Schaff-Philip Schaff 2019-08-03 This carefully crafted ebook: “The Essential Writings of Philip Schaff" is formatted for your eReader with a functional and detailed table of contents. "History of the Christian Church" is an eight volume account of Christian history written by Philip Schaff. In this great work Schaff covers the history of Christianity from the time of the apostles to the Reformation period. "The Creeds of Christendom, with a History and Critical Notes" is a three volume set in which Schaff is classifying and explaining many different statements of belief and articles of faith throughout the Christian history. He deals with the history of the creeds, starting with the Ecumenical creeds, and moving to Greek and Roman creeds, then Old Catholic Union creeds, and finally to the Evangelical creeds and Modern Protestant creeds.

African Catholic-Elizabeth A. Foster 2019-03-04 Elizabeth Foster examines how French imperialists and the Africans they ruled imagined the religious future of sub-Saharan Africa in the years just before and after decolonization. The story encompasses the transition to independence, Catholic contributions to black intellectual currents, and efforts to create an authentically "African" church. Essential Writings-Gustavo Gutiérrez "Drawing from all of his many published books, as well as little-known essays and several pieces translated specially for this volume, Gustavo Gutierrez: Essential Writings provides an overview and an entry into the mind of a great modern Christian thinker." "Twenty-five years after the publication of his classic work A Theology of Liberation, this anthology offers a comprehensive view of the work of this Peruvian priest and theologian. Gutierrez has permanently altered the modern theological landscape, challenging all theologians and the world church to hear the gospel message from the "underside of history," from the perspective of the poor and oppressed."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. A Holy Yet Sinful Church-Jeanmarie Gribaudo 2015-08-11 This text examines three key moments in the developing theology of the church’s holiness and sinfulness in the twentieth century: the ressourcement movement of the 1930s to the 1950s, the Second Vatican Council (1962–65), and the pontificate of John Paul II (1978–2005). The aim of this text is to make accessible the works of Emile Mersch, Henri de Lubac, Hans Urs von Balthasar, Yves Congar, Karl Rahner, and Charles Journet that discuss the holiness and sinfulness of the church and to demonstrate how these works were influential in composing the Dogmatic Constitution on the Church, Lumen Gentium. The author then considers how this developing theology is put into practice in Pope John Paul II’s millennial program, which centers on admitting that the Church in its members has sinned and needs to seek forgiveness.

Fully Alive-Jean Maalouf 2012-06-27 The Most Efficient and Least Expensive Health Care Plan There Is Have you ever heard of a universal coverage offered by a health care provider that does not cost you a dime? “Impossible,” you said! Here is one. This book will tell you how relevant and efficient such a plan is, how it works, and how it can heal body-mind-soul, patients and doctors, old and young, men and women, individuals and groups, nations and the entire universe. No drugs, surgery, or magical herbs are necessary. The one thing needed is to follow God’s prescription. We may not be able to be in full control of our circumstances, but here are guidelines that enable us to have a healthier and happier life: • Finding meaning in life • Adopting healthy beliefs • Listening to God’s word • Developing good nutrition and exercise programs • Detoxifying • Controlling stress •
Strengthening your immune system to resist physical, intellectual, emotional, and spiritual viruses • Living up to your own potential • Helping yourself by helping others • Receiving and enjoying God’s gifts • Glorifying God in your body • Making right choices • Simplifying • Living by timeless principles • Experiencing the healing power of laughter, sleep, leisure, and success • Celebrating life • Understanding Our Spiritual DNA • And much more In these pages of uncommon common sense, sensitivity, and profound understanding, Dr. Maalouf, by inviting us to dig to the root causes of our loneliness, depersonalized culture, and general physical, mental, and spiritual malaise, helps us to rediscover the secret of living the fullness of life. You are invited to try this plan at no cost to you except your willingness, enthusiasm, and commitment. Since no one else can do it for you, please choose to make this plan your way of life and you will see the difference it will make.

Making All Things New-Jean Maalouf 2011-06-22
CHRISTMAS SHOCK-Jean Maalouf 2010-05-19
THE HUMAN EXPERIENCE OF GOD: In this book, which can be considered as one of the most original, daring, and significant contributions to contemporary spirituality in general and to Christian theology, philosophy, and anthropology in particular, Dr. Maalouf’s method is neither to build an abstract or utopian system nor to preach or sermonize. His approach is to question, explore, suggest, and invite the reader—erudite or not, Catholic or not, politically correct or not—to a new level of comprehension and way of seeing things. Whoever, however, and wherever we are, our everyday lives could become the place and time where the sacred and the secular meet. He proposes that our challenge, then, is how to be Christlike and not just “Christian.” Then the true miracle of Christmas can become the miracle of transformed messengers and a transfigured world in which “all things [come] into being through him” (John 1:3).
Change Your World-Jean Maalouf 2013-08-20
A New Creation Our very survival is at stake. We must change. The references and values on which we used to depend are becoming relativized and questionable, and the true sense of integrity, responsibility, and purpose now seems outdated. Instead, we seem to have chosen the path of shortsighted success and gratification, convenient arrangements, and sometimes the one-sided fanaticism and fundamentalism. No wonder we find ourselves in such a deep spiritual crisis that makes all other crises possible, probable, and even certain and extremely dangerous. Change Your World: Awakening to the Power of Truth Beauty Simplicity - Change is an invitation to faithfully recapture the basics, deeply rediscover the very reason for our existence, and carefully reassess our references and values. Truth will make us free. Beauty will save the world. Simplicity will help redefine our priorities. Change will transform us and will transform our world into a new creation (2 Corinthians 5:17). This is a profoundly political book; it describes, in an original and engaging way, how to live and govern from our highest and most sacred consciousness. Therefore, do not expect politics as usual, politically correct, well-calculated, and feeling good spirituality talks. Expect rather as it is articulation, straightforward approaches, and unequivocal descriptions of the new creation values. Our survival depends on our ability to be truly human and in alignment with our most sacred consciousness—the mind of Christ (1 Corinthians 2:16). Isn’t contemplation the highest form of activity, as Aristotle suggested? Masterfully, Dr. Maalouf uncovers the simple truths of a happy, healthy, and meaningful life, and discloses the secret of the fullness of life. A contemplative approach to life is indispensable for grasping and living the essence of what it means to be truly human.
Your New Adventure-Jean Maalouf 2014-06-05
Retirement! What Retirement? This book is not only for those who have already retired or those who are about to retire, but also for those who still are far from a retirement age. Aren’t we all adding more birthdays and growing older? In any case, we don’t need to feel old. In this book, you will find inspirational thoughts on what aging means to all of us -- the young, the middle aged, and those who are in their later years. Since we have one life to live, we should make of the rest of it the most and best of it. Indeed, retirement is not retirement from life, but the beginning of a new life with new opportunities for meaning and significance. Many books have been written on retirement. Some of them focus on understanding Social Security, Medicare benefits, insurance options, and investment portfolios. Some others target the tips for best housing solutions, best travel and vacation bargains, best shopping deals, and the like. This book is
different. Its direct focus is to show how even more important the other aspects of life are -- aspects such as general physical-mental-emotional-spiritual well-being, creative pursuits, social support, deep faith and sense of purpose. It offers enlightening explanations on how to enjoy life to the fullest no matter what our circumstances are, and it provides practical spiritual guidance for the ways of staying alive and blessed all our life. With its insightful reflections, uplifting propositions, warm style, captivating quotations, and engaging personal reflections and practical resolutions, Your New Adventure: Make the Most of the Rest of Your Life invites you to make the most of your retirement and life, and offers you the suggestions that you won’t get from your financial and professional advisors. Such life wisdom will help you create the conditions for a happier retirement and a fuller life than all other material means -- important they might be -- can possibly offer. Aging well is living well all our life so that we are able to say, “How good it was to be here! I truly have lived the fullness of life by being what my Creator meant me to be.”

Where Has God Gone?-Jean Maalouf 2015-06-26 God—“God is dead,” declared Friedrich Nietzsche. Thank God! Who needs that “God” anyway? We now have the other gods we’ve created to fit our deep desires and make us feel that it is WE who are in charge, and not anyone else. We thought that these human-made gods were not only more convenient, more suitable, and much easier to worship, but they also held the key to freedom, security, and happiness. Did they? Who and what are these gods we love to worship? What kind of religious practices will we use in order to please them? Has religion become a sophisticated tool that allows us to hide from the true God? Has religion become a ready commodity we use every time we want to subdue an opponent? Is religion still needed when science and reason are now the “light” of our world? Is religion more than a good “business” after all? Does religion help to bring personal and world peace, or does it provoke violence and wars? Do we really need God to tell us what the truth is? How do we know what is good and what is wrong? In this book, you will find an answer to these questions and to many more. You also find an explanation for why religion, when it is reduced to an abstract concept or to the mere embodiment of human institutions, will not help men and women to achieve their life purpose and reach their highest potential and destiny. Instead, it may even be dangerous. A deformed religion—a religion with a false god or without God at all—could become fanaticism, ideology, Puritanism, abstraction, a weapon to win an argument, humiliate the opponent, and even kill the adversary. A true religion preaches love, not hate. So tell me who you worship, I’ll tell you who you are. This book is, in a sense, a “heretical” book. It is disturbing, bold, radical, and controversial—intentionally controversial. Dr. Maalouf is hoping to shock readers out of apathy, indifference, compromises, and idolatry into the true reality of what being human with a divine destiny is. This is a must-read book for all those who seek God beyond their gods, the whole truth beyond their half-truths, and the depth of a divine connection beyond the “letter” of the law. It is a hard-hitting challenge to false beliefs and a much-needed wake-up call to refocus attention and desire on what is essential and most lasting.

Why Stay Catholic?-Michael Leach 2011-03-15 Why Stay Catholic? is a lively, timely book about the "good stuff" within the Catholic Church today.

Essential Catholic Social Thought-Bernard V. Brady 2008 This book provides a broad view of the basic features of the rich tradition of Catholic reflection and action on social issues. In the words of Brady, "the Catholic social tradition is about action and contemplation. It calls on persons to take responsibility for themselves and for their neighbors. It aims to reach the hearts and the minds of persons. . . . It seeks personal conversion and social transformation." Written in an accessible style and designed for a one-semester course, it presents the principles of Catholic social thought along with their historical development and abridged excerpts from relevant documents. Each chapter includes study/discussion questions and begins and ends with a traditional Catholic prayer.

The World in the Long Twentieth Century-Edward Ross Dickinson 2018-02-06 What can be called the long twentieth century represents the most miraculous and creative era in human history. It was also the most destructive. Over the past 150 years, modern societies across the globe have passed through an extraordinary and completely unprecedented transformation rooted in the technological
developments of the nineteenth century. The World in the Long Twentieth Century lays out a framework for understanding the fundamental factors that have shaped our world on a truly global scale, analyzing the historical trends, causes, and consequences of the key forces at work. Spanning the 1870s to the present, this book explores the making of the modern world as a connected pattern of global developments. Students learn to think about the past two centuries as a process, a series of political and economic upheavals, technological advances, and environmental transformations that have shaped the long twentieth century.

Mormonism in Dialogue with Contemporary Christian Theologies—David Lamont Paulsen 2007

Dastardly Discourse—Meg Gorzycki 2020-03-09 Screaming at the television, compulsively firing off tart little tweets, and blogging until we are blue; these signal that we are feeling the effects of dastardly discourse. We live in a world where people feel entitled to use words to hurt, exploit, and publicly degrade humanity. We daily consume rhetoric that makes a mockery of decency and civility. Leaders of key social institutions, including government, news media, and religious organizations, who are supposed to be role models of reasoned and compassionate communication are often the ones with the loudest lies and the hardest hate. We can change the channel. We can unplug. We can even encourage others to do the same. We may not do so, however, until we grasp what is fundamentally at risk in our current norms of communication. Nasty words are just the tip of the dastardly discourse iceberg. What lies beneath is a steady flow of propaganda that aims to control our personal narratives. This book is about that propaganda, the importance of owning our own narratives, and improving our own rhetorical capital—the ability to analyze and evaluate information—for the sake of sustaining human dignity, decency, and civility.

Religious Myths and Visions of America—Christopher Buck 2009

Essential Writings—frère Roger 2006 The beloved founder of the Taize community, Brother Roger Schutz (1905-2005) dedicated his life to reconciliation among all peoples, particularly among Christians. In recent decades the ecumenical monastery in France has become a pilgrimage site for young people from around the world. Brother Roger's vision for Christian unity, demonstrated through a lifetime that spanned the entire 20th century, continues to inspire and instruct. Book jacket.

Paradise—Donald Mitchell 2020-11-16 “Paradise: Chiara Lubich’s Mystical Journey” is the first book to be published with Chiara’s only two talks about Paradise ’49, along with essays about that mystical journey and its implications for today’s world. This book presents both Chiara’s mystic journey in Paradise and her mystical journey in creation seeing humanity, nature and the Church in the light of Paradise. The latter journey gave Chiara mystical insights about the Church, humanity, and nature as well as God’s will for all three in the future. The mystical genius of Chiara created a lay spirituality that seeks to realize Jesus’s prayers: “Thy will be done on earth as it is in heaven” (Mt. 6:10), and “May they all be one” (Jn. 17:21). Essays by: Chiara Lubich, Peter Casarella, Thomas Norris, David L. Schindler, Piero Coda, Brendan Leahy, Donald W. Mitchell, Hubertus Blaumeiser, Luigino Bruni, Antonio Baggio, Bernard Callebaut, Gérard Rossé, Callan Slipper, Roberto Catalano, Cinto Busquet, Brian K. Gandhi and the Unspeakable-James W. Douglass 2012 In 1948, at the dawn of his country's independence, Mohandas Gandhi, father of the Indian independence movement and a beloved prophet of nonviolence, was assassinated by Hindu nationalists. In riveting detail, author James W. Douglass shows as he previously did with the story of JFK how police and security forces were complicit in the assassination and how in killing one man, they hoped to destroy his vision of peace, nonviolence, and reconciliation. Gandhi had long anticipated and prepared for this fate. In reviewing the little-known story of his early “experiments in truth” in South Africa the laboratory for Gandhi’s philosophy of satyagraha, or truth force Douglass shows how early he confronted and overcame the fear of death. And, as with his account of JFK’s death, he shows why this story matters: what we can learn from Gandhi’s truth in the struggle for peace and reconciliation today.

Thomas Berry-Tucker, Mary Evelyn 2016-01-12 Thomas Berry (1914-2009), was a priest, a 'geologian,' and a historian of religions. He was an early and significant voice awakening religious sensibilities to the environmental crisis. He is particularly well-known for articulating a 'universe story' that explores the world-changing implications of contemporary science. Berry pointed the way to an ecological spirituality attuned to our place in nature and giving rise to an ethic of responsibility and care for the Earth.

The Beatitude of Mercy-Terry A. Veling 2015-03-11 What is the relationship between justice and mercy? This is not merely a speculative question; it goes to the heart of many of our activities as human beings in both our personal and social relationships. How can I live with my fellow human beings in ways that are both just and merciful? The Beatitude of Mercy is a meditative exploration of this question. While it recognizes the importance of social justice--as a mutual indebtedness--it argues that without social mercy, even justice itself cannot save us. Mercy is not a countermeasure or complement to justice; rather, mercy "watches over justice." Mercy does not seek to thwart or deny justice's rightful claims, but to ensure that our practices of justice are never conducted solely according to calculation and measurement, but are also weighed or motivated by mercy and love.

Peace-David Cortright 2008-04-24 Veteran scholar and peace activist David Cortright offers a definitive history of the human striving for peace and an analysis of its religious and intellectual roots. This authoritative, balanced, and highly readable volume traces the rise of peace advocacy and internationalism from their origins in earlier centuries through the mass movements of recent decades: the pacifist campaigns of the 1930s, the Vietnam antiwar movement, and the waves of disarmament activism that peaked in the 1980s. Also explored are the underlying principles of peace - nonviolence, democracy, social justice, and human rights - all placed within a framework of 'realistic pacifism'. Peace brings the story up-to-date by examining opposition to the Iraq War and responses to the so-called 'war on terror'. This is history with a modern twist, set in the context of current debates about 'the responsibility to protect', nuclear proliferation, Darfur, and conflict transformation.

Church, State, and Society-J. Brian Benestad 2012-08-07 How can the Catholic faith help not only Catholics, but all people, build a just and flourishing society? The Catholic Church contributes first
and foremost to the common good by forming the consciences of the faithful. Faith helps reason achieve an understanding of the common good and guides individuals in living justly and harmoniously. In this book, J. Brian Benestad provides a detailed, accessible introduction to Catholic social doctrine (CSD), the Church’s teachings on the human person, the family, society, political life, charity, justice, and social justice. Church, State, and Society explains the nuanced understanding of human dignity and the common good found in the Catholic intellectual tradition. It makes the case that liberal-arts education is an essential part of the common good because it helps people understand their dignity and all that justice requires. The author shows the influence of ancient and modern political philosophy and examines St. Augustine, St. Thomas Aquinas, papal social encyclicals, Vatican Council II, and postconciliar magisterial teaching. Benestad highlights the teachings of popes John Paul II and Benedict XVI that the attainment of the common good depends on the practice of the virtues by citizens and leaders alike. In addition to discussing the tension between CSD and liberal democracy, the book takes an in-depth look at: -Key themes of social life: the dignity of the human person, human rights, natural law, and the common good -Three principal mediating institutions of civil society: family, Church, and Catholic university -The economy, work, poverty, immigration, and the environment -The international community and just war principles “Excellent . . . The best treatment of Catholic Social Doctrine as a whole and a precious reminder of the intrinsically problematic character of modern democracy.” —Perspectives on Political Science The Essential Agus-Jacob Bernard Agus 1997-03 Rabbi Jacob Agus’ (1911-1986) intellectual production spanned nearly a half century and covered an enormous historical and conceptual range, from the biblical to the modern era. Best known as an important Jewish scholar, he also held important rabbinic, teaching, and public positions. Although born and raised within an orthodox setting, Agus was strongly influenced by American liberalism and his work displayed modernizing sympathies, reservations about nationalism—including some forms of Zionism—and often severe criticisms of kabbalah. Agus crafted a unique, quite American, modernizing vision that ardently sought to remain in touch with the wellsprings of the rabbinic tradition while remaining open to the intellectual and moral currents of his own time. The Essential Agus brings together a sampling of Agus’ most important published and unpublished material in one easily accessible volume. It will be an invaluable resource for students and researchers seeking to experience Agus’ intellectual legacy. Preventing Unjust War-Roger Bergman 2020-12-15 Catholic pacifists blame the just war tradition of their Church. That tradition, they say, can be invoked to justify any war, and so it must be jettisoned. This book argues that the problem is not the just war tradition but the unjust war tradition. Ambitious rulers start wars that cannot be justified, and yet warriors continue to fight them. The problem is the belief that warriors do not hold any responsibility for judging the justice of the wars they are ordered to fight. However unjust, a command renders any war “just” for the obedient warrior. This book argues that selective conscientious objection, the right and duty to refuse to fight unjust wars, is the solution. Strengthening the just war tradition depends on a heightened role for the personal conscience of the warrior. That in turn depends on a heightened role for the Church in forming and supporting consciences and judging the justice of particular wars. As Saint Augustine wrote, “The wise man will wage just wars. . . . For, unless the wars were just, he would not have to wage them, and in such circumstances he would not be involved in war at all.” Celebrating the Saints-Robert Atwell 2004-01-01 This enlarged and expanded edition of Celebrating the Saints offers a rich collection of daily spiritual readings for the Feasts and Festival of the Church year - according to the calendars of the Church of England, the Church of Ireland, the Scottish Episcopal Church and the Church in Wales. Gandhi's Experiments with Truth-Richard L. Johnson 2006 This comprehensive Gandhi reader provides an essential new reference for scholars and students of his life and thought. It is the only text available that presents Gandhi’s own writings, including excerpts from three of his books-An Autobiography: The Story of My Experiments with Truth, Satyagraha in South Africa, Hind Swaraj (Indian Home Rule)-a major pamphlet, Constructive Programme: Its Meaning and Place, and many journal articles and letters along with a biographical sketch of his life in historical context and
recent essays by highly regarded scholars. The writers of these essays—hailing from the United States, Canada, Great Britain and India, with academic credentials in several different disciplines—examine his nonviolent campaigns, his development of programs to unify India, and his impact on the world in the second half of the twentieth century and the beginning of the twenty-first. Gandhi's Experiments with Truth provides an unparalleled range of scholarly material and perspectives on this enduring philosopher, peace activist, and spiritual guide.

Acts of Conscience—Joseph Kip Kosek 2011 In response to the massive bloodshed that defined the twentieth century, American religious radicals developed a modern form of nonviolent protest, one that combined Christian principles with new uses of mass media. Greatly influenced by the ideas of Mohandas Gandhi, these "acts of conscience" included sit-ins, boycotts, labor strikes, and conscientious objection to war. Beginning with World War I and ending with the ascendance of Martin Luther King Jr., Joseph Kip Kosek traces the impact of A. J. Muste, Richard Gregg, and other radical Christian pacifists on American democratic theory and practice. These dissenters found little hope in the secular ideologies of Wilsonian Progressivism, revolutionary Marxism, and Cold War liberalism, all of which embraced organized killing at one time or another. The example of Jesus, they believed, demonstrated the immorality and futility of such violence under any circumstance and for any cause. Tracing the rise of militant nonviolence across a century of industrial conflict, imperialism, racial terror, and international warfare, Kosek recovers radical Christians' remarkable stance against the use of deadly force, even during World War II and other seemingly just causes. His research sheds new light on an interracial and transnational movement that posed a fundamental, and still relevant, challenge to America's political and religious mainstream.
