The Bear, the Bull, and the Child of Light-Mary Settegast 2019-02-27 The tumultuous changes that took place around the Mediterranean in 6300 BC are seen here through the eyes of a boy who was born into a family of hunter-foragers in northern Turkey. While still young, Tullirane is taken from his family and forced to live as a slave among the obsidian masters of Çatalhöyük (Bhelsakros in our story), a "town" of some 8,000 people that has only become more baffling as archaeological technologies have become more precise. As Tuli moves from one world into another—from the open wilderness that sheltered the foragers into the closed, white-plastered chambers that sheltered the townsfolk of Çatalhöyük—he becomes acutely aware of the differences in how the people in each of these two worlds live and die, and what they hold dear. Mary Settegast has written several non-fiction books about archaeology and cultural change, but this is her first novel. It is intended not only for young adults but for all ages who are interested in Old World prehistory and the ultimate triumph of agriculture over hunting and gathering.

The First Bull Bear-Pm Creations 2019-11-26 Now, Trump was all charm as he shook hands with Xi. USA wanted to make a deal. It wasn't so easy after all. And China was desperate. It was no longer the tiger. That title was silently being taken by another Asian tiger on the prowl... India. China's growth was a slack, its financial districts ridden with piles of debts, and its predatory fiscal policies and subtly forced technology acquisitions were called out openly. Trump was as savvy a deal maker as any in the history of the world. He took a position of strength and worked till the enemy went down under its own weakness. You had to hand it to him. If not anything Trump was brutally outspoken and at times mortally realistic. You might say Luci's life was made the day Pig Bull spoke to him. If not for another bull - the bull in the China shop. It so happened that one day Luci went long on margins. He had mastered the basics and that gave him the confidence to leverage. Especially on the juicy dips that had support near the DMA - daily moving average. He built a big positional and trading call. After all he needed quick money. But then there was the orange tweet on the trade war. At the end of 2 days, his broker had to square off Luci's positions since he fell short on his margins. Luci checked his account and didn't cry. Big men don't cry. They hit the pub. "China and USA are as far apart as the North to the South Pole - in thought, policy, culture, and worldview. A sensible complete trade deal was always a pipe dream. It was the crashin' stock-market that made them do a deal..any sort of a deal;but no..never a comprehensive one." The First Bull Bear commented in the Pig Bull Online Show on 23 May 2022.
