The Case of the Phantom Frog-Edmund Wallace Hildick 1979-01-01 The McGurk detectives go undercover to unmask the demon behind a phantom "werewolf" and expose a "supernatural" hoax.

Fellowship of the Frog-Wallace, Edgar 2016-03-20 The Fellowship of the Frog starts out with the murder of an undercover detective at the hands of the Frog, the mysterious leader of an ever increasing group of tramps. The Fellowship, so called because of the frog tattoos on the members' hands, has become so expansive that they threaten the international affairs of England. Enter Dick Gordon and Elk, the rozzers on the case of the Frog. Gordon is dashing, Elk doesn't play by the book. Gordon wants the girl, Elk wants a promotion. In other words, they're perfect for me. But the questions they have to answer are many: Who is that strange American who keeps turning up at interesting places? Who is the Frog and how can they stop him? Is the Fellowship of the Frog really the coolest name for mystery novel? (Yes. Sweet baby Jesus, yes.) Will Dick Gordon and Miss Bennett be able to live happily ever after? Is Elk's mangling of important historical dates funny way to round out his character? (Ugh, no.) Will all of these questions be neatly wrapped up in the end? (You better believe it. The Frog is no match for my rules of good mystery writing). Richard Horatio Edgar Wallace (April 1, 1875-February 10, 1932) was a prolific British crime writer, journalist and playwright, who wrote 175 novels, 24 plays, and countless articles in newspapers and journals. Over 160 films have been made of his novels, more than any other author. In the 1920s, one of Wallace's publishers claimed that a quarter of all books read in England were written by him. He is most famous today as the co-creator of "King Kong", writing the early screenplay and story for the movie, as well as a short story "King Kong" (1933) credited to him and Draycott Dell. He was known for the J. G. Reeder detective stories, The Four Just Men, the Ringer, and for creating the Green Archer character during his lifetime.

The Book of Frogs-Tim Halliday 2016-01-29 With over 7,000 known species, frogs display a stunning array of forms and behaviors. A single gram of the toxin produced by the skin of the Golden Poison Frog can kill 100,000 people. Male Darwin's Frogs carry their tadpoles in their vocal sacs for sixty days before coughing them out into the world. The Wood Frogs of North America freeze every winter, reanimating in the spring from the glucose and urea that prevent cell collapse. The Book of Frogs commemorates the diversity and magnificence of all of these creatures, and many more. Six hundred of nature's most fascinating frog species are displayed, with each entry including a distribution map, sketches of the frogs, species identification, natural history, and conservation status. Life-size color photos show the frogs at their actual size—including the colossal seven-pound Goliath Frog. Accessibly written by expert Tim Halliday and containing the most up-to-date information, The Book of Frogs will captivate both veteran researchers and amateur herpetologists. As frogs increasingly make headlines for their troubling worldwide decline, the importance of these fascinating creatures to their ecosystems remains underappreciated. The Book of Frogs brings readers face to face with six hundred astonishingly unique and irreplaceable species that display a diverse array of adaptations to habitats that are under threat of destruction throughout the world.

The Missing Frog Boys-Sarah Thomerson 2019-04-29 An anthology of True Crime focused on missing persons... The mysterious disappearance of vulnerable people is always a hard one to swallow. When mothers, elderly people, or children go missing, it often causes empathy and panic to both stir within the community. Perhaps the worst is when children disappear without a trace. Children abductions are very rarely done by someone that the child doesn't know. While stranger abductions are far rarer, they're also far more dangerous. People who study missing children have come up with a formula: or every twenty-four hours that a child is missing, the chance of finding them alive reduces by half.As terrifying as that is, it is the unfortunate reality when it comes to missing children. But what about the children that just disappear out of thin air? In some cases, a child is there

one minute, and gone the next, with no understanding of where they have gone, or if anyone has taken them. The story of the Frog Boys has confused, intrigued, and saddened people all over the world for the last twenty-seven years. It is a story of five boys who simply walked into the woods, never to be seen again.

The GLASS FROG Do Your Kids Know This?-Tanya Turner 2017-03-29 The Glass Frog is a species of frog that has a body that looks like it's made out of glass. It has transparent skin on its belly. You can literally see the insides of a Glass Frog and you won't believe your eyes. Most species of Glass Frogs live in the forests of Mexico, Panama, Venezuela, Bolivia, Argentina, Brazil, and the Amazon. If you are familiar with frogs, you know that they usually lay their eggs in the water. However, that's not the case with Glass Frogs. As a Glass Frog, the female will lay her eggs on leaves of trees that are hanging over bodies of water (creaks, streams, rivers). Sometimes, the eggs are also laid along rocks that are located near waterfalls. The goal is to have the tadpoles fall into the water when the eggs hatch. Excited to learn more about the Glass Frog? Get a copy of this book and discover more fascinating information about this animal.

The Frog That Couldn'T Croak-James Cavill 2016-09-08 In life sometimes only if your lucky enough that is, you come across people who give you inspiration and bring out the best in you , even without them knowing that they do. This was the case for me with the writing of The Frog that couldnt croak . Throughout life your paths cross with amazing people , some stay for a day , some stay for a while and some stay for life. I am lucky enough to be sharing a stroll on the path of life at the moment with someone whos done just this . People who often Inspirer others in life dont realise the gift they carry and their ability to brighten even the darkest places with the presence of their sparkle. I hope the frog that couldnt croak brings a sparkle to all those who read it, just like the person who Inspired me to write it did.
