The Utopian Novel in America, 1886-1896 Jean Pfeifer 1852-09-17 The novel traces the development of utopianism in American literature from the mid-nineteenth century to the early years of the twentieth century. It examines the works of such authors as John Humphrey Noyes, Edward Bellamy, and John Dewey, and explores the ideas of social reformers such as Henry David Thoreau and Ralph Waldo Emerson.

Seven American Utopias Architecture Of Communitarian Socialism 1790 1975

Seven American utopias are presented as a comprehensive survey of the development of American utopian thought from the late eighteenth century to the present. The authors explore the themes of community, socialism, and idealism, and offer a rich and nuanced understanding of the ways in which these ideas have shaped American culture and society.

The New Urbanism

The New Urbanism is a movement that seeks to create more sustainable and livable cities by revisiting and adapting the principles of traditional urban design. The movement is based on the belief that cities should be designed to meet the needs of people, rather than the needs of cars. The New Urbanist movement has influenced a wide range of professionals, including architects, urban planners, and landscape architects.

The Utopian Project

The Utopian Project is a collection of essays that explores the history and practice of utopian thinking.
