1999 Nicholas Nixon The Brown Sisters presents a photographic project as compelling in effect as it is simple in conception: four women, 25 years. Each year since 1975 photographer Nicholas Nixon has made a group portrait of his wife and her three sisters facing the camera in the same order: Heather, Mimi, Bebe, and Laurie. The series now measures a quarter century in the lives of the sisters, who in 1975 ranged in age from 15 to 25; each picture is dense with allusions to the year of experience that separates it from the one before.

2022-10-11 Gabriel García Márquez One of the twentieth century’s enduring works, One Hundred Years of Solitude is a widely beloved and acclaimed novel known throughout the world and the ultimate achievement in a Nobel Prize-winning career. The novel tells the story of the rise and fall of the mythical town of Macondo through the history of the Buendía family. Rich and brilliant, it is a chronicle of life, death, and the tragicomedy of humankind. In the beautiful, ridiculous, and tawdry story of the Buendía family, one sees all of humanity, just as in the history, myths, growth, and decay of Macondo, one sees all of Latin America. Love and lust, war and revolution, riches and poverty, youth and senility, the variety of life, the endlessness of death, the search for peace and truth—these universal themes dominate the

novel. Alternately reverential and comical, One Hundred Years of Solitude weaves the political, personal, and spiritual to bring a new consciousness to storytelling. Translated into dozens of languages, this stunning work is no less than an account of the history of the human race.

1989 Jeff Brown Stanley Lambchop is just a normal healthy boy, but since a large notice-board fell on him, he's been only half an inch thick. For Stanley this presents no problems. In fact, it makes life more exciting.

Distraught that they never made peace, Katie leaves her orderly, sheltered life in London behind and embarks on a journey to find out the truth. With only the entries of Mia’s travel journal as her guide, Katie retraces the last few months of her sister’s life, and—page by page, country by country—begins to uncover the mystery surrounding her death. . . . 2021-11-30 Brené Brown In her latest book, five-time #1 New York Times bestselling author Dr Brené Brown, writes, "If we want to find the way back to ourselves and each other, we need language and the grounded confidence to both tell our stories, and to be stewards of the stories that we hear. This is the framework for meaningful connection." In Atlas of the Heart, Brown takes us on a journey through 87 of the emotions and experiences that define what it means to be human. As she maps the necessary skills and lays out an actionable framework for meaningful connection, she gives us the language and tools to access a universe of new choices and second chances - a universe where we can share and steward the stories of our bravest and most heart-breaking moments with one another in a way that builds connection. Over the past two decades, Brown's extensive research into the experiences that make us who we are has shaped the cultural conversation and helped define what it means to be courageous with our lives. Atlas of the Heart draws on this research, as well as Brown's singular skills as a researcher/storyteller, to lay out an invaluable, research-based framework that shows us that naming an experience doesn't give the experience more power, it gives us the power of understanding, meaning and choice. Brown shares, "I want this to be an atlas for all of us, because I believe that, with an adventurous heart and the right maps, we can travel anywhere and never fear losing ourselves. Even when we have no idea where we are."

2013 Nicholas Nixon Nicholas Nixon is known for the ease and intimacy of his large format photography. He has photographed porch life in the rural South, the changing Boston cityscape, sick and dying people, the intimacy of couples, and an ongoing annual portrait of his wife Bebe and her three sisters, beginning in 1975. Included in the seminal 1975 exhibition "New Topographics", Nixon is major figure in American photography of the latter half of the twentieth century. In Close Far, Nixon presents a dichotomous group of photos made with his signature large-format view camera, in this case one with an 11x14 inch negative. The first half of the book contains self-portraits, comprising in Nixon's words "sketches of an old man". Filled with anxiety, longing and contentedness, these images chronicle the shapes, slopes and pores of Nixon's face. The second half of the book shows views of buildings in the densest part of Boston. Made from high within the buildings and with the same camera, these images without horizons do not gaze down upon but rather "through" the city. With the lens in the same orientation as his self-portrait photos, Nixon's results are remarkable for their richness of detail and complexity of form.

2001-02-21 James Fox The author of the bestseller White Mischief tells the story of the beautiful Langhorne sisters, who lived at the Pinnacle of high and powerful society from the end of the Civil War through the Second World War. Making their way across two continents, they left in their wakes rich husbands, fame, adoration, and scandal. Lizzie, Irene, Nancy, Phyllis, and Nora were born in Virginia to a family impoverished by the Civil War. Their father remade his fortune by collaborating with the Yankees and building rail-roads; the sisters became southern belles and northern debutantes. James Fox draws on unpublished correspondence between the sisters and their husbands, lovers, children, and the powerful and glamorous of their day to construct a plural topography with the scope of a grand novel and the pace of a historical thriller. At its center is the most famous sister, Nancy, who married Waldorf Astor, one of the richest men in the world. Heroic, hilarious, magnetically charming, and a bully, Lady Astor became Britain's first female MP, championing women's rights and the poor. The beautiful Irene married Charles Dana Gibson and was the model for the Gibson Girl. The author's grandmother, Phyllis, married a famous economist, one of the architects of modern Europe. Fox has written an absorbing and spirited, intimate and sweeping account of extraordinary women at the highest reaches of society,

their adventures set against the background of a tumultuous century.

2014-10-15 Nicholas Nixon In August of 1974, the photographer Nicholas Nixon made a group portrait of his wife, Bebe, and her three sisters, Heather, Mimi and Laurie the Brown sisters. He did not keep that image, but in 1975 he made another portrait of the four, who then ranged in age from 15 to 25. Working with an 8x10-inch view camera, whose large negatives capture a wealth of detail and a luscious continuity of tone, Nixon did the same in 1976, and this second successful photograph prompted him to suggest to the sisters that they assemble for a portrait every year. The women agreed, and have gathered for an annual portrait ever since. Nicholas Nixon: 40 Years of The Brown Sisters celebrates the fortieth anniversary of the series in 2014, featuring luminous tri-tone reproductions of all forty portraits, and a new afterword by curator Sarah Hermanson Meister, which examines the series public exhibitions, critical reception, and cult following. Like the previous editions of the series, published by The Museum of Modern Art in 1999 and 2008 for the twenty-fifth and thirtythird anniversaries of the series, and both out of print, Nicholas Nixon: 40 Years of The Brown Sisters is an important chapter in an ongoing project that we hope will continue for many years more.
