Practical Taxidermy: A Manual Of Instruction To The Amateur In Collecting Preserving And Setting Up Natural History Specimens Of All Kinds To Which Is Added A Chapter Upon The Pictorial Arrangement Of Museums

Practical Taxidermy-Montagu Browne 1884
Practical Taxidermy - A Manual of Instruction to the Amateur in Collecting, Preserving, and Setting up Natural History Specimens of All Kinds. To Which is Added a Chapter Upon the Pictorial Arrangement of Museums-Montagu Browne 2015-07-31 Practical Taxidermy - A Manual of Instruction In Collecting, Preserving, And Setting up Natural History Specimens of All Kinds, With Additional Instructions In Modelling And Artistic Taxidermy. By Montague Browne, F.S.Z. This comprehensive manual on early taxidermy was published in London in 1884, and is much sought after by modern taxidermists for its wealth of detail and historical content. The author was curator of the Town Museum, Leicester, and considered to be one of England's foremost taxidermists. He intended this book... "to be an introduction to a delightful art, which must be wooed with patient determination and loving pains until technical skill invests it with beauty." Read Country Books has now re-published "Practical Taxidermy" in its entirety, using the original text, woodcuts and engravings. Its 368 pages are divided into sixteen detailed chapters:- The Rise and Progress of Taxidermy. - Decoying and Trapping Animals. - Necessary Tools. - Preservative Soaps, Powders, etc. - Skinning and Preserving Birds. - Skinning and Preserving Mammals. - Modelling of Animals by Substitution of Clay, Composition, Plaster Casts, or Wax for Loose Stuffing. - Skinning, Preserving, and Mounting Fish. - Skinning, Preserving and Mounting Reptiles. - Dressing and Softening Skins or Fur as Leather. - Relaxing and Cleaning Skins - "Making-Up" from Pieces. - Colouring Bills and Feet of Birds, Bare Skin of Mammals, Fishes, etc. - Making Skeletons of Animals. - Egg Collecting and Preserving. - Cases, Mounts, Shields, Cabinets, Rockwork, Ferns, Grasses, Sea-Weeds etc, for "Fitting-Up." - Artistic Mounting, Modelled Foliage Screens, Lamps, Natural History Jewellery, etc. - Collecting and Preserving Insects. - The Pictorial Arrangement of Museums. Etc. This previously rare book will prove to be a valuable addition to the library of all dedicated taxidermists. Many of the earliest sporting books, particularly those dating back to the 1800s, are now extremely scarce and very expensive. Read Country Books are reprinting these classic works in affordable, high quality, modern editions. These editions are republished using the original text and artwork.

Natural History Dioramas – Traditional Exhibits for Current Educational Themes-Annette Scheersoi 2018-11-14 This book presents the history of natural history dioramas in museums, their building and science learning aspects, as well as current developments and their place in the visitor experience. From the early 1900s, with the passage of time and changes in cultural norms in societies, this genre of exhibits evolved in response to the changes in entertainment, expectations and expressed needs of museum visitors. The challenge has always been to provide meaningful, relevant experiences to visitors, and this is still the aim today. Dioramas are also increasingly valued as learning tools. Contributions in this book specifically focus on their educational potential. In practice, dioramas are used by a wide range of educational practitioners to assist learners in developing and...
understanding specific concepts, such as climate change, evolution or conservation issues. In this learning process, dioramas not only contribute to scientific understanding and cultural awareness, but also reconnect wide audiences to the natural world and thereby contribute to the well-being of societies. In the simultaneously published book: “Natural History Dioramas – Traditional Exhibits for Current Educational Themes, Socio-cultural Aspects” the editors focus on socio-cultural issues and the potential of using dioramas to engage various audiences with – and in – contemporary debates and big issues, which society and the natural environment are facing.
