merely said, the runes and their secrets studies in runology is universally compatible with any devices to read.
Symons argues that all of these runic works are in various ways thematically focused on acts of writing, visual communication, and the nature of the written word. The conclusion that emerges over the course of the book is that, when encountered in the context of Anglo-Saxon manuscripts, runic letters consistently represent the written word in a way that Roman letters do not. These runic works are in various ways thematically focused on acts of writing, visual communication, and the nature of the written word. The conclusion that emerges over the course of the book is that, when encountered in the context of Anglo-Saxon manuscripts, runic letters consistently represent the written word in a way that Roman letters do not.
