Soul Psychology-Joshua David Stone 1995-08-01 There are tens of thousands of self-help books on psychology and human relationships; however, there are very few that integrate the topics of the soul and spirit into the picture. Most books on this subject focus on personality-level self-actualization. The new wave in the field of psychology is transpersonal or soul psychology, which will lead to monadic psychology for the more advanced students of the path. The entire understanding of psychology is completely changed when the soul is properly
integrated. It has been said that personality-level self-actualization brings happiness, soul-level self-actualization brings joy, and monadic- and spiritual-level self-actualization bring bliss.

The Divine Life- 1994
Nectar #28-Babaji Bob Kindler 2013-01-13 With the incomparable blessing of the principle of Universality as our underlying foundation and confirmed philosophical perspective, Nectar of Non-Dual Truth and its staff launches into its twenty-
eighth issue, every one of them dedicated to the truth of Nonduality, or Advaita, as it appears in all of the religious traditions of the world. Like previous offerings, this issue of our one-of-a-kind religious magazine has a rich store of wisdom teachings contained within it. One only has to turn to any of its many pages to find a glowing testament to the Truth and its veracious expression through so many illumined vehicles. In this regard we humbly offer our gratitude to the enterprising writers, authors, teachers, and practitioners who generously contributed both time and wisdom towards this positive outcome. Though this work of religious and philosophical egalitarianism may not reflect it outwardly, it is quite a task to find even a small host of open-minded individuals to share essential parts of their respective traditions in a congenial manner in this day and age. That it has been accomplished, and will continue to be, is valid and substantial proof that the spirit of Universality is alive and well in the world. Both care and effort must be taken in the future to ensure that it will never die out.
