2011-02-23 Stephen W. Bigalow The updated edition to one of the most popular books on technical analysis Japanese candlestick charting and analysis is one of the most profitable yet underutilized ways to trade the market.

Signals created by this unique method of technical analysis-represented in the form of graphic "candlestick" formations-identify the immediate direction and effects of investor sentiment through price movements, allowing traders to profit by spotting trend reversals before other investors. This updated version of Profitable Candlestick Trading: Pinpointing Market Opportunities to Maximize Profits makes learning the method fast and easy by introducing specific patterns, as well as the psychology behind them. The book Details the most valuable aspect of technical analysis-reversal patterns-as well as reversal signals, including the Doji, the Hammer, the Hanging Man, Engulfing Patterns, and Dark Cloud Cover Explains continuation patterns and explores how they can help with the decision-making process during various trading periods Reveals how to find trading situations that have the maximum potential for profitability, the highest probability of success, and the least amount of risk Learn how to quickly search, view, and profit with candlestick formations with Profitable Candlestick Trading.

1995-03-20 William Blau A guide to the latest, most promising technical indicators and their applications Momentum, direction, and divergence are the three basic components of nearly all technical indicators used in the analysis of stock and commodities trading. And for

those who understand them and their applications, they are also the pillars of a high-performance trading strategy. In this groundbreaking book, technical wizard William Blau schools financial professionals in all three. Combining the latest financial information with dozens of eye-opening graphics, Blau clearly, concisely, and with a minimum of complex mathematics: * Introduces the principle of double smoothing and develops potent new indicators based on double smoothing techniques * Describes the uses and limitations of a variety of notable technical indicators * Explains momentum, direction, and divergence and new ways to apply them * Presents the True Strength Index and shows how it can dramatically improve most directional indicators * Provides new ways of identifying divergence that make implementation far simpler than ever before MOMENTUM, DIRECTION, AND DIVERGENCE The Wiley Trader's Advantage is a series of concise, highly focused books designed to keep savvy traders in tune with the latest successful strategies and techniques used by the keenest minds in the business. In this latest volume, technical expert Bill Blau shows you how momentum, direction, and divergence form the basis of most technical indicators and how they can work for you to provide a considerable competitive advantage. Clearly, concisely, and with a minimum of complex mathematics, Blau shows you how to

understand and apply them. Integrating the latest financial insights with more than 75 easy-to-follow graphics, Blau describes the uses and limitations of many of today's most notable technical indicators. He then demonstrates a variety of ways in which the principles of momentum, direction, and divergence can be used to create a versatile new set of technical indicators or to improve the effectiveness of the most widely used traditional indicators. Focusing on the groundbreaking double smoothing concept, which he introduces for the first time in this book, William Blau: *

- * Develops reliable new momentum indicators based on double smoothing techniques
- * Shows how these indicators improve the effectiveness of most popular oscillators, including the RSI, MACD, and stochastic indicators, by solving a host of timing problems
- * Combines the standard Welles Wilder techniques with his original True Strength Index to improve the effectiveness of most directional movement indicators
- * Introduces new ways of identifying divergence that make implementation simpler than ever
- * And much more

A complete guide to the most potent new indicators and their applications, Momentum, Direction, and Divergence is an indispensable resource for traders, portfolio managers, and all financial professionals.

2001-11-01 Steve Nison A form of technical analysis, Japanese candlestick charts are a versatile tool that can be fused

with any other technical tool, and will help improve any technician's market analysis. They can be used for speculation and hedging, for futures, equities or anywhere technical analysis is applied. Seasoned technicians will discover how joining Japanese candlesticks with other technical tools can create a powerful synergy of techniques; amateurs will find out how effective candlestick charts are as a stand-alone charting method. In easy-to-understand language, this title delivers to the reader the author's years of study, research and practical experience in this increasingly popular and dynamic approach to market analysis. The comprehensive coverage includes everything from the basics, with hundreds of examples showing how candlestick charting techniques can be used in almost any market.

2009-01-30 Clive Lambert "Clive Lambert is one of the UK's leading experts in the use and application of Japanese candlestick chart analysis. I have known him for many years and have learnt to greatly respect his depth of knowledge and the objectiveness it brings to his market strategies." - Adam Sorab, Chairman, Society of Technical Analysts (STA) The aim of this book is to introduce candlestick analysis to anyone from an absolute beginner to an experienced market professional. The text is written to be simple enough for someone new to the topic, but should not exclude those with more experience. The author's aim is to change the simple viewing of a candlestick chart into a search for the answer to the perennial question: "Who's

This book will enable both new traders and experienced traders derive systematic and consistent profits from the market by adding candlestick charting to their trading arsenal. REVIEWS FOR THE BOOK "Educative addition to the technical trader's shelf." — The Hindu Business Line "Clearly explains and reinforces the message of each candlestick pattern, pointing out other details that can help determine success or failure at each occurrence. The real life examples are manifold, well chosen and amplify the lessons being taught. Highly recommended reading for traders in all markets to discover ways of profiting from candlestick trading." — Alan Northcott "Sadekar's book not only manages to live upto the expectations but probably excels them. Sadekar attempts to keep things simple, and targets the beginner to intermediate level technician as his target audience. Each type of reversal, consolidation and continuation pattern is tackled in individual chapters and illustrated liberally with charts of Indian stocks. The author leaves ample strategies

for the not so active trader, also combining Dow theory tools like trend lines, oscillators and moving averages with the oriental techniques. This gives the reader an immediate advantage of getting the best of both the worlds. While all chapters are interesting read, chapters 11 & 12 are the highlights of the book as they lay out a simple but actionable game plan for a trader and investor. As if the overall package was not sweet enough, Sadekar has compiled a tear-away candlestick ready-reckoner at the end of the book to identify emerging patterns in real time. At its price, the book is a value buy. All in all, a must read book for every freshman candle sticks trader." — Vijay L. Bhambwani, Technical Analyst, CEO - BSPLIndia.com

2011-01-06 Alexander Elder In Sell and Sell Short, Dr. Alexander Elder examines one of the most overlooked aspects of trading and reveals how you can protect and profit from your trades by exiting them the right way. With this guide, trading professionals will be able to form solid strategies based on a combination of these notions and practices, leading to higher levels of trading performance. Applies sound psychological practice and evidence-based research to the trading profession Covers the psychological perspectives and mental skills needed to succeed in today's trading world Focuses on key concepts that lead to deliberate practice, specific trading activities, and increased awareness and focus Designed to help traders deal with the emotional challenges that come with uncertainty and risk Trade Mindfully touches on the most essential concepts for anyone intrigued by what trading psychology has to offer, and delivers the best strategies for achieving the right mental skills for peak performance.

2012-05-31 Adam Grimes A breakthrough trading book that provides powerful insights on profitable technical patterns and strategies The Art and Science of Technical Analysis is a groundbreaking work that bridges the gaps between the academic view of markets,

technical analysis, and profitable trading. The book explores why randomness prevails in markets most, but not all, of the time and how technical analysis can be used to capture statistically validated patterns in certain types of market conditions. The belief of the book is that buying and selling pressure causes patterns in prices, but that these technical patterns are only effective in the presence of true buying/selling imbalance. The Art and Science of Technical Analysis is supported by extensive statistical analysis of the markets, which will debunk some tools and patterns such as Fibonacci analysis, and endorse other tools and trade setups. In addition, this reliable resource discusses trader psychology and trader learning curves based on the author's extensive experience as a trader and trainer of traders. Offers serious traders a way to think about market problems, understand their own performance, and help find a more productive path forward Includes extensive research to validate specific money-making patterns and strategies Written by an experienced market practitioner who has trained and worked with many top traders Filled with in-depth insights and practical advice, The Art and Science of Technical Analysis will give you a realistic sense of how markets behave, when and how technical analysis works, and what it really takes to trade successfully.

Do you need an easy-to-understand guide on how to read candlestick charts and use them to make a profit? Here's How You Can Take Your Trading To The Next Level! Introducing The Ultimate Guide To Candlestick Charting By Alex Richards! When it comes to stock market investing for beginners, technical analysis, and stock patterns, candlestick charting is one of the most popular and essential tools for beginners and seasoned veteran traders. The reason is simple. As you already know, stock and FOREX trading is heavily influenced by trader emotion, which results in pattern formation. Those patterns allow those who can read, understand, and predict them to gain an edge and get one step closer to their goal: to dominate the market, make more profit, and find financial freedom. But Understanding Candlestick Charts Can Be A Challenge, Right? Not anymore! Candlestick charts originated in Japan in the 1700s. They were used to predict the link between price and the supply and demand of rice - while considering the emotions of traders. Nowadays, candlestick analysis is one of the most critical weapons in any trader's arsenal who wants to succeed in FOREX trading or stock investing. Alex Richards, the author of this game-changing candlestick course and expert trader, has created a fluff-free, easy-to-follow,

beginner-friendly, candlestick bible that will allow you to: Understand The Fundamental Importance Of Candlestick Stock Patterns Learn How The Stock Market Works And How To Make Money In Stocks Find Out How To Read Use Candlestick Charts To Gain An Advantage Discover The Differences Between Various Candlestick Charts And Find In-Depth Candlestick Technical Analysis Analyze The Stock Market Like An Expert And Predict The Patterns Of Stock Options, And Options Trading Markets But Wait... 2018-05-27 Steve Nison Steve Nison merevolusi dunia analisis teknis melalui dua buku terlarisnya yang memperkenalkan teknik diagram candlestick ala Jepang. Steve menemukan bahwa candle sangat akurat dalam mengindikasikan perubahan tren dan pola harga.

Selain itu, diagram yang mampu 'bercerita' ini juga sangat jitu bila diterapkan dalam pasar berjangka pendek yang dinamis pada masa kini. Dalam The Candlestick Course ini, Nison kembali berinovasi. Tiap babnya berisi target pembelajaran yang spesifik, istilah penting, instruksi yang sangat jelas, dan penerapan praktisnya, mulai dari materi dasar hingga tahap identifikasi pola yang rumit. Oleh karena itulah, buku ini menjadi media pelatihan yang ideal bagi pemula serta sangat cocok bagi para pakar yang ingin menyegarkan kembali dan menyempurnakan keterampilan mereka. Dengan berfokus pada kebutuhan para trader dan investor aktif masa kini, Nison:

- Memberikan dasar-dasar yang kuat tentang diagram candlestick, serta mengembangkan keterampilan pokoknya secara bertahap.
- Mengungkapkan cara menemukan peluang pasar yang penting saat peluang tersebut muncul, dengan mengenali indikasi candle utamanya.
- Menguji kemampuan Anda dalam menganalisis dan menginterpretasikan diagram candle secara akurat.
- Menunjukkan bagaimana konsep-konsep candlestick dapat memicu kemunculan instrumen pengambilan keputusan potensial yang dapat mengonfirmasi atau memperkuat indikasi pembelian/penjualan.
- Menyertakan studi kasus "diagram progresif" yang sangat berharga.
- Menggabungkan semua aspek diagram candlestick melalui uji

visual serta contoh-contoh interaktif. The Candlestick Course tidak hanya cocok dibaca sekali saja, tetapi juga bisa digunakan berkali-kali sebagai sumber referensi atau menyegarkan ingatan Anda dengan cepat.
