Song Bank-Dapo Olanipekun 2020-08-19

Song Bank is a compilation of 100 popular English gospel praise and worship songs, with 5 evergreen Christmas songs, scored in the order of lyrics, melody and progression. Song Bank contains 50 popular progressions ranging from jazz to blues, pop, funk, salsa, flamenco and many other well known music styles. Song Bank also contains 'Dapo's Chord and Melody Hand Signs' which refers to 48 different chord and melody hand signs for the triads of the basic major, minor, diminished and augmented chords each of the 12 degrees of the Chromatic Scale (based on 12ToneEqualTemperament). Song Bank will go a long way in building the relative pitch of beginner musicians, even children, within a very short time based on the Moveable-Doh Solmization method adopted for scoring the songs. Every beginner musician will find the methodology behind scoring songs in Song Bank very appealing, in that they need not go through the music 'coding' of time signature, key signature, clefs, ledger lines, etc that are required to sightread music before
then playing the song. After a short while of the user's dedication to practicing the songs and progressions contained in Song Bank, their relative pitch would have developed to a point where they can play any song by ear, including songs they had never heard for the first time on the spot. Black Gospel Chords-Gregory Moody 2010-07-30 "Creative Music has developed a revolutionary method enabling keyboard musicians to quickly harmonize a line of notes with infinite chord changes. Imagine being able to play a different chord on every melody note! The system is such that no two musicians will come up with the same resulting harmonization."--P. [4] of cover.

Black Gospel Piano and Keyboard Chords : Voicings of Praise and Worship-Gregory Moody
2010-12-11 This is one of the add-on voicing reference volumes for the "Adventures in Harmony
Music Course". There is no instruction in this volume. The main instruction volume for this series is:
1453684093. This volume contains voicings for their patent pending melody harmonization system.
These are the voicing for the melody notes corresponding to the tones I through Major VII. The
voicings in this reference are beautiful two handed voicings that have that black gospel praise and

worship feel. This reference volume is an add-on to the main voicing reference ISBN: 1453703551 and ISBN: 1453703535. The voicings in this reference are used in the patent pending system and technique created by Creative Music. Creative Music has developed a revolutionary method enabling keyboard musicians to quickly harmonize a line of notes with infinite chord changes. Imagine being able to play a different chord on every melody note! The system is such that no two musicians will come up with the same resulting harmonization. With this course you will be creating harmonies and progressions to go with music of your choice. There are no songs or progressions to memorize in this course. This is because you are going to be creating your own progressions and harmonies to go with the songs that you choose. This is a step-by-step that you can apply to any piece of music

Gregory Moody Creative Music's founder is an accomplished musician and software engineer, who comes from a family lineage of musicians, i.e., his world famous cousin NEA jazz master and recording artist, James Moody. Music education has not changed in the last century, and Creative Music is on the forefront of turning that around. We are re-inventing how music has been taught for the last century. Our instructional method goes against the grain of all past music education teaching methodologies. This voicing reference is an add-on to the main course and contains new voicings.

Cool Chords for Church-Jim Hammerly 2002-11-01 In all too many churches, the pianist is locked into a rotation of favorite hymns or praise and worship songs. Playing them repeatedly is monotonous for both the player and the congregation! This book was created to give church pianists options, and let them add color and freshness to familiar melodies. Includes: 12 traditional harmonizations of familiar melodies (seasonal and non-seasonal); 12 new arrangements of the same songs featuring altered chords (mostly "jazz" harmonies); and a Cool Chords section featuring 3 chords from each arrangement.

The Cellgroup Guitarist - Intermediate Course-James Lee 2014-07-03 This is the course material for the CHC Intermediate Guitar Course.

Playing the Piano for the Rest of Us...-Victor Aramanda 2015-11-01 For Beginners. No Reading Sheet Music Required! "Playing the Piano for the rest of us" is a course created for people who want to play the piano without having to commit to years of study and practice before being able to play songs they really want to. Finally a piano course for people who want to play with other musicians without having to learn to read sheet music, to enjoy themselves or be included in groups, like church groups or bands, or just friends and family. Most of the piano instruction I have seen falls into two categories... it's too hard, so you quit, or, it doesn't teach enough foundational skills and knowledge so the only thing learned is how to play songs that the course taught. I like the saying, "Give a man a fish, feed him for a day. Teach him to fish, feed him for a lifetime." This course hopes to be part of the latter, for people who want to play and enjoy the piano or keyboard. Many existing courses teach too much at once like classical piano finger-skills, music theory and how to read sheet music. Students often get lost and discouraged somewhere between reading sheet music and having too hard of a time getting their hands to work together, others teach a set of playing skills that allow the student to play a limited amount of songs or music, but no freedom to find and play what the student really wanted to in the first place. Classical training is fantastic, but can often times be overkill for people who want to accompany others or want to play and / or sing using chord music. Ultimately the student gets rolled over from too much and too hard of a learning curve, like a wave.
that came crashing down on their hopes and dreams. Some training methods don't provide enough foundation to enable the student to continue growing themselves, at their own pace, as they desire after they've completed the course. This course hopes to open the door for people to play the piano and then release them to grow-on! Learning to read chord music is the difference between a person having to "learn, read and interpret an extremely complicated map with a key of over 20 symbols," compared to having to read a simple map of "start point, landmark, end point."

Now Faith Music-Min. Jermayne Wilks 2019-10-24 Music, in short, is a series of patterns. Being able to identify those patterns makes it easier and faster to learn songs. Learning songs is not the only part of being a musician. Applying your music ability to the church service beyond music is key. Knowing the difference between practice and rehearsal, modulate and invert, and being able to identify and translate different genres allows you assist in getting the Word of God out. Music is secondary only to the Word of God in the church service, which, in turn, makes the musician a very important part of the worship service. This book equips all levels of musicians, from beginners to seasoned vets.
