

The Bureaucratic Entrepreneur How To Be Effective In Any Unruly Organization

The Bureaucratic Entrepreneur-Richard N. Haass 1999-05-01 How do you figure out what to do in a job? How do you get it done? How should you deal with demanding bosses? How can you get the most out of subordinates? What should you do to get along with difficult colleagues and handle powerful interest groups and the media? Just how can you succeed in a world where persuasion rather than direct command is the rule? Using a compass as his operating metaphor--your boss is north of you, your staff is south, colleagues are east and so on--Richard Haass provides clear, practical guidelines for setting goals and translating goals into results. The result is a lively, useful book for the tens of millions of Americans working in complex and unruly organizations of every sort and for students of both public administration and business. The Bureaucratic Entrepreneur is a new and updated edition of Haass's 1994 book, The Power to Persuade.

Beat The System-Robert W. MacDonald 2008-01-18 Smart guidelines for building flexible, innovative companies Beat the System is a follow-up to Robert MacDonald's controversial but successful first book, Cheat to Win. Packed with proven, real-life advice, Beat the System shows readers how to deal with the bureaucracy that can smother the creativity and entrepreneurship essential to long-range business success. Beat the System teaches readers how to beat the bureaucratic system by building entrepreneurial cultures in their businesses, their departments, or even their individual jobs. MacDonald skillfully describes how business cultures develop, how bureaucratic procedures and processes seep into them, and how to build an entrepreneurial culture even as we live in a bureaucratic world. At the heart of his system are practical steps that create a sense of ownership among employees, invites their participation, creates a common mission, fosters an entrepreneurial atmosphere, and shares the rewards with all. Robert W. MacDonald (Wayzata, MN) is a true visionary in the financial services industry who rose from a door-to-door insurance salesman to the CEO of Allianz Life of North America. He was also the founder, CEO, and chairman of LifeUSA.

Bureaucratic Entrepreneurship: a Comparative Study of Change in Public Bureaucracies-Lawrence Kay Munns 1970

The Entrepreneurial State-Mariana Mazzucato 2018-03-22 From one of the world's leading economists, a bestselling expose of the state's crucial role in sparking innovation and growth-and the dangers of ignoring this truth Conventional wisdom holds that innovation is the preserve of the private sector, best left in the hands of that modern day folk hero-the lone entrepreneur. In this popular tale, the role of the public sector is simply to get out of the way, at best fixing market failures, in order to facilitate our daring hero's bold, risk-taking endeavours. But what if this powerful, contemporary myth is wrong? In this sharp and controversial expose, Mariana Mazzucato comprehensively debunks the myth of a lumbering, bureaucratic state weighing down a dynamic private sector, to reveal how public investments have been behind many of the greatest innovations of our time. From the technologies that make the iPhone 'smart', to biotech, pharmaceuticals and today's emerging green technologies, it is the state that has been the investor of first resort, our boldest and most valuable innovator. Meanwhile, the private sector only finds the courage to invest after the entrepreneurial state has made the truly pioneering, high-risk investments. This false narrative has real world consequences - a select few get credit for what is an intensely collective effort, privatising rewards reaped from socialized risks. Mazzucato makes a powerful case that a failure to understand the state's entrepreneurial role is leading us down the wrong path-towards a future of stagnant growth and increased inequality. As we face the new challenges of the twenty-first century, Mazzucato argues that we need to reinvent the entrepreneurial state, to co-create the opportunities of the future -- and the kinds of public-private deals that will allow smart, innovation-led growth to also be more inclusive growth.

Public Entrepreneurs-Mark Schneider 2011-07-01 Seizing opportunities, inventing new products, transforming markets--entrepreneurs are an important and well-documented part of the private sector landscape. Do they have counterparts in the public sphere? The authors argue that they do, and test their argument by focusing on agents of dynamic political change in suburbs across the United States, where much of the entrepreneurial activity in American politics occurs. The public entrepreneurs they identify are most often mayors, city managers, or individual citizens. These entrepreneurs develop innovative ideas and implement new service and tax arrangements where existing administrative practices and budgetary allocations prove inadequate to meet a range of problems, from economic development to the racial transition of neighborhoods. How do public entrepreneurs emerge? How much does the future of urban development depend on them? This book answers these questions, using data from over 1,000 local governments. The emergence of public entrepreneurs depends on a set of familiar cost-benefit calculations. Like private sector risk-takers, public entrepreneurs exploit opportunities emerging from imperfect markets for public goods, from collective-action problems that impede private solutions, and from situations where information is costly and the supply of services is uneven. The authors augment their quantitative analysis with ten case studies and show that bottom-up change driven by politicians, public managers, and other local agents obeys regular and predictable rules.

Public Entrepreneurship-Nancy Charlotte Roberts 1989 Public entrepreneurship is the process of introducing innovation, the generation and implementation of new ideas, in the public sector. Building on this definition and drawing from a logical tree, four types of public sector entrepreneurs are identified: policy entrepreneurs, bureaucratic entrepreneurs, executive entrepreneurs; and political entrepreneurs. Policy Entrepreneurs, outside the formal positions of government, introduce and facilitate the implementation of new ideas into the public sector. Bureaucratic Entrepreneurs occupy non-leadership positions in government and introduce and implement new ideas from their particular vantage point in public organizations. Executive Entrepreneurs from their leadership positions in governmental agencies and departments, generate and implement new ideas; and finally, Political Entrepreneur introduce and implement new ideas as holders of elective office. (KR).

Innovation and Social Process-Louis G. Tornatzky 2013-10-22 Innovation and Social Process: A National Experiment in Implementing Social Technology discusses concerns, design, and methodologies of an experiment that deals with society's perception of innovation. Comprised of 11 chapters, the book first provides an overview of innovation, change, and problems of implementation; social process; and social innovation. The third chapter covers the methods of designing an experiment in organizational innovation, while the fourth chapter tackles participative decision making and innovation, and the fifth chapter tackles organization development and the implementation of an innovation. Chapter 6 deals with indigenous introduction and innovation; Chapter 7 on the other hand discusses promoting innovation communication through print. Chapter 8 talks about a case study of bureaucratic entrepreneurship, while Chapter 9 tackles site visits and innovation processes. The tenth chapter discusses perils of change agent training, and the last chapter provides an overview of the previous chapters. The book will be of great interest to researchers in the fields of psychology and sociology, since it provides a behavioral overview of society's reaction to innovation.

The Entrepreneur Mentality-Arven Sobrevega 2015-05-08 Among the hardest transitions for individuals is to move from the employee to the entrepreneur mentality. The idea of getting on your own, getting your own business is fantastic. It's the desire of a lot of individuals to leave their jobs and get to be successful business owners. This is the #1 Book on entrepreneur, successful entrepreneurs, bureaucratic entrepreneur, entrepreneur ideas, social entrepreneur, entrepreneurship, how to be an entrepreneur. On sale for \$9.99, Normally \$24.99.

Bureaucratic Entrepreneurs-Lance L. P. Gore 1997

The Bureaucratic Phenomenon-Wesley Mitchell 2017-07-28 In The Bureaucratic Phenomenon Michel Crozier demonstrates that bureaucratic institutions need to be understood in terms of the cultural context in which they operate. The originality of the study lies in its association of two widely different approaches: the theory of decision-making in large organizations and the cultural analysis of social patterns of action.The book opens with a detailed examination of two forms of French public service. These studies show that professional training and distortions alone cannot explain the rise of routine behavior and dysfunctional vicious circles. The role of various bureaucratic systems appears to depend on the pattern of power relationships between groups and individuals. Crozier's findings lead him to the view that bureaucratic structures form a necessary protection against the risks inherent in collective action.Since systems of protection are built around basic cultural traits, the author presents a French bureaucratic model based on centralization, strata isolation, and individual sparkle-one that that can be contrasted with an American, Russian, or Japanese model. He points out how the same patterns can be found in several areas of French life: education, industrial relations, politics, business, and the colonial policy. Bureaucracy, Crozier concludes, is not a modern disease resulting from organizational progress but rather a bulwark against development. The breakdown of the traditional bureaucratic system in modern France offers hope for new and fruitful forms of action.

Local Government Management: Current Issues and Best Practices-Douglas J. Watson 2016-04-15 Some of the very best writings on issues involving local government can be found in journals published by the American Society for Public Administration or journals with which ASPA is associated. This volume includes thirty of the most outstanding articles that have been published over the past sixty years in these journals. Local Government Management is an ideal supplement for any course in local management and administration, whether the audience is students or practicing professionals.

Leading Libraries: How to Create a Service Culture-Wyoma vanDuinkerken 2015-04 Quality leadership is integral to the very future of our profession. And it doesn't only come from the top down. Effective leadership is customer-focused and collaborative, fostering a service culture that invites the involvement of individuals in every part and at every level of the organization, as the authors persuasively demonstrate in this practical new book. Drawing from case studies as well as the literature of business and social sciences, the authors provide guidance on how to apply the values of service leadership to both public and academic libraries. Through the use of examples, exercises, and tools for development, this book walks readers through the steps needed to create a sustainable, service-oriented model by Explaining how a service culture reaches beyond the individual leader with positional authority and extends to all individualsShowing ways to build rapport and trust within an organization, and how to balance encouragement with accountabilityDetailing strategic thinking and planning methods that will lead to improvements in customer service, human resources, organizational development, and trainingHelping library leaders create a sustainable service culture through codifying their organization's values, with advice on policies and procedures such as recruitment, performance evaluation, compensation, and succession planningDiscussing the environment of change in libraries, showing how a library's organizational culture is at the center of being responsive and staying relevantThis valuable resource gathers the principles and best practices of leadership, and points the way towards creating a service culture that makes every staff member a library leader.

Congress vs. the Bureaucracy-Mordecai Lee 2011-12-07 Government bureaucracy is something Americans have long loved to hate. Yet despite this general antipathy, some federal agencies have been wildly successful in cultivating the people's favor. Take, for instance, the U.S. Forest Service and its still-popular Smokey Bear campaign. The agency early on gained a foothold in the public's esteem when President Theodore Roosevelt championed its conservation policies and Forest Service press releases led to favorable coverage and further goodwill. Congress has rarely approved of such bureaucratic independence. In Congress vs. the Bureaucracy, political scientist Mordecai Lee—who has served as a legislative assistant on Capitol Hill and as a state senator—explores a century of congressional efforts to prevent government agencies from gaining support for their initiatives by communicating directly with the public. Through detailed case studies, Lee shows how federal agencies have used increasingly sophisticated publicity techniques to muster support for their activities—while Congress has passed laws to counter those PR efforts. The author first traces congressional resistance to Roosevelt's campaigns to rally popular support for the Panama Canal project, then discusses the Forest Service, the War Department, the Census Bureau, and the Department of Agriculture. Lee's analysis of more recent legislative bans on agency publicity in the George W. Bush administration reveals that political battles over PR persist to this day. Ultimately, despite Congress's attempts to muzzle agency public relations, the bureaucracy usually wins. Opponents of agency PR have traditionally condemned it as propaganda, a sign of a mushrooming, self-serving bureaucracy, and a waste of taxpayer dollars. For government agencies, though, communication with the public is crucial to implementing their missions and surviving. In Congress vs. the Bureaucracy, Lee argues these conflicts are in fact healthy for America. They reflect a struggle for autonomy that shows our government's system of checks and balances to be alive and working well.

The Entrepreneurial Bureaucracy-Ronald G. Corwin 1983

Public Entrepreneurship-Eugene Lewis 1980

Networking for Science & Technology in Local Government- 1978

Handbook of Bureaucracy-Ali Farazmand 2018-12-13 This encyclopedic reference/text provides an analysis of the basic issues and major aspects of bureaucracy, bureaucratic politics and administrative theory, public policy, and public administration in historical and contemporary perspectives. Examining theoretical, philosophical, and empirical interpretations, as well as the intricate position of b

Without Sympathy Or Enthusiasm-Victor A. Thompson 2007-02-18 This classic study brings to bear the findings and principles of political science, sociology, psychology, and economics on various proposals for the solution of ills traditionally associated with governmental administration.

The Power to Persuade-Richard N. Haass 1995-05 The Power to Persuade answers a fundamental question: how can you navigate a world where persuasion, rather than direct command, is the rule? In public sector organizations, and in today's "flattened" corporate hierarchies, traditional management strategies simply do not work. This book shows how to hone the political skills that are so often the key to improved performance - whether the goal is better policy or greater profit. While teaching at Harvard University, Richard Haass realized that no existing book advised people working in political settings how to be more effective. Now he has filled the gap. Using a compass as his operating metaphor - your boss is north of you, your staff is south, colleagues are east, and so on - Haass provides guidelines for managing relationships, setting goals, and translating goals into results. His interviews with Colin Powell, James Baker, Robert Strauss, and dozens of others yield valuable, practical insight. For the tens of millions of Americans

Research Handbook on Street-Level Bureaucracy-Peter Hupe 2019 When the objectives of public policy programmes have been formulated and decided upon, implementation seems just a matter of following instructions. However, it is underway to the realization of those objectives that public policies get their final substance and form. Crucial is what happens in and around the encounter between public officials and individual citizens at the street level of government bureaucracy. This Research Handbook addresses the state of the art while providing a systematic exploration of the theoretical and methodological issues apparent in the study of street-level bureaucracy and how to deal with them.

The Politics and Aesthetics of Entrepreneurship-Daniel Hjorth 2010-01-01 Stylish, bold, fiery, and full of zest, this book could well have been called Embodying Entrepreneurship . . . for perhaps the first time, we have a cultured, scholarly, in-the-flesh treatment of entrepreneurial life. Ranging from striptease to de Sade, the aboriginal to Christo, and the grotesque to the sublime, The Politics and Aesthetics of Entrepreneurship is a tantalizing and critically refreshing work throughout. This one could easily become the bad boy book of entrepreneurial studies, given how strongly it challenges (slaps?) existing entrepreneurship

studies. Daved Barry, Universidade Nova de Lisboa, Portugal Daniel Hjorth and Chris Steyaert make a unique contribution to management education. Their ability to illustrate complex ideas through theatre and visual media is outstanding and much appreciated by a wide audience. This book is no exception. Their insights into the nature of entrepreneurship are fresh and original. Their style of presentation is both rich and rewarding. This is a book to surprise you and it will. Heather Höpfl, University of Essex, UK . . . the four books comprising the series would certainly be a valuable addition to any entrepreneurship library. However, each book also stands alone as an individual purchase. Lorraine Warren, International Journal of Entrepreneurial Behaviour and Research This fourth book in the New Movements in Entrepreneurship series focuses on the politics and aesthetics of entrepreneurial processes, in order to shed light on entrepreneurial creation itself. Presenting original empirical material, the eminent contributors examine control and entrepreneurship in various organizational contexts. They go on to demonstrate how control can be exercised entrepreneurially, how art brings an entrepreneurial force into society, and how entrepreneurship operates by aesthetic moves. The need to move beyond the traditional focus on the economic and business implications of entrepreneurship is also discussed, as is the relevance of political and aesthetic theory to our understanding of entrepreneurship as a creative force. The book provides entrepreneurship studies with a new language, that in itself is an aesthetic effort with political implications, resulting in new theoretical, empirical and practical possibilities. It will prove a fascinating read for students, academics and researchers with an interest in entrepreneurship and management and creativity and aesthetics.

Tilting at the Windmills of Transition-Michael Schlattau 2020-10-01 This book investigates spatial institutional variation and its influence on entrepreneurial activity in the Russian Federation, building on an innovative geometric clustering approach. The book looks into how entrepreneurial entry can be explained by institutional factors at the regional level. Furthermore, it examines the relevance of understanding entrepreneurial ecosystems as systems of interrelated elements whose overall function may be impeded by individual components. Most importantly, substantial evidence is presented that higher levels of regional democratization and the liberties that come with them are essential prerequisites for higher rates of entrepreneurial entry and innovation in Russia. The author draws on a comprehensive panel dataset and an unconventional prediction model approach to account for the interrelatedness of institutions with regard to their effects on entrepreneurship. The heterogeneous transition context of the Russian Federation, which continues to have one of the lowest shares of innovative founders, provides an ideal setting for investigating the tedious efforts to tilt at the windmills of transition. Accordingly, the book is a must-read for researchers, scholars, practitioners and policymakers seeking a better understanding of spatial economics, entrepreneurship, economic development, transition economics, public administration and political studies.

Journal of Small Business and Entrepreneurship- 1985

Handbook of Innovation in Public Services-Stephen P. Osborne 2013-01-01 Innovation is a core issue for public services and is a key element of public services reform – particularly in this age of austerity where policymakers urge the need to 'innovate to do more with less'. This comprehensive and accessible Handbook explores the potential for creating efficient and effective public services. Leading researchers from across the globe review the state of the art in research on innovation in public services, providing an overview of key issues from a multi-disciplinary perspective. Topics explored include: context for innovation in public services and public service reform; managerial change challenges; ICT and e-government; and collaboration and networks. The theory is underpinned by seven wide-ranging case studies of innovation in practice. Taking the field forward and providing a baseline for future research, this highly unique and original Handbook will prove essential reading for academics, researchers, students, policymakers and practitioners across the fields of innovation, public policy, social policy and public management.

Shifts of Power-Zhitian Luo 2017-08-03 In Shifts of Power: Modern Chinese Thought and Society, Luo Zhitian explores the causes and consequences of various shifts of power during the transition from imperial to Republican China (1890-1949).

New Tourism Ventures-Dimitri Tassiopoulos 2008 An entrepreneurial and managerial approach. Continual increases in wealth and leisure time have given a sharp rise to tourism, which resulted in the rapid development of tourism - related ventures such as hotels, bed and breakfast accommodation, travel agencies, restaurants, theme parks, event companies, resorts, tourist guides and tour operators, to mention a few. "New Tourism Ventures: An Entrepreneurial and Managerial Approach" provides a definitive grounding of how to create and manage such tourism ventures. It takes an entrepreneurial and managerial approach to the subject, underpinning the various concepts associated with entrepreneurship and demonstrating the linkages of the subject with the tourism economy within the context of international best practice and research.

The Entrepreneurial Society-Mark Sanders 2020-04-03 This open access book is an outcome of the EU's Horizon 2020 project 'Financial and Institutional Reforms for an Entrepreneurial Society' (FIRES). Building on historical, economic and legal analysis, and combining methods and data across disciplines, the authors provide policymakers, stakeholders and scholars with valuable new tools for assessing and improving Europe's entrepreneurial ecosystems. Then experts from Germany, Italy and the United Kingdom discuss tailored strategies for introducing entrepreneurial policy reforms in their respective countries. Bureaucratic Ambition-Manuel P. Teodoro 2011-10-10 Political scientists and public administration scholars have long recognized that innovation in public agencies is contingent on entrepreneurial bureaucratic executives. But unlike their commercial counterparts, public administration "entrepreneurs" do not profit from their innovations. What motivates enterprising public executives? How are they created? Manuel P. Teodoro's theory of bureaucratic executive ambition explains why pioneering leaders aren't the result of serendipity, but rather arise out of predictable institutional design. Teodoro explains the systems that foster or frustrate entrepreneurship among public executives. Through case studies and quantitative analysis of original data, he shows how psychological motives and career opportunities shape administrators' decisions, and he reveals the consequences these choices have for innovation and democratic governance. Tracing the career paths and political behavior of agency executives, Teodoro finds that, when advancement involves moving across agencies, ambitious bureaucrats have strong incentives for entrepreneurship. Where career advancement occurs vertically within a single organization, ambitious bureaucrats have less incentive for innovation, but perhaps greater accountability. This research introduces valuable empirical methods and has already generated additional studies. A powerful argument for the art of the possible, Bureaucratic Ambition advances a flexible theory of politics and public administration. Its lessons will enrich debate among scholars and inform policymakers and career administrators.

Bureaucracy and Society in Transition-Haldor Byrkjeflot 2018-10-08 Despite criticism of inefficiencies and unlimited growth, bureaucracies still fill crucial positions in modern societies. This volume examines 'varieties in bureaucracies' across Europe, with a specific focus on the Nordic region.

The Second Cycle-Lars Kolind 2006 You're growing fast. You're profitable. Maybe they're even writing great things about you in the business press. But, just beneath the surface, are you incubating the seeds of disaster? It's happened over and over again, in one industry after another, to companies ranging from IBM to Upjohn. In this book, Lars Kolind helps you uncover the earliest signs of trouble--and reignite a powerful new growth cycle. Drawing upon his own experience as the CEO who turned around Oticon, the world's top manufacturer of hearing aids, Kolind introduces a comprehensive toolbox for revitalizing mature organizations: tools for creating consensus around change, using staff more effectively, promoting innovation, and much more. Finally, he applies his tools to a wide range of organizations in decline, including the U.S. auto industry. The result: specific, practical advice you can adapt to galvanize your organization, no matter how well you're doing today.

Entrepreneurship Development in India-Debasish Biswas 2021-05-09 Entrepreneurship development is a major area of focus today as it has huge potential in creating jobs and self-employability and thus contributing to economic development. India, in the last few years in particular, has seen exponential growth of start-ups and new-age entrepreneurs. Both the Central and State Governments have been taking proactive steps towards the development of entrepreneurship in the country. The Government has launched various schemes and programmes to attract investors and create a healthy ecosystem for entrepreneurship. India is one of the largest homes of start-ups in the world and has been highly successful in bringing significant amounts of Foreign Direct Investment (FDI). Moreover, the Government is taking active steps in removal of the bureaucratic hurdles and bottlenecks, so that entrepreneurship development is encouraged. In order to promote the culture of entrepreneurship development, the subject has been made part of the curriculum at both undergraduate and postgraduate levels across disciplines. This book is a sincere attempt to build the fundamentals of the subject amongst students alongside motivating them to become future entrepreneurs. It will be of interest to researchers, academics, and students in the fields of business administration, management, and entrepreneurship.

Entrepreneurial Development in India- 1990-01-01

Handbook on Organisational Entrepreneurship-Daniel Hjorth 2012-01-01 ÓDaniel Hjorth is justifiably famous for thinking differently about those things Òwe all knowÓ, and this Handbook adds fuel to that fire. The Handbook reasserts the intellectual and practical primacy of organizational creation as the driving force of entrepreneurship. By getting some of the best minds in entrepreneurship to explore and speculate on the organizational aspects of entrepreneurship, this Handbook reframes and repositions entrepreneurship as the organizing trope for the postindustrial age. Ò Æ Jerome Katz, Saint Louis University, US This Handbook brings together pioneering, original work on organisational entrepreneurship. It provides a broad coverage and rich agenda for future research and teaching on the entrepreneurship-organisation relationship. Organisational entrepreneurship represents an interdisciplinary field of research that relates organisation, entrepreneurship and innovation studies in new ways. This Handbook establishes the scope of this interdisciplinary domain, challenges our perception of relationships between organisation(s) and entrepreneurship, and asks new questions central to our capacity to describe, analyse and understand organisational entrepreneurship. Providing a broad and rich set of examples of interdisciplinary research and bridging the fields of strategic management, organisation studies, entrepreneurship, innovation, art and aesthetics, this important compendium will prove invaluable to graduate students and scholars in these fields.

Social Entrepreneurship For Dummies-Mark Durieux 2010-03-16 Discover how to bring social responsibility to your business In today's business world, your bottom line isn't measured by your company's financial performance alone. Social Entrepreneurship For Dummies shows you how to implement social responsibility to your business plan in order to increase your bottom line. This book helps any social entrepreneur gain the necessary skills needed to change the system and spread the solution, while providing explanations of the most successful business tools being used today. A complete reference on the ideas and processes associated with social entrepreneurship Provides a foundation and business plan for those looking to create their own socially oriented business venture Social Entrepreneurship For Dummies gives you the trusted and friendly advice you need to get on your way toward social responsibility!

Living the Policy Process-Philip B. Heymann 2008-04-02 Policymaking in large bureaucracies is hardly a simple process. Even the most respected policymakers have to contend with obstacles that seemingly have little to do with the issue at hand--office politics, work structure, and shifting political environments. Yet learning to manage such complex environments is necessary for good policymaking. In Living the Policy Process, Philip Heymann outlines the complex thought processes of policymakers as they struggle to influence both foreign and domestic policy decisions from within the United States government bureaucracy. Focusing on three critical situations to illuminate the politics of policy choice--the successful attempt to sell missiles to the Mujahideen in Afghanistan in the 1980s; the Iran-Contra scandal; and the FDA's attempt to regulate smoking as well as the efforts to do the same by an outside lobbyist--Heymann dissects the intuitive yet rigorous framework that highly skilled policymakers follow to influence government outcomes. Throughout, he offers detailed accounts of the policy process at work in the Reagan, first Bush, and Clinton administrations, from the cabinet level down to the middle tiers of the federal bureaucracy. Heymann deftly describes the shifting real-world conditions that government officials face as they struggle to shape the policy agenda. Ultimately, Living the Policy Process offers a clear, incisive look at the complex considerations involved from all perspectives, with concrete examples, and enriches the understanding of the overall policy process for students, scholars, and practitioners.

Engineering Expansion-William D. Adler 2021-11-26 Engineering Expansion examines the U.S. Army's role in economic development from 1787 to 1860. The book shows how the Army shaped the American economy by expanding the nation's borders; maintaining the rule of law; building roads, bridges, and railroads; and creating manufacturing innovations that spread throughout the private sector.

Becoming Successful Entrepreneur-Michelle Levy 2015-05-08 The study of what it takes to be a successful entrepreneur is fascinating because to be successful requires so many qualities that at times even seem to be at odds with each other. The surprising thing is that underneath all the surface complications and contradictions, there seems to be a great deal of agreement among entrepreneurs about the specific things they do to become successful vary widely. Get all the info you need here. This is the #1 Book on entrepreneur, successful entrepreneurs, entrepreneur ideas, social entrepreneur, entrepreneur media, how to become an entrepreneur, bureaucratic entrepreneur. On sale for \$9.99, Normally \$24.99.

A Psychological Approach to Entrepreneurship-Dean A. Shepherd 2014-12-31 øWithin an entrepreneurial context, what a person thinks and feels and how they behave are hugely consequential. Entrepreneurs often work in scenarios of considerable time pressure, task complexity, uncertainty and high performance variance. This fasci

The Vital Few-Jonathan Hughes 1986-06-19 The Vital Few, a study of the contribution of entrepreneurs to the American economy, provides portraits of the men and women whose individual enterprise has helped to establish the character of the American businessperson and to carry our economy forward from colonial times. Examining such legendary figures as William Penn, Eli Whitney, Henry Ford, and J. Pierpont Morgan in their social and economic environment, Jonathan Hughes illuminates each period of American economic history and provides insights into the workings of American business and the special qualities required of its super-achievers. Taking into account such dramatic changes in the economy as the explosive growth of government and the puzzling effects of "stagflation," Hughes has now expanded his original volume. The new edition includes two additional biographies and a short essay on the nature of bureaucracy in both the government and the private sector. Both biographies are of "bureaucratic entrepreneurs", whose work in the federal government represents the two most prominent trends in government economics. Mary Switzer's 48-year career demonstrates the ways in which the modern welfare state has developed. First a catalyst then a major force in establishing social programs and institutions, she is in large part responsible for the existence of the American welfare state. Marriner Eccles's career, on the other hand, shows the evolution of "compensatory" fiscal and monetary policies from the New Deal to the Korean War. A self-made millionaire who was appointed to a high-level job in the federal government, Eccles quit his post after 1950, convinced that American economic policy was hopelessly inflationary and economically destructive. With these new additions, The Vital Few, long a source of inspiration and economic interest, is more accessible and useful than ever.

Management and Entrepreneurship- 2009-01-01 About the Book: Of late, academicians of technical education have felt the importance of "Management" and "Entrepreneurship". Engineers need to manage their departments/sections/subordinates, and Entrepreneurship helps the large pool of technical manpower in developing small-scale industries in high tech areas thereby contributing to the economy of the country. This book covers both 'Management' and 'Entrepreneurship'. The first chapters of this book deal with Management, Planning, Organizing and Staffing, Directing and Controlling. The last four chapters deal with Entrepreneurship, Small-Scale Industries, Institutional support and Project formulation. Adequate number of simple examples with which the students are familiar are included in each chapter. In addition, each chapter contains student learning activities to give the readers a chance to enhance the learning process. Though the book is written keeping in mind the syllabus of Visvesvaraya Technological University, yet it is useful for B.Com, BBM, DBM, PGDBM and MBA students also. Contents: Management Planning Organizing and Staffing Directing and Controlling Entrepreneurship Small-Scale Industries Institutional Support Preparation of Project.
